Lots & Collections

Welcome to Sparks Auctions Sale 33. Our firm continues to see a strong and steady increase in popularity, offerings and sale results, and this sale is again, our largest ever. Because Sale 33 is our first held in the new reality brought on by the COVID-19 pandemic, we want to protect our staff and customers and will therefore be holding this sale without a public floor. Viewing will be conducted by appointment only, and we will only accommodate a small number of people at once. Details of our COVID-19 Protocols can be found [on our website](#).

We are proud to announce that the first part of this sale will feature Part 2 of the "Outaouais" collection of high-quality Canada and United States, with many certificates and great provenance.

Sale 33 highlights also include:

- The Brian Plain collection of Canadian Dead Letter Office postal history
- Part 2 of the extensive Leon Victor Pont collection of early India First Flight postal history in 159 lots.
- Many large bulk dealer lots of Canada and Worldwide
- Our usual offerings of Canadian and worldwide postal history and postcards
- Our usual offerings of Canadian and worldwide stamps and collections
- Two worldwide lifetime collections, one in 42 Scott International albums and one in 38 Minkus Albums, both offered intact.
- Extensive and advanced collection of used People's Republic of China stamps in six albums.

As usual our sale will be conducted live over the internet, though Stamp Auction Network (SAN). There, you will also see our customary many thousands of high-quality scans and pictures, with at least one per lot, as well as descriptions that we feel go beyond the traditional. Advance bids can confidentially be entered on Stamp Auction Network (SAN), by email, by telephone or via an agent, and during the auction we will be taking bids only through SAN and via telephone (telephone bids are limited in order to ensure a high-quality user experience).

A reminder that lots that have a "Rsv" in the description are reserved, and the amount shown is the minimum bid accepted to open the lot. Also, our sales are always conducted in Canadian dollars, with an industry-low 17% buyer's premium. Our sales catalogues can always be downloaded by PDF on our website at [sparks-auctions.com](#), or can be seen on SAN at [stampauctionnetwork.com/ik/ik33/cfm](#), where thousands of high-quality scans and photos accompany. Please do not hesitate to contact us as soon as possible if you would like to consign material for one of our upcoming auctions, as we are well advanced in the preparation of our next sale, and have limited space left.

Enjoy the sale, and we hope everyone can find something special for their collections!

| <b>XF</b>      | Extremely Fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not applied for modern stamps. The term "Superb" is occasionally used as an adjective in the text of a description.                                                                                    |
| <b>VF</b>      | A stamp in superior condition which is well-centered and without fault.                                                                                                                                                                                                                                                                                       |
| <b>FVF</b>     | Applied to stamps that are somewhat less well-centered than very fine, while taking into account what may considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.                                                                           |
| <b>F(ine)</b>  | Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values. |
| <b>VG</b>      | Very Good Equivalent to "average". Typically with poor centering, heavy cancellation or faults such as minor thins, light creases, etc.                                                                                                                                                                                                                       |
| <b>Faulty</b>  | Applied to an item with tears, heavy crease(s), unsightly postmarks, serious thins or surface scuffs.                                                                                                                                                                                                                                                         |
| <b>✉</b>       | Cover, which here embraces stampless folded letters (SFL), mailed envelopes, first day covers (FDC's) etc.                                                                                                                                                                                                                                                    |

At the time it was purchased it contained some covers, which we have lotted separately, and the missing stamps appear to have been removed prior to that early 1960s sale. The collection, which appears to have belonged to Major G.A.E. Chapman of Ottawa (a well published and award winning student of this issue) is quite advanced, with many notes and remarks, and focuses on shades, papers, imprints, identified plate positions (many) and postmarks, many of which rarely seen. We note several paper types, including thick, thin, a stitch watermark, one identified as "laid" (which was sent to the RPSL in 1953 who identified it more as a "ribbed", and to the E.B. Eddy Paper Co, with accompanying letters), a pair which appears imperf between but shows only two unpunched perforation holes between, perforation varieties including some imperforate singles, a single with a few perforation holes through the stamp and none around, many pairs, at least 19 mint and unused copies including the lovely block of four pictured in our catalogue. Postmarks noted include several with rate markings (1, 3, 5, 10, PAID), fancy numerals (16, 37, 21 roller, Toronto fancy 2, etc.), 4-rings noted are 4, 5, 18, 21, 27), many cork cancels, a complete Toronto mutilated Berri duplex, a lovely group of dated copies (calendar collection) from AUG.6.1859 to JUN.14.1870 all from a multitude of different towns, including many small. There is a selection of railway cancels on 12 stamps, and finally we note extensive plated material, a few of which are glued on an old time large positional cardboard, as well as the most imprint copies we have ever seen in one place. Also, the stamps in column 3 are the same height as those in columns 1 and 2, but are about 0.2 mm narrower. ## Historical Canadian Documents

- 1001 1819 Postmaster Commission Signed by Daniel Sutherland**, being a printed form measuring 258 x 400 mm giving nomination to a Mr. McMillan as Postmaster of Grenville, district of Montreal, who is authorized to "keep and retain a commission of twenty per cent". Dated June 15, 1819, with Sutherland signature next to a large part of a red wax seal. Folds and small faults, still a lovely item and a must have for any serious postal historian. Daniel Sutherland was appointed Postmaster of Montreal in 1807 and also held the office of Military Postmaster during the War of 1812. He replaced George Heriot as Postmaster General of Upper and Lower Canada in 1816, and was replaced in 1828 by his son-in Law Thomas Allen Stayner. To put the time frame in context, in the year 1820 there were only 49 post offices in all of British North America.

- 1004** ☒ **1867 Letter and Cover Signed by Prime Minister John A. Macdonald**, the letter (and its original cover) was mailed to Henry J. Morgan at the Secretary of State's Office in Ottawa on NOV.26.1867. The cover has a lovely House of Commons crown shield handstamp in red plus a red "FREE" between horizontal lines and an Ottawa C.W. datestamp, and is endorsed for free postage by John A. Macdonald (his initials). The letter inside reads "Dear Sir, I think you had better be in no hurry about transferring your services from the Secretary of State's office to the other. Yours faithfully, John A. Macdonald". The rather intimidating tone of this letter reveals unambiguously that Macdonald had a very high opinion of Morgan's talents and that he did not want to lose his services. Accompanied by three original relevant documents, one about the Secretary of State's Office (1873) and two written by Morgan in 1875 and 1893, the latter being a form filled by himself describing his government career appointments, salaries, etc. An interesting lot, great for postal historians and historians alike.

## The L.V. Pont Collection of Early Air Mail Postal History - Part II

Leon Pont 1916

Leon Pont 1960

Leon Victor Pont (1883-1982) was a railway engineer who joined the 36th Jacob's Horse regiment of the British Indian Army in 1916 and helped to build the railway system in Mesopotamia from 1918-1920.

He then moved to India, and while working on various Indian railways he joined the Indian Air Mail Society in its first year of existence. He immediately became a good friend of its Secretary and co-founder Stephen Smith, and they both collaborated in financing and organizing first flights in India. Their correspondence, often describing some of these airplane or rocket flights, will be offered in part two of his sale.

Mr. Pont exhibited his New Zealand airmail collection in Calcutta in 1932 and also exhibited in three classes at the London International Air Post Exhibition in 1934, and won a trophy and some medals, all offered in part two of this sale.

Mr. Pont moved back to England in 1937, much to the chagrin of his good friend Stephen Smith. Smith founded the Calcutta Philatelic Club during the 1920s, and the Aero Philatelic Club of India (which changed its name to the Indian Airmail Society on 19th January 1930). After Mr. Pont's departure, Smith ran out of money and often wrote to his friend seeking financial aid, selling him his best worldwide first flight covers to help finance his first flight and rocket endeavors. All of the material sold in the Leon Pont sales will be on the market for the first time since the 1930s.

This part 2 of the sale (part 1 was sold in January 2020) features Mr. Pont's extensive and quite comprehensive personal collection of early India first flights, likely the largest ever assembled. This is being offered in one intact lot (the first of 159 lots) and includes one of each of all the early Indian first flight covers, all being the best examples he had, either for condition, or quality of postmarks, etc. This sale will also include his correspondence from Stephen Smith, the trophy and medals he won and lots of other interesting Indian first flight material.

