## THIS SALE

The impact of substantial lifetime collections on this auction sale has been profound.

One from the west in more than 100 cartons and a second which included the Hamlet collection were consigned after premature passings.

With three consignors we chose an area of special collecting interest and selected one part of the whole to honour their pastime with a named collection. The Hillside collection of Canadian Admirals, the Moseley collection of Great Britain Penny Reds, and the Hamlet collection of British Commonwealth all offer an opportunity to buy scarce items, many not seen in the philatelic marketplace for decades.

And the same opportunity to acquire scarce stamps is found throughout the catalogue.

We start a Canada section with consistent strength from the pence to the modern era. Quality stamps used and mint with covers, multiples, proofs, errors and other varieties are found in every period.

The 338 lots of British Commonwealth as well as the worldwide which has strong USA from several consignors should prove tempting. Our Postal History features many mini-collections and interesting postmark lots. The literature section has many diverse and scarce books.

Although 488 Lots and Collections have some of the inevitable remainder lots, in this auction we offer a high percentage of very nice quality collections. Even a casual reading of the section will confirm the opportunity presented. We expect active viewing of the 27 full bookcases and larger cartons along the wall.

Our Image Gallery on Sparks-auctions.com is especially useful for this sale, as we continue to add scans over and above those in the catalogue and on Stamp Auction Network. See Sparks-auctions.com for catalogue corrections and clarifications as well. And don't forget to check us out on Facebook. (fb.com/sparksauctions).

Letters for this auction include Stéphane Cloutier, John Irwin, Ian Kimmerly, Karen MacDonald, Kate Morrow, Hank Van Der Linde and Jim Waal.

## KGV Admiral Issues

### The Hillside Collection

*The Hillside Collection was formed by a gentleman living in a smaller city far from any of the major stamp centers. As he accumulated more and more Admirals, he purchased a copy of Marler's essential work as well as other literature and started to look for the unusual and esoteric. Over the course of a lifetime and some sixty years of collecting Admirals, he had a number of opportunities to add some rarities within a relatively limited budget. The collection was carefully organized in four large stock-books.*

*Sparks arranged to have Leo Beaudet examine the collection. The report which he prepared has formed the basis for many of our descriptions. And, based on the number of high resolution scans we made for Leo, the readers of the Admiral Log can look forward to some future commentary based on this collection.*

*The collection includes lathework, re-entries, plate strips, printing varieties, shades, multiples, postal history, as well as wholesale quantities. It should offer something to those beginning to collect this fascinating field and to advanced collectors of the issue. Pencilled notations in selvage refer to date of purchase at Post Office.*

*We are pleased to offer this collection.*

- 252  **Collection of Admiral-Related Literature**, with Marler, Morris, Reiche, Steinhart, plus some personal notes and articles. 16 items in all, mostly fine or better.

A letter from the Manager of Stamp Products in Canada Post wrote on October 8, 1992 giving great praise (eg "This has been one of these few projects, I emphasize few, which turned out very much better than I expected", etc.). He closes by stating "I have enclosed some samples and other products...". The sheet is 50.5cmx25.5cm, has two trivial bends and trivial stain all in the selvedge and NOT noticeable for Exhibition purposes. An exceptional never hinged, very fine full sheet which is likely unique in private hands and with impeccable provenance. See Photo on Page 177.

### Great Britain - The Moseley Collection

**The Great Britain Penny Red of 1841 is the world's third stamp and is likely the world's most studied stamp.**

**Penny Reds made their debut early in 1841 to replace the Penny Black because a postmark could more easily seen on the red-brown colour. They were the most commonly used stamp in the world for 39 years until 1880. When compared with other classic issues they have two major advantages for general or specialized collectors: they are plentiful, and for the most part relatively inexpensive.**

**During the period of their use changes included re-engravings, different alphabets for the corner letters, the introduction of perforations, changes of watermarked paper, quite different shades in the colour, and in 1864 a modification in the design by introducing letters in all four corners. Because the corner letters were individually entered by hand it is often possible to use the specialized literature to identify which of the many plates was used to print an individual stamp.**

**Plating became a passion of the collector who assembled the Moseley Collection.**

**When you add varieties such as re-entries, guidelines, and the fascinating field of postmarks it is possible to spend a lifetime with this issue.**

**Included in the collection is the ten-frame Exhibit which we offer intact as one lot. The identification of plates and other varieties has followed those determined by the collector. An error in identifying a plate will not be grounds for returning any lot.**

**\* / ☉ / ✉ #3/33 1841-1879 "Penny Reds" Exhibit Collection of 10 Frames (160 pages)** The focus of this collection in the Exhibit and in the collection balances offered later in this section was on plating the Penny Reds. The Exhibit has suffered minor water damage affecting the pages but with little or no impact on the stamps except 2 of the 8 unused/mint 1841 reds are stuck to the page but almost certainly can be restored.

