## Canada Collections

- 1001 \*\* Mint Collection in Three Lighthouse Hingeless Albums, 1971 to 2005**, an advanced collection in this time frame, which includes all the booklets, souvenir sheets, se-tenant multiples, coils, etc. We note many Fruit and Animal definitive perforation and paper varieties, all the Millennium issues and much more. Only a very few stamps missing and we note a few that are used. A great collection for continuation, or even for postage, as there should be well over \$800 included.  
..... **Est \$500**

We estimate just under \$200 in usable postage as well.  
..... **Est \$100**

A few of the early issues have faults, which are described in light pencil on the pages. Includes much better material such as NH 1938 Pictorial Set, NH 1942 War set, phosphor varieties, four 1970 Christmas centre blocks, etc. Also includes back of the book issues. Overall fine to very fine and clean.

A very clean collection which we have left intact, as received, neatly displayed on quadrille pages with catalogue numbers for each stamp. Starts with a used #1 and two #4 (all cut into), then complete 1859s with shades, the numerous Large Queens have paper varieties and shades plus some watermarks, a Laid Paper 3c (faulty and not counted), Small Queens are extensive with shades, and includes many early printings, especially for the 1c, 3c and 10c, some 11½x12 perfs, a few mint stamps including three #43, a 3c shows a dramatic misperforation, some nice postmarks, etc. Up to here the majority are used plus a few mint or unused. The Jubilees, which are mint only go to the \$1 (latter is unused no gum, rest include some NH), then we start to see a used plus a mint (sometimes NH) of every issue to the end, and is complete including coil singles, and includes some varieties such as "broken X", etc. The back of the book is complete for Air Mails and Special Delivery, and are all mint. Obvious faulty or reperforated stamps were not counted in the catalogue value, and we have noted them in pencil with an X. We have also noted which stamps were NH and have counted them as such. Also comes with a stockbook containing odds and ends - we note a never hinged #09, some souvenir sheets, etc. An overall fine collection with many better centered, including many high values.

No Jubilees. Some issues have no gum (for example, an otherwise nice appearing Québec set is without gum), and some of the high values (for example 50c KEVII is used). Some of the high values from the 1920s and on are lightly hinged (50c Bluenose, \$1 Parliament, etc.). We have counted as all hinged but there are probably a few never hinged here and there. Catalogue value is for up to 1950 only and includes G Officials, and other back of the book. We also note a page of mint PEI, etc. Overall fine, the obviously faulty were not counted and marked as such.

Also includes good back of the book including overprinted and perforated Officials. Lastly, includes (but not counted) 5 pages of revenues, including three from the QV era. The catalogue value is one calculated by the owner using Unitrade, taking into account the centering, which appears to be generally correct according to a spot check we did. - 1165**    **◎ British Commonwealth 8 Volume Eight of an Eight Volume Collection of Used Issues**, all neatly mounted on black pages in a springback album. This album contains Aden, Anguilla, Antigua, Ascension, Australia (contains 6 pages of specialized Roos and KGV not catalogued and likely to contain good value), Australian States (not catalogued), Bahamas, Barbados (note a #B1d, \$925, with corner crease), Bermuda and British Honduras. This collection consists of nice quality sets and singles, from the classics to about 1975, and we note a high percentage of nice c.d.s. cancels, high values, etc. The Scott catalogue value is for up to 1952 only and there are usually several complete QEII sets up to 1975. We have mostly counted varieties (watermarks, perforations, shades, etc) as cheapest, so actual catalogue value will usually be higher, especially including the 1953 to 1975 stamps. Overall fine or better. The catalogue value for the items we've catalogued comes to \$2,084 and there is a lot more value (we have scanned many pages of uncatalogued material).

- 1326**    **United States Old Time Collection, 1861 to 1954**, all hinged onto quadrille pages in a thick springback album. Starts with mostly used up to about 1904 where we start seeing one mint and one used of some issues, then slowly all becoming mint, including some never hinged. Includes back of the book, coils, postmarks, imperforates, blocks, shades (especially in the early material), etc. We have calculated a catalogue value of \$9,602 up to 1926 only, and past that there are probably several hundreds more in value. Up to #261 we have written in the margin which catalogue number was used (for reference), which is usually the cheapest shade, grid, perforation, paper or variety, which we did not account for. Therefore actual carefully checked catalogue value should be much more, accounting for these values. We have also marked with an X the very faulty items that were not counted. Some faults in the early material, then becomes very nice quality and overall fine or better. Careful inspection should reward.
