Lots & Collections

This Sale

Our sale #6 has over 1,600 lots with truly something of interest for every stamp collector. When a sale like this is prepared, it is difficult to remember all of the material that is being described and prepared during the auction process. We were pleasantly surprised by the coverage of material entrusted to us by over forty consignors. We are quite confident that you will be too.

The Canada and British North America section is highlighted by three world class rarities, the mint or unused 6d Consort on laid paper, 3c Large Queen on laid paper and Newfoundland 1sh orange. These stamps very rarely make an appearance on the auction block and we are privileged to offer them in this sale. Are you going to be the lucky collector who gets to cross off "Number 2" from your wantlist? Not to be outdone are the hundreds of more affordable lots including a high number of premium quality singles and blocks. Several attractive lots of proofs and essays are offered in this sale, including the lovely set of Jubilee proof blocks of 10, several die proofs from the 1920s and a fascinating selection of modern proofs and essays from the Estate of Jean-Pierre Beaudin (Lots 485 to 503). The modern errors come from multiple consignments with almost no overlap and include many items which we have never previously offered.

The British Commonwealth section starts with a glorious example of the 1sh green embossed from Great Britain, and continues with nice quality sets and singles. As for rarities, we can point to the Nandgaon 2a rose – a very rare stamp indeed despite the modest catalogue value, and the Malayan States overprint, which is headlined by lot 1014, the Sungei Ujong 2c brown with inverted "s". This last stamp, along with several others in the sale were found by our staff unidentified within the material consigned to us – it certainly pays to consign early! The foreign section has a nice group of United States, lovely mint Germany in high quality, almost all never hinged, but the highlight remains the trio of rarities from Iceland in premium quality. Postal history is not to be outdone, with a lovely selection of semi-official airmail flight covers, and a rare cover salvaged from the wreck of the St. Olaf.

The lots and collections once again fill our shelves. Of particular note are the worldwide classic collection with a catalogue value in excess of \$100,000 (lot 1727) and other items from the same consignment, such as the classic revenue stamps collection (Lot 1760). We urge viewers to spend some time on the larger lots and collections as some of the last minute consignments will certainly contain nice surprises.

We have already started to prepare our next sale, scheduled for fall 2010. If you have material that you would like to sell through our auction, do not hesitate to contact us and we can determine the optimal method to disperse your material.

- ⊙** Used (includes full range of postally used, cancel-to-order, precancels)

- VF** A stamp in superior condition which is well-centered and without fault.
- FVF** Applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
- F(fine)** Stamps having perforations that do not cut into the design and without damaging faults. Proofs and Essays from the Estate of Jean-Pierre Beaudin

The following 19 lots are from the estate of Jean-Pierre Beaudin, a photographer who collaborated on the design of 37 stamps between 1973 and 1999 in addition to producing a number of essays in or about 1970.

Mr. Beaudin worked on multiple definitive issues – a rare occurrence. Most of the following lots exist in very small quantity, with several items being unique in private hands. Leopold Beaudet has written an article on Mr. Beaudin's philatelic work, published in Corgi Times, which provides additional insight into the following lots. We urge every collector of modern issues to review these lots carefully, as they provide a perfect opportunity to acquire rare or unique material that is perfectly suited for exhibits.

The paper is notorious for almost never surviving without faults. These have four margins and light cds postmarks in black. The 10sg has small faults, the 20sg has only the most trivial faults, both very fine and meet the Scott standard for the issue.

Lot 1197

Lot 1120

Lot 1155

Lot 1164

In all five sessions of the auction there are many interesting stories which relate to the consignments.

Lot 1408 comes from a collection with no postal history except this newspaper supplement. Lot 1334 is two uprated postal bands with a Montreal address for convenience then forwarded to a summer student working in the Arctic. Our estimate of only \$25 may be accurate but they are intriguing. Many other interesting items can be found in our larger lots.

A nice exhibit collection of the 1927 Historical Issues results in lovely lots in the Canada session as well as quite a few in the postal history session (Lots 1316/1328).