In Frame 1 we noted a 240 stamp plate reconstruction, shades including orange brown, lake red and pink salmon, coloured cancels including blue 1844 with #906 Woburn strip of 4 (plate 97) and a single (plate 112), Blue MC of Truro on SFL (plate 22), a blue MC single and four blue 1844 types #503 Manningtree (plate 40), #663 Wolsley Bridge (plate 91), #448 Leek (plate 126) pair, #\_33 (plate 81) and a dark green #\_4 (plate 96), also 15 J stroke flaws on 11 different plates.

In Frame 2 covering plates 8-25 we noted covers with "black plate" #8, 9 (2 - one folded hexagonally), 11, 14 with major re-entry and 3 other early plates on cover, the better plate 13 has 26 examples and with numbers in MC #1, 4-12 are found.

Frame 3 covering plates 26-67 has a #10 in MC cover to show plate 37. Frame 4 covering plates 68-135 has a plate 78 inverted S and a used block of 6 to represent plate 125. Frame 5 covers plates 137-170 then starts the Penny Red "stars" showing shades, dies, plates and many re-entries. Frame 6 continues the stars and includes dozens of Gothic K examples. Frame 7 continues the stars including green cancels from OTLEY, DUBLIN, CHESTERFIELD and LEAMINGTON SPA, and a 240 stamp reconstruction with 198 of the 240 being plate 49. Frame 8 ends the stars and starts the Penny Reds with four corner letters including 21 unused/mint, also a complete showing of plates 61-225 except 77. It also shows a number of underprints, one overprint, some perfins and two with inverted watermarks. Frames 9 and 10 continue showing the plates including varieties, many on cover and a near complete reconstruction of plate 134 (239 of 240).

In summary the collection has in 1841 reds over 400 used, 49 covers, and 8 mint/unused, in 1854-1861 reds approximately 500 used stamps and 20 covers and in 1858 reds over 400 used, 47 covers and some mint. (The Exhibitor counted 1,775 stamps). The overall quality varies with most stamps in the range of average to fine although there are very fine stamps included. **See scans on next page.**

There is a total of 160 stamps with 12 pairs, 2 of 3, 1 of 4, and a block of 6. Most are still in original packaging, many with identified plate numbers. About 20 with Maltese Cross cancels (12 of these from plate 30). We note a partial town cancel (SG 8 £800), indistinct blue 1844 (£250), and plate 92 #9 in Maltese Cross (£180). See www.

A page in the father's style

A page in the son's style

## The Hamlet Collection

One of the joys of the auction experience is viewing a collection where the personality of the collector shines through in a positive way. The Hamlet collection was built slowly, like a pastime. The father and son who built it carefully laid out and prepared each page. And each had a distinctive style which we show in this introduction. The hobby which the two shared was not graced with a large budget but there were consistent and common standards.

### COLOUR

The first of these standards is colour. Ours is a visual hobby, and what could be more important? The consistency of strong and deep colours is notable throughout the collection. The heart of the collection is the nine springback binders in which the ultimate goal was to collect the mint definitive sets of the British Empire to the end of the reign of King George VI. In these binders we find every page was carefully laid out and hand-done in pen and ink. The QEII, the Omnibus issues and others are collected in printed albums and stockbooks.

### HINGING

A few high values or occasional sets are never hinged and kept that way in protective mounts. All others are carefully mounted with fully peelable hinges. Some low values of a number of sets, usually KEVII or early KGV, have prior heavy hinge remnants while the rest of the set is moderately or lightly hinged. We did not examine every stamp but did try to describe accurately the degree of hinging. We are likely more tolerant of a hinge mark than some of the more exacting collectors. Disagreement over the degree of hinging is not grounds for returning a lot.

### QUALITY & CENTERING

Quality came next after colour in terms of importance. We noted a very few gum creases, an occasional unused no gum stamp and in the QV stockbook a few trivial faults. Overall the quality is very consistent. Centering is usually at least the standard as it would come from the Crown Agents. We noted evidence of at least a few stamps being up-graded for better centering and the duplicate found in one of the stockbooks. Expect even the sets described as very fine to have a few low values as F-VF and check our picture gallery.

