THIS SALE

Welcome to Sparks Auction's 28th auction, the first to be held in our brand new spacious offices in Ottawa. This is another very exciting sale for us, and contains yet again a very wide range of material, with something for every collecting interest and budget.

Those who seek out high quality Canada will be well treated in this sale. Our Canada section is highlighted by several advanced mint collections, offering high quality singles, blocks and large multiples, from the Classics to modern era, many being extremely fine and accompanied by certificates. A further highlight is a special section dedicated to the Rob Lunn International award-winning exhibit and collection of the Imperial Penny Postage "Map Stamp", and its postal history.

Worldwide highlights include advanced collections of early Great Britain stamps and postal history, lovely early Australia and States, and an impressive selection of quality singles and sets of the British Commonwealth, including the continuation of our perforated SPECIMEN offerings.

Enthusiasts of Canada & BNA postal history will find fifty lots from an exciting specialized collection of Canadian air mail and first flights, many early stampless covers, New Brunswick postal history, extensive postmark lots including strong squared circle collections, and much more.

We are particularly pleased to offer 250 lots from the John Nalon "Gananoque" collection, which features consistently high quality stamps and postal history of Canada. Detailed photos of his entire collection can be found on our website.

We are also proud to offer the Jack Gray collection of topicals. Jack was proud of the fact that he collected over 200 different topicals, ranging from extensive representations of birds and ships, to less commonly-seen topics like umbrellas or handshakes. Sparks Auctions is pleased to offer them all in our Topicals section, with items offered in other sections being denoted by "JG".

We are continuously grateful for the support of collectors who turn to us to find new philatelic gems. While many in our industry continue to raise their buyers premiums as high as 23%, we continue to hold to a modest 15%. Bidders will also note that any items offered subject to a reserve price are denoted by a "Rsv" notation in the description. Unless the reserve has already been exceeded during pre-sale bidding, these lots will open at one increment below the reserve.

Those who can't view our sale in person are invited to examine several thousand scans online, which can be found at stampauctionnetwork.com. We also encourage you to visit our website at sparks-auctions.com, for sale updates, amendments and other useful information.

Enjoy the sale!

The Canadian 1898 Imperial Penny Postage Stamp

The Canadian 1898 Imperial Penny Postage Stamp, or as it is more commonly referred to, “the Map stamp”, has long been a popular stamp issue to collectors. The single issue stamp came at a time of many changes. Chief among these was that it was conceived and produced to commemorate the introduction of the Imperial Penny Postage rate. At the Imperial conference that took place in London, England during July 1898, Postmaster General William Mulock advocated a uniform empire rate of 1d (2 cents). Though this did not get adopted, Mulock was successful in getting a resolution prepared whereby individual countries could choose whether to adopt the new rate. The date decided upon for the inauguration of Imperial Penny Postage was December 25, 1898.

Almost as an afterthought, the domestic and USA rates were also lowered to 2 cents. However this did not occur until January 1, 1899, a week after the introduction of Imperial Penny Postage. Therefore, you get an interesting situation for 1 week (December 25, 1898 – December 31, 1898) where it cost 50% more to mail a letter in Canada to a neighbouring town (or to the USA) than to a participating Empire country, located half way around the world. All of this makes for some very fascinating postal history!

This period (1898 – 1901) was also a time where the introduction of new cancellation devices (squared circles, machine cancels, etc.) were taking place while older cancels (i.e. fancy cork, NB grid, etc.) could still be found on these stamps.

Christmas stamp collectors have also collected it as being the first “Christmas stamp” (though the reference to XMAS 1898 on the stamp is more to do with the date for the implementation of Imperial Penny Postage).

312 E/P Rejected 3 Cent Essay by Sir Sandford Fleming, being one of two original cabinet card photographs submitted by Sir Sandford Fleming to William Mulock (see letter thanking him for it in this lot). The other card is in the National Archives of Canada. It reads "Design for a British Empire Postage Stamp / by S.F. Ottawa June 21st 1898". The card is also initialed by Fleming on the back. Note the 3 cent rate instead of the eventual 2 cent rate. This is in line with Mulock's earlier failed attempt to lower the rate to 3 cents. The design was submitted prior to the July 1898 London conference where the lower 2 cent rate was advocated by Mulock. Ultimately Mulock would select the design he assisted Mr. Warren Green with designing. One of four different essays for the Penny Postage stamp in the National Archives of Canada. Also includes an August 1898 Signed Letter From PMG William Mulock to Sir Sandford Fleming, written on Office of the High Commissioner for Canada letterhead, Mulock thanks Fleming for the sketch submitted for the Empire Penny Post scheme. An important historical document between two of Canada's greatest philatelic personalities. Both items are ex. Fawn. Rsv.

Mint, and was hinged onto a page which contained a pencil notation (photocopy included) at bottom reading "Specimen stamps, from the Postmaster General Mr. Mulock Ottawa, Canada 1899". A rare specimen, as neither of the important Fawn, Boisclair or Westgate Map stamp collections contained one.

The cover was addressed to London (AUG.25.1900 first receiver) but then forwarded to Ireland (Ballisodare Ireland receiver on back is dated AUG.27.1900). F.P.O. #16 was attached to the 19th Brigade of the 1st Division of the South African Field Force (S.A.F.F.). During the period of July 25-28 they were located at Bank Station, Orange River Colony. During this same time period, the 19th Brigade of the 9th Division, which included the 2nd Royal Canadian Regiment, was also located at Bank Station, therefore it is likely a Canadian attached to this force that sent this letter. Rowe (1981) illustrates two covers mailed from South Africa with Canadian stamps attached. However these were superfluous as they did not pay the postage. The Imperial Penny postage stamp on this cover appears to have been accepted for payment of the postage. Vertical fold, still very fine and rare. Ex. Overall fine or better. **Est \$400**

- 396 ☒ **Balance of the Map Cover Collection**, with 47 domestic rate covers, either on exhibit pages or loose. Each is single franked, and were mailed from Ontario or the Maritimes (many from NB) and we note a good variety of postmarks such as c.d.s., duplex, London Orb, flags, Toronto streets, etc. Also includes some advertising, and unchecked by us for shade or plate varieties. We also note a 2c stationery cover uprated by a 2c Map and 1c Numeral addressed to Calais France (receiver on front), but missing one or more stamps. An 1899 #10 OHMS cover with two different shades 2c Map paying the double weight rate to Vermont. Finally, a special commemorative cover mailed on December 15, 1928, the 30th Anniversary of the Imperial Penny Post rate, Toronto to England, franked with a single 2c Map. A total of 50 covers, mixed condition but generally fine or better. **Est \$500**

- 397 ☒ **Group of 17 Advertising 2c Map Covers**, plus one post card. 12 are illustrated including a lovely Toronto Great Industrial Fair (1899 to New York, flag cancel), 2 patriotic covers and 1 card mailed to Great Britain illustrating a bull dog "What We Have We'll Hold", Canada Elevator Works (1899 Hamilton), etc. Note Toronto and Hamilton flag cancels, two squared circle cancels on back, and more, condition varies from very fine to faults. **Est \$350**

Forgeries

- 398 **2c Map Lithographed Forgeries**, with an imperforate and a perforated stamp, plus a genuine for comparison. A fairly crude forgery, with no shading lines behind CANADA POSTAGE and thinner than should be letters WE HOLD and numeral 2s. Also the postmark "MONTREAL 24/12/98" is lithographed at the same time and thus always in exactly the same position on these. The imperforate stamp has a thin and the perforated one has slight perf toning. **Est \$150**

- 399 ☒ **Fake First Day Cover**, a large-sized cover franked with a block of four, each stamp with "Mulock" signature in blue, tied and cancelled by "Montreal & Toronto R.P.O. c.d.s. cancels dated "8 / DE 7 / 1898". This cancel was not in use until 1918, and so someone would have changed the "18" (year date) to "1898". The "8" time mark was also not used as this would have used directional time marks instead. Still an interesting item, accompanied by a (pink) 1990 Greene Certificate boldly stating "... the entire cover including signatures is a fabrication". Also comes with a fabricated "registered" cover, once mailed at a domestic 2c rate, but with two Map stamps added later, plus a 2c Leaf making 8c, with fake R in oval cancels, etc. **Est \$100**

- 400 **Group of two 1898 "Mulready Covers"** each reading "Christmas Day 1898" at bottom and franked with a 2c Map stamp, tied by a (dubious) BERLIN / ONT DE 25 / 98 c.d.s. cancel, with additional strikes on back. The pale green cover is unaddressed and the pink one is (crudely) addressed to "Rev. James L. Black / Berlin Ont." (with small tear at bottom repaired with tape). An article in the October 1977 *Maple Leaves* reports that these were produced by the Peterborough Review Printing and Publishing Co. (Ltd.) to commemorate the inauguration of the Imperial Penny Postage and were inspired by the Mulready envelopes of 1840. R.B. Winmill in his book *The Evolution of the Penny Postage and The Postal History of the Canadian 1898 Map Stamp* states that "Unaddressed De 25 98 covers are at best philatelic, but more probably are outright fakes". We agree that the postmarks on these could be fakes, but there are a number of these exact same covers mailed (from Peterborough) to England or Ireland, and these just happen not to have been mailed. Non the less an interesting conversation duo.

Miscellaneous

- 402 **1899 Sir William Mulock Letter**, written on February 3rd in Ottawa on official Canada Postmaster General letterhead to the Head Master at the Training College, in London England. The letter is thanking the students of the school for saying "how much they like the new Canadian stamp". In the letter, Mulock points out the importance of the geography shown (the size of the Empire and the size of Canada in relation to the Empire and the world as a whole). Mulock also mentions the source of the quotation "We hold a vaster Empire than has been". He finishes by saying that Canada "may yet be the home of some of them". Small tape repair, still a wonderful collateral signed letter.

Detail Lot 403

- 403 **July 30, 1898 Page from the "Graphic" Magazine**, depicting a photograph of the ten men forming the "Imperial Penny Postage: The Organizing Committee of the Conference", including Mulock [sic]. The caption reads: "The Imperial Conference on postal rates agreed, on the proposal of the representative of the Dominion of Canada, that letter postage of one penny per half-ounce should be established between the United Kingdom, Canada, Newfoundland, the Cape Colony, and Natal, and such of the Crown Colonies as may, with the approval of Her Majesty's Government, be willing to adopt it. This beginning of Imperial penny postage will come into force, it is said, on the Prince of Wales's birthday, November 9." Also contains a few other articles, and the other side contains a series of desert-themed cartoons.

- 404 First Day of Issue (in Ottawa) of the Deep Blue Green Shade,** being a Department of the Interior memorandum, dated Ottawa December 20, 1898, dating the release (at least in Ottawa) of this deep blue green shade. This would support A. Holmes' statement that the deep blue green printing was later than the lavender oceans. The memo reads: "You will notice the difference in colour of the Sea in the new edition of stamp placed on sale in Ottawa today. It is a great improvement I think. The splashes of Red were seen to be more carefully laid on, but the perforation was carelessly done! i.e. the centering of the stamp is defective". An important piece for the specialist.

- 405 William Mulock Signature on a Map Stamp,** the stamp, with bright lavender seas, is on a small piece. This lot also includes a cover addressed to Ms Mulock at 518 Jarvis St, their Toronto residence. It is franked by a Map stamp, tied by an 1899 Guelph duplex (Toronto receiver on back).

- 406 1899 Industrial Exhibition Association of Toronto Medal,** with detailed and well defined relief impression, depicting on front a postal carrier superimposed over the 1898 Map stamp, with the words IMPERIAL PENNY POSTAGE and the year 1899. The reverse reads INDUSTRIAL EXHIBITION ASSOCIATION OF TORONTO and depicts an elaborate coat of arms with two beavers, etc. This medal appears to be made of pewter or aluminum alloy, and could have been a proof used to produce the 3 gold, 66 silver and 33 bronze medals awarded at the Exhibition. We have only ever seen two others, both in the Fawn collection (in bronze and in alloy). These were written-up in *Medals and Tokens of Industrial Exhibition Association of Toronto* written by Norman E. Wells. Extremely rare and a wonderful collateral piece for a serious Map collection.

