WHAT IS IN THIS AUCTION

The overwhelming first impression of this sale is its sheer physical size; hundreds of albums in rows on shelves; many storage units filled with cartons which are in turn filled with collections, postcards, envelopes, stamps in bundles, stamps organized in glassines, "102" cards, stockbooks, Post Office new issues, postal artifacts, and more stamps. We have spent hundreds of hours describing these lots – and we have described them fairly and in a consistent manner. The overall quality is quite high for this great mass of philatelic collectibles that are the property of several dozen estates and collections.

Some of the bulk lots have a retail value well in excess of \$10,000, others are estimated to be worth less than the cost of shipping. Most fall somewhere in between. We do know that thorough viewing will be rewarded because there will be hidden treasures.

While the body of the auction occupies hundreds of square feet, its heart is in the vaults - interesting postal history, superb stamps, items that are scarce, rare or even unique, Valuable stamps and covers are found throughout the catalogue.

We make special note of some exceptional items in each session.

The exceptional collection of South West Africa has many rarities. A personal favorite is the used 10/- block from the first setting with two WESI errors. The Sparks catalogue will serve as a reference for the scarce items for decades to come. The rest of British Africa is of interest with Mafia Island and East Africa among the features.

The second session has a number of lots with essays, proofs and other artwork for stamp issues which are both fascinating and very rare, often unique.

The Canada and BNA sessions have numerous exceptional lots. Lovely Pence issues are complemented by the interesting group of half-pennys which include a pair and two lots with an imperforate and perforated half-penny with the same major re-entry. The Large Queen section of 61 lots is strong with mints, blocks and re-entries and includes what is believed to be the largest mint multiple of the watermarked Three cent value. The Small Queens through to the Quebecs offer many stamps of exceptional quality as well as interesting items for the specialist. The 68 lots of the Admiral Issue will fill many holes for discriminating collectors who have been searching for just the right stamp for their collection.

Large Die Proofs and great rarities are featured in the later KGV and QEII Issues. We note a missing hologram full sheet, a very rare imperforate between booklet, the Missing Moose, and the 1998 Christmas perf change matched set of plate blocks. The Registration issues include lovely re-entries and a strong Precancel section is high-lighted by an Amherst on the 4¢ Admiral.

Nova Scotia features a mint #1 and a superb three penny. One of the most exceptional items in the sale is a mint Newfoundland two penny scarlet vermilion, very fine with huge margins.

Session Five has wonderful postal history, much of it from collector/dealer Roger Greer's collections of Nova Scotia. Several lovely pence and 1859 covers are highlighted by a ten penny cover; a ten cent rate to Sweden and a gorgeous six penny cover are highlights of the Large Queens. British Columbia, New Brunswick and Nova Scotia all have at least one cover waiting for a Gold Medal Exhibit. Newfoundland has a magnificent De Pinedo cover, a Columbia cover and a diagonally bisect eight penny cover. Over 350 lots of foreign covers, cover lots and postcards have numerous items awaiting a place in your collection.

We have referred elsewhere to the Sixth Session of lots and collections. One collection of Large Queens has a catalogue over \$47,000. We invite you to view this and to note how few stamps have short perfs. A similar story can be told many, many times for the 486 lots in this session.

IMPROVEMENTS TO THE CATALOGUE

The inaugural catalogue was well-received. Since then we have increased the scanned images to 1200 dpi. This means you can look at a single stamp, zoom in and blow it up to full screen size on your computer. We have substantially increased the number of scans. Many of these are scans of full pages from collections. More than 2000 scans which are not in the catalogue can be found on our website. We have retained the font and general layout and have made subtle improvements. We have changed the paper to ensure that it is easy to write on and to facilitate the binding.

The lower weight makes it eligible to be sent as lettermail. This in turn means that we can put stamps on the envelope sent to you.

Significantly more people will receive this catalogue than was the case with our first auction.

IMPROVEMENTS TO SPARKS AUCTIONS

We were the first Canadian auction house to use the live internet bidding capabilities of StampAuctionNetwork.com. It was a steep learning curve, but we are confident it provides an enhanced auction experience to our customers.

