## THIS SALE

With an average of 100 consignors, each Sparks Auction has the excitement of diversity.

Our January 2015 sale starts with a solid representation of top quality classics, with three very fines among the three penny Beavers and several respectable mint examples included the thirty-one pence lots. The thirty-four lots of the 1859 are notable for eleven used blocks including the largest used multiple of the ten cent Consort, the very rare two cent, and three blocks of the 17 cent Cartier.

Dominion issues of Large and Small Queens offer quality singles, varieties, and even intact collections in sixty-three lots. The Late Victoria through Edward's reign offers 200 lots with many never hinged, often extremely fine, examples of stamps which are scarce and sought after in this top condition.

*The Summerhill Collection of Admiral Issues* is one of consistently high quality in the offering of singles and multiples of this popular collecting field. The major re-entries, and the jumbos including MR4a are among the temptations. In addition to new discoveries and rarities the modern issues are anchored by two very fine Seaway Inverts, one never hinged and one used.

Eight-five lots of Back of the Book include a strong selection of Official Plate Blocks with 'missing periods.' British North America offers more tantalizing gems especially a Jumbo Newfoundland number two, the equally scarce first issue one shilling and the very rare Balbo Flight Inverted Surcharge.

*The Stanstead Collection* offers nice, solid and consistent quality British Africa in 154 lots followed by more than one hundred lots of British Commonwealth with strength in Great Britain (five pound Orange), unused New Zealand number two, and especially a collection of Falkland Islands. USA number one kicks off a smaller than usual worldwide section.

Postal History has a wide range with Canadian (112) and worldwide (166) single covers, a thematic grouping of covers and a physically massive quantity of filled banker's boxes with interesting commercial mail from several consignors. This will require more viewing than usual.

Where we were short in worldwide singles, bidders will find abundance in the 374 Lots and Collections. The overall quality and breadth of these will be a daunting task to view so plan accordingly in order to secure the best of the bargains.

For the first time, our new location at Suite 203, 1550 Carling Avenue (actually accessed via Coldrey Avenue — check our map (on bidsheet) and don't use GPS) will be the venue for the auction. On site daily parking is available and bus service is convenient.

## The Summerhill Admiral Collection of Outstanding Quality Admirals

What a joy it is to open an album and see fresh and attractive stamps. The pleasure is multiplied when the first one examined is free of any fault and so is the next, and the one after, and then all of them. How great is the achievement when all the stamps are of the highest quality but also the great majority have centering of the very highest standard.

This collection came to us neatly displayed in a black Lindner album, with each stamp in a clear mount on quadrate pages. The collector sought the very best quality available for every Unitrade-listed variety he could find. The collection includes shades, papers, printing flaws and varieties, etc. While not complete, it comes very close and the time came to let others enjoy these gems.

The collector's quality standards can be readily seen, the stamps are mint never hinged, with fresh colour and immaculate gum. A few stamps are presented in slightly lesser centering, but this will mostly be for stamps otherwise difficult to come by. For example, two stamps are used: the 1c and 7c major re-entries. Many stamps are offered both as a single and a block, just as coils are often with a single and a pair, sometimes strips. Regular issued stamps, as well as coils and War Tax issues are comprehensive.

For this collection we have decided not to repeat the word "fresh" in every description as it should be readily apparent and understood that the great majority are fresh and free from gum defects unless described (this is rarely necessary). If you are looking to obtain Admiral issues in the very best quality, this collection should have something for you. Please also have a look at our Commonwealth and Lots and Collections sections for a wonderful Falkland Islands collection also offered by the same consignor.

In years to come the words ex-Summerhill will be a guarantee of exceptional quality. We hope many collectors will have an opportunity in the future to be able to proudly point to at least one of these ex-Summerhill gems now residing on their album pages.

## The Stanstead Collection of British Africa

This is part of a collection formed over many decades. For more than three of those decades the collector was a regular at Ottawa stamp shows and elsewhere. He would carefully examine the used Commonwealth stamps. Every now and then there was a pleasant exclamation. But that was the start; every stamp had to be carefully examined because the smallest of faults was not good enough. The want list got smaller for many colonies but there were many stubborn holes. And, like most collectors, the great rarities had to be passed because of higher priorities with the Exchequer.

The British Africa (and a few other colonies presented here) might have been collected earlier in his collecting lifetime because of the relatively higher percentage of mint that is found. He paid the same careful attention to the mint as the used, but his passion was for genuine postally used in the best possible condition.

This is an old time collection, in the true sense of the term: most stamps were hinged onto quadrille pages in three Stanley Gibbons spring back albums. The never hinged were in clear mounts and each stamp was identified in pencil as to Scott number or other attributes. The collection includes both mint and hinged, and a number of the high values are mint so there could be no guessing about Revenue usage. Mint stamps will usually be lightly hinged, as the collector's preference was appearance. Used stamps throughout will usually have chosen cancels. The first thing that struck us was the overall freshness of the colours and nice quality. One can readily see that these stamps were properly stored throughout their life. The countries offered are very well represented, from the early issues usually up to 1953. Many sets are offered with extra shades and varieties, most listed. If you collect quality British Commonwealth, this offering should have something for you.

You should note that there many extra scans online - especially of the larger lots or complete sets which are not illustrated in the catalogue. This is true not only of the Stanstead Collection but of many other lots in the auction as well.

## TERMS & CONDITIONS

(Please read carefully)

1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). **Please note: Effective August 1, 2014, we will be charging a 2.5% convenience fee to process Visa & MasterCard payments.** Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins, colour accuracy, perforations or other factors shown in the illustrations. Viewing is always recommended.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase

price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

### SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2015 Scott Catalogue Volumes 1 through 6  
2014 Scott Classic and US Specialized  
2015 Unitrade Specialized Catalogue of Canadian Stamps  
2014 Stanley Gibbons 1840-1970 (SG) values in £  
2007 or later Michel Catalogues of the World (Mi) values in €  
2009 The Canadian Revenue Stamp Catalogue  
by E.S.J. Van Dam

Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

## About Bidding

**Please bid using these increments.  
(All bids are in Canadian dollars.)**

<b>\$2 - \$30</b>	<b>\$2</b>	<b>\$1600 - \$3000</b>	<b>\$100</b>
<b>\$35 - \$100</b>	<b>\$5</b>	<b>\$3200 - \$7000</b>	<b>\$200</b>
<b>\$110 - \$250</b>	<b>\$10</b>	<b>\$7500 - \$15,000</b>	<b>\$500</b>
<b>\$275 - \$750</b>	<b>\$25</b>	<b>\$16,000 - \$30,000</b>	<b>\$1,000</b>
<b>\$800 - \$1500</b>	<b>\$50</b>	<b>\$32,000 - \$50,000</b>	<b>\$2,000</b>
		<b>above \$50,000</b>	<b>\$5,000</b>

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

#### How To Bid

**Advance Bidding** We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

#### Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

#### Connect to Stamp Auction Network at: [stampauctionnetwork.com](http://stampauctionnetwork.com)

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

#### The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- \* Credit Card number (Visa or MC, with expiry date and CVC code)
- \* Philatelic references (including eBay reputations, BidStart etc.)
- \* Associations (APS, RPSC, BPA, etc.)
- \* Your own professional website (stamp-related or otherwise)
- \* A valid e-mail address (we will not approve you if your e-mail bounces)
- \* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

#### The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: [sparks-auctions.com/how-to-bid-with-us/](http://sparks-auctions.com/how-to-bid-with-us/)
