THIS SALE

Greetings

An auction should generate excitement. The setting, reputation, and personalities can help but the material on offer is the key component to getting the adrenaline flowing.

Our Canada section has wonderful offerings: a real jumbo of a beaver, a never-hinged half penny, an exceptional used block of the 1864 two cent Victoria, a mint block of the three cent Large Queen with original gum, lovely quality never hinged late Victorian issues including high value Jubilees. The classic-era stamps continue with the very rare imperforate imprint blocks of 20 of the Victorian Numerals together with a large offering of imprint regular issues, some wonderful quality scarce Die and shade variety Admirals, the 1929 Parliament which is especially elusive in XFNH quality, scarce imperforates and printing errors. For rarity it is hard to beat the items from the estate of Canadian stamp designer Pierre Beaudin, a number of lots being unique, and rarity continues into the airmails with pre-production material.

British Columbia has an amazing collection of the numeral cancels together with items like a mint block of the five cent Vancouver Island. Our East Coast is represented with spectacular mint pence and a bisect cover from Nova Scotia; Newfoundland also offers a bisect cover and a rare two penny pair, both from the 1857 printings, as well as many lots of more affordable imperforates and varieties, and finishes with a Columbia cover.

British Commonwealth is especially strong in Great Britain and Australia. Many of the rarest of the high values and errors from these two are offered in this sale. Of special interest is the Kookaburra Collection which was formed by a decades-long quest to obtain every Stanley Gibbons listed variety of Australia as well as Queensland, South Australia, Tasmania, and Western Australia. As a result rarities abound, especially non-Scott listed perforation and watermark varieties. The Worldwide section is diverse and of note are some decent quality high value Italian States.

Postal History is an area where our consignors continue to offer diversity and the unusual. Once again we have hundreds of lots representing all from stampless to modern. Undoubtedly these lots will contain tomorrow's rarities which will in future be on display in great collections.

Lots and Collections are always a big draw during the viewing. This auction will again present a big challenge for viewers. The number of one country collections as well as multi-volume worldwide lots is staggering. And it is not just volume, many lots are specialized and diverse collections. As usual Canada & BNA leads with 94 lots but that lead is challenged by Worldwide multi-country lots with 74 (and to that total could be added continent groupings of Asia, Africa, Europe etc). There are more than seventy different countries represented with one or more collections. After Canada the number of lots by country include Belgium (37) followed by British Commonwealth, Italy, Great Britain, Germany, and Australia (20).

I am confident you will enjoy perusing the catalogue whether on paper or online. Our next auction is scheduled for September. Potential consignors are reminded that waiting until the deadline to consign is not a good idea if you want careful attention to your collection in the lotting and describing process.

1 **E/P #1TCiii 1851 3d Beaver Trial Colour Plate Proof in Black with Prominent Relief Break.** On India paper mounted on card, with SPECIMEN overprinted horizontally in orange. This proof clearly shows the vertical transfer “crack” extending from near the Beaver’s belly up to the letter P of POSTAGE, then splits right and left. This is clearly illustrated and described by Boggs on page 126 of his manual. Being a black proof, this relief flaw shows up particularly clearly. The India is cut into outer frameline at top, just touching bottom frameline and stained, else scarce and not often offered.

Doubling is found in the lower two-thirds of the design, including the 'CA' of CANADA, the 'E' of POSTAGE, much of TWO CENTS (especially the distinctive mark in the top of the 'E') and below, and both 2's.". Kookaburra Collection of Australia

I know the collector of the Kookaburra Australia and States from his albums and notes. These show a meticulous approach to collecting used examples of every Stanley Gibbons listed variety.

He was consistent in measuring perforations and identifying watermarks. He was also consistent in purchasing sound quality stamps, although no collection can avoid a tiny percentage of trivial minor faults. There are a few fiscals (often identified as such) and these, together with a few questionable items, we did not include in the catalogue totals of the collections. As will be evident many of the imperforates do not have full margins. Another weakness was the identification of colour shadings and students of these issues will find discrepancies.

The achievement of near perfection was acquired without a reference collection, without philatelic advice, living far from any metropolitan city and using only the Scott and Stanley Gibbons Catalogues. He purchased from retail stores in his travels, from eBay, and in a minor way from small auctions. Given all that, his accomplishment is remarkable. We expect that successful bidders will enjoy their purchases as much as we have enjoyed preparing this sale.

