THIS SALE

We are excited about the future!

Right after this auction we begin our move to a new location (see page 177 for more details). Parking for our customers, a modern office building and a dedicated auction room hold promise for continuing an upward trend of busier and more valuable sales.

A few weeks later we will open an office in Western Canada. Victoria has a strong and vibrant philatelic community and we want to contribute to that activity.

We continue to add expertise and experience to our auction team. As collectors and exhibitors we have won Gold Medals. Most of us have contributed locally and nationally to organized philately as Editors, Presidents, or Chairmen of Societies, Clubs and Stamp Shows. Several are accredited and respected philatelic Judges. We welcome and encourage new talent.

We now have the capability to hold three auctions annually on a regular schedule as well as the flexibility to offer one-owner or other specialized auctions. In future our auctions will be scheduled for winter, spring, and late fall. This will permit us to impose and adhere to firmer consignment deadlines.

Our daily contacts with fellow collectors give us important feedback. What we hear and experience is the phenomenon of lapsed collectors returning to their hobby, while continuing collectors add new interests.

Sparks continues to mark new milestones with more than 100 consignors to a single auction. Our last auction resulted in 309 successful buyers. Equally importantly, we had a much higher number of unsuccessful bidders who help our realizations with underbids. Our internet bidders have increased significantly, resulting in stronger realizations. We continue to be one of a small minority of firms which does not own the material offered. We also continue our policy of not starting the bidding at artificial "opening" bids.

Keen and observant collectors will note in this auction several dozen lots which were offered in our last sale. A few of these are re-offered because two large buyers from Sale 14 did not pay and did not return phone calls or emails. As disappointing as this was, we like to show confidence and trust in our bidders and are proud to say that such situations are a rarity.

This editorial is supposed to extol the virtues of the gems and rarities being offered. Because of space limitations the stamps will have to shout out their glories themselves. And they do.

Happy stamping!

Ian Kimmerly,
President

Lot 1 The Cyril Currier Collection

* / ☉ #1/400 1851-1962 Collection in Three Small Ledger-Style Albums

In 1976 when I was a stamp columnist for the Ottawa Citizen, I received a phone call from Cyril Currier to correct an omission in an article about early Ottawa Postmasters. The record of his grandfather's tenure as Postmaster was nowhere to be found. He invited me over to his flat — a rather bleak small unit over a building housing a number of retail stores on Bank St. Cyril was 95 years old and at the time I hoped that if I lived to his age I could do so in more comfortable surroundings. This would not have been part of the story except I recently found out that Cyril owned the whole building.

We had a very pleasant talk and I was told many details of his early childhood which spanned the time of his grandfather's (Joseph Merrill Currier) tenure as Postmaster of Ottawa from 1882-84. Cyril was born and raised on the south side of Wellington St between what is now Bank and O'Connor streets. Next door to the Currier house was a small building housing Ashbury College which he attended. This area was later demolished for the construction of the massive Sun Life building which is now the South Block of Parliament Hill. Some of Cyril's early memories were of playing at his grandfather's house - 24 Sussex Ave., now the home of the Prime Minister.

The next day, a Monday, I boldly walked into the Ottawa Post Office, talked with the receptionist who suggested someone who could help and within a few minutes had complete access to the payroll ledgers of the 1880s. Needless to say Cyril was correct. When his grandfather was appointed Postmaster, the salary doubled, only to be substantially reduced when the next Postmaster took over.

The pence issues include a decent four margin number one, five of the three penny beavers on wove paper, two half-pennys, one unused no gum, both with faults and a faulty six penny no. 10. The 1859 issue contains a number of nice stamps: One cent has 7 used and two mint with o.g.; five cent has two covers, two unused no gum, and 13 used; the ten cent has five; twelve and a half three, seventeen two stamps and four of the two cent value.

The Large Queens are represented by more than 30 stamps which include six unused no gum - a two cent, two of the scarce three cent value and a six cent. The used Large Queens include a scarcer variety of the six cent with a 4 ring 20 postmark. The Small Queens are fairly numerous and include two well-centered very early printings of the three cent unused no gum. The 1897 Jubilees have a mint set from the half cent to the one dollar as well as a number of used including a smudged cancelled five dollar with small faults.

The later Victoria issues are well represented in used along with a few mint items, the best being a pair of the 1898 eight cent. The Edward issue is found primarily in used but the 1908 include a mint set as well as complete used. Both the Jubilee set to the dollar and the Quebec set were very likely purchased by Cyril at the Post Office. The Quebec set is the last issue which is well represented by mint stamps. The collection is reasonably complete to 1962 with many stamps duplicated (for example the 1893 Widow Weeds with about 15 of the 20 cent and 25 of the 50 cent, another 25 of the 1898 twenty cent etc.- these particular ones often heavily cancelled). The collection also includes revenues with several pages, one of which is the first Bill issue as well as some BNA including New Brunswick #1 times 2 and a few nice Newfoundland including a used #3. A few dozens Commonwealth including early India are included.

