Saturday September 28th 1:00p.m.

Welcome to our September 2019 Sale. Our May 2019 sale, including the John Hillson and Andrew Liptak collections was a huge success, surpassing by far our expectations. Our firm is constantly growing and gaining the confidence of more and more new and repeat consignors and buyers, for which we are greatly thankful, and we will soon be offering more single name sales, which we think will interest many of our customers. Our business model allows us to offer a great variety of material for all budgets and collecting interests.

Our Canada and BNA section offers our usual great variety of singles and sets, including part 1 of an old time holding of early Canadian mint never hinged stamps, mostly in blocks and multiples. This section also features the archives of Jean Morin, a stamp designer who worked on many Canadian stamps from 1973 to 1994, a large holding of early plate proofs and much more.

Our British Commonwealth and Worldwide singles and sets section is one of the better we have offered recently, again with a little something for everyone, including another installment of the SPECIMEN perforated stamps of the 1930s, many good GB and United States items, etc.

Our postal history section continues to be strong and offers the best collection of Canadian First Flight covers we have ever offered, with mostly better items and very few common $\$ 3$ covers.

Our very popular Canada and Worldwide lots and collections section is rich with variety, with strong offerings of Germany, Great Britain, United States and more, including some valuable collections sold intact cataloguing from $\$ 50,000$ to well over $\$ 100,000$.

Our sales are conducted in Canadian dollars, with a competitive buyer's fee of $17 \%$, and we always charge the actual shipping cost and not a "flat fee". In our continued promise of transparency to our customers, all of the reserved lots at Sparks Auctions are indicated with the letters "Rsv" at the end of the description and start at the reserve price.

Happy bidding, and please contact us if you have any material to consign!

$101 \odot$ \#40, 45, etc. Lovely Calendar Collection of the 10c Small Queen Value, with a total of 107 fully dated stamps (111 if you count the two pairs and strip of three), ranging from DEC.23.1874 to JUL.9.1898. We note six \#40e (pale milky rose lilac, perf $11 \frac{1}{2} \times 12$ ), other shades of the $11 \frac{1}{2} \times 12$ perf, several magenta shades, at least one "pitted 0" variety (dated DEC.5.1893), and so on. The collector has carefully identified each stamp with date, postmark, perforation measurement, Shoemaker paper type, etc. A very difficult collection to assemble, especially in this nice quality and with all stamps fully dated. All are scanned online.

The Jean Morin Production Material Archives

The following 19 lots are from the archives of graphic designer Jean Morin, who was involved in the design process of over 70 Canadian stamps, from 1973 (RCMP) to 1994 (Jeanne Sauvé). These lots, which contain both issued and unissued stamps show a good diversity of pre-, and postproduction material, such as design maquettes, research photographs, die essays, stamp design proposals and much more. There is also a good quantity of material (sheets, plate blocks, etc.) signed by the stamps' designers. A few of the highlights are a lot of material relating to the design production of the 1982-1988 Heritage Artifacts Definitives, the 1990 Norman Bethune joint issues with China, some unissued definitives and postage dues, etc. A once-in-a-lifetime chance to obtain rare, and in some cases unique material.

Please see the auction online at www. stampauctionnetwork.com to view more scans of these lots and others.

Group of c. 1970 Unissued 1c to 20c Natural Resources Definitive Issues Production Essays, with a set of the seven values (1c, 2c, 4c, 5c, 6c, 10c and 20c) in large deluxe die essays showing two images of the proposed stamp, in stamp size and enlarged, each in a different colour (the 1c has a stain at bottom). The same seven values are present in an enlarged size with perforations, all in the proposed colours, each mounted on a larger plastic film. The same seven values (in the proposed colours) are presented on large portfolio sheet printed by the designers at their Montreal design office in 2019. Also in the same format are two sheets showing stamp positioning formats. Last but not least is a perforated stamp-sized essay in green and black on thin card. All items in this lot (except the last item described) are signed by their two designers Jean Morin and Yvon Laroche. The project was titled "Projet d'une série de timbres sur les richesses naturelles du Canada" and therefore the 10c depicts fish and the 20c depicts trees.

The Sandy Denovan Collection of Manitoulin District Postal History, this is the main collection on pages, in three thick binders and consisting of about 400 covers and cards, from a great number of different offices, ranging from stampless to modern. We note a wide variety of postmarks including duplex, broken circle, c.d.s., RPO, machines, squared circles, Klusendorf, MOON, MOTO, POCON, and many more. Many of these offices were only open a short time, or were summer offices, and postmarks tend to be difficult to find. We noted some ERD and LRD, as well as only known strikes. A good proportion of the material is modern, but we noted many registered, Small Queen, rates and postmark usages (dispatch, transit and receiving), etc. See our scans online for an idea, or better yet view to better appreciate. See also our lot of Manitoulin postcards and duplicate covers elsewhere in this sale.

