Welcome to Sparks Auctions

Philately should be a quiet, relaxing, and pleasant pastime. At Sparks Auctions we will build on those positive aspects of our hobby. We will provide an honest venue where vendors can realize full value for their treasured possessions. We will offer the opportunity for collectors to fill gaps in their collections or start new topics or new countries. Everyone will be treated fairly and respectfully and collectors can gather and enhance their camaraderie during the excitement of a called auction. We will always want to know how we can improve and we welcome your comments as they will help direct our future growth.

At the beginning of 2007 a number of conversations led to the business plan which presently guides us. Sparks Auctions is governed by a philatelically respected Board of Directors and staffed with professional and dedicated individuals. We are striving to be the best auction house anywhere.

One of the key elements to our plan is to provide live internet bidding and we are proud to be the first in Canada to do so with the use of StampAuctionNetwork.com. It is our plan to hold two auctions each year, this being our first. Our next auction is scheduled for April 2008. We welcome consignments until the end of January.

Sparks Auctions is located in the same building with Ian Kimmerly Stamps, however, the two are distinct and separate entities. Mere months after Sparks Auctions was imagined we are able to offer an auction sale which exceeds our initial expectations.

Pence Issues (Sc. #1-13)

Canada's first postage stamps were issued in April, 1851, and based on the essays submitted by Sir Sandford Fleming. Although very few issues were adopted, they include many of the benchmark items of Canadian philately. Stamps are collected based on their broad range of shade, paper and plate varieties. The major catalogues value unused copies of these issues as being without gum and items with original gum command a premium.

- 1 **E/P VF #1P - Beaver - 3d Red - Imperforate Proof.** Uncommon horizontal plate pair of this first Canadian issue. Very apparent plate scratches in lower-left corner and many interesting minor plate flaws also visible, such as cracked plate through beaver's back and break in design about 1/3 of way down right margin.
.....Un. \$600
- 2 **◎ VF #1 - Beaver - 3d Red - Imperforate - Horizontally Laid Paper.** Very presentable used first issue, with four full margins. Small corner crease at lower left, found in oversized margin. Strong laid lines clearly visible from reverse. Sock-on-nose period target cancel. Accompanied by 2007 Sismondo certificate.
.....Un. \$1,600
- 3 **◎ F #1 - Beaver - 3d Red.** Very presentable copy of this classic stamp. All four margins are clear of the design, however, very close vertically. The laid lines are pronounced on the back with a light pencil notation. The paper has a few light bends and a very tiny corner crease in the upper right. Typical, light target cancel.
.....Un. \$800
- 4 **◎ VG #1 - Beaver - 3d Red - Imperforate - Horizontally Laid Paper.** Presentable used first issue with strong laid lines visible on reverse. The margins are clear of the design but dip into the frame-line at top and bottom (we have valued this stamp as very good).
.....Un. \$400
- 5 **◎ VF #2 - Prince Albert - 6d Slate Violet - Vertically Laid Paper.** Very impressive, on-piece example with scarce, green target cancel. Four ample, clear margins with two massive. Vertical crease to left of center. Accompanied by 2007 Greene Foundation certificate.
.....Un. \$2,500
- 6 **E/P VF #2TCx - Prince Albert - 6d Black with Orange 'SPECIMEN' Ovpt.** Extremely attractive plate proof with intense colour. Printed on bright white paper and issued without gum. Four nice margins from top edge of sheet. Small hinge remnant.
.....Un. \$275
- 7 **◎ F-VF #4 - Beaver - 3d Red on Medium Wove Paper.** Handsome four margin example with nice colour. The paper quality is flawless. Centrally struck with period target cancel.
.....Un. \$225
- 8 **◎ F-VF #4 - Beaver - 3d Red (Shades) - Imperforate.** Two on thick wove paper in two distinct shades. The deeper, brown red shade four clear, very fine margins and very trivial lightly thinned area. It hosts a "Cornwall" #11 four-ring cancel. The lighter, red shade is graded as fine-very fine and has a typical target cancel.
.....Sc. \$550
- 9 **◎ VF #4a - Beaver - 3d Brown Red - Medium Wove Paper.** Attractive, four-margin vertical pair. Light even toning and distinct colour shade; pair of typical target cancels.
.....Un. \$700
- 10 **◎ F #4a - Beaver - 3d Brown Red on Medium Wove Paper.** A somewhat deceiving example with four clear margins, but uniformly cut very close. Strong, rich colour and lightly cancelled with "TORONTO" grid.
.....Un. \$175