This is an old-time collection and faulty stamps are included as was the practice of the time. A careful inspection of all three albums is necessary to find all the value. Except as noted generally fine. —Ian Kimmerly

Die Proofs

The following 35 lots come from one consignment. A former employee of British American Bank Note Company was tasked with identifying a number of Die Proofs which were appropriate to being enlarged and framed to serve as decorations in the offices of the firm. The Die Proofs were cut out of the Archival Log Book of BABNCo. and the manuscript notations refer to the percent of enlargement. Most are struck on coated paper and embossed. Any paper faults are noted as is the size of the embossing.

Addressed to Montreal with AU 22 1854 backstamp. Interesting contents regarding shipping, shedding light on the challenges of the day - "I lost the main top mast but had no other accident. The crew are all by the ship but I am afraid that I will lose some of them before I leave."

..... **Est \$120**

- 1304** ✉ **1847 Stampless Transatlantic Letter Quebec to Upper Normandy France**, rated with script "55" notation. Hand-stamped with multiple PAID markings. Contents indicate the letter was drafted on 18 DEC 1846. It bears no Canadian postmarks, but shows clear Manchester JA 18 1847 double split-ring and PAID 19 JA 19 1847 cds of London. From thence it travelled to Calais (20 JANV 47), Abbeville (21 JAN 47), and finally its destination in Upper Normandy (Seine Inférieure). The contents indicate the letter was written by the Mother Superior of the Canadian Branch of the "Chanoinesse régulières hospitalières de la miséricorde de Jésus," a French Catholic religious order. The letter includes three pages of contents, almost entirely readable. An attractive item, in very fine condition, and of historical interest.

- 1375** ☒ **#90 1905 Cover 2c KEVII Used In France Postage Due Redirected to Gibraltar & Italy**, franked with 2c KEVII, tied by grid cancel and Menton 13 FE 05 cds, which also ties two French postage due adhesives (themselves affixed next to two Italian postage due issues). Addressed to "Miss Mabel (?) (of Montreal Canada)" c/o Cook & Sons in Gibraltar. Redirected from thence to the "Pension des Anglais" Rome, Italy, an address also added several times to the back of the cover, amidst numeral postmarks including Gibraltar, Cadiz, and Rome, as well as the Naples Office handstamp of Thomas Cook. Given the addressee is identified as being "of Montreal, Canada," and the return address is to a hotel in Menton, it seems likely that the sender was also a Canadian who happened to have a 2c KEVII stamp on hand, which they attempted to use to frank the cover. This was not acceptable to the French post office, who added the two postage due issues. While the cover did eventually arrive in Gibraltar, the addressee was evidently no longer there, and the cover was redirected onwards to the new address at the Pension in Rome, where it seems to have eventually arrived, having traveled through southern Europe via Cadiz, Spain. A striking and unusual cover!

1646 **⊙ #15/465B Hoard of Thousands of Used Stamps 1859-1967.** In 5 stockbooks and 7 stock pages. This accumulation concentrates on the Small Queens through the Admirals. These represent in both quantity and value about 95% of the catalogue value. One exception outside this period is at least 23 #158 the 50 cent Bluenose (one stock page with 19 about half with cds). Within the 1870-1926 group expect few pleasant surprises, very few high values, some mixed condition but generally fine overall.

1648 ***/**/⊙ #21-2144 Collection in 3 Huge Binders 1868-2006.** All mounted on large pages showing a mint and used of Unitrade listed items. Many varieties especially in the Victorian period were found in both mint and used and added to the collection. The scans of this lot include only a few of the early pages. In later issues mint and used blocks as well as booklet panes again mint and used an in later years full mint sheets are often found so total face value is considerable. The used keeps up with the mint in the latter decades of this collection. The back of book is impressive with F1-F3 mint and used a strong showing of Officials including 5 holes (35 different - 0A175, 0A176 etc.) 4 hole stronger than 5 hole, overprints apparently complete noting 6a, hundreds of precancels etc. We catalogued front of the book 1868-1930 at \$43,448, which significantly under states the total retail value. ★ AUCTIONS

As of September 15th, 2014, we will be occupying new premises at 1550 Carling Avenue, Suite 202. We will also have the use of Suite 203 for auction sessions. The property offers ample free one-hour visitor parking and inexpensive paid parking (\$7/day) on site.

While the street address is on Carling Avenue, access is actually via Coldrey Avenue. Drivers will take Kirkwood Avenue south of the Queensway/#417, west at the light on Coldrey for one block, where the entrance to the lot for 1550 Carling is well-marked.

Local Ottawa customers will recognize this office as the former Revlon Canada Building. It has been attractively renovated and divided for multi-tenant use since the early 1990s.

The move will happen some time after our August 19-21st auction has been shipped. We look forward to seeing you at the new place!

TERMS & CONDITIONS (Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). **Please note: Effective August 1, 2014, we will be charging a 2.5% convenience fee to process Visa & MasterCard payments.** Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase

price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2015 Unitrade Specialized Catalogue of Canadian Stamps

Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$2 - \$30	\$2	\$1600 - \$3000	\$100
\$35 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
		above \$50,000	\$5,000

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- * Credit Card number (Visa or MC, with expiry date and CVC code)
- * Philatelic references (including eBay reputations, BidStart etc.)
- * Associations (APS, RPSC, BPA, etc.)
- * Your own professional website (stamp-related or otherwise)
- * A valid e-mail address (we will not approve you if your e-mail bounces)
- * Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: sparks-auctions.com/how-to-bid-with-us/
