Lindhurst Consignment

Throughout the Lots & Collections section, many items are identified by the phrase “From the Lindhurst consignment.” This consignment of 35 lots, represents several generations' accumulation of stamps of the world.

Strength is in early issues but some countries are represented up to the 1980s. One of the collectors seems to have bought Worldwide collections and simply added them intact back to back with his own, thus creating some countries with 10 or more collections. The number of pages given in the descriptions is for pages with 20 stamps or more and up to 100 per page. The enumeration of countries in the lots with more than one country are for the important ones, and often there are several more countries not mentioned in the description, either because of a low count of stamps, or low value. Scans were prepared for each lot and show a typical assemblage of the better values and postmarks. These scans can be found on our website.

Condition in this consignment varies and often the high catalogue value stamps have small faults or are even badly damaged, but there are several high value sound stamps throughout. Our scans will thus show some faulty stamps, which is not up to our usual standards of quality. These collections are great for finding the odd treasure, or for starting or completing country collections of the world. Many of the classics have been in the family for many generations and will contain varieties important to specialists.

This Sale

When a stamp auction firm does not own the material in their auction, there can be no planning ahead to be sure a certain percentage of the material is from the more difficult categories, nor can one expect to concentrate on a strong area, or even avoid excessive duplication in any given auction.

Sparks has been fortunate to have a great diversity of consignors, and this has resulted in a trend of auctions that are each more interesting than the last. Our regular customers have responded by continuing to consign and by entrusting us with more material of greater value with each auction. Thank you.

The Healy Pass Collection is our first one-owner specialized collection of sufficient caliber to merit a separate session. We look forward to other such offerings.

In this auction 611 lots of collections and cartons of fun more than doubled the 278 in our last auction. The extra weeks of work to adequately describe these, as well as the hundreds of scans, should help bidders and viewers assess the interest and value. It is an overwhelming mass of previously owned and cherished collections.

There are many individual stamps worthy of special mention. We invite you to look at the 40 items found on the front, back and inside covers, enjoy the full colour images, and turn to the descriptions in the catalogue. And these wonderful forty lots do not include the 1908 Quebec Die Proof set or the Dinosaur imperforate pane, or hundreds of equally attractive items. With each auction we improve the overall quality of the lots for sale.

Customers who normally do extensive viewing of the lots and collections should be prepared to spend twice as much time on this sale compared to our last sale in May.

Because of space limitations in the catalogue, as many as half the scans prepared for the auction are only found on the website. These enlarged scans can also give greater confidence when considering what to bid on an expensive stamp. Be sure to visit the image gallery at **sparks-auctions.com**.

We have some material already in hand for our next sale scheduled for early 2011. If you have collections or other material you would like to sell through Sparks Auctions, please contact us and we can discuss with you the optimal method of passing your collection on to a new generation of collectors.

We invite your constructive comments on how Sparks Auctions can offer better service. One of our objectives is to make at least some improvements with each auction.

SESSION ONE

THE "HEALY PASS" COLLECTION OF THREE PENNY BEAVERS

MONDAY NOVEMBER 8th, 2010 at 1:00p.m.
Lots #1-165

The beauty and grandeur of the Canadian Rockies inspires. One great experience can be to hike to Healy Pass, Banff National Park. While it is no casual stroll, the reward of the majestic and serene landscape is worth the effort.
The collector and student of these three penny beavers suggested naming this collection "Healy Pass." As a symbol of the similarities in two such disparate hobbies as hiking and philately, the name is appropriate.

	Lots
Pane A stamps	1-105
Pane B Stamps	106-153
Unplated Stamps	154-163
Balance of Collection	164
"Three Penny Beaver" book	165

The organization of this auction will not follow the usual pattern. The tradition is to present the 1851 laid paper, 1852-1857 various wove paper and colour varieties, and the perforated examples along with different usages and covers. Instead, we start with Pane A and offer the plate positions in order, followed by Pane B and ending with a few unplated items.

