SPARKS AUCTIONS

Consign with us!

Sparks Auctions endeavours to offer carefully described material with collectors in mind. We provide exacting descriptions accompanied by full-colour illustrations, promoted both on-line and in our printed catalogues. We do not own the material that is offered in our auctions. Our lotters work with a large base of new and repeat consignors to give their consignments the attention they deserve.

This approach is well-rewarded by our auction realizations. From an active customer list of thousands, we mail hundreds of print catalogues. Many more buyers view the material only in our detailed on-line listings, including PDFs of the print catalogue and an extensive image library. We receive site visits from hundreds of registered bidders in the weeks before the sale. To accompany our live auction floor in Ottawa, we feature full interactive live bidding on Stamp Auction Network, including live audio from the auction gallery so you can follow the bidding action from home.

When the last lot has been called, we will have seen bidders from across Canada and the United States, with others coming from Great Britain, Europe, Australia, New Zealand, India, Asia and South & Central America. In our most recent sale, we had in excess of 700 bidders, more than 300 of them successful.
