

A traditional floor auction featuring live internet bidding

Welcome to our $32^{\text {nd }}$ sale. This is another exciting sale for us, as we have been again entrusted to sell a wide variety of interesting and impressive material by many different consignors. We also take pride in announcing that from now on, we will endeavor to include either a scan or a photograph online with each and every lot. We think this is yet another step, along with our exacting descriptions and live internet bidding, in helping our customers from around the world to have easy access to our auctions.

Also starting this auction is another step towards our aim of transparency: all lots that have a reserve (a minimum starting price agreed to between the seller and Sparks Auctions) will be marked as "Rsv." and the minimum starting bid will be disclosed both in the print catalogue, and online. The fact that many of our buyers give us their bids before the day of the sale attests to their trust in our trustworthiness and integrity, and our past buyers will attest that a great number of lots are won at far lower amounts than their top bids.

Highlights from this sale include:

- Probably our most comprehensive offering ever of early

Canada and BNA with many listed varieties, etc.

- Extensive collections of Large and Small Queen stamps, postmarks and postal history.
- Historically important documents from the 1759 Québec Campaign, including three letters written during the battle at the Plains of Abraham and a Commission Document signed by King George II, all belonging to an officer who fought alongside General Wolfe.
- Part two of a consignment of mint never hinged Canadian blocks and multiples from the late 1890s to early 1930s, all being on the market for the first time.
- Part one of The Leon V. Pont collection of pioneer India first flight covers, Rocket Mail, and other early worldwide airmail and first flight covers tucked away since the 1930s, and therefore being offered on the market for the first time. - The long-awaited Robert Heasman collection of early Canadian machine cancellations in 104 lots.
- An extensive and fresh collection of People's Republic of China, mint never hinged and used, from 1949 to 1979 including rarities.
- Another installment of 1938 British Commonwealth SPECIMEN perforated sets.
- A rarely offered collection of New Zealand Pigeon Post stamps and flimsies.
- Part two of the extensive Jack Gray collection. Jack was a local topicalist who purchased country collections in order to extract the large number of topical material from. These lots are superseded by "JG" for identification.

As always, we invite you to view our lots online at stampauctionnetwork.com and as a reminder all our lots are sold in Canadian dollars at a competitive $17 \%$ commission rate. Do not hesitate to contact us if you have any questions or require additional scans or would like to consign to one of our future sales.

Enjoy the sale,
Stéphane Cloutier

o.g./OG ©riginal Gum (p.o.g.= part original gum) $\odot \quad$ Used (includes full range of postally used, cancel-toorder, precancels)
XF Extremely Fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not applied for modern stamps. The term "Superb" is occasionally used as an adjective in the text of a description.
VF A stamp in superior condition which is well-centred and without fault.
FVF Applied to stamps that are somewhat less wellcentred than very fine, while taking into account what may considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
F(ine) Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.
VG Very Good Equivalent to "average". Typically with poor centring, heavy cancellation or faults such as minor thins, light creases, etc.
Faulty Applied to an item with tears, heavy crease(s), unsightly postmarks, serious thins or surface scuffs.
$\square \quad$ Cover, which here embraces stampless folded letters (SFL), mailed envelopes, first day covers (FDC's) etc.
FDC First Day Cover

*/** \#104-122, etc. 1911-1925 Extensive and Advanced Collection of Mint Admirals, filling 14 large stock pages with well over 600 stamps. The collector's aim was to find as many different shades, papers, wet and dry printings and varieties as possible, which will be immediately apparent upon viewing. We note regular issues mostly in singles and pairs, including many high valued stamps, coils are mostly in pairs with many paste-ups, Toronto experimentals, and other varieties, there are also some imperforates and an extensive showing of War Tax issues, again with many dies, shades, coils and printings. A cursory look behind these stamps showed mostly hinged examples, with some scattered NH here and there, as well as some faults, usually in the form of thins or creases, but overall this collection is fine to very fine. All pages have been scanned online, but we recommend close-up viewing to better appreciate the quality and value of this lot, which must have taken a long time to assemble.