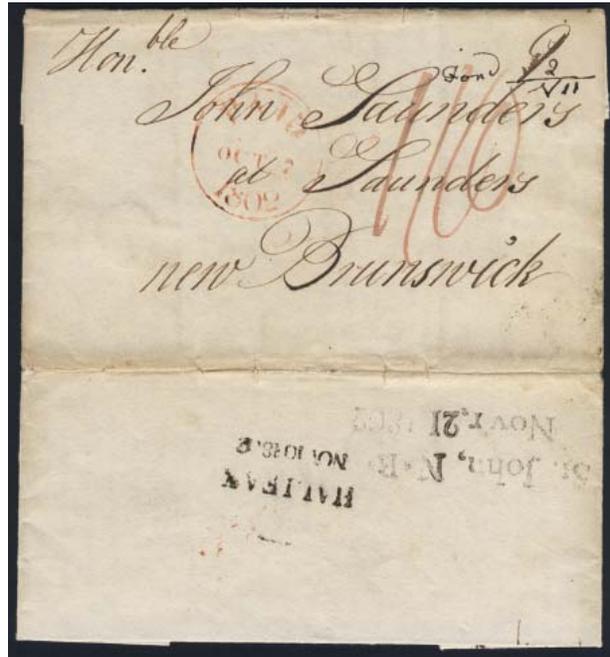

Lot 1315

One consignment brought in the rare St. Olaf wreck cover, new to postal historians (Lot 1315).

Lot 1355

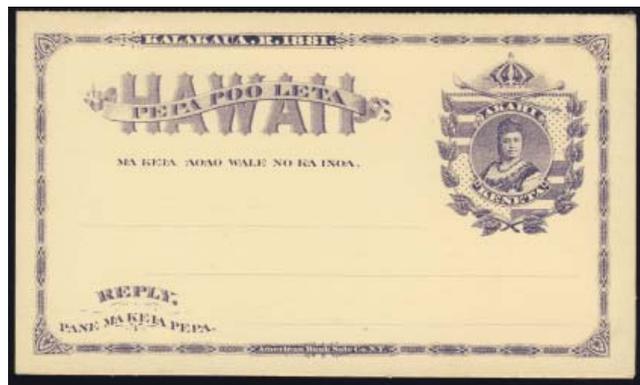

The Red River Collection of Semi-Official Airmails has lovely stamps in Session One and many scarce covers including Lots 1335-1337, 1341-1368, 1370-1380 in Session Four.

Lot 1395

This scarce stampless cover was consigned from the United Kingdom.

Lot 1301, is a Siberian Expeditionary Force postcard, was mixed in with a carton full of common First Day covers and modern postcards. The consignor will be happy with the result and the buyer will add a major rarity previously unknown to the philatelic community.

Lot 1395

One collector brought in parts of his family stamp collection. While these had been on the philatelic market it was a really long time ago. Postal Stationery Lot 1407 (the Great Britain private order postal stationery collection, Lots 1417-1421 (the scarce and valuable Hawaiian postal stationery) along with Lots 1411 and 1461 were part of a wonderful group which included Lot #1727 the "REAL OLD TIME" collection. All these items have been in one family for up to 130 years. The items mentioned above belong to a patriarch of the family whose "album was closed" in the 1890s. Now, after 110 years collectors will once again have the opportunity to treasure them.

Major Re-entry

Vampire Bite

x1578

1578 */⊙ **#37, 41 EXTENSIVE COLLECTION of the 3c Small Queens** showing re-entries, plate flaws and other plate information including scratches, dots, kiss prints, guidelines and tooling marks. The stamps have been scanned in colour and enlarged onto full size pages 8½x11 pages with the identifying features circled.

Just under 800 different varieties have been scanned and identified with one, two, three or more (up to 9) stamps from a given position mounted on the scanned page. We didn't count the number of identified major re-entries but it will number in the dozens. There is a "vampire bite" variety but also quite a few equally prominent flaws not listed in Unitrade or other specialized literature. All pages with stamps are in protective pages in 5 thick binders. In addition there are a few hundred pages of scans showing additional information for a particular position.

There are quite a few earlier printings including dated copies, a few covers, a few mint or unused, and also more than 200 stamps identified with plate flaws but not identified by plate position. From the same consignor is a large quantity which were not included in this collection offered as a separate lot. This would be ideal for a collector of dealer to sell individually for a few dollars up to over a hundred per position because of the already prepared scan and "packaging" or to a collector who can make it a lifelong pastime to expand on this solid basis. Stamps were selected for the plate position so condition is mixed but they are generally fine.