- 407 Imperial Penny Postage Fraternal Greeting Card,** produced by John Ross Robertson (a friend of William Mulock) to commemorate the inauguration of the Imperial Penny Postage scheme. The thick card has a Map stamp affixed to it, as well as a detailed description of the scheme, a dedication to "the Members of the United Grand Lodge of Free Masons of England...", etc. One of these was inserted in the well known first letter mailed at the new 2c domestic letter rate at the Toronto Post Office by Robertson. Several creases, still scarce and a must have for the serious Map stamp collector.

- 408 Group of Cinderellas or Labels,** on two exhibit pages, starting with a "THE S.P.G. WORLD" at top of a remarkably similar perforated label to the Map stamp, with "UPON WHICH THE SUN NEVER SETS" at bottom, produced by the Society for the Propagation of the Gospel. The Fawn collection had one which was described as the only one known, which sold for US\$475 plus fees. Also a "LADY MINTO'S FETE" with a similar design, showing a red map of India, produced in January 1907. Also a "PAN-AMERICAN EXPOSITION" label depicting a similar world map, produced in December 1899 to advertise the Pan-American Expositions in Buffalo in 1901. They produced 5 designs, one of which (this one) bore a resemblance to the Map stamp. Also a copy of this stamp tied to a lovely March 1901 illustrated advertising cover (Chicago to Boston) for the German American Provision Co., depicting two hogs. Each label is well described by the exhibitor, and has a mint 2c Canadian Map stamp next to it for comparison. An interesting and useful lot for the Map stamp collector.

The letters (each three full pages long) are extremely well written and easy to read, and the first (to his mother) talks about Lent, and the fact that everyone eats fish, which is plentiful at the nearby market. The second (to his sister) describes weather so nice that many balloons filled with gas are ready to take flight, describes in great detail how the Ladies of Québec dress, talking about their dresses, large bonnets and the yards of ribbons holding them up, "I think this bonnet mania will not last". The third (to his mother) explains how he is getting ready for the half yearly inspection, describes the arrival of the 60th Regiment from England, and how his mates "nearly went mad with joy", explains his joy of meeting a boyhood friend in a foreign land and how happy this makes him, the fourth (to his aunt) describes life in the barracks, and more. Each stamp is identified on home made pages, and we note a range from Large Queen (15c) to Admiral, with numerous Small Queens (to the 10c value), Jubilees in quantity to the 5c, and Map stamps (about 120 stamps, with owner's detailed list of these). Too many interesting items to list here, but we have uploaded 24 pages online to give an idea. A quick look reveals amongst many others about 38 items with indicia errors (owner's list enclosed), some unlisted colour strikes, one Nassagaweya purple proof strike, etc. The collection also includes some multiples (pairs, strips, blocks of 4) and does not appear to have been picked. Quality of strikes is generally fine or better. A lovely collection worthy of a closer look.

1529 **⊙/*/** #4/60 Retired Dealer Stock of mint and Used Pre-1897 Issues**, all on two double-sided stock pages, with tags denoting catalogue numbers and with prices. The total for the priced material is over \$15,000, but many of these prices are at best hopeful, as many of the stamps do not have their faults described or reflected in the price. Starts with a few coil gutter pairs or varieties but most of the collection starts with reprints of the 1989 Sports set and continues with miniature panes of ten and coil gutter pairs, which bracket different labels. The definitive sets include higher values with over \$183 in face in the \$1 to \$10 range alone. The commemoratives and some definitives are mostly 45c, 50c and a few 55c denominations. We note many miniature sheets of 10 of Olympic Gold Medal Winners, as well as many of the former Scott #1406-17 (these included in the face value but apparently not in the owner's catalogue value). All are fresh, very fine and never hinged, a great opportunity to acquire these varieties not often offered in North America. Scott catalogue value is \$2,430 and total face value is \$883.