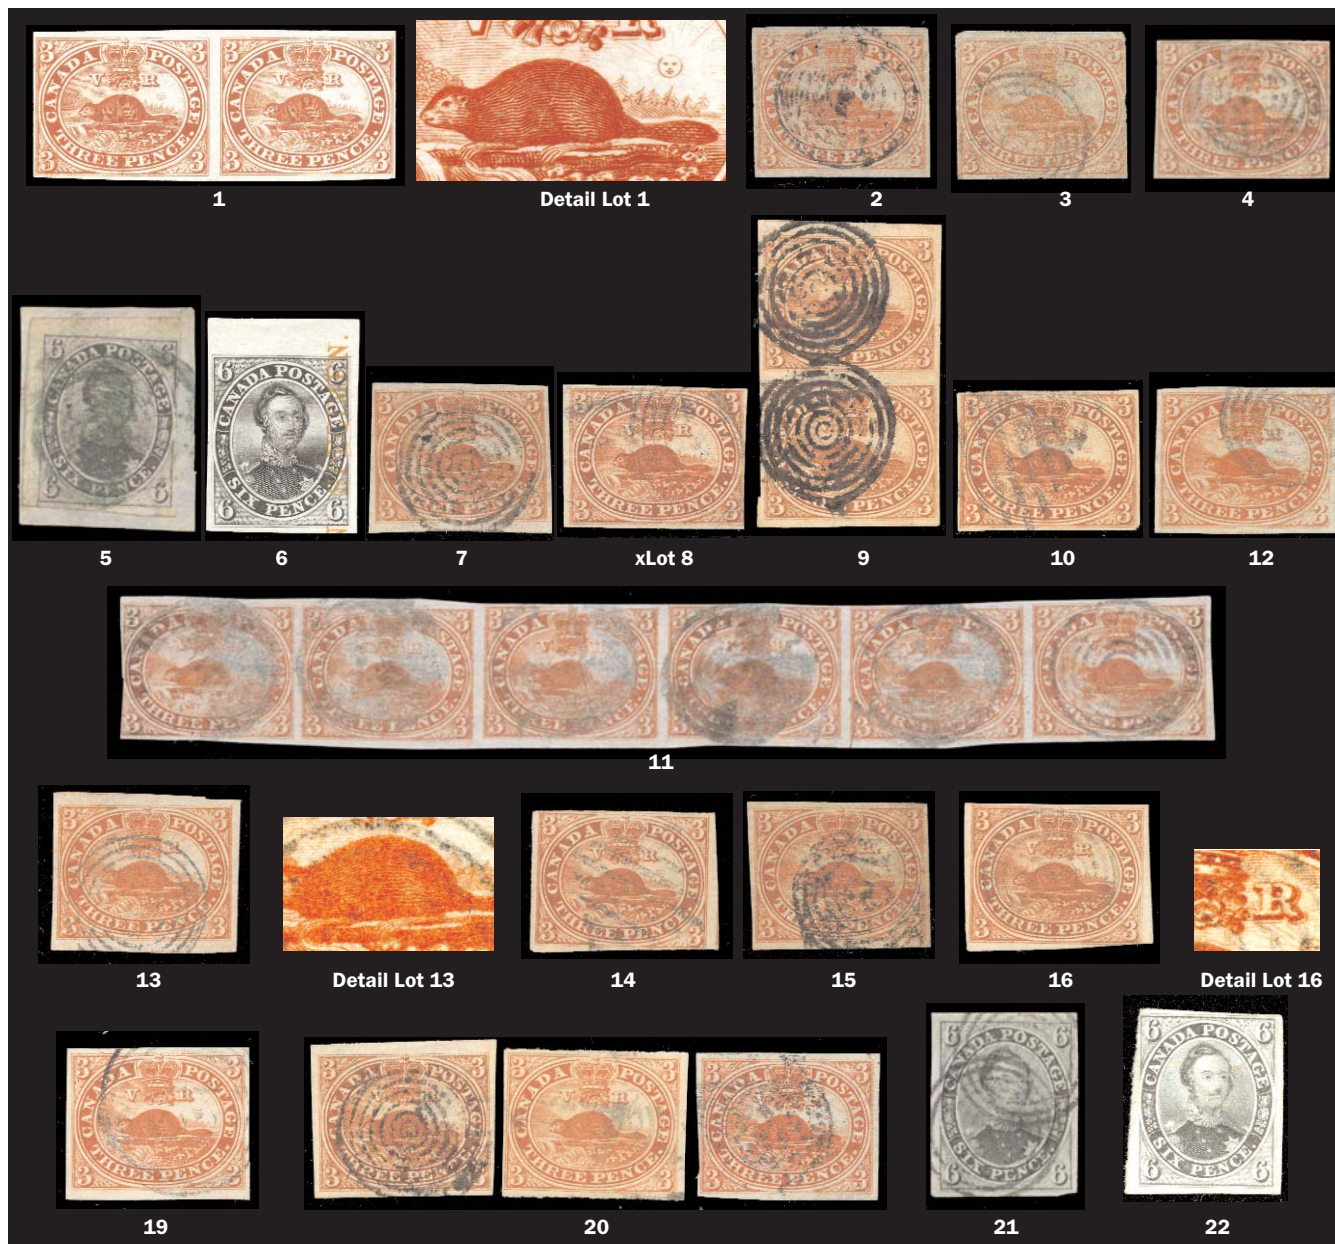

- 11 **◎ F-VF #4c - Beaver - 3d Red - Soft Ribbed Wove Paper.** Marvelous exhibition strip of six on scarce paper type. Two stamps (2/6) are very fine with full margins and balance have been graded as fine. There is a vertical crease in third stamp, and 4mm cut at bottom-left of fourth stamp. Cancelled with series of period usage target cancels. Exceptional large multiple!
.....Un. \$3,100
- 12 **◎ VF #4d - Beaver - 3d Orange Red - Thin Wove Paper.** Very presentable, four margined single with vibrant colour. Light target cancel in upper right corner. Fault free.
.....Un. \$300
- 13 **◎ VF #4d - Beaver - 3d Orange Red - Thin Wove Paper - Cracked Plate Variety.** Constant plate position (No. 31) variety with distinctive white line running through back of beaver to "R". Large, generous margins; light target cancel.
.....Un. \$1,000
- 14 **◎ F #4iii - Beaver - 3d Brown Red on Hard Ribbed Paper.** A sound, clean example with strong ribbed lines visible on the reverse. Fine horizontal margins. Used with "TORONTO" grid cancel.
.....Un. \$500
- 15 **◎ VF #4iv - Beaver - 3d Orange Red on Thin Oily Paper.** The paper qualities of this issue are easily distinguishable. The colour is intense and is not diminished by the black target cancel. All four margins are well clear of the design. A nice variety of this classic issue.
.....Un. \$350
- 16 **◎ F-VF #4ix - Beaver - 3d Brown Red with Cracked Plate.** The white cracked plate line - running through the beaver's back and up through the "R" of 'VR' is pronounced, and is found in Lower Right pane (Position 31). The margins are almost clear on all four sides. There are light, pressed creases at center left and in the extreme upper left corner, visible under fluid. The target cancel is faint and does not detract from the overall strong qualities of this item.
.....Un. \$725

Lot 17

Lot 18

- 17 **(*) VF #4var - Beaver - 3d Brown Red - Medium Wove Paper.** Elusive four margined, unused (without gum) example of this 1852 issue. Interesting short transfer position (88) variety noted by missing frame-lines at upper-right. Strong relief break extending from beaver's back through "R" of "VR". Fault free and accompanied by 1990 Greene Foundation certificate. Untrade catalogue value of \$2200 for stamp without gum and variety.
.....Est. \$2,200
- 18 **(*) VF #4var - Beaver - 3d Red - Machine-made Paper - Imperforate.** Impressive qualities on this late, 1857 machine-made paper printing. Unlisted in Untrade, but distinguished by Gibbons (SG 18 £ 1900). Intense, even colour. Four very fine, ample margins well clear of the design; short 1mm tear on left margin and light bend. Accompanied by 2007 AIEP certificate which has identified the stamp as Un. #4iii on hard ribbed paper. We are of the opinion that the paper qualities reflect those outlined above.
.....Sg. £1,900

- 19 © VF #4var - Beaver - 3d Red - Machine-made Paper. Very fine, four-margined example on 1857, late printing, machine-made paper, unlisted in Unitrade, but distinguished by Gibbons (SG 18 £ 450). Rich colour and light, four-ring numeral cancel. Great item!
.....Sg. £450

- 20 © F-VF #4 varieties - Beaver - 3d Red (Shades). An interesting selection showing three key shades of this issue. #4i deep red, #4ii orange red and #4xi scarlet vermillion. Since they are often difficult to distinguish, here is a great comparative opportunity. All stamps are sound with clear margins.
.....Un. \$825

- 21 © XF #5 - Prince Albert - 6d Slate Grey - Wove Paper. Impressive looking example with incredible large margins on all four sides. Very light pressed diagonal crease at bottom, with couple of very shallow, expertly repaired thinned areas. Used with pair of target cancels. Accompanied by 2004 Greene Foundation certificate. Ex. Seymour
.....Un. \$2,000

- 22 © F-VF #5b - Prince Albert - 6d Greenish Grey. Attractive sound example with two fantastic margins and two approaching the frame line, but clear. The design completely lacks a frame line on the lower half of the left margin. The colour and paper consistency are uniform throughout. There is a light, typical pen cancel.
.....Un. \$1,500

Lot 23

- 23 * F #7 - Jacques Cartier - 10d Blue Thin Crisp Transparent Paper. Fresh, three full-margined example of this elusive issue. We offer a lightly hinged item with full, original gum; very light gum bend at left. Accompanied by 2007 Greene Foundation Certificate.
.....Un. \$7,500

Pence Issues continued

- 24 © VF #7 - Jacques Cartier - 10d Blue Thin Crisp Transparent Paper. Very presentable, four-margin example, with deep colour. The pen cancellation has been removed and gum added to appear as unused. Small repaired thin in upper-right. Tough stamp in any condition. Accompanied by 2007 Sismondo certificate.

.....Un. \$2,500

- 25 © F #7 - Jacques Cartier - 10d Blue Thin Crisp Paper. Fine example with vertical margins close, but outside of the design. Nice colour stands out despite pair of lighter target cancels. There is a lightly pressed horizontal crease running parallel to the bottom frame line.

.....Un. \$1,250

- 26 © VG #7 - Jacques Cartier - 10d Blue Thin Crisp Transparent Paper. Sound stamp with very sharp impression and intense colour. Torn into at top left but showing many prominent guidelines in the remaining three large margins. Valued as very good.

.....Un. \$500

Lot 27

- 27 © VF #7a - Jacques Cartier - 10d Blue on Thick Opaque Paper. A classic gem with absolutely stunning margins for this issue. Impressive clarity of impression and consistent colour shading throughout. Several guidelines are visible along the outer frame-line. The back of this stamp has been expertly repaired on the left margin.

.....Un. \$3,000

- 28 © VF #8 - Queen Victoria - 1/2d Rose. Four margined example that makes a great first impression. It has been lightly cleaned to removed some of the cancellation and possibly a pen cancel, and retains a light horizontal crease. Remains difficult to find in this grade.

.....Un. \$900

- 29 © VF #9 - Queen Victoria - 7.5d Green - Imperforate - Wove Paper. Very fine, four margined example showing part of adjacent stamp at left, however, cut close at upper right. Bright colour with very slight fading at bottom. Accompanied by 2007 AIEP certificate.

.....Un. \$4,500

- 30 © VG #9 - Queen Victoria - 7.5d Green. Despite the poor margins on this example, the face free cancel and strong colour make it an attractive item. The margins, indeed cut into the design at several points. The bottom reverse of the stamp has been professionally repaired filling in an apparent thin. Cancelled date stamp is unreadable..

.....Un. \$750

- 31 © F-VF #9a - Queen Victoria - 7.5d Deep Green - Imperforate - Wove Paper. Attractive 1857 issue with four margins clear of the design, but narrow at the bottom. Light, period usage target cancel. Accompanied by 2007 Sismondo certificate which draws attention to "a diagonal scratch in the surface from "1/2" at the upper-right corner to the right cheek of the Queen. There is a small thin towards lower-left. Tough stamp in any condition and missing from most collections that we have handled to date.

.....Un. \$4,625

- 32 © VF #11 - Queen Victoria - 1/2d Rose - Perf 11.75 x 11.75. Tough to find in any condition, we offer a presentable example of this 1858 issue. The well balanced margins are clearly evident. Light even toning; shorter corner perf in upper left; small thin at center, bottom; pressed horizontal crease. Despite this series of faults, the stamp retains a quality appearance. Accompanied by 2007 Sismondo certificate.

.....Un. \$2,500

- 33 © VF #11 - Queen Victoria - 1/2d Rose - Perf 11.75 x 11.75. Wonderful full margined example with perfs just touching the thin outer frame line for part of top and at right. Used with four-ring numeral cancels. Difficult stamp to find in any grade.

.....Un. \$1,000

- 35 © VG #12 - Beaver - 3d Red - Perf 11.75 x 11.75. Interesting example with the strong colour and light pen cancel adding to its overall appearance. .....Un. \$300

- 36 © F #13 - Prince Albert - 6d Brown Violet - Perf 11.75 x 11.75. This 1859 issue is a very tough stamp to find. we offer a fine example with two large margins, one close and the fourth having perforations cutting into the design at left. Thinned area in upper left corner. Light four-ring numeral cancel. Scott catalogue value \$6000 US.

.....Un. \$5,000

Cents Issues (Sc. #14-20)

Canada adopted decimal currency in 1859 and subsequently issued stamps reflecting this change. By now, perforated stamps had become an accepted technological advancement. Design elements basically followed those of the earlier, pence issues. While few issues were produced in this short period before Confederation, a wave of successive printings of each issue produced a variety of shade, perforation and plate varieties. Due to the narrow spacing between the stamps, it is generally accepted that examples in which the perforations touch the outer framelines are to be graded as fine. Items with perforations clear on all sides are very scarce and considered as very fine examples.

- 37 (*) F-VF #14 - Queen Victoria - 1c Rose - Perf 12.0 x 12.0. Fresh unused example without gum as valued. Graded as fine with perforations just touching design at top and otherwise fault free.

.....Un. \$450

.....**Un. \$250**

46 © F #15vii - Beaver - 5c Vermillion - Perf 12.0 x 12.0 - "Rock in Waterfall" Variety. Uncommon position (No.53) plate variety identified by the presence of a "blob" of deep colour in the waterfalls. The stamp is finely centered with shorter perf in lower-right and expertly repaired thin. Faint #7 cancel.
.....**Un. \$300**

47 © VF #16liii - Prince Albert - 10c Black Brown - Perf 11.75 x 11.75 - "String of Pearls" Variety. Very tough to find example with constant variety (Position 3), noted by series of small dots running diagonally through upper oval frame. Well balanced margins and valued only as fine in Unitrade catalogue. Accompanied by 2001, Greene Foundation certificate stating that the item has been "re-perforated at left". Exceptionally scarce item in any condition !

Queen Victoria Era (1867-1902)

Large Queen Issue (Sc.#21-33)

With the establishment of the Dominion of Canada, in 1867, a new basic design was commissioned, which became affectionately known as the Large Queens. Issued between 1868 and 1876, successive printings and rate changes resulted in numerous shade, perforation and paper varieties. The Unitrade catalogue adds 100% premium on stamps with original gum, otherwise they are typically valued as unused without gum.

- 58 * VF #21 - Large Queen - 1/2c Black - Perf 12.0 x 12.0. Well balanced, large margined example with even colour and fresh yellowish paper tone as issued. Lightly hinged on full, original gum. Accompanied by 2006 AIEP certificate.

Small Queen Issue (Sc.#34-47)

In 1870, Canada reformatted its basic design by reducing the dimensions of its stamps allowing for better economics. Affectionately known as the "Small Queen" period, it is one of the more difficult areas of Canadian philately to master and warrants a great deal of study and exposure. Most issues saw progressive printings which resulted in a broad range of shade, perforation and plate varieties, coupled with variation between the basic Montreal and Ottawa printings of the American Bank Note Co. We also offer an extensive range of Small Queen shade and/or cancel collections in SESSION #6 : LOTS and COLLECTIONS.

- 98 ***/** VF #34iii - Small Queen - 1/2c Black - Gutter Pair.** Scarce, top margin gutter block of eight. The yellowish paper is typical of the 1890's printing and there is a strong offset on the back. Original, never hinged gum with light bends at upper right.

1897 Leaf Issue (Sc.#66-73, 87)

1898 Map Issue - Imperial Penny Postage

Generally accepted as the world's first Christmas issues, this pair of items were issued to accommodate the adoption of an Imperial Penny Postage rate in 1898. The stamps are recognized as having two basic colour schemes, based on the inherent colour of the ocean. This ink, is susceptible to changes caused by light/chemical reactions, have produced a broad spectrum of curious shades. The five plates used to produce successive printings have been well documented and these stamps have become one of the first in which collectors can effectively match each stamp to their respective plate positions. King George V Era (1911-1936)

The Admirals

One of the most celebrated and studied areas of Canadian philately, the Admiral issues were the workhorse between 1911 and 1925. Due to the extensive range of use, the stamps underwent numerous printings that witnessed changes in printers, issued colours, booklet pane formats, "wet" and "dry" printings and changes in postal rates. Also, the introduction of experimental coils, an idea that was later adopted, brought about a much broader range of study. We offer an extensive range of material with select singles, multiples and uncommon shade varieties. As well, we have a wonderful selection of imprint plate strips. We have chosen to incorporate all of the elements of this Admiral design into this area, which includes the War Tax issues (MR #'s).

600 ** VF #705/789var - Floral and Elizabeth II Definitive Issue - Trudeau Overprints. In February, 1971, then Prime Minister, Pierre Trudeau, created a minor parliamentary scandal by mouthing four-letter explicative in the House of Commons. When the media pressed him over the true nature of this gesture, Trudeau replied "What is the nature of your thoughts, gentlemen, when you say 'fuddle duddle' or something like that?" Once the Liberal government fell, in 1979, this pair of overprints were unofficially produced in very small quantities. Recognizing that the items were being accepted for legitimate postal use, the government tolerated the issue for a short while. Only the 1c denomination is valued in the Unitrade catalogue at \$10.00 for an unused single. We offer some of the largest remaining multiples of this series in eight different blocks, with one inverted.

New Zealand - Rhodesia	1290 - 1321
St. Helena - Samoa	1322 - 1343
Sarawak - Zululand	1344 - 1384

One man's collection is the base for this session which offers at least one lot from 84 countries, colonies, or stamp-issuing entities of the British Commonwealth. The collection was strong in varieties most of which are listed in the Stanley Gibbons Catalogue. In addition, there are a great many multi-page balances from this collection. These can be found in Session Six. Consignments from other owners in this third session often complement rather than duplicate the collection. We expect that successful bidders will get the same thrill of examining these varieties as we experienced when lotting them

Norway

xLot 1657

1657 © VF - Norway "Spitzbergen" Locals on Piece. The August 2001 edition of *The Posthorn* has a wonderful article on these local issues. A small seasonal base was established in the late 1800's which acted as a launch for a series of expeditions in attempts to reach the North Pole. In the mid-1890's, Captain Otto

Sverdrup began making weekly voyages between Hammerfest and Advent Bay aboard the ship *Loften*. Realizing a financial opportunity, Richard With launched a weekly tourist voyage to the extreme location. Local stamps were issued to carry mail posted on board the passenger ships, that were tolerated by the Norwegian postal authorities. Problems arose since Russia and Norway had failed to reach agreements over the sovereignty of the island, and Norway determined that Spitzbergen was a foreign destination, requiring an additional postal charge to be applied. By 1900, the shipping contract had been taken over by the German ship *S.S. Auguste Victoria*. Violet hand-stamps were applied on the ship once the additional 10o was applied for mail to Germany. We offer two, on piece examples. Both depict the hunting of Polar Bears and show 1900 dated cancels. The 10o red larger format stamp is very uncommon and was in use for a short period, while the 10o brown was in use from 1896 to 1906. Interesting historical lot.

EMPRESS OF IRELAND

Empress of Ireland
Sunk 29 May 1914

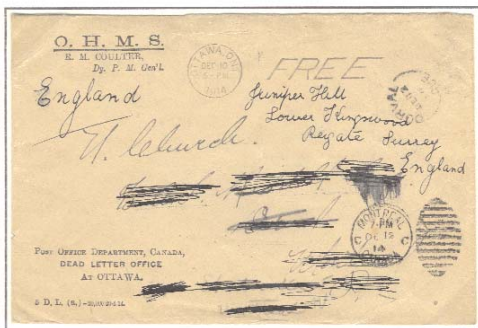

Total Mail carried by the *EMPRESS OF IRELAND* consisted of 169 letter bags, 298 sacks of newspapers and 32 baskets of parcel post items. It was 3 months later on 22 August 1914 when the first 24 bags of mail, mostly all parcel post and newspapers, were recovered. Severe weather stopped all salvage operations in September, with only 16 of the original 169

EMPRESS OF IRELAND cast off at 4:30 PM on 28 May 1914 from Montreal bound for Europe. After an uneventful journey down the St. Lawrence River, the ship departed ship off Point St. Pierre at 1:20 AM on 29 May. From here it was open waterway through the Gulf of St. Lawrence into the Atlantic Ocean. This area however is considered extremely hazardous to navigation during the spring with sudden storms and thick fogs developing quickly.

Less than a half hour later the *EMPRESS* was rammed in ferociously dense fog by the Norwegian collier *STORSTAD* resulting in a giant hole being opened starboard below the water line. Within 15 minutes one of the safest ships afloat lay beneath 150 feet of water and only 397 out of a total of 1475 persons aboard had survived.

EMPRESS OF IRELAND

Shown above is the "ambulance" cover used by the Ottawa Dead Letter Office to forward the salvaged letter displayed on the previous page. Apparently it had been returned to the sender "N. Church" at Montreal and from there forwarded to its original intended destination in Surrey England.

Authorities must have expected a greater number of letters would be recovered as 20,000 of these covers were printed for the project. Also it has been reported that a covering letter was prepared for inclusion with *EMPRESS OF IRELAND* salvaged mail, but if so, none have survived.

Approximately 4000 registered letters, most of it Bank of Montreal correspondence, was recovered from the wreck but only 49 were sufficiently intact for forwarding.

Newspapers which comprised the major portion of mail brought to the surface were found to be in extremely poor condition and were scrapped immediately upon receipt at Ottawa.

By February 1915 the Ottawa Dead Letter Office had completed salvage and forwarding feasible and closed the operation.

On 16 November 1914 the Canadian Salvage Association presented a bill of \$15,000 to the Dominion Post Office for its services in bringing up the sunken mail. This amount was outstanding until September 1915 when the Government remitted the amount of \$5000 along with a suggestion the company collect the balance from insurers of the *STORSTAD*.

EMPRESS OF IRELAND

Built in 1906 by the firm of Fairfield Company Ltd. at Glasgow Scotland for the Canadian Pacific Railway Company this 14,500 ton vessel was 550 feet long with a beam of 65 feet and a draught of 27 feet. Outfitted as a luxury liner the ship carried a complement of 420 crew members to serve approximately 1000 passengers on an average six day crossing of the Atlantic. An average speed of 20 knots resulted in its being one of the fastest luxury liners of its day.

R.M.S. EMPRESS OF IRELAND.

Following the 1912 *TITANIC* disaster the *EMPRESS OF IRELAND* was overhauled to provide full compartmentalization and totally refitted to exceed all new rigorous safety standards. Upon completion of these improvements along with installation of lifeboats to accommodate nearly 2000 persons it was considered one of the safest vessels afloat and carried the highest possible safety rating from Lloyd's of London.

Captain H.G. Kendall was considered to be one of the most competent masters in the Canadian Pacific fleet. With extensive refitting, a very experienced captain and a history of uneventful crossings, the *EMPRESS* was favored by most safety conscious travellers. This all changed on the night of 29 May 1914 in the Gulf of St. Lawrence when Canada's worst peace time sea disaster occurred.

EMPRESS OF IRELAND

Of approximately 20,00 letters originally aboard the *EMPRESS OF IRELAND*, most were never recovered. Those letters that were salvaged from the wreck were forwarded to the Ottawa Dead Letter Office for further processing.

By mid October 1914 all mail considered salvageable had been received at Ottawa and the difficult task of sorting it out began. Eventually only 2116 letters, roughly 10 percent of the original shipment, were able to be either forwarded or returned to the sender.

The cover shown indicates posting at Montreal on 26 May 1914 addressed to Surrey England. Stamped on the front is "Recovered by divers from the wreck of S.S. Empress of Ireland". As would be expected the postage stamp has been washed away.

On the reverse are two oval handstamps applied at the Ottawa Dead Letter Office. The one at the left in green indicating arrival 16 October 1914 and the other in magenta reflecting completion of processing and forwarding on 10 December 1914.

We have embraced modern technology as a valuable and effective means in which to enhance our auction listings. This five-page "Empress of Ireland" Exhibit (Lot 2038) represents how most of our cover lots will be represented on our on-line site. When appropriate, many covers will show additional scans of the reverse, and multiple scans when more than one item is found within a lot.

2068 ☒ **New Brunswick - 1858 Scarce Bisect Rate Cover to England.** Despite high demand, New Brunswick never issued a stamp to pay the often used 7.5d Trans-Atlantic rate which was introduced in August, 1854. As a result for six years residents who wanted to pre-pay letters to the "old country" had to pay cash, or, if using stamps, had to "bisect" a three penny stamp to make up the rate. Bisections were officially sanctioned for this purpose and also were occasionally tolerated when a lack of stamps of a required denomination were unavailable. This lot features a stunning envelope from the "Miss Smith" correspondence, dated November 29, 1858 with a pair of New Brunswick #1's with an additional bisect covering the 7.5d rate to Great Britain. The stamps are tied with St. John (#1) oval grid and back-stamped with St. John double-ring postmark. The cover is accompanied by 1995 RPS certificate, which notes stamps lifted and replaced and envelope cleaned. Part of the back-flap is missing and we mention this for the record. An important New Brunswick piece.

2090  **Bahamas - 1940 Original Sea Floor Expedition Cover.** What appears to be a rather mundane cover from this familiar underwater post office, found at Nassau's popular Sea Gardens, has a more substantial history. An example of one of the original covers, offered here, is one of only a few that were posted as such as part of underwater photographic pioneer, John E. Williamson's expedition. Posted to celebrate the 100th anniversary of the Penny Black, several promotional items were only prepared on the May 6th, 1940 date. .....**Un. \$600**

xLot 2309

2309 */© F Canada 34/47 - Victoria "Small Queen" Era. Impressive remainder lot of 51 singles, pairs and blocks with real depth. We simply graded all items as fine and did not factor in any premiums for never hinged or very fine items. A couple items may have been regummed, and a couple are unused without gum. Following owner's identification of shades, perforations and other varieties, our low-end catalogue value was well over \$2000. Great lot for further exploration.

.....**Est. \$600**

2310 © F-VF Canada "Small Queen" Calendar Collection. Calendar collection representing at least one 3c Small Queen (#37, 41) for every year between 1870 and 1897. The years 1883-97 have one for each month (total 180). The earlier years (1870-82) have 69 months represented. An old-time effort which has not been added to in about 30 years. We noted coloured cancels with many sock-on-nose strikes.

Each is found on a low denomination Jubilee issue (mostly the 3c value). The lot has been graded as fine-very fine, with many better and a few choice items. Well worth a visit.
.....**Est. \$125**

2315 * F Canada 50-60 - Queen Victoria Jubilee. Fresh collection of 1898 issue to the 50c value. Few better singles, however, most graded as fine. All with original, hinged gum, with 10c unused without gum and with short tear at bottom.

.....**Est. \$140**

2318 © F-VF Canada 85-86 - Commonwealth Map "Re-entries" Lot. Accumulation of 25 examples all with various plate position re-entries, unfortunately not annotated. There is some duplication of varieties, and the condition varies, however, most appear sound and fresh. Amazing contrast of shade within the issues.
.....**Est. \$250**

2319 © VF Canada 89-95 - King Edward VII Issue. Complete collection of 1903-1908 series with minor duplication and shade varieties. Noted are a stunning 2c value with brilliant colour and superb margins, a 5c value on whiter paper (Sc. 91b), three shades of the 7c value and the light/dark shades on the 10c and 20c values.
.....**Sc. \$328**

Many better singles and ALL unused.
.....**Sc. \$3,633**

2323 ** F-VF Canada - Classic Period NH Remainder Lot. Remarkable remainder lot of exclusively never hinged stamps. Typically fine or better with some minor duplication. .....**Un. \$931**

2328 © **F-VF Canada 104-138 - King George V "Admirals" Lot.** Essentially a complete collection with representatives from each of the eighteen issues. It quickly becomes obvious that there is a broader scope of material supplemented with coil pairs, imperf singles and war tax issues. Appears to be put together without attention being given to shades or wet/dry printing varieties. All the stamps appear sound and have been graded as fine-very fine, although better singles noticed.

.....**Est. \$175**

2329 © **F-VF Canada 104-138 - King George V "Admirals" Lot.** Ni ce lot with more attention appears to have been applied to varying shades and possibly wet/dry printing varieties, although we have not confirmed the latter. 2634 ** VF Germany 557/583 - Allied Occupation Zone "Large Multiples" Lot. This post office fresh, unused collection provides a tremendous opportunity for further study with respect to shade, printing and plate varieties. Most significant is the range of colour shades than can easily be seen in almost every denomination, including what may be some of the scarce printings listed in Michel catalogue and undifferentiated in Scott. The number of position plate blocks and notations may allow for numerous flaws to be located as denoted within Michel. Without taking these differences into account, the basic catalogue value is over €960, however, we believe that the true value could easily surpass €3000. Literally hundreds of stamps all in multiples.