The strength lies in the many complete sets from the late 1930s through the 1960s. For example a number of sets are mint to the shilling values and then have used high values - the latter usually VF cds. Virtually all other Victorian which, although plentiful, are of modest catalogue value with only a handful exceeding about \$20. Most of the Canada has been stripped out, leaving very little behind. Catalogue value is over \$100,000 catalogued using 2010 Scott Classic. We used the lowest catalogue value for all stamps with varieties and did not count obvious faulty and reprints. We note: 1859 Two Sicilies first set complete (mostly mint), many early stamps in sets with strength in German States, Western Europe and Scandinavia but also better Eastern Europe, Japan, Portuguese Colonies. Note that pages for Great Britain, the British Empire and U.S.A. have been removed from the album. Overall condition of this collection is above average, but we do note that some stamps have been affected by poor storage, and many are stuck down rather than hinged. Cut squares, some revenues, and better reprints (not valued in Scott) have not been counted towards the catalogue value of the collection. Careful examination could result in many varieties and extra value.

- 1734** */⊙ **1891-1915 Collection in 2-volumes**, this is the continuation of the REAL OLD-TIME (Lot 1727) collection in two Scott spring-back albums with pages and illustrations to 1915. Most stamps in the albums range from about 1891-1900 with a few sets or singles to the late 1920s. Of particular interest are French Colonies with many mint sets of the 1891 Peace and Commerce issue with the originally issued 13 of 19 values to the 1fr high value. 19 Colonies have sets of 13 and Martinique (11) and French Guinea (12) are almost complete. Some colonies have additional values such as St. Pierre with #33, 34 both used and 12 other 1891-1892 surcharges. Portugal Colonies are well represented by the King Carlos issue, 12 colonies have partial sets up to the 300r value. Undoubtedly there are better varieties in these. The France and Portugal Colonies and most other sets from the 1890s have fresh colour and original gum but these stamps typically have hinge remnants. Among other stamps of note are China #16-20, 98-106; Greece #117-125; Japan #85-90; Monaco #17, 20; Netherlands #41-46 and Somali Coast #6-14, 16-20 as well as many scarce stamps not often seen in worldwide collections. The stamps from the British Commonwealth and U.S.A. have been removed. The Western and Northern European countries have some stamps but the value is found in the stamps of the type of countries described above. After the primarily mint stamps of the 1890s, later stamps typically are used or mint sets from the WWI era. The careful viewer will find extra value but will also find faults including some hinge thins. Regardless, this is a useful collection for the collector to fill in gaps or the dealer to offer scarce and desirable sets. Generally fine or better.

TERMS & CONDITIONS (Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

- a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are enclosed in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

Overseas:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$2 - \$30	\$2	\$1600 - \$3000	\$100
\$35 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
		above \$50,000	\$5,000

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:
stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We need to confirm your account before you will be able to place bids with us. For faster bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account.

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Bid Live by watching action on-screen. The Message window will tell you which lot is being offered, what the current bid is, and if it is approaching Last Call. Click the button

with the amount of your next bid (the next six increments over the current bid are shown). When an item is sold, the hammer price is announced. **The page will refresh more quickly if you click the Hide Images button.** If you are not bidding, close the window to reduce traffic on the site for others.

Watch The Auction by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer. (Audio requires a PC and Internet Explorer; you may be asked to install an ActiveX control the first time you connect.)

Some Bidding Tips

Bid Early Do not hesitate to press the button for the maximum amount you are willing to pay. This is comparable to keeping your hand up on the auction floor. The bidding will only reach your maximum if a bid is received for the increment below (ie., an underbid).

Listen To The Auctioneer Use audio so you can hear the auctioneer. You will know where the bidding is, and have a better sense of whether an item has reached Last Call.

Pass When You Are Done If you have been actively bidding on an item and wish to drop out, **PLEASE PRESS THE PASS BUTTON.** If you do not, the whole auction is delayed.

For more tips on bidding, see our website instructions:
