THIS SALE

Welcome to our January 2018 sale.

This is an exciting time here at Sparks Auctions, especially since our memorable September 2017 sale, where we once again realized several world record prices, including the highest price ever paid for a Canadian stamp, \$327,750 for a lovely mint 12d Queen Victoria. This sale will continue to offer a good variety of quality material, and for all collecting interests and budgets. We are proud to have been entrusted with several high quality collections.

The Canada and BNA section is full of lovely material, with probably the most high quality stamps we have offered yet in a single sale, as well as a very wide range of Unitrade listed items. Readers will also notice that a great number of lots in this section are offered with certificates. Of note are many fresh and mint never hinged stamps in singles, blocks of four, plate blocks as well as complete sheets.

We have the honour of offering a unique collection of Prince Edward Island stamps, which won the Grand Award at the 1957 National Exhibition in Ottawa, the Grand Award at the 1956 BNAPEX and which had been put away since 1964. You will find in it many rare and not often offered or seen material.

Our popular Canada and Worldwide lots and collections section yet again offers a good selection of different country collections, in albums, stockbooks, dealer stock, and more. Of note are some strong Netherlands collections, Nepal collectors will find a specialized selection of early sheets in 12 lots, especially the half anna issues, ex. Ken Kershaw. We also have a strong offering of very useful Canadian postage lots, including many self-adhesives, high values and "P" values.

- #4xi 1855 Combination Rate Cover to England**, mailed from Hamilton UC on OCT.22.1855 (free strike of a double broken circle) and addressed to Patrington, England, carried on the Cunard Line Packet *Canada* and arrived Liverpool on NOV.4.1855 (tombstone receiver in red). The cover is franked with a pair plus a single 3d scarlet vermilion imperforate Beavers on thin, wove paper. The extra 1d required was paid in cash, as evidenced by the "PAID 1D." handstamp in red (the only known example of this handstamp). This is the only known cover having been paid in this manner, and it is believed the Hamilton Post Office ran out of 10d Cartier stamps (issued in DEC 1854), and the only other denomination possible to use would have been the 1/2d, but it was not issued until later in AUG.1857, so this was the only option. The 10d rate was in effect from March 23, 1854 to June 30, 1859. Small tears at top do not detract, very fine and rare. Ex. Lubke, Nickle, Wilkinson and Cloutier.

#14-20 Advanced Collection of First Cents Issues, with all used stamps plus covers. Starts with the 1c (4 different stamps) plus 5 covers (drop cover, unsealed printed matter cover, and three folded circulars). The 2c is represented by the two major shades. The 5c (6 different stamps, including a major re-entry, plus 3 extra copies) plus 3 covers. The 10c is well represented, with 20 mostly different stamps, including a chocolate brown (#16i, with clipped perfs) and most are identified as per printing orders by owner. The 12½c has 4 different stamps, including two with jumbo margins, plus two single franking covers to England. The 17c has four different stamps plus a cover to England. All the stamps are identified as different by owner as per perforations, papers, shades or varieties, and are overall fine with a few faults. We note a few better postmarks, including some dated. The covers are mostly fine or better (especially the high value ones) and a few have faults to varying degrees. A nice collection which can form a strong basis for continuation. The Unitrade catalogue value should be well over \$8,500 if owner has correctly identified the stamps. All pages are scanned online.

Tête-bêche between the two blocks of 9 and imperforate vertically between one column and a vertical straight edge. Engraved printed in colours ranging from green to black with never hinged Davac gum. Shows an interesting variety of a vertical unprinted area. In 1967, British American Bank Note Company was awarded the contract to print the Centennial issue booklets using a new printing machine, a Goebel press, which could print booklets of multi-coloured stamps in one operation. Louis Sidney Crosby

We are proud to offer the Louis Sidney Crosby collection of Prince Edward Island stamps. Mr. Crosby was born in PEI in 1888 and moved to Banff, Alberta in 1907. There he climbed many mountains (including several first ascents) and worked for the Brewster Transport Company for fifty years, including as president. He wrote many articles on Small Queens as well as PEI stamps and postal history. He died in 1964 at the age of 76.

