THIS SALE

The first day of this auction is held one week after our American friends decide on the next President. Unlike politics, which can be divisive, philately brings people together. Our readers will have a week to recover. And what better way than enjoying this auction catalogue.

We start with a wonderful selection of the scarce pence issues. Seldom indeed have there been four of the perforated six penny offered in one auction. Complementing the classic issues of Canada are some of the great mint stamps of the provinces: the imperforate ten cent of Vancouver Island and the first issue of Nova Scotia are two of the highlights. The whole of the Victorian era is strong and one cannot fail to be impressed with the lovely mint Large Queens as well as some very rare stamps.

The three Kings period offers gems such as a set of the Quebec Issue large Die Proofs and then into the Admirals beginning with the Madukhar Belkhole International Gold Medal Collection. Rarities abound through the period and then throughout the Elizabethan period with the greatest rarity being the inverted \$2 Normal School which is quite a bit scarcer than the inverted Seaway.

Our back of the book offerings are strong highlighted by possibly the finest of the inverted \$3 Third Bill issue and the tremendous offering of Consular Fee stamps with an uncatalogued variety, rare imprint blocks, and even full sheets.

Day two of the auction has four sessions. Dominating the Commonwealth is the Geoff Leech offering of New Zealand. Many of these lots are opportunities to obtain quite rare but not necessarily expensive varieties which were acquired over a lifetime by a very keen student of New Zealand. Worldwide offers a broad selection from such diverse places as China, Estonia, France, Germany, Greenland, and Thailand.

Postal History has a handful of lovely covers with rare and expensive stamps. Of greater interest to many will be the groupings, in which there are treasures to be acquired. Literature — which merits a separate section — is bulky (seven full bookcases) but also contains many scarce and sought after reference works.

Our third day offers the strongest group of lots and collections ever. One lot is Malta essentially complete which might have been offered as several dozen lots; another lot of France which has a short and modest description but an astounding catalogue value of €\$55,000; Norway has many strong lots; and of course Canada is very well represented. Viewers should plan on spending more time than usual to appreciate the depth and quality of the lots.

One result of the riches on offer in this sale is the large number of wonderful lots we just could not feature on the covers of the catalogue. It is a good problem to have. And another good problem is the lots already on hand for a winter sale fairly early in 2013. We welcome consignments at any time.

Consular fee stamps were issued from 1949 to 1971 to be used on passports and various other consular documents. They were printed in sheets of 100 stamps (10x10), guillotined into panes of 50 stamps (5x10) leaving 10 stamps per pane with straight edge or left or right side. Plate inscriptions were located in the lower left corner and show best in a vertical block of 6 (or larger of course). The following 37 lots represent the largest group of Consular revenue stamps to have ever come on the market offered in its entirety in this sale. Included are inscription blocks, large multiple and complete panes including two panes of the 25c value and two panes of the 50c value. In both cases we know of no other intact panes. The \$5 high value is represented by a block of 35, which is quite likely the largest remaining multiple of this value. We also identified a distinct printing of the \$2 value in a purple brown shade with yellow gum which will be of special interest to specialists. With a few exceptions, the quality is consistently mint never hinged, selected and fresh. This represents a unique opportunity for dealers to acquire an inventory of these interesting issues. In all likelihood, a similar offering will never be offered. Contact us for bidding advice or any other questions.

The Geoffrey Leech New Zealand Collection

The late Colin Bayley introduced me to the phrase the 'camaraderie of philately.' One of the many places where this phenomenon is noticeable is when a local club holds an end of season banquet. Almost invariably there is at least one spouse who talks in very favourable terms how she now understands collectors better and appreciates the fascination that stamp collecting holds.

In a similar manner to a spouse learning a little more and appreciating a new facet of a loved one, collectors can sometimes know a great deal about a collector and the collection but miss a large part of who that person is. The obituary of one collector I knew well mentioned his religion, and his religion was very important to his life story. Yet it was a revelation to me.

