The Obie Worldwide Collection

The "Obie" Collection of Mint and Used Worldwide Stamps is a lifetime collection the likes of which we rarely see, in terms of completeness and quality. It was consigned to us mostly all neatly hinged in Minkus albums, with almost no "extra" material such as loose in glassines, shoe boxes, etc. Many of the countries offered here are quite comprehensive and will often be presented chronologically with used at first, then mint hinged and sometimes never hinged modern in mounts. The collector paid great care in completing some countries, such as Hungary, Canada, People's Republic of China, Australia, Germany, with States and Colonies, Italy, Mexico, some of which catalogue in the tens of thousands of US dollars. The collector subscribed to new issue services all around the world from about the 1980s to the early 2000s, which is presented in never hinged condition.
