CANADA: THE FIRST ISSUES ON LAID PAPER

Each of the three designs established a philatelic first: The first land animal; the first appearance of Prince Albert; and the first use of the Alfred Chalon portrait of Queen Victoria.

All three stamps were engraved by Alfred Jones and printed by Rawdon, Wright, Hatch and Edson of New York. The paper was supplied by Ivy Mills of Chester, Pennsylvania and all was hand-made varying in thickness from very thin to somewhat stout. The laid lines range from easily seen to virtually invisible. However characteristics of the Ivy Mills paper allow one to distinguish the early laid papers with no visible laid lines from the later wove papers.

The scarcity of the twelve penny is an oft-told tale. 51,000 were printed but lack of demand meant only 1510 were distributed to Post Offices and of these at least 60 were returned (see below). After a change in postal rates there was even less need for a 12 penny stamp and the undistributed inventory of 49,490 were destroyed on or about May 1, 1857.

The Marquis of Lorne served as Governor General 1878-83 and apparently informed Canadian Officials that his travels and other duties has severely depleted his financial resources. There is no record of any payment but for several decades after he left Canada the Marquis (later Duke of Argyll) discretely met with Charles Phillips of Stanley Gibbons. Following the meeting, Phillips would be able to offer up to five mint, nice quality twelve penny blacks to his clientele. It is interesting to note that late in the nineteenth century a thousand pounds would buy a respectable house and today the value of a twelve penny black will buy house at least in some parts of Canada. The importance of this arrangement is that stamp collectors have at least several dozen very nice quality stamps of the very desirable twelve penny black to chose from.

It might be decades before the next opportunity to buy all three of the mint laid paper stamps in this quality comes up again.

1 (*) 1851 3d orange red Beaver Imperforate on Laid Paper.

Canada's first stamp, a three penny value paying the domestic rate and showing a beaver was engraved by Alfred Jones using a very similar design proposed by (later Sir) Sanford Fleming. One census of unused mint laid paper three penny beavers put the number at 18. Although this might be a little bit low, unfortunately many of these are cut into or have faults and some are in institutional collections. It is likely that fewer than a handful of very fine four margin number ones are in private collections.

This stamp has two Certificates of Authenticity: A 1985 Greene Foundation Certificate states"...Mint, O.G., genuine..." and a 2015 Greene Foundation Certificate states ..."#1a, unused, on laid paper, orange red shade, genuine in all respects". It is unclear to us what happened to the gum after 1985 but assume that the authenticity of the "original gum" was questioned and a previous owner soaked off the gum. For the record there is a tiny faint crease entirely in the lower right margin which was not mentioned in either certificate; this could be literally cut away and there would still be four full large margins.

This stamp with fresh colour and full margins is a very rare example of a very fine Canada's first stamp.

Scott #1a US\$40,000

Canada's second stamp, the six penny paying the rate to USA or double domestic, features Queen Victoria's Consort Prince Albert was engraved by Alfred Jones using several sources. This stamp is significantly scarcer in used condition than the beaver and also even rarer in unused condition than the three penny.

This stamp has two Certificates of Authenticity, both from the Greene Foundation. The first from 1994 and second from 2015 states "...2b unused on laid paper, brown purple shade, genuine in all respects." Neither Certificate mentions the droplet of printers' ink in the upper right corner.

This stamp with deep fresh colour and full margins is a very rare example of a very fine Canada's second stamp.

Unitrade #2b \$60,000
Scott #2b US\$40,000

The twelve penny was recognized from the earliest days of philately as rare and desirable. The Chalon portrait was copied by Bahamas, Queensland, Tasmania, New Zealand, New Brunswick, Nova Scotia as well as other British Colonies.

This stamp was sold by Charles Phillips and was owned by Charles Lathrop Pack as the top stamp in a vertical pair. It is position 60 within a plate of 100. The pair was sold at auction in 1944 and again in 1959 but by 1976 it had been separated and received a Certificate from Herbert Bloch. With deep colour and a clear distinct impression, four large margins, full original gum lightly hinged, easily visible laid lines, fresh in all respects and a full sheet margin at right put this stamp in the first rank. Among the very fine mint twelve penny stamps, there are usually three which are regarded as being the most desirable. The full sheet margin of this gem compares favourably with another exceptional twelve penny, the Dale-Lichtenstein single from position 80 with an irregular sheet margin. As a result a number of advanced collectors confirm the opinion that the example from the Outaouais Collection is the most desirable and best of the best.

This stamp has three Certificates of Authenticity. These are from 1976 the Friedl Expert Committee, 1983 Greene Foundation, and 2013 Greene Foundation "Scott No. 3, mint, O.G., position 60, genuine in all respects."

Accompanied by a description by Bileski explaining the history behind these particular stamps, the fact that they were on display at the National Philatelic Museum and explaining how difficult, even rare it is to obtain nice c.d.s. cancels on Pence issues. Apparently, when the collection was purchased long ago, the buyer paid double the catalogue value for these, which Bileski thought was a bargain. Postal regulations of the period instructed postmasters to use an obliterator to cancel stamps, and use a datestamp elsewhere on the cover to date it. Ex. Dr. Richard Solomon.

Flag Light but Complete Impression of JAN.26.1897 613 Montreal Imperial 1-6 'E' Ensign Flag Cancel, tying 3c Small Oueen to La Presse corner card cover addressed to USA, with a Southbridge Mass. Jan 26th backstamp receiver. This is the rare use of the 'E' obliterator with the Montreal 'WY' dater hub showing the wide '1897' and smaller top in the 'A' of Montreal, that were only used together from January 23-28. Now considered to be one of Canada's flag cancel hidden rarities due to this short 6 day use, it has a 2008 Langford catalogue value of U\$400 on cover. Lot has photocopies of the 1-6 flag cancel used on January 22 & 29 with the 'UZ' dater hub, thus confirming the short January 23-28 period of use for the "WY" dater hub. Cover reduced about 9 mm at right from opening, but not into stamp or cancel and is otherwise fine to very fine. Est \$250

The Jim Miller ORB Collection

This is the most comprehensive collection of these ever formed. Each hammer has been assigned a catalogue number, like 2-01 which means "Two ring, OTTAWA hammer 1". Orbs come in two and three ring formats. Only steel hammer types are included. Each lot includes a data sheet which describes the size and shape particulars of the hammer, known ERD and LRD, timemarks known, reported years of usage, indicia errors, general comments, known reporters, and the last date in which updates were made to the data sheets. This information is very valuable to each lot.

Jim has collected the orb cancels for many years going back to the late 1970's. Jim wrote an article for BNAPS Topics which appeared in the July-August 1989 issue describing the orbs along with an interesting proposal that the orb cancels were the true precursors to the squared circle postmarks. This proposal became part of the BNAPS squared circle study group newsletter and for some ten years Jim wrote a series of articles for each known hammer. A copy of each data sheet accompanies each lot.

Jim collected only fully dated strikes, thus you will find many lovely strikes. On the more common hammers, Jim calendar dated them, thus many dates have two or more different timemarks for a common date. Inverted and unusual indicia are identified. This collection was put together over many years, emphasizing the orb postmark, thus stamp and cover condition were not factors. The covers have ordinary franking and often will have aging faults as Jim collected them for the orb postmarks, not condition or any specialty nature of the covers. Same with the stamps, faults should be expected.

The following 54 lots form the collection.

• PC Orbs 1 2-01 OTTAWA/CANADA 2-Ring Orb Collection, consisting of 39 stamps and 12 covers/cards, 23/ MR 27/24 to 14/DE 13/30. A moderately scarce hammer used mostly for special purposes such as philatelic use, special delivery, forward mail, etc. Includes a 2¢ local drop letter cover with special delivery franking #E2 (in proper time period). Lot includes a data sheet for 2-02 of which there is only one known example (photocopy).

PC Orbs 53 3-W1 TO 3-W14 WINNIPEG 3 ring orb collection, consisting of 290 stamps, 104 covers, 97 registered covers, and 201 registered A-R cards somewhat sorted. Winnipeg orbs need considerably more research work to sort them out, which Jim never quite completed. He has identified 14 different hammers ranging from 1909 to 1972, and has considerably sorted them out, but they need more work. Note 3-W5 AM/OC 27/20 as a receiving back stamp on an OHMS cover. This is the only reported example of this very rare orb. Also note other scarce to rare hammers. Since some examples are unsorted, we offer the entire collection as one lot, leaving it to the successful buyer to continue this work. All sorts of interesting material in this lot.

723 **◯** War Correspondence Between South Africa and Sault Ste Marie, Ontario, 1902 to 1914, all referring to the search for a Canadian soldier (who eventually went missing) in Transvaal, Mr. Denis Willoughby Baker. These were either sent to, or from Johannesburg or Sault Ste Marie, or Ottawa (these are free franked with keyhole-style datestamps on OHMS stationery envelopes). A letter dated 1910 is on mourning government stationery from Department of Militia and Defense to the mother in Sault Ste Marie announcing "Militia land Warrant N. 6535 was issued to Dennis W. Baker for service in the South African Constabulary. His address at the time was ... Transvaal, South Africa". A letter from Mr. Baker to his mother (the last one, we believe) is dated 1910 and says in part "have been away in Portuguese East Africa and up the Zambesi River...". The mother apparently then lost touch with her son, inquired as to his whereabouts and many letters follow (included in this lot), one of which we have scanned online. It would seem that by the last letter in 1914 they were still looking for him. There are 8 envelopes with contents plus another 25 or so letters without envelopes, some personal, some official. There are serious condition problems, mostly with the envelopes, but pretty much all the contents and letters are easily readable, not to say fascinating.

Obvious faulty or reperforated stamps were not counted in the catalogue value, and we have noted them in pencil with an X. We have also noted which stamps were NH and have counted them as such. Starts with Cents issues, Large Queens (including a very fine unused 12½c), Small Queens (complete except for 20c but with very fine examples of the early printings), Jubilees with $\frac{1}{2}$ c to 50c (missing 6c and 8c, 2c and 20c are unused), rest is virtually complete (missing only #s 95, 101 damaged and not counted, 103 and a few Admiral coils). This album contains Trinidad (note a lovely #90 \$350), Trinidad & Tobago (both these countries contain several pages that we have not catalogued because of difficult to identify stamps - they are scanned for your evaluation), Turks and Caicos and Virgin Islands. This collection consists of nice quality sets and singles, from the classics to about 1975, and we note a high percentage of nice c.d.s. cancels, high values, etc. The Scott catalogue value is for up to 1952 only and there are usually several complete QEII sets up to 1975. We have mostly counted varieties (watermarks, perforations, shades, etc) as cheapest, so actual catalogue value will usually be higher, especially including the 1953 to 1975 stamps. a Thick International Junior Postage Stamp Album, a nice clean collection, better than average for the quality of stamps it contains, as well as variety but includes mostly common items. Better items we saw include Bahamas mint #103, 105, France mint #311-12, GB used #4, five used Seahorses, Iceland used #37, 45-46, 206, mint 053, Ireland used 117, New Zealand used 69, mint 168, Kedah used 41-42, Perak used 03, Selangor used 38 (cv. \$500, but faded) and more. This collection was worked on by three generations in one family. We estimate easily over 2,000 stamps going up to about 1940.

TERMS & CONDITIONS (Please read carefully)

- 1. The property described in this catalogue will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.
- 2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.
- 3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
- 4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.
- 5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only). Please note: Effective August 1, 2014, we will be charging a 2.5% convenience fee to process Visa & MasterCard payments. Payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.
- 6. Buyers from Canada will be charged Federal GST or HST. Absentee bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.
- 7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.
- 8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.
- 9. Because the descriptions and scans of the auction will be available in a printed catalogue, our website and on Stamp Auction Network, there is a chance of technical error. In that event the auctioneer's decision will be final. If discovered before the sale a notice will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.
- 10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.
- 11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension may be granted on a lot prior to the commencement of the auction provided that the following conditions are met; (1) the purchase price of the lot must be paid in full, (2) the item must be submitted to the mutually acceptable expertizing committee with a properly executed

application form within 14 days of the sale, (3) a copy of the application form must be given to Sparks, (4) unless prior arrangements are made, extensions are granted for a period of up to 100 days; (5) if in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100, and (6) lots back stamped or marked are not returnable. It is the purchaser's responsibility not to let this happen.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2017 Scott Catalogue Volumes 1 through 6
2017 Scott Classic and US Specialized
2017 Unitrade Specialized Catalogue of Canadian Stamps

2007 or later Michel Catalogues of the World (Mi) values in €

Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

About Bidding

Please bid using these increments. (All bids are in Canadian dollars.)

\$5 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
\$1600 - \$3100	\$100	above \$50.000	\$5.000

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

- 5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.
- 6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.
- 7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.
- 8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference lan Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- * Credit Card number (Visa or MC, with expiry date and CVC code)
- * Philatelic references (including eBay reputations, BidStart etc.)
- * Associations (APS, RPSC, BPA, etc.)
- * Your own professional website (stamp-related or otherwise)
- * A valid e-mail address (we will not approve you if your e-mail bounces)
- * Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.