My connection with Geoff was similar. He wouldn't be called sir, or mister, he was Geoff. His obituary in April 2012 described him as Dr.G.B.Leech. That Geoff had an earned Doctorate is no surprise given his intelligence and scholarship, and it was a large part of who he was in his professional life – but no part of his philatelic life.

There is almost no place, at least in the British Commonwealth, that offers more challenge to collectors than New Zealand. Geoff's profession and personal interest in hiking led him around the world and New Zealand was a favorite destination. He began collecting the country with a passion.

Geoff was the person who introduced me to the phrase 'picture stamp': a stamp which can be identified by its picture alone. For Geoff the collecting of picture stamps was not what the hobby was about. A collectable stamp was one which had done its duty in delivering mail. Then it would belong in the collection if it had no faults, reasonable centering, original colour and either a light cancel or a postmark of interest. It would also belong if it had an interesting characteristic such as a different paper or mesh, or perforation, or watermark, or position on a printing plate, or plate variety or flaw, or an unusual postmark. Mint stamps were collectable but took second place.

Geoff took the trouble to describe varieties in many thousands of stamps by inserting a piece of paper behind the stamp. They can be found that way on stockpages etc. When mounted in the album, they would be fully described; any stamp which might have any fault (most commonly a light crease) would have a pencil notation on the page. These notations were scarce in the Chalone and almost non-existent in later issues.

Because the collection is organized by Stanley Gibbons Catalogue, their organization and descriptions are used; however the Scott numbering system gives the lots a framework (and order in the catalogue) which makes more sense to North Americans. It should be quite easy to understand our lot descriptions even if you are only familiar with either Scott or Stanley Gibbons. We have also made some use of the specialized New Zealand catalogue: Campbell-Paterson (C.P.) Geoff's extensive literature on New Zealand can be found in our literature section. His Canada and other countries can be found throughout the catalogue.

Geoff was a friend, a fellow collector who was instrumental in my starting to collect the postal history of the Solomon Islands. Geoff, I have tried to do you and your collection proud.

Our Literature offerings have expanded to 120 lots filling 7 bookcases. In addition to a number of lesser consignments, we are pleased to offer the specialized New Zealand of Geoff Leech and a large part of the Jim Hennok philatelic libraries. We decided to increase the offerings of single works as a service to our literature buyers. Items which we valued at \$30 (and sometimes as low as \$20) are offered as separate lots. This greater selection comes with a trade-off. We will be placing opening bids (typically 60-67 percent of the estimate) on the single lots and on some of the group lots. A few literature buyers whom we consulted opined that a broader selection of lots with reasonable opening bids was worth the trade-off of bidding on a heavy carton and expensive shipping to acquire just one item in the carton.

Overall some condition issues as several items have gum disturbance from being stuck down and some issues are still stuck on pages (ie. 10c Quebec pair). We note many nice cancels, including several nice cds. Collector has made many notes about the purchase of stamps, cancels, re-entries, etc. Overall condition is fine with obvious faulty stamps not included in CV.
.....**Scott \$37,535**

x Lot 1519

- 1519** *//*/⊙ **#4/262 Old Time Collection of Mint and Used, 1852 to 1943**, all neatly displayed and annotated on quadriga pages. Starts with a nice #4 (given to consignor's father in 1935 for having good grades), Jubilees complete used to \$2 (some with nice CDS cancels), Numeral, Leaf, Edwards, Quebecs complete used, a very nice selection of mint and used Admirals, with singles and blocks, coils, many precancels including high values, part imperf blocks, perfins, then the rest of the collection to 1943 is mostly one of each mint and used, with several used blocks and some covers or stamp on piece. We note #158 (x4 used), 159 (x5 used), 177 (single and strip of 3 used), 209 (several used multiples, some with perfins), 262 (used strip of 5), etc. First page is mixed condition, rest are better than average, and mostly fine or better. A nice collection!
.....**Est. \$1,000**

- 1520** *//*/⊙ **#4/273 Collection of Mint and Used in Binder** starting with a used #4 (4 margins) then Small and Large Queens (we note 2c, 3c and 5c mint SQ), then mostly mint hinged sets from 1930 to 1943. Mostly fine or better.
.....**Est. \$200**

- 1521** ⊙ **#4/321 Collection of used, 1852 to 1953**, on home made pages, and with many complete sets including Cents issue, Small and Large Queens, Numerals, Leaf, Edwards, Quebec, Admirals, etc. We note a nice 4-margin #4 and strong in back of the book with early bill stamps, excise, law stamps, etc. Small faults else mostly fine or better.

- 1522** ⊙ **#4/E4 1852-1990 Group of Several Dozen Used Stamps** Includes 4 margin 3d Beaver, small faults, another but margins are touched in places on 1855 cover, eleven 15c Large Queens, Admirals including blocks, High Values (\$1 Cavell x7), etc.

.....**Scott \$8,694**

- 1524** ⊙ **#14/1944 Collection / Stock of Used Canada in Three Stockbooks**. Two 32-page and one 8-page stockbooks filled with a lifetime accumulation of used, with quantities varying between one and several dozen of each. The early period consists of Cents issues, then Large Queens and Small Queens to the 50c. We note many better postmarks in these, and better shades such as the 3c Small Queens, which are mostly early 1870 and 1871 printings. Jubilees follow with good quantities to the \$2 value. The rest is pretty much comprehensive, with sets almost always complete, often with large quantities of high value stamps. We note some shade and other varieties, and this appears unpicked for better postmarks as we saw many nicely centered CDS throughout, including the modern period (see scan on web for a small sampling of these). We have catalogued only the higher value stamps up to #262, which comes to just over \$30,000. This does not include the large quantities of higher denominations and values after that, including a decent back of the book section, so actual catalogue value is probably much higher. Quality is better than average for this nice lot (including early), and stamps are mostly fine or better.
.....**Est. \$3,000**

- 1525** ⊙ **#14/1838 1859-2000 Used Collection** in two Dominion Albums. Reasonably complete 1912-1997, a high percentage with selected cds postmarks. Generally fine.

Also some duplicates in 5 filled stockbooks, plus a binder full of worldwide FDC from the 60s to the 90s. Included is a bankers box with used duplicates in cardboard envelopes. Faults, especially in early valuable stamps, else fine or better.
.....**Est. \$300**

- 1527** ⊙ **#14/288 1859-1950 collector's duplicates** sorted in glassines, some such as #41 in larger quantities. Owner's 2011 CV\$766.50. Plus an older stockbook with more used stamps.
.....**Est \$50**

1529 * **#21/348 1868-1954 high quality collection** of stamps which have all been selected for very fine or extra fine centering and without fault. The collection is housed in an old-fashioned Lighthouse album with mounts. We noted #21, 35, 50-54, 57, 69-71, 77-79, 89, 91, 93-94, 97-103, 104-122, 125-130 and from 1927-1952 the collection is complete except three low value definitives and a number of coils. There is also strong back of the book representation. A very useful collection with quality, well-centered stamps.
..... **Unitrade \$14,534**

..... **Est \$150**

1531 */**/☉ **#25/703 Collection of Mint and Used in Kabe Hingeless Album** with slipcase. A nice, high catalogue collection including better items such as #26 (used, CDS), 30b (mint, hinged), 56 (VF NH), 61-65 (fine, used) and many more. Mostly fine or better.
..... **Scott \$17,119**

- 1532** */**/☉ **#29/530 Collection in 5 3-Ring Binders** with a small Canada collection, including used Small and Large Queens, Registration, Jubilees, Admirals then mint from the 1960s. Also some cut squares with Canadian machine slogans from the 1970s, a binder full of used blocks and multiples (we note several with nice cancels, 1920s to 1960s), plus two binders of worldwide, mostly used. Overall fine or better.

