Lots & Collections

**Exceptional Items** There are exceptional items in every session. Please take time to study the catalogue thoroughly. We invite you to participate in our auction.

**Rarity** Each of our auctions has had an increasing number of stamps or philatelic items of great rarity. Last auction we offered a Newfoundland 1857 Two Penny; in this auction we can offer two of these rarities, also a unique pair of the Four Penny and two of the One Shilling Orange.

**Quality** Collectors not only have different interests but have different criteria for quality. It is a real pleasure to describe stamps of high quality. We are especially looking for future consignments of high quality material.

**Quantity** Last auction we started with an editorial including a paragraph about how bulky the sale was. We had to purchase 28 new full-sized bookshelves to hold auction lots. This auction is even bulkier. We will try to add enough extra shelves so that we do not need to add more bookshelves. There were great bargains in the Lots & Collections last auction and the same will be true in Auction #3.

**Bidding Increments** We have made changes to the bidding steps at the lower level of increments. This should speed up the auction. Increments are listed on the bid sheet and on our site.

**Descriptions** We attempt to have accurate and consistent descriptions for all lots from the great single rarities all the way down to the carton of "junk." This means many more hours needed to catalogue and describe collections and bulky lots. Descriptions are then audited and where necessary corrected. Sparks Auctions is interested in hiring collectors who would like to try their hand at auction descriptions on an "as-needed" basis. We invite your expression of interest.

**Opening Bids** Opening bids on StampAuctionNetwork will show as \$1 whether there are no bids or one bid. A second bid on the same lot will result in a posted starting bid one increment higher than the underbid. Our experience is that nowadays most lots show only one dollar as the opening bid until about 24 hours before the auction begins.

**Live Internet Bidding** We are the first – and still the only – Canadian auction house to use the live internet bidding capabilities of StampAuctionNetwork.com.

**Consignors** We thank our many consignors for their confidence in Sparks Auctions. We solicit consignments of any size for future auctions.

**Scanned Images** We scan images at 600 dpi and 250% of their original size. This means that the expanded scans for single stamps on our site will allow the viewer to zoom in at full screen size on most computer displays. Many scans which are not in the catalogue can be found on our website.

**Going Green** We expect that with greater use of the internet, our printed catalogue will become increasingly unnecessary, since the auction lots and prices realized can be seen on [www.sparks-auctions.com](http://www.sparks-auctions.com), and on StampAuctionNetwork.com. We can also record your interests and make sure you receive regular updates and special e-mail listings so that you are certain not to miss any important news. Please let us know if you no longer need the catalogue.

- o.g.** Original Gum (p.o.g.= part original gum)
- ☉** Used (includes full range of postally used, cancel-to-order, precancels)

- VF** A stamp in superior condition which is well-centered and without fault.
- FVF** Applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
- F(ine)** Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. The 24 lots of Flag Cancels (Lots #1006-1023, 1072-1077) are from one of the best collection of Admiral era flag cancels ever formed. The individual assembling this collection understood how rare some of these cancels are, and he helped set many record realizations in obtaining his better items. Some of these previous realizations are provided for information purposes, but generally the more conservative values shown in the 2007 edition of the Coutts' Slogan Postmarks of Canada catalogue have been used for valuation. These lots are a great opportunity for anyone interested in or contemplating collecting this most interesting and challenging field of Admiral postal history.

## TERMS & CONDITIONS

(Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

### SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

#### Within Canada:

- a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

#### To the USA:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are encased in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

#### Overseas:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2009 Scott Catalogue Volumes 1 through 5

many lots from countries J-O and P-Si were catalogued by 2008 Scott.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

### About Bidding

**Please bid using these increments.  
(All bids are in Canadian dollars.)**

<b>\$2 - \$30</b>	<b>\$2</b>	<b>\$1600 - \$3000</b>	<b>\$100</b>
<b>\$35 - \$100</b>	<b>\$5</b>	<b>\$3200 - \$7000</b>	<b>\$200</b>
<b>\$110 - \$250</b>	<b>\$10</b>	<b>\$7500 - \$15,000</b>	<b>\$500</b>

<b>\$800 - \$1500</b>	<b>\$50</b>	<b>\$32,000 - \$50,000</b>	<b>\$2,000</b>
		<b>above \$50,000</b>	<b>\$5,000</b>

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

## How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:  
**[www.stampauctionnetwork.com](http://www.stampauctionnetwork.com)**

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We need to confirm your account before you will be able to place bids with us. For faster bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account.

Once you have been registered and approved by us, you can:

**Keep track of lots you are interested in, and place bids on-line at any time before the auction begins.** This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

**Bid Live by watching action on-screen.** The Message window will tell you which lot is being offered, what the current bid is, and if it is approaching Last Call. Click the button

with the amount of your next bid (the next six increments over the current bid are shown). When an item is sold, the hammer price is announced. **The page will refresh more quickly if you click the Hide Images button.** If you are not bidding, close the window to reduce traffic on the site for others.

**Watch The Auction** by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer. (Audio requires a PC and Internet Explorer; you may be asked to install an ActiveX control the first time you connect.)

## Some Bidding Tips

**Bid Early** Do not hesitate to press the button for the maximum amount you are willing to pay. This is comparable to keeping your hand up on the auction floor. The bidding will only reach your maximum if a bid is received for the increment below (ie., an underbid).

**Listen To The Auctioneer** Use audio so you can hear the auctioneer. You will know where the bidding is, and have a better sense of whether an item has reached Last Call.

**Pass When You Are Done** If you have been actively bidding on an item and wish to drop out, **PLEASE PRESS THE PASS BUTTON.** If you do not, the whole auction is delayed.

For more tips on bidding, see our website instructions:
