King Edward VII Era – Scott #89-95

Please see our various postal history sections for some better postal history of this issue.

203 ☉ **#89-90 Collection of Varieties on the 1c and 2c King Edward VII Issues**, with five glassines filled with thousands of stamps identified as “minor varieties”. Also seven black stock cards filled with better varieties, many are illustrated on blown up pictures, and with many major re-entries, varieties to numeral boxes, frames retouches, plate scratch over collar, bullet hole, vertical guide lines, and much more. An ideal lot for the specialist, and rarely offered in this quantity and quality.

This is identified by owner as Marler's Type 7 (break in upper right spandrel), from Plates 11, 12 and 13. The gum is never hinged but has a light overall haze, probably from the booklet inter-leaving. Still an overall very fine pane.

Faults, including overall staining (on back only) and wrinkles affecting mostly top three stamps only, still a scarce used pane.