Most of the postal history he had collected was sold in two sales at Sissons in Toronto in 1967 and 1968, but his family could not find the rest of his renowned PEI collection until a neglected suitcase came to light in 2017. The well preserved stamps you will therefore see in this section have been unseen for 53 years.

When Lou Crosby was a young man in PEI, he served under Captain Arthur Bartlett (the well known Charlottetown stamp dealer) in the No.1 Co. 4th Reg. Artillery. This is probably where Mr. Crosby got interested in PEI stamps, as Bartlett had purchased a large amount of the PEI remaining stock. The Crosby and Bartlett families remained in touch for over sixty years. He was one of the founders of the now defunct BNAPS PEI study group as well as the still active BNAPS Small and Large Queen Study Group.

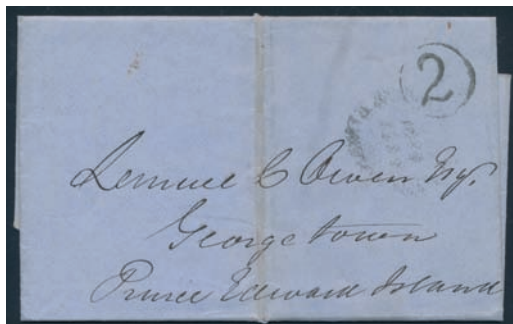

He exhibited 12 frames of his PEI stamps and postal history in the 1957 Canadian National Exhibition in Ottawa and won the Grand Award, as well as numerous other special awards. He also won the Grand Award at the BNAPS Convention in 1956. His PEI collection was last shown at the 1960 London International Stamp Exhibition. It is those stamps, plus others from his extensive collection, that are included in this sale.

This is a rare opportunity to acquire long unseen and rare stamps, so please enjoy reading through the descriptions and don't miss this occasion to enhance your collections with lovely PEI stamps. We have added a short bibliography at the end of the listing.

***/** #15 var 1872 6c black Queen Victoria, Perforated 12¼ x 12**, a complete sheet of 100, with selvage all around, missing upper and lower right corner pieces. Full original hand-applied gum, with hinge re-enforcing across the middle horizontal and vertical axis, plus several other areas, leaving 40 stamps never hinged. The owner has small pencil notations noting perforation gauge of each vertical and horizontal rows, resulting in all horizontal rows being 12¼ and the vertical rows 12 or 12¼. Another rare sheet, probably not many remain, catalogued as all fine centered although many are better, using the major Unitrade #15 which is for perf 12. **See image on Page 85.**

Taylor with a bald headed Queen Victoria, two different 4d forgeries, including one where the forger omitted the Queen's mouth, a 4½d with a mole on the Queen's head and three seldom seen cents forgeries. Also a 10c issue attributed to Taylor - a scarce early bogus issue meant to deceive collectors as it looks very similar to the rest of the issue. Includes copies of related reference material, nice items for the specialist, with some faults as usually found on these old album weeds, but overall very good. Property of another vendor.

We note many shades and unchecked by us for perforation varieties, including possible compound, but assume that there are such, and many varieties, such as "TWC", "FOUP", various dots in or under Queen's neck, and more. Most stamps are mint hinged, over a dozen are never hinged and a few have no gum, and we note some faults on some, such as thins, etc. still a useful and high catalogue value lot, not often offered.