Overall probably about 80% complete, missing the early souvenir sheets, but many are included in the later years. A great many mid-value stamps included, and we note a good quantity of c.d.s. and/or very clean cancels, especially in the later years where they are more difficult to find, as well as complete modern sets, of which there are many. There is a third smaller binder containing stamps for which the albums don't yet have pages for, and many sets in the two albums are still in 102 cards and not yet mounted. A difficult collection to assemble. Early stamps may have small faults, later material is mostly fine or better. The Jack Gray Collection of Topicals

Jack was first, last and always a story-teller - a professional writer in a number of genres: magazine articles, stage plays, radio plays, screenplays, and (unpublished) novels. He was also a lifelong collector, mainly of books and stamps, but also any kind of material related to his many enthusiasms – history, literature, theatre and music, printing and typography, humour, cooking, games and tea. Stamp collecting for him was always as much about the story as the stamp, so his collection from the beginning leaned in the direction of topics. His earliest and most enduring love was ships and all things nautical, but at the time of his death in February 2017 at the age of 89, the number of topics he was actively collecting was over 200. He was assiduous in tracking down the earliest examples of any of his topics, diligently working through the checklists of the American Topical Association as well as any other sources he could find, and over the course of time assembled a very large database of firsts, with lots of interesting stories to go with them. He wanted to share this wealth of philatelic lore with his fellow collectors and found the perfect way by writing a book called “What’s First”, published by the ATA and released on August 9, 2018 at the ATA convention in Columbus, Ohio. He would have loved to see the end result, but the joy was in the journey.

The following 57 lots are mostly from the Jack Gray collection and contain many tens of thousands of stamps, many sorted or displayed in albums but also many in bulk unsorted envelopes, and still we noted little duplication overall. The number of items in each topic ranges from a few (these have been grouped with others) to several thousands of items (ie. Ships). Items from Jack lotted elsewhere in the catalogue have the “JG” designation.

- 1942** **1908 "Preparing for a Balloon Ascension at Le Mans"** black and white photographic print measuring 20 x 18 inches (image is 16 x 23½). A lovely print on Kodak paper showing Wilbur Wright in the basket of Leon Bollee's spherical balloon "Au Petit Bonheur" at Le Mans. Wilbur made this ascension with Renee Pelletier and Léon Carre (in photo). The photo was identified by Dawne Dewey, head of the Wright Brothers historical personal archives at Wright State University. She could not identify the photographer but she did say that it could only have been done by one of the personal photographers that the Wright brothers used, because these were their personal photographs. An important item, with great subject matter, stored in a non-smoking environment and suitable for framing. Offered in an archival quality PVC rigid sleeve.

TERMS & CONDITIONS
(Please read carefully)

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only; there is a 2.5% convenience fee to process Visa & MasterCard payments). Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated either in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:

- (1) The purchase price of the lot must be paid in full;
- (2) The item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale;
- (3) A copy of the application form must be given to Sparks Auctions;
- (4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
- (5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100; and
- (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen.

12. Lots which include the notation 'Rsv' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed".

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

- a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by UPS ground or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2018 Scott Catalogue Volumes 1 through 12
2017 Scott Classic and US Specialized
2018 Unitrade Specialized Catalogue of Canadian Stamps
2015 Stanley Gibbons 1840-1970 (SG), values in £
2007 or later Michel Catalogues of the World (Mi), values in €
2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam
Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeable with the standard 12 volumes.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$5 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
\$1600 - \$3100	\$100	above \$50,000	\$5,000

1) Please bid using the increments above. All bids not conforming to these increments will be rounded to the nearest amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) **BID CONFIRMATION & OUTBID NOTICES** If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and, without divulging the high bid, telling you which lots you are winning on at that moment. You then have the option of updating your bids. If you have bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids in advance to Stamp Auction Network or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service. Long distance telephone expenses may be charged to telephone bidders outside of North America.

6) **OPENING BIDS** will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (second-highest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.

8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- * Credit Card number (Visa or MC, with expiry date and CVC code)
- * Philatelic references (including eBay reputations, BidStart etc.)
- * Associations (APS, RPSC, BPA, etc.)
- * Your own professional website (stamp-related or otherwise)
- * A valid e-mail address (we will not approve you if your e-mail bounces)
- * Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: sparks-auctions.com/how-to-bid-with-us/