Volume one - regular issues - has a value of €5006.86, however, we removed the "BERLIN" overprints from the total as we suspect that some of them (not all) have forged overprints. The semi-postals are found in volume two and have an owner's catalogue value of €1862.25. He was aware that the 1949 Berlin Bear souvenir sheet was a facsimile and was also not counted. - 2736 ** VF Primitive Art Topical Collection.** Absolutely incredible uncommon topical collection depicting Primitive Art. The collection is housed in three large 3-ring binders, with all stamps mounted in Hawid mounts. Almost entirely unused, never hinged with less than 1% used. The collection is basically broken into three regions - Latin America, Africa and rest of the world, with a few issues out of place. Majority from 1960's to 80's, but extends in both directions, with all sets seeming to be complete and in immaculate condition. Owner's Scott 2007 catalogue value just under \$2,000 US.

.....**Cv. \$1,879**

- 2737 ** VF Frama Labels Topical Collection.** Marvelous, worldwide collection of Frama labels in Lighthouse, hingeless album. Total of 403 all fresh and unused and appearing never hinged. About half are of European origin, while balance from Australia, Hong Kong, New Zealand, Papua New Guinea and Singapore. Very interesting lot.

.....**Est. \$250**

- 2738 ** VF Coins Topical Collection.** Stunning, large three volume collection with over 230 pages and all mounted in Hawid mounts. Virtually all never hinged, with very few used and 40+ first day covers. The collection has not been catalogued and one look will be evidence enough as to the overall quality of the collection. We did note Israel 1-9 and #16 (hinged), just to whet your appetite. Great opportunity for collector or dealer, with over 1450 stamps.

.....**Est. \$1,200**

- 2739 ** VF Space Topical Collection.** WOW factor on this impressive collection. The owner utilized the *Sieger Spezial-Katalog* for space issues, so many imperfs, proofs, and unlisted varieties found scattered throughout the collection, housed in five-volume Lindner album. All stamps mounted in Hawid mounts almost entirely unused, never hinged with very few used scattered throughout. We noted many sets and singles in \$50 range at a quick glance. Great for specialist collector or dealer.

.....**Est. \$1,600**

- 2740 */⊙ F-VF Worldwide - Royal Wedding Collection.** In depth collection of worldwide issues celebrating the Royal Wedding between Prince Charles and Lady Diana Spencer. Housed in five large volumes of all mint material which appears to be all never hinged, but may have occasional variant. Includes specimen overprints, unlisted colour varieties, first day covers and numerous souvenir sheets and miniature sheets. Great addition or foundation to a detailed collection.

.....**Sc. \$2,465**

- 2741 ☒ Worldwide "Scouting" Lot.** Another lot that slipped through the cracks and ended up with the lots and collections. We offer an unusual lot of philatelic Scouting items containing what appears to be two complete sets of Norman Rockwell Scouting first day covers from Liberia as well as about thirty packages of preprinted post cards made available during National Scout Jamboree in 1993.

.....**Est. \$75**

- 2742 ** VF Worldwide - 1976 Montreal Olympic Games Collection.** Fresh selection in 32-page stockbook covering international commemorative issues. Great topical collection from Afars and Issas through to Wallis and Futuna. All stamps are very fine and never hinged appearing to be in complete sets. Approximately 460 stamps and souvenir sheets in total.

.....**Sc. \$739**

- 2743 ** VF Worldwide - 1981-1982 Charles and Diana Royal Wedding Collection.** Fresh selection in 32-page stockbook covering international commemorative issues. Great topical collection from Aitutaki to Vanuatu. All stamps are very fine and never hinged appearing to be in complete sets. Approximately

270 stamps and 42 souvenir sheets.

.....**Sc. \$517**

- 2744 F-VF Worldwide - Omnibus Collection Album.** Very interesting lot of issues representing numerous omnibus series issued between 1946 (Peace Issue) and 1967 (Montreal Expo). The bulk of the issues are from the British Commonwealth and are mostly unused and hinged into the album. General campaigns of a more global relevance are also represented (ie Freedom from Hunger), by non-Commonwealth countries. It is assumed that no series is complete. We did a quick check on the 1949 UPU anniversary series and believe that only the French New Hebrides are missing.

.....**Est. \$200**

xLot 2745

- 2745 Worldwide "Wildlife" Topical Collection in 23 Albums.** Incredible collection neatly mounted on album pages of primarily modern, fresh complete sets. Vast majority of stamps are never hinged. Completely international from Afars and Issas to Zimbabwe. This topical collection is very well supported with souvenir sheets, proofs, imperf varieties, and first day covers. We noted many of the high value World Wildlife Fund issues and some of the better items have certifying backstamps. The owner's catalogue total was produced a couple of years ago, and many are aware of the dramatic increases seen across the board on hard-to-find modern, topical material. Definitely not the type of material seen very frequently. Please note you will need to buy a bookshelf at your local furniture store as well !

.....**Cv. \$29,483**

- 2746 Europa - Never Hinged Collection on Lindner Pages.** The increased demand for this material over the past decade has seen a dramatic increase in prices. We offer a fresh collection on album pages which is about 60% complete, covering period 1956-1973. All are apparently never hinged and have an owner's Scott catalogue value.

Of approximately 20,00 letters originally aboard the *EMPRESS OF IRELAND*, most were never recovered. Those letters that were salvaged from the wreck were forwarded to the Ottawa Dead Letter Office for further processing.

By mid October 1914 all mail considered salvagable had been received at Ottawa and the difficult task of sorting it out began. Eventually only 2116 letters, roughly 10 percent of the original shipment, were able to be either forwarded or returned to the sender.

The cover shown indicates posting at Montreal on 26 May 1914 addressed to Surrey England. Stamped on the front is "Recovered by divers from the wreck of S.S. Empress of Ireland". As would be expected the postage stamp has been washed away.

On the reverse are two oval handstamps applied at the Ottawa Dead Letter Office. The one at the left in green indicating arrival 16 October 1914 and the other in magenta reflecting completion of processing and forwarding on 10 December 1914.

Shown above is the "ambulance" cover used by the Ottawa Newspapers which comprised the major portion of mail Dead Letter Office. The cover was used by the Ottawa Newspapers which comprised the major portion of mail Dead Letter Office. We have embraced modern technology as a valuable and effective means in which to enhance our auction listings. This five-page "Empress of Ireland" Exhibit (Lot 2038) represents how most of our cover lots will be represented on our on-line site. When appropriate, many covers will show additional scans of the reverse, and multiple scans when more than one item is found within a lot.

Built in 1906 by the firm of Fairfield Company Ltd. at Glasgow Scotland for the Canadian Pacific Railway Company this 14,500 ton vessel was 550 feet long with a beam of 65 feet and a draught of 27 feet. Classified as a luxury liner the ship carried a complement of 420 crew members to serve approximately 1000 passengers on an average six day crossing of the Atlantic. An average speed of 20 knots resulted in its being one of the fastest luxury liners of its day.

Following the 1912 TITANIC disaster the *EMPRESS OF IRELAND* was overhauled to provide full compartmentalization and totally refitted to exceed all new rigorous safety standards. Upon completion of these improvements along with installation of lifeboats to accommodate nearly 2000 persons it was considered one of the safest vessels afloat and carried the highest possible safety rating from Lloyd's of London.

Captain H.G. Kendall was considered to be one of the most competent masters in the Canadian Pacific fleet. With extensive seafaring, a very experienced captain and a history of successful crossings, the *EMPRESS* was favored by most safety conscious travellers. This all changed on the night of 29 May 1914 in the Gulf of St. Lawrence when Canada's worst peacetime sea disaster occurred.

At 11:30 AM on May 29, 1914, the *Empress of Ireland* departed ship off Nova Scotia at 11:30 AM on May 29, 1914. From here it was open waterway through the Gulf of St. Lawrence into the Atlantic Ocean. This area however is considered extremely hazardous to navigation during the spring with sudden storms and thick fogs developing quickly. Less than a half hour later the *EMPRESS* was rammed in fatally dense fog by the Norwegian collier *STORFJORD* resulting in a giant hole being opened starboard below the water line. Within 15 minutes one of the nation's ships lay beneath 150 feet of water and only 397 out of a total of 1475 persons aboard had survived.

Total Mail carried by the *EMPRESS OF IRELAND* consisted of 169 letter bags, 298 sacks of newspapers and 32 baskets of parcel post items. It was 3 months later on 22 August 1914 when the first 24 bags of mail, mostly all parcel post and newspapers, were recovered. Severe weather stopped all salvage operations in September with only 16 of the original 169 letter sacks recovered.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

TERMS & CONDITIONS

(Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, a CD, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com.

Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

11. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.

b) Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.

b) Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are encased in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

Overseas:

a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.

b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

About Bidding

Please bid using these increments.

(All bids are in Canadian dollars.)

\$1 - \$20	\$1	\$1600 - \$3000	\$100
\$22 - \$40	\$2	\$3200 - \$7000	\$200
\$45 - \$150	\$5	\$7500 - \$15,000	\$500
\$160 - \$300	\$10	\$16,000 - \$30,000	\$1,000
\$325 - \$750	\$25	\$32,000 - \$50,000	\$2,000
\$800 - \$1500	\$50	above \$50,000	\$5,000

1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay your top (maximum) bid if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go many of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

9) We have a section of "floor lots" which are impractical to ship. However in keeping with our policy of offering the best service anywhere we have arranged for Ottawa-area collectors to provide the shipping of any "floor lot". Arrangements have to be made well in advance and there will be a charge for labour, materials, and postage. These charges will have to be agreed to in advance and must be paid by credit card. The collector who will ship the lot will then bid for you on the "floor lots" of your choice.

Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, a CD, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com.

Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

11. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.

b) Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.

b) Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are encased in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

Overseas:

a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.

b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

About Bidding

Please bid using these increments.

(All bids are in Canadian dollars.)

\$1 - \$20	\$1	\$1600 - \$3000	\$100
\$22 - \$40	\$2	\$3200 - \$7000	\$200
\$45 - \$150	\$5	\$7500 - \$15,000	\$500
\$160 - \$300	\$10	\$16,000 - \$30,000	\$1,000
\$325 - \$750	\$25	\$32,000 - \$50,000	\$2,000
\$800 - \$1500	\$50	above \$50,000	\$5,000

1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay your top (maximum) bid if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go many of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

9) We have a section of "floor lots" which are impractical to ship. However in keeping with our policy of offering the best service anywhere we have arranged for Ottawa-area collectors to provide the shipping of any "floor lot". Arrangements have to be made well in advance and there will be a charge for labour, materials, and postage. These charges will have to be agreed to in advance and must be paid by credit card. The collector who will ship the lot will then bid for you on the "floor lots" of your choice.

How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at **www.stampauctionnetwork.com**

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. There is also a practice auction (Droege Computing) you can use to see what the screens look like and how the system performs.

Once you have been registered and approved by us, you can:

Place Bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted.

Bid Live by watching action on-screen and clicking the button with the amount of your next bid (the next six increments over the current bid are shown).

Watch The Auction by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer.

More detailed information about internet live bidding will be made available on **sparks-auctions.com**. We will provide you with step-by-step instructions on registering, and direct you to more resources. Stamp Auction Network has a very comprehensive Help section, including frequently asked questions.
