Lots & Collections

Welcome to Sparks Auctions' 29th sale.

Our September 2018 sale was our largest so far, and our January auction promises to continue this great trend. We value the participation of collectors from around the world, and are committed to providing an exceptional bidding experience. To that end, we maintain our very competitive buyer's premium of only 15%, which remains one of the lowest among philatelic public auction firms. We also continue our commitment to industry-leading transparency, by clearly indicating with a "Rsv." which items are subject to a minimum reserve bid.

Collectors in every field are sure to find something of interest amongst our high-quality offerings of Canadian, British Commonwealth, and worldwide stamps and postal history. Highlights include our usual high quality singles and multiples, from the classics, through to rarely offered modern varieties.

We are also proud to offer the "Azilda" collection of Canadian registration stamps and covers, including gems offered on the philatelic market for the first time in over forty years. These are identified in the catalogue with the letters AC (Azilda collection) accompanying the description.

Our British Commonwealth and Worldwide selections including another installment of desirable SPECIMEN perforated sets, exceptional never hinged Italy and rarely-seen Italian States, a collection of "Number One" stamps of the world offered in several lots, as well as early Great Britain, United States, seldom offered countries, and more.

Our postal history section abounds with diverse material, including our always-popular postmark lots, featuring a lovely collection of Canadian fancy cancellations, offered in over thirty lots. Also of note are forty-five lots of Graf Zeppelin flown covers and cards from around the world, Western Express covers, and more.

One of the highlights of this sale is a world-class advanced collection of Great Britain squared circle postmarks, consisting of over 16,000 covers and cards as well as thousands of stamps. The collector diligently sought fully legible and quality strikes, including most of the rare ones, and more common hammers are often found on better items, such as unusual usages and exotic destinations. This collection contains most of the great rarities, much of it originating from the renowned collection of Stanley Cohen. This is a once-in-a-lifetime opportunity to acquire material from one of the best collections ever formed.

Finally, we are pleased to offer worldwide country lots from the Jack Gray collection. This collection was received in just under 100 large cartons, and is being offered principally by country, with each lot typically including more than one collection. Jack was a topicalist, and purchased country collections to extract the topical material he needed, and what remains is a very diverse offering. These lots are identified with (JG) accompanying the description. We recommend careful viewing of his material as the sheer volume of material may yield finds for the eagle-eyed collector.

As always, we are at your service if we can be of any assistance.

Enjoy the sale!

The stamps are clearly from positions 1-4, 11-14 as evidenced by the printer's imprint in top margin and unique centering. Because of its large size, this block was instrumental in helping determine the single-plate theory for this value. Once belonging to Brig. Studd, it was studied by himself as well as Jarrett, Senator Calder, Lee-Jones and others, as evidenced by the accompanying article by Peter J. Hurst published in the October 4, 1952 *Weekly Philatelic Gossip* magazine. We know only of one or more blocks of four and a strip of four, leaving this as likely the largest known multiple. The Azilda Collection of Registration Stamps

Azilda is a small town located approximately 10 km west of Sudbury, in Northern Ontario. It was first settled by workers building the CP Railway, and, so the story goes, was named for the first woman to step foot in this area, Azilda Brisebois, later to become a Bélanger.

By the 1950s, as the village continued to grow, a young man arrived from the Maritimes to establish himself as the town doctor.

His practice thrived, and in the early 1970s, he established a medical clinic to better serve the local residents. Now with a solid financial base, the good doctor started to invest in real estate and other ventures, and took up stamp collecting in earnest. As his practice continued to grow, and now with three children, he was no longer able to attend to his stamps, and turned his attention to more pressing matters. He stashed his collection in a safety deposit box at the local bank, where they remained unseen and untouched until the summer of 2018. The following lots - identified by "AC" - are the contents of this safety deposit box.

The letter, which is on Winterholme / Ottawa stationery and signed by Fleming, pertains to the 24 hour system, the Canadian Pacific and Intercolonial Railways. Fleming accompanied his letter by another (cannot ascertain signature on this one - see scans), which is also included. A very fine and interesting lot. William Lyon Mackenzie King Correspondence, 1933 to 1948, mostly from King to his "friend" Wilna Agnès Moore of Saskatoon (born 1890 in Fort Qu'Appelle), and also contains some personal letters from Miss Moore's personal archives. The correspondence includes about 40 letters from King to her (1933-1948), mostly all of personal nature. The letters are mostly on Laurier House stationery, but also contains one on The Cloister House, Georgia illustrated stationery (1935), Hotel de la Paix in Geneva illustrated stationery (1936) and some on official Office of the Prime Minister letterhead. The contents of the letters are fascinating, as they occurred in the days before, during and after World War II. One 1947 letter from King tells her how he appreciated her gift of flowers and bottle of "Molyneux Eau de Cologne" but would have liked to return it to her as he knows how difficult it must have been for her to purchase it in Paris in these times. Another letter dated December 14, 1944 he writes "... the government has passed through a storm which threatened to destroy the party and the government and to leave its marks for generations to come in the country itself. Providence alone is to be thanked for having spared us all from such an appalling situation...". His letters are all neatly typed and hand signed by himself, and some have additional hand-written notes from him on them. Miss Moore was involved with Aboriginal and Metis affairs in Western Canada, and later worked at the Canadian Embassy in France, and there is correspondence from Yves Lamontagne there to the effect that she was discharged to be able to open a radio station in Dawson Creek, BC (CJDC) "in order to further develop cultural relationships between France and Canada", with various official letters describing the purchase of Marconi 1,000 watt equipment (\$2,000), the purchase of ten acres of land for \$500, various licenses, etc. Miss Moore's archives also contain several other letters addressed to her, mostly to do with the radio station or other matters, and includes also a 1957 photo-card hand-written and signed by John Diefenbaker, thanking her for her help in his election campaign. Other items include her Université de Paris student cards for 1931, Carte d'Identité Française dated 1931 with her photo and address at 67, rue du Théâtre in Paris, as well as other photographs and documents. Lastly, the lot includes a nice collection of 19 different books by or about William Lyon Mackenzie King. A rare offering.

✉ **Correspondence Pertaining to the Surveying of the CPR Route North of Lake Superior, 1872 to 1876**, being the material originally used by George MacManus to write a two-part article in the PHSC Journal (included in lot). Contains a total of 22 letters (most with their covers) mailed by William E. Morgan (member of the Fleming survey team) to his better known brother Henry J. Morgan in Ottawa. These detailed letters show the trials and tribulations associated with such a trip in Northern Ontario in those days. There are way too many interesting quotes we could make here but recommend viewing the lot in person to better appreciate. There are many references to places he went through (and wrote from) such as "Pie Post Camp", "Camp 8", "The Pie", "Prince Ruperts Land", "Camp 35", "Red Rock", Lac des Milles Lacs", "Camp 76", "Fort Francis" and many more. From the point of postal history, this is also an interesting lot, for the scarce early (for this area) broken circles it contains, mostly on 3c Small Queen covers, but also some free-franked, with rate handstamps. Noted Fort William, Red Rock, Thunder Bay, one cover mailed "via Duluth" in 1874, Michipocoten River CW, etc. Faults, still a fascinating read and historically important.

- 1175** ☒ **Advanced Collection of Squared Circles**, with 65 covers or cards, plus about two dozen stamps, all extensively written-up in 1987 on 70 large size quadrille pages, worthy of exhibiting. Starts with a great introduction including clear illustrations of the Types, a photograph of the Greenwich S.O. / S.E. instrument with description, then goes on with various Types and sub-Types, then followed by an extensive study of the duty codes, coded times, clear times, Christmas use, travelling post offices, railway stations, recuts, etc. Four line engraved stamps show squared circles, including two ½d, and we note many earliest and latest recorded dates throughout, note a red strike of Clifton / Bristol, a lovely strike of Throgmorton Avenue F / E.C. on a very fine £1 QV stamp (mentioned on page 392 in handbook). We note a few "Lonely Greats" including a partial on stamp of Chigwell Road (RF 500), Ashford / Kent (RF 475 for 1st Type, and LRD), Spennymoor (RF 475 and LRD), Sutton (RF 475 and LRD), Deptford S.O. / S.E. (RF 475, with both the ERD and LRD), a number of RF 450 (including some ERD and LRD) such as Kilmington, Northumberland Rd / Margate, Stonehouse / Devon, Barham, Huttoft, Welwyn, and so on with examples of RF 425 and 400. The collection ends with some misspelled hammers and examples of late usages. A most lovely collection, with a few items removed long ago (not necessarily the better items), still a great opportunity to acquire many lovely and choice items. Scans online only give a small taste of this collection, we recommend inspection. We believe this was put together by the late Michael Millar.

- 1177** ☉ **STOCK EXCHANGE / E.C.** a collection of 5 different strikes, each on a 10d brown octagonal Queen Victoria cut square, and dated between FE 7 / 94 and MR 13 / 94. Three are dated MR 13, and two of these show A and B time mark. The cut squares appear to come from telegraph forms. The Handbook (and its four supplements) reports no examples known (therefore a rarity factor of 500), and supposes that they could exist on non-postal items, such as telegraph or revenue forms. These prove this theory in spades. Accompanied by four of the same cut squares, these with Stock Exchange C.D.S. cancels dated in the same period. Also some sales sheets from Samwells from which three of these were purchased. A rare opportunity.

- 1178** ☉ **THROGMORTON AVENUE F / E.C.** a fine and centered strike P / AU 16 / 90 on a £1 brown violet Queen Victoria stamp (tiny tear at right). When the Handbook was published, only two strikes of this office were known, one (offered elsewhere in this collection) on a £1 stamp and one on a 1sh stamp. This is a third, unrecorded example. A rare squared circle, with a rarity factor of 475. The stamp alone catalogues \$4,500 in Scott, including 50% premiums for very fine centering and clear c.d.s. postmark - squared circle postmarks are quite a lot rarer on this stamp. S.G. #185, cat £2,800.

1327 ☉/*/** **#1/2491 Mostly Mint Collection in Five Lighthouse Hingeless Albums, 1851 to 2011**, all with matching slipcases and left intact, as received. Starts with mint and used classics (faults in this period, but still many good items), with shades, printings, etc. Jubilees are mint to the 50c and includes some NH (marked on pages). Close to complete mint from Jubilees on to the 1950s, with complete mint Leafs, Numerals, Edwards, Québécois, coils, and so on. Extensive Admirals, starting with a complete basic set (many NH and VF), followed by War Tax, coils and many shades and printings. Back of the book is mostly complete mint also. About 99% complete MNH from 1950 to 2011, including tagging, booklets, souvenir sheets, perforation and printing varieties, all as listed by Lighthouse. We note many good items such as tagged and untagged 1970 Christmas centre blocks, Mammals and Fruit Trees varieties, Wilding and Centennial precancelled warning strips of 20, many Centennial varieties, and much more. We estimate the face value of this era alone to be well in excess of \$1,500. A lovely and extensive collection, worthy of a close look and great for continuation of the early period. Enormous catalogue value and nice overall quality from the Small Queens to the end.

.....**Est \$5,000**

1328 (*) **#4/ Collection on 36 Lighthouse Pages, 1851 to 1951** including back of the book. This mostly mint collection was unfortunately once damaged by water and is filled with valuable stamps, which were mostly all taken out of their mounts to dry, then placed back in. Some have resulted in unused (no gum) condition, some still have some gum which is mostly glazed by the mounts, some have gum staining, etc. Better items noted includes unused #4 (2 shades) and a #9 all with faults, unused #18 (fine), a #20 proof (very fine), a nice group of unused Large Queens (this is where most of the good value resides), complete unused Jubilees to the \$5 (some have stains, but noted some good items such as the \$5), unused F3, and basically complete from Small Queens to 1951, including back of the book. This collection would have catalogued quite high, and will need careful inspection to see the extent of the damage, which varies drastically. The collection has been gone through to establish a "market value" (\$19,205) which was used to perform an insurance claim. Sold as is, see scans online for an idea of the general appearance.

.....**Market \$19,205**

1329 ☉/*/** **#4/ Valuable Collection of Mint and Used Better Material, 1852 to 1950s**, with regular issues starting at #4 (with Greene cert.), Cents, Large Queens, Small Queens, mint Jubilees to the 20c, mint Québec set, 18 different mint Admirals, Arch coils, Medallion coils, Scroll, mint high values, etc. Also mostly mint back of the book, with air mails, special delivery, a mint never hinged E3b (with certificate), Officials, and more. We note a large quantity of never hinged throughout, many very fine or better centered stamps and there are also certificates for the mint never hinged #s 35, 43 and 56. A lovely group, with very nice quality throughout and very high catalogue value. All scanned online. Rsv.

.....**Est \$3,500**

1330 */** **#8/ Valuable Mint Collection in a Lighthouse Hingeless Album**, starts with #8, good Cents issues, good Large and Small Queens, Jubilees to the \$1, plus \$3, #s 66-73, 89-98, 74-84, 96-103, 104-122 and much more, close to complete to 1985, including back of the book. We note many additional items that were not counted, such as plate proofs or imperforate stamps. At first there is a mix of hinged and never hinged, and the latter are clearly indicated on the pages in pencil - no premium was added for any of the early NH items. There is a mix of fine and very fine centered stamps, but we noticed a higher than usual percentage of the latter, with many choice stamps, even in the higher valued ones. A very nice collection, which we have only scanned 13 pages online, and suggest viewing to better appreciate the quality and value included here.

.....**Scott US\$43,853**

1331 ☉/*/** **#11/726 Lot of Better Interesting Canada and Provinces**, starts with Canada #11 (stains and expertly modified), 14ix (used, apparently with stitch watermark, USC \$1,000), 56 (lightly hinged plate 20 single), 63 (never hinged bottom marginal single, Scott U\$4,000), 72 (never hinged, Scott U\$850), 84 (never hinged single, Scott U\$1,300), 97iii (mint block of four, with major re-entry on bottom right stamp, overall gum disturbance, UCS \$350), 103 (very lightly hinged, Scott U\$250), 124 (mint pair, top stamp lightly hinged, Scott U\$385), 387i (hinged marginal single with weak double printing), 726 (never hinged block of four, vertically misperforated to the left by 3mm), Newfoundland #11 (mint hinged, Scott U\$475), 11A (mint hinged pair, Scott U\$170), New Brunswick #22 (used pair, with many faults but with what appears to be a rare #3 in grid cancel - inspect) and New Brunswick #3 (reprint single). A nice lot for the reseller, with huge catalogue value. All items are scanned online.

.....**Est \$1,500**

1332 ☉ **#14/ Valuable Stock of Early Used Canada**, all in seven stock sheets, crammed with valuable material. We note Cents, Large Queens, Jubilees (including \$1, \$2, \$3), lots of Québecs to 20c (5 complete sets), Numerals, Edwards, Admirals, Scrolls, many registration stamps (incl. 8c), and much more. Probably lots of shades, papers or other varieties not counted. The seventh page was added later and not counted in the total catalogue value, and it contains even more goodies, including a #7, and on to the 1930s, which if catalogued would certainly add thousands more to the total. An overall good quality lot, with some faults as expected but overall clean and fine or better and a great opportunity. All pages are scanned online.

1333 ☉/*/** **#14/ Mint and Used Collection in a Thick Harris Album, 1859 to 2015**, stuffed with many hundreds of stamps, starting with mostly used Cents, Large and Small Queens (note a 3c LQ with lovely APR.6.1868 datestamp), Jubilees are mixed mint and used to the \$2 (missing the \$1 but with 2 shades of the 50c, mint 20c, etc), mixed mint and used from then on to the end, and probably 90% complete to the 1980s, then about 60% complete to the end. We note many souvenir sheets, extra shades, some duplication, some varieties, tagging, nice c.d.s. cancels and back of the book is average except for additional material such as many pages of revenues, as well as provinces, including mostly mint NB, NS and PEI, plus a good collection of Newfoundland, from Pence-on with many good quality better stamps, again mixed mint and used. The back of the album contains some high denomination mint souvenir sheets and blocks such as Star Trek items, \$5 flag and many P stamps. Early mint is unchecked by us as to hinging, but most mint are in (closed) mounts. Some faults in the early material still a nice overall collection worthy of continuation. In the stamps we note a little of everything, with mostly used, but most denominations have one or more mint examples. There are postmarks galore, perfin, multiples, millésime gutter pairs and blocks, many on piece, varieties, shades and much more. The covers and card section is similar in its great variety, with registered, perfin, many with cinderella labels from WWI, some silk postcards, picture postcards, advertising, destinations, postmarks, used and unused stationery cards, frankings and much more. A rare opportunity to acquire so much material for this very popular issue, from an old time collection. Some faults, still overall fine.

Postal Artifacts and Ephemera

- 1745** **Group of Canada Post Counter Mat Displays**, from 1996 to 2005, printed on both sides on thick shiny card to show French and English new issues of the time. With about 75 in all, including some duplication, not often offered.

Majority have one in copy in French and one in English. All have been folded in half (probably to mail them out), else very fine and scarce. Would make great ephemera additions to many types of collections.

Collectibles and Memorabilia

- 1747** **Lovely Collection of 78 Different Famous People Signatures**, from the 1930s to the 1950s, mostly all on USA 1c orange Franklin stamps and 1c green Roosevelt stamps, but also on other issues including some Canadian. The list of signatures included here is quite impressive, and is mostly comprised of Hollywood actors, but also of well known figures, mostly American, as well as some State Governors of the day. The owner had apparently sent all of these out for signatures with self-addressed return envelopes. We noted Lionel Barrymore, Joan Fontaine, Glenn Ford, Garry Cooper, Betty Grable, Olivia De Havilland, Lauren Bacall, Fred Astaire, George Burns, Jack Benny, Humphrey Bogart, Cary Grant, Gene Autry, Henry Fonda, Emily Post, Walt Disney, Bing Crosby, Ira Gershwin, Frank Yankovic and many more. TERMS & CONDITIONS
(Please read carefully)

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only; there is a 2.5% convenience fee to process Visa & MasterCard payments). Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated either in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:

- (1) The purchase price of the lot must be paid in full;
- (2) The item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale;
- (3) A copy of the application form must be given to Sparks Auctions;
- (4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
- (5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100; and
- (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen.

12. Lots which include the notation 'Rsv' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed."

SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:

- a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by UPS ground or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2019 Scott Catalogue Volumes 1 through 12
2017 Scott Classic and US Specialized
2018 Unitrade Specialized Catalogue of Canadian Stamps
2018 Stanley Gibbons 1840-1970 (SG), values in £
2007 or later Michel Catalogues of the World (Mi), values in €
2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam
Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeable with the standard 12 volumes.

About Bidding

**Please bid using these increments.
(All bids are in Canadian dollars.)**

\$5 - \$100	\$5	\$3200 - \$7000	\$200
\$110 - \$250	\$10	\$7500 - \$15,000	\$500
\$275 - \$750	\$25	\$16,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$32,000 - \$50,000	\$2,000
\$1600 - \$3100	\$100	above \$50,000	\$5,000

1) Please bid using the increments above. All bids not conforming to these increments will be rounded to the nearest amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) **BID CONFIRMATION & OUTBID NOTICES** If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and, without divulging the high bid, telling you which lots you are winning on at that moment. You then have the option of updating your bids. If you have bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids in advance to Stamp Auction Network or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service. Long distance telephone expenses may be charged to telephone bidders outside of North America.

6) **OPENING BIDS** will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (second-highest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.

8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made

before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. Other details that will help us quickly approve you for bidding include:

- * Credit Card number (Visa or MC, with expiry date and CVC code)
- * Philatelic references (including eBay reputations, BidStart etc.)
- * Associations (APS, RPSC, BPA, etc.)
- * Your own professional website (stamp-related or otherwise)
- * A valid e-mail address (we will not approve you if your e-mail bounces)
- * Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: sparks-auctions.com/how-to-bid-with-us/

LOT#	Correction
301	This is plate 116 [not 166], as can clearly be seen in our scan .
314	The OHMS perfin is a Fred E. Eaton forgery, handstamped Frodel on back.
421	There are no re-entered stamps in either of the two panes. Catalogue value is \$1,500.
425	There is a hint of a hinge mark on top stamp plus a small hinge reinforcement between the bottom stamp and its selvedge.

725	Stamp is from 1863 [not 2004].
816	Withdrawn
820	The stamps on this cover may not belong; we strongly recommend an extension for a certificate on this lot.
959	There are four covers in this lot [not five].
997	The 205 Lira stamp has another stamp underneath, the rare rose lilac error of colour of the same value, which catalogues \$2,000 in Scott.
1643	The first stamp listed is a #22 [not a #2].