## Back of Book -- Federal Wildlife Conservation Stamps

** Collection of Mint Never Hinged Habitat Conservation Stamps 1985 to 2008, consisting of over 60 booklets of 1 stamp, with duplication up to 7 of each. Almost complete for the period. We also noted a sheet of 16 stamps \#FWH10 from the 1994 issue (with handling bends), some provincial wildlife habitat stamps from Québec, and a few singles from the popular 1942 Prairie Provinces set. See scans for an idea, lot is clean and overall very fine.

*/** \#9, 12, 22, 23 1864-65 Lot of Mint Issues, with \#9 (total of 24 stamps in singles, pairs and blocks, with at least 5 different shades), 12 (two pairs and a single in three different shades), 22 (total of 45 stamps in singles, pairs and blocks) and 23 (total of 19 stamps in various multiples). There are a great variety of shades here, including some not listed in Scott, so we counted the catalogue value as all cheapest major shade only. The great majority of these are mint never hinged, with a few of the early imperforates being hinged. We have carefully examined these using the Scott and Schloss descriptions on how to identify reprints, and are fairly confident they are regular issues, but we still recommend careful examination or viewing the scans we have online. 1751 Commission Document Signed by King George II, Having Belonged to Captain Boughey Skey. This official Army Commission appoints Boughey Skey to the rank of Captain in Kennedy's (i.e. the 43rd) Regiment of Foot of the British Army. The document was duly signed at top left by King George the Second, on May 2, 1751. During the 18th Century these official Army Commission documents were important pieces of personal identification and would have been carried by their owners while on active service.

Captain Skey was born in England in 1728, joined the Army in 1747, and served with the 43rd Regiment throughout the Québec Campaign of $1759 / 1760$ and he was wounded at the Battle of Sainte Foy on April 28, 1760. The standard reference work Historical Records of the Forty-Third Regiment (1868) by Sir Richard Levinge confirms the following information (relevant photocopied included in this lot): 2 May 1751 appointed to the rank of Captain in the 43rd Regt., 15 March 1761 appointed to the rank of Major in the 43rd Regt., Skey transferred to the 49th Regiment (with rank of Lt-Col) in 1768 and retired in 1769. The work states explicitly that Skey served during the Siege of Québec in 1759 and during the Expedition to the West Indies under Lieutenant General Robert Monckton in 1762.

The 43rd (Kennedy's) Regiment played an important role during the famous battle on the Plains of Abraham outside Québec City on September 13, 1759, during which British Commander-in-Chief General James Wolfe was killed in action. On that fateful day, the $43 r d$ Regiment contributed 327 soldiers to the total Army strength of 4,829 men.

The document is in very fine condition, with the normal folds. In all likelihood, Captain Boughey Skey was carrying this actual Commission document during the epic battle, thereby making it an artifact of great historical significance in the Canadian context. Rsv. \$2,500.

$\triangle$ Group of Three Folded Letters Written During the 1759 Québec Military Campaign, all three are addressed to Captain Boughey Skey, Commander of the Guard at the Bridges of the River St Charles, of the 43d Regiment of Foot (Kennedy's Grenadiers).
The first letter is datelined "Camp Point Lévis 28th July 1759 / 10 at Night" and was written by Brigade Major John Spital (wounded on Sep 13, 1759), informing Skey that "...by orders of the General (Wolfe)... you march to the Encampment of the Grenadiers.. and put yourself under Major Morris's Orders... your men are only to carry their blankets with them...", etc. Written on the eve of the Battle of Beauport, also known as the Battle of Montmorency.
The second letter is unaddressed, but starts off with "Dear Skey", datelined "Québec October the 21st 1759" written by Major of Brigade Richard Maitland (wounded Aug 8, 1759), informing Skey that the General (Wolfe) has intelligence suggesting that there are enemies "...on your side, and that they intend to surprise you... he desires that you be very alert...". The third letter is datelined "Québec 22 (October) 1759 / 6 oclock", written by Thomas Mills (wounded in Apr/May 1760) informing Skey that General Mills will be sending "... 40 men out to the Country, they will come near your post at night...". This third letter has a half-remnant of a red wax seal bearing the arms and motto of General James Murray (who served immediately under General Wolfe and later became Governor of Québec).
None of the letters have any postal indications and would have been carried "post haste" by army officers in this tumultuous time in Québec. The River St Charles (where Skey ad his men were posted) is the principal river within Québec City and played a prominent role during the Québec Campaign of 1759/1760. Captain Boughey Skey joined the Army in 1747 and became part of this Regiment in 1751. He would have certainly taken part in the famous Battle of the Plains of Abraham, which took place on Sep 13, 1759. A very important trio of letters in very fine condition. Both sides of each letter are scanned online. See page 126 for more images.

## The Robert Heasman Collection of Early Machine Cancellations

Collected over several decades, this collection was one of the best of its kind ever assembled and contains some key items from the Richardson, Sessions and Paige collections. Robert Heasman was very meticulous in assembling this collection, and the result was a multi-frame exhibit which won several awards both nationally and internationally (CAPEX 87, San Francisco 97). Bob was also very generous with his knowledge, always willing to help out fellow collectors.

The 104 following lots were made up of his main collection (the exhibit) sorted by town and by machine type. At the end of each town we will offer his remainder lots, and at the end of the section will be some multi-town lots. All items from the exhibit have been kept on his exhibit pages, and we have scanned most of the exhibit pages, plus a number of the remainder lots online.

Since he was very careful to own only the best quality, the condition of both the postmarks and the items offered should be assumed to be of the highest quality. For this reason, we have not qualified each item, only the ones where there might be a reduced edge, or in rare cases a front, etc. Enjoy!

The L.V. Pont Collection of Early Air Mail Postal History

Leon Pont 1916

Leon Pont 1960

Leon Victor Pont (1883-1982) was a railway engineer who joined the 36th Jacob's Horse regiment of the British Indian Army in 1916 and helped to build the railway system in Mesopotamia from 1918-1920.

He then moved back to India, and while working on various Indian railways he joined the Indian Air Mail Society in its first year of existence. He immediately became a good friend of its Secretary and cofounder Stephen Smith, and they both collaborated in financing and organizing first flights in India. Their correspondence, often describing some of these airplane or rocket flights, will be offered in part two of his sale.

Mr. Pont exhibited his New Zealand airmail collection in Calcutta in 1932 and also exhibited in three classes at the London International Air Post Exhibition in 1934, and won a trophy and some medals, all offered in part two of this sale.

Mr. Pont moved back to England in 1937, much to the chagrin of his good friend Stephen Smith. Smith founded the Calcutta Philatelic Club during the 1920s, and the Aero Philatelic Club of India (which changed its name to the Indian Airmail Society on 19th January 1930). After Mr. Pont's departure, Smith ran out of money and often wrote to his friend seeking financial aid, selling him his best worldwide first flight covers to help finance his first flight and rocket endeavors. All of the material sold in the Leon Pont sales will be on the market for the first time since the 1930s.

Part 1 of this sale (January 2020 Lots 1502-1633) will include Mr. Pont's extensive holding of early worldwide First Flight and Rocket Mail material, as well as many Graf Zeppelin items, mostly all addressed to Stephen Smith or Leon V. Pont with a good proportion being signed by Smith.

Part 2 (May 2020) will feature Mr. Pont's extensive and quite comprehensive collection of early India First Flights, likely the largest ever assembled. The sale will also include the Stephen Smith correspondence, the trophies and medals and other interesting material.