A few sets are duplicated. For example the sets of the 1932 Antigua Tercentenary are offered as two lots; some KGV sets are duplicated, the father's set offered without the extra values issued later in the reign, which will then be found in the son's set.

Sparks Auctions is pleased to present this collection. The Hamlet Collection included Canada most of which is found elsewhere in the catalogue but Canada Lots 792-795 were inadvertently in the "Hamlet" section.

**776** \* British Commonwealth 1937-1953 KGVI Collection in S.G. Album The KGVI album in green binding is in nearly new condition with mint stamps consistently hinged with peelable hinges and when removed are lightly hinged. The stamps are consistently fresh and virtually all are complete sets. Except for 1937 Coronation there are virtually no commemoratives except Australia, Ireland, and New Zealand, so a very high percentage of the value is in complete definitive or Postage Due sets. There is no Canada and some full sets have been removed. We note Gilbert and Ellice J1-8; Great Britain J18-25, Ireland 99-120, Johore J1-5; New Hebrides J6-10, 16-20; New Zealand 075-86; N. Borneo 193-207, Nyasaland J1-5; Seychelles 125-148; S. Rhodesia J5a, Straits Settlements 238-51, Sudan 60-78, Trengganu 38 (small stain); Trinidad & Tobago J5-8, etc. This should prove excellent value at our estimate as Scott CV exceeds \$8,000. Consistently, fine-very fine.

May contain a few with faults, but also perhaps NH or undiscovered varieties. CV likely exceeds \$10,000.

**779** \*/\*\* British Commonwealth Collection, Almost complete in 3 New Age albums, 1953-1965 A lovely, fresh collection undoubtedly purchased as new issues. A small percentage are never hinged and in protective mounts, but most are hinged once with good quality hinges, leaving only a faint trace mark on gum when removed. Virtually all in complete sets (e.g. of 37 sets with a CV of \$100 plus, one is missing the low value and a second is missing a mid value). The high values - which are in protective mounts - will be NH; a number of sets have a CV noted as hinged, and there is occasional extra value in unlisted by Scott printing varieties. In all, a wonderful starting collection of useful inventory for a dealer. Two stamps were removed as separate lots in this sale.

Each auction we do our best to carefully describe each lot. This adds extra time for many of the lots but we believe presenting a full description leads to more confident bidding. With this in mind, we only announce auction dates when we are ready to go to the printer.

We expect to have finished lotting in order to hold a winter auction. We ask you for consignments well in advance of the deadline so we can give full attention to your treasures. We would be pleased to discuss this with you. Cash advances are available.

Each auction we do our best to carefully describe each lot. This adds extra time for many of the lots but we believe presenting a full description leads to more confident bidding. With this in mind, we only announce auction dates when we are ready to go to the printer.

We expect to have finished lotting in order to hold a winter auction. We ask you for consignments well in advance of the deadline so we can give full attention to your treasures. We would be pleased to discuss this with you. Cash advances are available.

## Literature

Literature is essential to full enjoyment of our hobby. Sparks wants to continue to offer literature even though when looked on like an accountant it is a loss leader. A growing group of collectors find some of the information on the worldwide web; another large group of collectors already own the literature they need to pursue their hobby. As a result we have noted in the past that we often receive one strong bid but no underbid.

As a result we will keep trying to find the optimal method of offering literature in a public auction.

This auction, 62 of the 65 lots are noted as having starting bids. We will place a reserve of one bid under the starting bid for these 62 lots. We believe the starting bids represent the low end of an estimate range for what the lot should sell for. For example a lot with a starting bid of \$30 will have an advance bid of \$28 and if there were an estimate range it would be \$30 to \$50.

We welcome feedback and suggestions on offering literature in the future.