Collection of First Day Covers, 1951 to 2014, with some earlier ones, all neatly displayed in black stock sheets in 13 thick binders (including 5 Lighthouse with matching slipcase). We counted 29 different silk Colorano cachets, as well as cachets from different makers such as H\&E, Rose Craft, Cachet Craft, Art Craft and more. We noted an unusual commercial cachet from Marcel Bélanger in Montreal (with enclosure), some uncacheted early ones, se-tenant multiples, a few plate blocks, many special event covers (catalogue value between \$5 and \$15 each in Unitrade), as well as some quite recent postal stationery cards, etc. There are several hundreds in all (we counted over 200 in the 2007 to 2012 period alone), and one of the albums is devoted to material dated before 1970. The collection seems to have a high degree of completion from the late 1970s to 2014, with almost no duplication. Very clean collection (all stock sheets appear brand new).

$\triangle$ Extensive Collection of First Day Covers from 1946 to 2017, neatly displayed on homemade pages often accompanied with a photocopy of the back cover. The collection consists of over 3,000 FDCs based on an average of 160 covers per binder ( 18 binders plus a group of loose items). The period is well represented with almost no duplication (two sets of the Millenium issues) and a great mix of definitive and commemorative issues. We noted plate blocks, se tenant, special event covers and some philatelically cancelled covers (these slightly out of date). We noted some better issues such as the Regiment issue inscription plate block, Canada Post philatelic and numismatic covers, Picture Postage issue, Computer Vended Postage issue and more. Approximately 200 covers were issued before 1971 with cachets from companies such as Art Craft, Rose Craft, Cole Cover and H\&E. A very clean collection that would not require much investment to reach completion. See scans for a glimpse of the content.

E/P \#U25, U27, U30 Set of King George V Stationery Press Proof Sheets, with twelve $17 \times 22$ inch sheets, plus four $8 \frac{1}{2}$ x 10 buff-coloured Manila pages. There is a pencil notation on the Kraft paper cover reading "Press Proofs / B.B. Note Co. / Die Embossed Plates / 1/2/1923". Each of the larger sheets has twenty embossed postal impressions featuring King George V facing left, spaced approximately 3 3/4 inches apart, with the appropriate coloured numbers (orange, green and brown) just below each inked impression (numbered 1 to 20 ), and there are also some albino embossed impressions on other sheets. The impressions are of the heavily embossed dies used in preparation of the 1c orange, 2 c green and 3c brown stationery envelopes (Unitrade U25, 27 30, Webb EN26, 28 and 31). The contents are as follows: page 1-2 (1c orange fully embossed), page 3-4 (1c complete albino impressions with no numbers), page 5-6 (2c green fully embossed), page 7-8 (2c fully ebossed with no numbers), page 9-10 (3c brown fully embossed), page 11-12 (complete albino impressions with no numbers) and the four smaller pages contain colour and albino impressions of the 3c brown. Back shows a purple cachet with map "ITALIAN / WORLD AIR / FLIGHT" (also another strike partly visible on front), with green initials of Stephen Smith and the president of the Aero Philatelic Club of India H.A. Outhwaite (these, apparently to prevent duplication). This is the right half of the cover only, as the 93 existing covers had all been intentionally cut in half, as they had been signed by de Pinedo after a promised charity donation had failed (the half with his signature are missing). Accompanied by a fairly contemporary article written on these interesting covers. This one is numbered 62 (out of 93 ), very fine and rare.

Among others, we noted a large set of tridimensional stamps and gold stamps for the Grenoble Olympic Games. The states of South Arabia are represented by many colourful sets and souvenir sheets, so are Dubai, Manama, Ras I Khaima, Umm al Qiwain, Fujeira and Sharjah. A thick stockbook holds numerous souvenir sheets, se-tenant blocks and strips from all these areas. Another binder holds cinderellas from Lundy, Malaku Selatan, Dhufar, Staffa and other similar. Finally, a stockbook is replete with all kinds of labels and reprints. We noted Mexican TB labels, labels for the 1897 Brussels Exhibition, St-Jean-Baptiste Society labels, Canadian and US Easter Seals, Boy's Town labels, fiscal stamps and many others.

valuable collection left intact, and loaded with better singles
and sets, way too many to list here. We estimate 90-95\% of
the collection to be used, rest is mostly mint hinged but we
noted some never hinged in black mounts. Starts with Great

with original gum, four embossed QVs (3 are cut to shape),
perforated Penny Red plated up to \#224 (223 is mint), plus a
number of other plated issues such as the $1 / 2$ d rose (all plates
but \#14), and much more (owner catalogued the GB long
ago at $\$ 36,900$ ). The owner catalogued many of the pages
or countries long ago, many pages having a high catalogue
value, several in the $\$ 500$ to $\$ 1,000$ range and more. For
example we catalogued Malta alone at $\$ 3,775$ (owner had

stamps and sets in this collection, many cataloguing in the
$\$ 50$ to $\$ 200$ range (and often much more), with many Shil-

most part clean, with most of the high values being postally
used (a few are not). A much better collection than is normally