- 653 **Selection of Arthur A. Bartlett Letterhead Sheets**, the first item being an original water colour painting on thick paper, apparently a progressive proof of what would become the adopted design. From the Bartlett family archives, this design shows all the same stamps as those adopted but is missing the British Columbia and the P.E.I. stamps which were probably added later. Also a letterhead sheet signed "Margaret S. Bartlett" who was Arthur's wife (nee Rankin, sheet has folds) and the third item is signed by Bartlett's daughter "with the compliments of Arthur A. Bartlett's daughter Mary F. Cosh.". This letterhead remains pristine and unfolded and there is a pencil notation at bottom added by Louis Sidney Crosby "The undersigned served in No.1 Co. 4th Reg. Artillery under Capt. Bartlett / L.S. Crosby". Both letterhead sheets have different watermarks, one is simple lettering and the other (signed by the daughter) has elaborate coats of arms, etc. Also included are two original Bartlett price lists, one list explains that he now has control over all of the remaining PEI stamp stock, and now has to raise his price for 725 "gummed stamps" to £15 net. The other is a four page price list with many very interesting items, with prices in \$. Arthur Alison Bartlett was a Charlottetown stamp dealer and knew the owner of this collection, and this is how these items came into his possession. More can be read about Bartlett in Carr, Dr. Robert V.C., "A Short Biography of A.A. Bartlett", BNA Topics. v.23, no.2 (February 1966): 39-41. All great items, ideal for a P.E.I. collection or stamp dealer collection, etc.

- 901** **1867 Biographical Form Handwritten by Sir Charles Tupper**, the empty form was originally mailed to Tupper by Henry Morgan in Ottawa on OCT.12.1867 with a note asking him to fill it out and send it back ASAP, specifically "at your earliest convenience". Tupper entered in the section "Name and style, or titles?" "Hon Dr. Tupper C.B." (as he was in between positions, as Nova Scotia had recently joined Canada) and went on to fill out much of the information in the rest of the folded three page form. At this point, he resided Halifax, NS. Tupper was Premier of Nova Scotia (1864- July 3, 1867) , Minister of Finance and Receiver General under Sir John A Macdonald (1867-1888) and the sixth Prime Minister of Canada from May to July 1896, and was succeeded by Wilfrid Laurier. In 1864 Tupper appointed Sandford Fleming, designer of Canada's first postage stamp, as the chief engineer of the Nova Scotia Railway in order to expand the line from Truro to Pictou landing. Some have been described as rare, such as Windsor Mills, Union, Williamstown, Nassagaweya, Berlin, etc. Unchecked by us as for rare strikes or better dates. Also includes a town cancel collection, sorted in envelopes as per year of the postmark, as the owner was working on a callendar collection. We also note several additional items such as booklets and booklet panes, coils, booklet singles, souvenir sheets, and more. A lovely collection, very clean and overall fine or better.

- 1442** ☉/* **Worldwide Mint and Used Collection in Three Scott International Albums**, with hundreds of stamps. These albums are very clean and appear not to have been picked through. Preponderance of catalogue value is in volume one, which contains early period to 1930. Lots of value in Australian States, (most with nice colours), Portuguese colonies, especially Macao, Italy and Italian colonies (noted Libya #J1-J10 hinged), France and French colonies (noted Martinique #33/51 hinged, France C27 used, Colonies #36 used pair with Guadeloupe dated cancel), Scandinavia, and more. A good, honest collection and worth a close look.

- 1443** ☉/* **Worldwide Beautiful Imperial Postage Stamp Album** for "Europe and possessions" published by Stanley Gibbons Ltd. (10th edition). At first glance it would appear not to contain many stamps but this is misleading as the hundreds of stamps are scattered throughout. Of these, we note very few cataloguing under \$5, as most catalogue in the \$5 to \$30 range. The high catalogue value stamps need inspection, as many are damaged, especially Germany and States. All of our online scans give a good overview of the album's contents. We note nice early Scandinavia, Sweden officials, Switzerland, France, Hungary #6, Greece with 7 Hermes Heads and Finland #7 with almost intact perforations. A very nice album.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- * Credit Card number (Visa or MC, with expiry date and CVC code)
- * Philatelic references (including eBay reputations, BidStart etc.)
- * Associations (APS, RPSC, BPA, etc.)
- * Your own professional website (stamp-related or otherwise)
- * A valid e-mail address (we will not approve you if your e-mail bounces)
- * Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.