Includes several hundred unsorted, mostly common. Also includes the owner's Victoria (by far the weakest with several hundred apparently all common as well as miscellaneous Western Australia, etc. Hours of sorting and organization should be rewarding. - 729 Ⓞ **Queensland #1/144 1860-1909 ½d to £1 Collection** on about 65 quadrille pages in a spring back album. Organized by Stanley Gibbons numbers and includes about 95 small size Chalon Heads and about 173 other designs. Includes #1, sound but cut along design at bottom and into outer frameline in several places, #63 the half penny overprint, the 1880 high value Chalons with 2sh (x3), 2/6sh (x2), 5sh (x2), 10sh and 20sh (x2) although most of these not counted due to fiscal use; and a strong representation of the later high values. Overall quality is fine or better and a high degree of completion by Gibbons excepting scarce perforation varieties. Quite a few stamps not counted in catalogue value because of fiscal use and KEVII "duty" fiscals. We likely missed some fiscals but there is extra value in S.G. varieties, etc.

There is lots of potential for more including a possibly genuine double surcharge (Scott 67b, SG 112a - see scan on web). The approximate count of stamps by group is: first design 184 including a #3 with tight margins; other designs over 750 including 59 3d on 4d - one red on slate blue, fine and nine 10d on 9d yellow - 4 blue, 5 black overprints; 136 postage & revenue high values including two 10sh Postage & Revenue different perfs; and finally 91 O.S. surcharges. The few stamps removed as single lots do not affect the collection using Scott. All octagonals are cut square and overall are nice but margins are often close or just into design. By Scott includes #1 (x2), #2 (x8), etc. A total of 99 stamps (of these, 8 were not included in CV total - usually because of suspected fiscal cancel). An impressive collection, with shades, cancels, varieties, etc. Fine or better. See web for scans.

Robson Lowe, in his Volume IV *Encyclopedia of British Empire Postage Stamps* says "used pairs (3N), strips of 3 (5N), strips of 4 (8N)". With "N" referring to the number of times the single stamp value. He was presumably not aware of the existence of a larger strip than 4.

★ AUCTIONS

Consign with us!

Sparks Auctions endeavours to offer carefully described material with collectors in mind. We provide exacting descriptions accompanied by full-colour illustrations, promoted both on-line and in our printed catalogues. We do not own the material that is offered in our auctions. Our lotters work with a large base of new and repeat consignors to give their consignments the attention they deserve.

This approach is well-rewarded by our auction realizations. From an active customer list of thousands, we mail hundreds of print catalogues. Many more buyers view the material only in our detailed on-line listings, including PDFs of the print catalogue and an extensive image library. We receive site visits from hundreds of registered bidders in the weeks before the sale. To accompany our live auction floor in Ottawa, we feature full interactive live bidding on Stamp Auction Network, including live audio from the auction gallery so you can follow the bidding action from home.

When the last lot has been called, we will have seen bidders from across Canada and the United States, with others coming from Great Britain, Europe, Australia, New Zealand, India, Asia and South & Central America. In our most recent sale, we had in excess of 700 bidders, more than 300 of them successful.

TERMS & CONDITIONS (Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.
2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.
3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.
5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). **Please note: Effective August 1, 2014, we will be charging a 2.5% convenience fee to process Visa & MasterCard payments.** Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.
6. Buyers from Canada will be charged Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.
7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.
8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.
9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.
10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.
11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to

the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

- 2015 Scott Catalogue Volumes 1 through 6
- 2014 Scott Classic and US Specialized
- 2015 Unitrade Specialized Catalogue of Canadian Stamps
- 2015 Stanley Gibbons 1840-1970 (SG) values in £
- 2007 or later Michel Catalogues of the World (Mi) values in €
- 2009 The Canadian Revenue Stamp Catalogue
by E.S.J. Van Dam

Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- * Credit Card number (Visa or MC, with expiry date and CVC code)
- * Philatelic references (including eBay reputations, BidStart etc.)
- * Associations (APS, RPSC, BPA, etc.)
- * Your own professional website (stamp-related or otherwise)
- * A valid e-mail address (we will not approve you if your e-mail bounces)
- * Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: sparks-auctions.com/how-to-bid-with-us/

 Your bids will be executed until this figure is reached.