**1627** \*/\*\*/⊙ **#4d/324 1852-1952 ½d to \$5 complete 1859 to 1952 for all Scott listed stamps except laid paper Large Queens**. With the caveat that 2 Small Queens identified as Montreal printings are actually second Ottawa printings. The collection consists of singles (these complete as above), coil pairs (complete), and blocks from 1927 complete for regular postage issues to 1952; complete for airmails, Special Delivery E1-E11, complete for Postage Dues with extra shades. Officials not represented in blocks. The singles start with used #4d, 14-15, 17-20, and end with 23-30. The balance is all mint with gum except #21-22 unused. So mint is complete except Small Queens as mentioned above, together with C1-C9, E1-11, F1-3, MR1-7, O1-O32. The collector was fussy about fresh stamps with deep colour, but not about gum, nor particularly about centering. Often the more expensive stamps are the best quality. The 1897 Jubilee dollar values have fresh colour, decent centering, and mostly lightly hinged. The mint blocks of the Bluenose and Parliament are never hinged, as are the Cavell, Champlain, Ramezay, Destroyer, Ferry and Fisheries Dollar values. Consistently without fault and centering is usually Fine-Very fine or better.

**In the past, we have offered a large selection of old newspapers, and several times antique maps. This auction we venture into comics with two consignors each offering a substantial quantity. The estimates were provided by the consignors and reflect what we are told is a strong wholesale price for top quality and desirable comics.**

**In the past our customers have appreciated paper artifacts which are diversions from philately.**

**Each auction we do our best to carefully describe each lot. This adds extra time for many of the lots but we believe presenting a full description leads to more confident bidding. With this in mind, we only announce auction dates when we are ready to go to the printer.**

**We expect to have finished lotting in order to hold a winter auction. We ask you for consignments well in advance of the deadline so we can give full attention to your treasures. We would be pleased to discuss this with you. Cash advances are available.**

## TERMS & CONDITIONS (Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards, please provide at time of bidding. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an

extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

### Consignments

The next Sparks Auction is tentatively scheduled for November 2013. If you are planning to consign material, it is to your advantage to do so early. This gives our lotting team sufficient time to properly lot, describe and catalogue your property. For more information contact Kate Morrow or Karen MacDonald.

**Notes on catalogue values and reference**

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

#### How To Bid

**Advance Bidding** We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

#### Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

#### Connect to Stamp Auction Network at: [stampauctionnetwork.com](http://stampauctionnetwork.com)

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

#### The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- \* Credit Card number (Visa or MC, with expiry date and CVC code)
- \* Philatelic references (including eBay reputations, BidStart etc.)
- \* Associations (APS, RPSC, BPA, etc.)
- \* Your own professional website (stamp-related or otherwise)
- \* A valid e-mail address (we will not approve you if your e-mail bounces)
- \* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

#### The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (i.e., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: [sparks-auctions.com/how-to-bid-with-us/](http://sparks-auctions.com/how-to-bid-with-us/)

## Corrections & Updates

### AUCTION #13 CORRECTIONS TO LOT DESCRIPTIONS

Last updated Monday, August 19th at 12:00pm EDT

| LOT# | Correction   |
|------|--|
| 15   | Scan is mislabelled as #13 in print catalogue.   |
| 46   | Should be Canada #12 (not #13).  |
| 80   | There is a crease at upper left.   |
| 101  | Cover is sent from Castleton [not Stellarton].   |
| 112  | This is a 4-ring #24 cancel of Oakville [not #21].   |
| 120  | Perfs are cut along the top of #54 strip.  |
| 125  | This is Canada #37 (not #41a).   |
| 135  | There is a small black dot between CANADA and POSTAGE on the top stamp ( <a href="#">visible in scan</a> ).  |
| 145  | This is Canada #43i, deep chestnut from 1896-1897 printing, with noticeable re-entry at lower left.  |
| 149  | This is the deep brown red shade from 1896-1897 and thus not a Montreal Gazette printing.  |
| 230  | This lot has fine centering, therefore Unitrade CV\$206.   |
| 258  | “... 113, 115 and <b>119</b> .”  |
| 286  | The description states that this is the only known block with Type D inverted lathework on thin paper. This is incorrect as several other such blocks are known. |
| 404  | These are #MR3, Die I.   |
| 1193 | Is not Scott #79 (possibly #81).   |
| 1215 | Souvenir sheet has a corner crease.  |
| 1238 | Accompanied by a 1981 Koopman certificate.   |
| 1303 | “... includes on unused <b>Queen Victoria</b> postal stationery wrapper.” [not Small Queen].   |

|      |   |
|------|---|
| 1360 | 1872 5c registered cover is a faulty front only.  |
| 1361 | #133 is a fake.                                   |
| 1989 | Postcards are to Niagara Falls, NY [not Ontario]. |
| 2068 | Lot is all Monaco [not worldwide].                |