Example of numbering used for this section (A57-4xi) from Lot 51
"A" indicates Pane A or B
"57" indicates plate position of the stamp, from 1 to 100
"4xi" represents the Unitrade catalogue number

The **"Three Penny Beaver"**, a full-colour reference work by Ken Kershaw in five hardbound volumes, is the essential guide to studying this fascinating stamp issue. Because some of the production files have been lost, the print run is limited to eighteen sets of five. One set is available in this sale (Lot 165).

1515 **⊙ #69/2289 A million stamps?** A massive hoard mostly of bundleware. A reasonably complete inventory (which is available on our website or by request through email) lists 9,411 bundles with over 900 different stamps and has wholesale prices exceeding $21,500. However many stamps have a glassine or a part bundle which is not counted in this inventory and the inventory does not count every bundle. The glassines contain some better eg. 35 very fine cds blocks of #585b which easily retails for $15 each. The extra uncounted bundles include Scott #69 (4), 74 (3), 116, 117, 118, 173, 240 (2), 243, 268, 465B, 494 (2), J2(2), J7 (2), J12, J16B (3), J19 (2), O271 and OC1 plus others. There are also some better items found in part bundles eg. #1050-1059.
Overall this lot is impressive for the following: 1.) a strong showing on modern issues eg. 3 bundles each of #2280a-d and #2286-2289. 2.) The overall quality is above average for holdings like these with heavy cancels apparently weeded out and cds cancels left in. 3.) Although the highest catalogue value stamp in the bundles is #143 (and nice quality), there is extra value in quantities of less than 100.
Our estimate equals one-third of the value of the bundles; OR the retail price of 100 packets of 900 different Canada; OR the retail price of the best of less than one percent of the stamps.
Est $7,000

The Lindhurst Consignment

This consignment of 35 lots, represents several generations' accumulation of stamps of the world. These lots are identified by the inclusion "*From the Lindhurst consignment*". Strength is in early issues but some countries are represented up to the 1980's. One of the collectors seems to have bought Worldwide collections and simply added them intact back to back to his own, thus creating some countries with 10 or more collections. The number of pages given in the descriptions is for pages with 20 stamps or more and up to 100 per page. The enumeration of countries in the lots with more than one country are for the important ones, and often there are several more countries not mentioned in the description, either because of a low count of stamps, or low value.

Scans were prepared for each lot and show a typical assemblage of the better values and postmarks. These scans can be found on our website. Condition in this consignment varies and often the high catalogue value stamps have small faults or are even badly damaged, but there are several high value sound stamps throughout. Our scans will thus show some faulty stamps, which is not up to our usual standards of quality. These collections are great for finding the odd treasure, starting or completing country collections of the world. Many of the classics have been in the family for many generations and will contain varieties important to specialists.

TERMS & CONDITIONS
(Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of $100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to $100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. $500), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:
stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We need to confirm your account before you will be able to place bids with us. For faster bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account.

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Bid Live by watching action on-screen. The Message window will tell you which lot is being offered, what the current bid is, and if it is approaching Last Call. Click the button with the amount of your next bid (the next six increments over the current bid are shown).When an item is sold, the hammer price is announced. **The page will refresh more quickly if you click the Hide Images button.** If you are not bidding, close the window to reduce traffic on the site for others.

Watch The Auction by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer. (Audio requires your web browser to use the Adobe FlashPlayer plug-in, which you may be asked to install the first time you connect.)

Some Bidding Tips

Bid Early Do not hesitate to press the button for the maximum amount you are willing to pay. This is comparable to keeping your hand up on the auction floor. The bidding will only reach your maximum if a bid is received for the increment below (ie., an underbid).

Listen To The Auctioneer Use audio so you can hear the auctioneer. You will know where the bidding is, and have a better sense of whether an item has reached Last Call.

Pass When You Are Done If you have been actively bidding on an item and wish to drop out, **PLEASE PRESS THE PASS BUTTON**. If you do not, the whole auction is delayed.
