This Sale

Once again, this is quite a well-rounded sale. All those who are associated with the auction appreciate the support and encouragement we have received.

In a departure from our usual practice, I will focus on about ten items which appeal to my own collecting instincts.

Four from early Canada section are:

The ten penny Cartier has a red postmark which complements the colour of the stamp (Lot 11); the pair of 12½c Large Queens is delightful (49); The two cent Small Queen with major re-entry would get a strong bid from me if I still collected this issue (62); and the ten cent Leaf issue with dated cancel is rare in this quality (143).

There are numerous fresh immaculate extremely fine stamps especially in the Admirals. The Inverted Seaway is a great stamp but I could never afford it as a collector (425) however two lots later is a Large Die Proof which appeals as a unique collectable (427). The auction continues with many rare and great stamps but my tastes are a bit quirky because I skip them and next come to Lot 729 a full pane of Antigua five shillings, followed by Western Australia deep colour centered Swan (752). Again there are many tempting items in the Commonwealth section.

The dominant item in the Worldwide is the section on Bolivia. Despite some condition problems with some lots, this group as well as the stampless covers and later collections appeal as an opportunity to get a really good start with many rarities. The four lots of Iceland offer rarity and quality (999-1002).

There are many interesting and appealing lots in Postal history but to pick just one, I would concentrate on the Henry Hechler collection (1231).

The final session also offers many opportunities. If there is one thing I've learned in talking with thousands of collectors, it is unlikely that any two collectors would have the same list of 10 favourites.

This auction catalogue has an improved layout. Most lots will be described immediately below their illustrations. For space reasons some descriptions will be a little further down the page or on top of a right hand page. We think this feature will be much appreciated by our bidders.

- ⊙** Used (includes full range of postally used, cancel-to-order, precancels)

- VF** A stamp in superior condition which is well-centered and without fault.
- FVF** Applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
- F(ine)** Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. The Admiral Issues

- 219 E/P #104 Group of four 3c king George V "Admiral facing Right" essays**, all from top of sheet with selvage and in blue, green, red and black. Printed on thick gummed paper and with image large than approved stamp. Very fine and desirable group.

One of the reasons for the popularity of Canadian stamps is that for more than a century all stamps (with the notable exception of the 1898 "Map" stamps) were produced by a process called engraving.

The process starts with a block of softened steel onto which a skilled craftsman uses a graver to etch the design. Once the design is finished, the Die is used to print one of more proofs to check for flaws. This master die is then hardened and a small number (usually up to six) Die Proofs are "pulled" or printed. A soft steel transfer roll is rocked into the master die, then hardened, then used to make the printing plate. Once the printing plate has been "laid down" it is ready for use. Often one or more sheets of plate proofs, sometimes in trial colours, are printed from the plate.

Just as plate proofs often look fresher with a sharp impression and often have deeper colour than the issued stamps, Die Proofs are two generations of the process closer to the original than a plate proof. Die Proofs are significantly scarcer than plate proofs. This set of Jubilee Die Proofs is very rare and might be unique as a set in private hands.

If you let this opportunity to buy the set pass, it might be decades before the next time it becomes available.

- 771 ☉ #1/477 1865-1985 Extensive used collection, on printed album pages, the country complete to 1985 except a few Queen Victoria and the keyplates of KGV and KGV1. Of the keyplates there are a few counted but most have fiscal cancels including KGV 12sh6d (3) and 10sh (Scott #96 and 97). We noted faults on #6, 12, 12a, 13 and also 69 which is stained. In cataloguing the collection we have not checked owner's identification. A feature of the collection is the duplication of QEII low values with lovely cds cancels from different Post Offices (eg. one page has 14 of #465 all VF on piece with full strikes of the 14 different Post Offices). Also there are a few covers (1936 FDC, Paquebot, censored) and a few mint hinged and used at the end not counted. Overall (except as noted) the condition is very fine with extra value in different postmarks. The proceeds from this collection will go to the Winnipeg Art Gallery.

When was the last time you saw 3 full sheets of Scott #1 of a country from the classic imperforate period?

These plus many others from the 1867 "Condor" issue are offered in this auction. Lots 918-950 and also Lots 1275-1279 come from one collection consigned from a collector in the southern U.S.A.

We asked a few people if there was anything else available from this large but relatively remote country. Two collections which complement, rather than duplicate, the original collection (lots 1515 & 1516) are offered.

Even if you do not wish to bid on these, the opportunity to view them should not be passed up.

We would love to feature your strong collections of any country in our auctions. It is fun to sell exceptionally rare stamps at a tiny fraction of the price of a similarly rare stamp from the U.S.A. or even Canada. In these cases demand trumps rarity when setting a market price.

Signed John Boker. The stamp is fresh. Also being offered but this "as is" is the 100c value discoloured and stained which was sold as genuine in a reputable public auction and has a Horowitz handstamp. TERMS & CONDITIONS

(Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). There are no additional fees for payment by credit cards if information is provided at time of bidding, otherwise an additional fee of 2.5% will be charged for credit card payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged applicable Ontario Retail Sales Tax and Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

- a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are encased in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

Overseas:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$2 - \$30	\$2	\$1600 - \$3000	\$100
\$35 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
		above \$50,000	\$5,000

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:
stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We need to confirm your account before you will be able to place bids with us. For faster bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account.

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Bid Live by watching action on-screen. The Message window will tell you which lot is being offered, what the current bid is, and if it is approaching Last Call. Click the button

with the amount of your next bid (the next six increments over the current bid are shown). When an item is sold, the hammer price is announced. **The page will refresh more quickly if you click the Hide Images button.** If you are not bidding, close the window to reduce traffic on the site for others.

Watch The Auction by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer. (Audio requires a PC and Internet Explorer; you may be asked to install an ActiveX control the first time you connect.)

Some Bidding Tips

Bid Early Do not hesitate to press the button for the maximum amount you are willing to pay. This is comparable to keeping your hand up on the auction floor. The bidding will only reach your maximum if a bid is received for the increment below (ie., an underbid).

Listen To The Auctioneer Use audio so you can hear the auctioneer. You will know where the bidding is, and have a better sense of whether an item has reached Last Call.

Pass When You Are Done If you have been actively bidding on an item and wish to drop out, **PLEASE PRESS THE PASS BUTTON.** If you do not, the whole auction is delayed.