We followed the advice of experience in placing reasonably high "opening bids" on the internet. These were not reserves, but there was understandable confusion when some lots were opened on the floor below the "opening bid". For this auction, opening bids will start at one dollar.

Kate Winsor accepted the position of Auction Manager. Her efficiency, organization, and calmness have made a huge difference in the preparation of this auction.

An alphabetical list of describers for this auction are Stephane Cloutier (postal history especially Canadian, France, lots and collections), David Giles (lots and collections), Danny Handelman (foreign postal history, artifacts), Ian Kimmerly (all types of lots), Guillaume Vadeboncoeur (all types of lots.), Kate Winsor (lots and collections etc.). Chris Green and Brian Wolfenden also contributed. All descriptions were audited by a team member. The describers used a template but different styles (eg see lots 1218 and 1219) are evident. Those who follow auction descriptions closely will notice a distinctly different style in our written descriptions in this catalogue.

South West Africa

The 67 lots offered in this section all come from one collection and were originally mounted for Exhibition. The collection is intact. The phrase "buy it now because you may not see it again" is sometimes overused but certainly applies to this collection. We have checked back over several decades through all the great British Commonwealth collections offered at auction. We found only the Spink sale of primarily mint South West Africa to compare with the rarity of what is offered here. More scans (75 pages) can be found at www.sparks-auctions.com.

- 1340 E/P #320DP 1953 Composite Die Proof**. We surmise it is the work of an apprentice working with lines and shading to produce sketches and two vignettes, one of a weaving loom and the other which resembles a progressive Die Essay similar to the 1952 Canada goose stamp without Canada or denomination. If our analysis is correct it leaves open the question of whether the goose is a progressive Die which was impressed onto the working surface as a guide for the apprentice. The fact that the image has been defaced supports this hypothesis. The other possibility is that the apprentice copied the stamp. It is dated June 23, 1953. In any event a Die Proof was pulled. As a Die Proof with both philatelic and other images from an engraver, this might well be unique to Canadian philately. Ex. Bruce Hay estate, fine-very fine and a fascinating item.

☉ Used (includes full range of postally used, cancel-to-order, precancels)
XF Extremely Fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not applied for modern stamps. The term "Superb" is occasionally used as an adjective in the text of a description.
VF A stamp in superior condition which is well-centered and without fault.
FVF Applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
F(ine) Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.

TERMS & CONDITIONS

(Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

11. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

- a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are encased in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

Overseas:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$1 - \$20	\$1	\$1600 - \$3000	\$100
\$22 - \$40	\$2	\$3200 - \$7000	\$200
\$45 - \$150	\$5	\$7500 - \$15,000	\$500
\$160 - \$300	\$10	\$16,000 - \$30,000	\$1,000
\$325 - \$750	\$25	\$32,000 - \$50,000	\$2,000
\$800 - \$1500	\$50	above \$50,000	\$5,000

1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:

www.stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We need to confirm your account before you will be able to place bids with us. For faster bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account.

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Bid Live by watching action on-screen. The Message window will tell you which lot is being offered, what the current bid is, and if it is approaching Last Call. Click the button

with the amount of your next bid (the next six increments over the current bid are shown). When an item is sold, the hammer price is announced. **The page will refresh more quickly if you click the Hide Images button.** If you are not bidding, close the window to reduce traffic on the site for others.

Watch The Auction by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer. (Audio requires a PC and Internet Explorer; you may be asked to install an ActiveX control the first time you connect.)

Some Bidding Tips

Bid Early Do not hesitate to press the button for the maximum amount you are willing to pay. This is comparable to keeping your hand up on the auction floor. The bidding will only reach your maximum if a bid is received for the increment below (ie., an underbid).

Listen To The Auctioneer Use audio so you can hear the auctioneer. You will know where the bidding is, and have a better sense of whether an item has reached Last Call.

Pass When You Are Done If you have been actively bidding on an item and wish to drop out, **PLEASE PRESS THE PASS BUTTON.** If you do not, the whole auction is delayed.