Great Britain Machins Specialized Machin Head Stamp AIbums, with very little stamps, but these are the Adminware advanced series of pages, printed in full colour on high quality thick bond paper, and presented in six new Lighthouse binders with slipcases. Organized by denomination, these pages include nearly every regularly issued variety (errors, complete booklets and booklet panes excluded). Included here are the different gum types, each booklet position (for straight and cut sides), perforation style, etc. Small images of all booklet panes are illustrated on the respective pages. Major sections include Pre-decimal, Decimal, Anniversary, NVI, and Regionals. A great way to display an advanced Machin Head collection.

The collection is in six Mystic albums (stamps are in black mounts) with matching slipcases, and has a mix of mint and used up to the 1890 s, then predominantly mint to the end, with never hinged starting fairly early on. The collection is essentially complete for regular issues from about 1870 and on (with much material before then), and includes lots of extra material such as coil pairs and singles, souvenir sheets, a few plate blocks, booklet panes and booklets, printings and varieties, blocks, self-adhesive mini-sheets, and more. There are numerous expensive stamps throughout (many in the several hundreds to thousands of dollars), both in the early period as well as in the modern period, with way too many to list, so we have scanned the first 150 pages online to give an idea. The back of the book sections were lotted separately. A lovely collection, with an enormous catalogue value (not to mention the huge face value), and overall fine to very fine, except in the early period where stamps may have no gum, or hinge remnants, or trimmed perfs, etc. We counted the face value for 2011 to 2013 only, which adds up to US $\$ 397$ (including 517 Forever stamps). ## TERMS \& CONDITIONS

(Please read carefully)

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.
2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to $17 \%$ of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.
3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of $2 \%$ per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of $\$ 100.00$ will be charged for any cheque returned for insufficient funds.
5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only; there is a $2.5 \%$ convenience fee to process Visa \& MasterCard payments). Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank ( $2.5 \%$ percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.
6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.
7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.
8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.
9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.
10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated either in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine, unless otherwise noted. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:
(1) The purchase price of the lot must be paid in full;
(2) The item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale;
(3) A copy of the application form must be given to Sparks Auctions;
(4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
(5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100; and (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen.
12. Lots which include the notation 'Rsv' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed.

## SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

Within Canada:
a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of $\$ 1000$ they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:
a) Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
b) Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:
a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled $X$ under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2019 Scott Catalogue Volumes 1 through 6
2019 Scott Classic and US Specialized
2019 Unitrade Specialized Catalogue of Canadian Stamps 2018 Stanley Gibbons 1840-1970 (SG), values in £ 2007 or later Michel Catalogues of the World (Mi), values in $€$ 2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam
Other Specialized catalogues as noted in descriptions.
The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 12 volumes.
5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service. Long distance telephone expenses may be charged to telephone bidders outside of North America.
6) OPENING BIDS will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (secondhighest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.
7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.
8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

## How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

## Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

## Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

## The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us
quickly approve you for bidding include:

* Credit Card number (Visa or MC, with expiry date and CVC code)
* Philatelic references (including eBay reputations, BidStart etc.)
* Associations (APS, RPSC, BPA, etc.)
* Your own professional website (stamp-related or otherwise)
* A valid e-mail address (we will not approve you if your e-mail bounces
* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

## The On-Line Auction

Once you have been registered and approved by us, you can:
Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: sparks-auctions.com/how-to-bid-with-us/

## AUCTION \#31 UPDATES TO LOT DESCRIPTIONS <br> Updated Wednesday, September 25th, 2019 at 3:30pm EDT. <br> Sale posted at Stamp Auction Network on Tuesday, August 27th, 2019 at 1:00am EDT.

## LOT\# Correction

There is a faint removed pen cancel, so the catalogue value for a sound used stamp would be \$1,600.
This stamp is accompanied by a 2010 CPES certificate, 2010 BPA certificate and 1994 Alcuri certificate.

81 This is a \#29, catalogue value is therefore $\$ 320$.
202 The four high values appear to be expertly regummed.
229 Withdrawn.
232 Withdrawn.
235 The catalogue value is $\$ 500$.
237 The \#133 single is lightly hinged, catalogue value stays the same.
385 There are only 6 stock pages [not 7].
401 There is a small tear at lower right (visible in the scan).
558 There is a small thin on the Queen's neck.
1053 The majority of these covers are uncacheted.
1282 This lot only contains 6 binders [not 7].
1401 \#152 has no watermark, and therefore it is a \#110.