- 1533** * **#34/273 Collection of Mint, 1870 to 1946** on old time pages with many better such as complete Small Queens (including shades), Edwards, Quebec, Admirals, Arch, Scroll, etc. Many stamps were once stuck down to varying degrees, but we have found it easy to pull several without inflicting too much damage, often none at all. Many remain stuck down, but many that have come off are quite nice. Mostly fine or better with a high catalogue value.
..... **Est. \$750**

1534 */** **#34/703 Large Stockbook Filled with Mint Canada Stock.** Starts with Small Queens with #41, 47, 48 (x2), then Jubilees with ½c (x11), 1c (x25), 2c (x14), 3c (x16), 5c (x13) then smaller quantities of each value up to 50c. Edwards to the 50c, Quebecs ½c (x48), 1c (x15), 2c (x11), 5c (x11), 7c (x8), 10c (x12), 15c (x9) and 20c (x4), decent selection of Admirals followed by pretty much every stamp in various quantities. Better include #158 (x4), 159 (x2), 176 (x6), 177, 209 (x25), 216 (x32). We also note better coils in strips of 4 such as #s 278-281 in quantity. Decent Centennials, #492 (x53), #582-585 (over 100 of each). Catalogue value was counted up to #282 and comes to \$32,232, not counting probably thousands more for the rest. Catalogue value is for hinged only, but we note several never hinged, especially in more recent issues. Quality is overall nice, with no major faults noted, but the earliest stamps may be hinge remnant or no gum in rare cases. A great lot for a dealer or eBay seller. Mostly fine or better.

By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$2 - \$30	\$2	\$1600 - \$3000	\$100
\$35 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
		above \$50,000	\$5,000

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

AUCTION #11 CORRECTIONS TO LOT DESCRIPTIONS

Last updated Thursday, November 15th at 11:00am EST

LOT#	Correction
20	There is a thickening of the gum which likely would preclude an expert from certifying this stamp as Never Hinged.
38	This stamp has a crease (not a gum bend).
44	Stamp is Very Fine (not F-VF).
134, 135	Plate 31 OR Plate 32 (see Marler pp 128-130).
196, 197	Both of these lots are Unitrade #120, dry printing, CV \$360.
293	This is exceptionally well-centered for a line strip.
300	Stamp is hinged.
463	Withdrawn.
472	The stamp has a tear on the right-hand side.
491	This is U77 (not U78). Catalogue Value is \$100.
492	The stamp has a repaired perf at right.
496	#3-105I (not #2-105I).
503	#3-114 (not #2-114).
713	Stamp is lightly hinged, CV\$325.
722	Stamps have paper adhesion to the gum, check the Image Gallery for a close view .
745	Typo in description second line, should say "... the common 2d Chalon reprint (11), the scarce...". As well, the 2½ penny essay proof pair should say "(one sheet of 100 printed),...
814	Should say "S.G. does not price or even list first design denominations above £1 in the absence of proof that they were postally used...".

913 & 914	There are expertisation stamps on the gum of these.
915	This is a complete set of imperfs.
939	Stamp has no gum, as per catalogue value given. With gum would be \$1,450.
1101	Should be “an 1855 cut down cover...”.
1130	Only some have mail clerk name handstamps.
1265	Handstamped “Via Siberia ” (not Serbia; this shows clearly in the illustration.).
1303	Also includes the <i>2012 Unitrade Catalogue</i> .
1326	This is the complete seven volume set of the Zaluski catalogue (not six).
1419	Includes four Fred J. Melville handbooks on United States Postage Stamps 1847-1869 (x2) and United States Postage Stamps 1870-1893 (x2). A more realistic estimate for the books would be \$100.
1552	Some hibrite varieties are mis-identified. Revised Catalogue Value is \$2524.
1719	Catalogue Value should be \$403.00 (not \$4,030)
1935	Collection is hinged, Catalogue Value is correct for this.
1818	We have received notice from a knowledgeable collector who believes that all of these are forgeries.
1935	Collection is hinged, Catalogue Value is correct for this.