#### Abstract

1858 - /* British Commonwealth Mint and Used A to Z Collection, but no BNA, ranging from early Victoria to approximately 1953 in a Springback album and a 16 page stockbook consisting of over 2,100 stamps with little duplication. Included are "Back of the Book" issues such as Air Mails, Semi-postals, war tax, postage due as well as common design types such as the 1935 KGV Silver Jubilee, the 1937 KGVI Coronation, the 1946 Peace Issues, the 1949 Silver Wedding issues. Among the high value issues we noted Antigua \#3 MH, Australia \#7 and \#151 used, Bahamas \#89 MNH, Barbados \#79 MH, Bechuanaland \#53 MH, Bermuda \#4 and \#68 used, \#109 MH, Gold Coast \#28 used, Hong Kong \#48, \#79 and \#121 MH, \#52 and \#52 used, New Zealand \#156 and \# 183 used, \#056 and 069 MH, Sarawak \#63 used, Straits Settlements \#39 used, as well as Trinidad and Tobago \#10 used and \#J6 MH. Watermarks were not checked. Overall, fine or better, some with heavy cancellations or other faults, as may be expected of the early issues. Scans only show a small portion, viewing is recommended to better appreciate the value and quality involved.

-/*/** Worldwide Group of Mint and Used Worldwide Collections in Five Albums, including a Standard World Stamp Album holding about 3,000 mostly used stamps to about 1980, with strength in Canada and the USA. Another album includes a limited number of mint hinged sets from various countries, all issued in the early 1950s, these are exceptionally fresh and make for a visually very pleasing collection. A small book houses a disorganized German Area collection to about 1950, with nice Third Reich semi-postals and other interesting items. A stockbook houses Canada and USA plate blocks from the 1970s and a used USA collection. The last binder holds selected pages from a larger album with thousands of stamps from a variety of countries.

## TERMS \& CONDITIONS

(Please read carefully)

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale.
2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 15\% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.
3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of $2 \%$ per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of $\$ 100.00$ will be charged for any cheque returned for insufficient funds.
5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only; there is a $2.5 \%$ convenience fee to process Visa \& MasterCard payments). Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank ( $2.5 \%$ percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.
6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.
7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.
8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.
9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.
10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated either in our printed catalogue or online may be returned because of centring, margins or other factors shown in the illustrations, including easily visible flaws;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine, unless otherwise noted. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:
(1) The purchase price of the lot must be paid in full;
(2) The item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale;
(3) A copy of the application form must be given to Sparks Auctions;
(4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
(5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to $\$ 100$; and (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen.
12. Lots which include the notation 'Rsv' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed.

## SHIPPING INFORMATION

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the following manner:

## Within Canada:

a) Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of $\$ 1000$ they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:
a) Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
b) Cartons and larger lots will be shipped by Canada Post parcel post
or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:
a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 12 volumes.

| About Bidding |  |  |  |
| :---: | :---: | :---: | :---: |
| Please bid using these increments. (All bids are in Canadian dollars.) |  |  |  |
| \$5-\$100 | \$5 | \$3200-\$7000 | \$200 |
| \$110-\$250 | \$10 | \$7500-\$15,000 | \$500 |
| \$275-\$750 | \$25 | \$16,000-\$30,000 | \$1,000 |
| \$800-\$1500 | \$50 | \$32,000-\$50,000 | \$2,000 |
| \$1600-\$3100 | \$100 | above \$50,000 | \$5,000 |

1) Please bid using the increments above. All bids not conforming to these increments will be rounded to the nearest amount.
2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
3) BID CONFIRMATION \& OUTBID NOTICES If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and, without divulging the high bid, telling you which lots you are winning on at that moment. You then have the option of updating your bids. If you have bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
4) If you give your bids in advance to Stamp Auction Network or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.
5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service. Long distance telephone expenses may be charged to telephone bidders outside of North America.
6) OPENING BIDS will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (secondhighest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.
7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.
8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

## How To Bid

Advance Bidding We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

## Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

## Connect to Stamp Auction Network at: stampauctionnetwork.com

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

## The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us
quickly approve you for bidding include:

* Credit Card number (Visa or MC, with expiry date and CVC code)
* Philatelic references (including eBay reputations, BidStart etc.)
* Associations (APS, RPSC, BPA, etc.)
* Your own professional website (stamp-related or otherwise)
* A valid e-mail address (we will not approve you if your e-mail bounces)
* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

## The On-Line Auction

Once you have been registered and approved by us, you can:
Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.