The last of the three-part sale of Mr. Pont's material will be offered in our next auction.

Enjoy!

## The L.V. Pont Collection of Early Air Mail Postal History

**1385**  **The Leon V. Pont Extensive Personal Collection of Indian First Flight and Related Covers, 1911 to 1934**, all chronologically displayed in four volumes, with each item conserved in a glassine, accompanied by a sheet of information (the same as was used by Lady Ezra) including number of items carried, postmarks, cachets, and more, often with personal observations and notes, as well as several contemporary newspaper clippings from the flights, photographs, etc. The collection consists of 367 different items, which are the best quality Mr. Pont could find. As he had much duplication of some, he was always careful to keep the best items (postmarks, routes, pilot signatures, etc.) in his personal collection. There are way too many good items to list here, but it should be assumed that the collection includes one of each of most Indian flights and legs known in the period, including several where only a handful were flown. The collection also includes interesting items such as a FDC for the first Airmail stamps, FDC of airmail stationery, some incorrect cachets, some original photographs, two complete sets of Tata Sons special covers (with and without Union Jack flag), two sheets of blue unused bilingual airmail labels (one with and one without watermark), three different 1911 flight covers, rare souvenir cards from the 1913 Great Aerial Exhibition as well as many covers and cards selling for \$300 to \$1,000 each. See our website for scans of all the items contained in this once in a lifetime collection.

The person who buys this collection will also get Mr. Pont's personal correspondence letters (mostly between him and Mr. Stephen Smith, with very interesting facts on his rocket mail endeavors), as well as a 1st prize trophy cup he won at the 1932 Air Mail Exhibition in London England, plus four medals, two silver ones won at the same show and two large bronze ones won at the 1934 Air Mail Exhibition in London (all in their original boxes, with a damaged original catalogue of the show). Last but not least we will include original programs for the First and Second Airmail Exhibitions in India (1930 and 1932, held at Lady Ezra's residence, where Mr. Pont was a presenter in the First and an award recipient in the Second), a group of about 50 Aero Philatelic Club of India monthly bulletins from 1926 to 1937, and other related items including a (damaged) 1929 and 1930 Graf Zeppelin wine list given to him as a Christmas gift by Stephen Smith (with letter dated 1931), as well as Mr. Pont's personal used Penny Black stamp in a special folder.

Should this lot not attain our \$60,000 reserve starting price, we will dismantle it and offer each item separately in our September 2020 sale. A very rare occasion to obtain such a complete collection intact. Rsv. \$60,000.

Some faults to various degree were noted such as, volumes 2 and 3 have some pages or plates with water stains not affecting the proofs (except for the top row of P.E.I. 3¢ value), corners bumped and scuffed, internal crack in middle, otherwise the overall quality of the 14 volumes is good, with some very fine and some fine. One of the highlights include four #10 envelopes full of Admiral War Tax, sorted into MR1 to MR4, a small stockbook full of Admiral coils, a glassine with 100 (or so) 50c Admirals, some back of the book, etc. Well worth a close look to better appreciate the quantity and quality of this lot.

The boxes are mostly identified as to their content, such as Christmas, Back of the Book, Centennials, Flags, Queens, and some by Scott number. We highly recommend examining this one in person in order to get a better idea of the sheer tonnage involved. Certainly well over a million stamps.

- 1687    ☉ #35/1984 Massive Lot of Used Stock in 32 Thick Volumes, From 1870s to Early 2000s**, consisting of hundreds of thousands of stamps mostly sorted by catalogue number. We noted a good mixture of commemoratives and definitives with thousands of better postmarks, hundreds of precancels, perforated officials, private perfins, overprinted officials, revenues, Newfoundland, and more, leading us to believe that this inventory could be unpicked. Appears fairly complete in period, and although we saw no 50c Bluenoses, there are loads of other higher value items throughout. Unchecked by us for varieties. Duplication does not appear to be higher for any particular issue, even with definitives, which would normally take up the bulk of the lot. An incredible opportunity for possible finds and no doubt patience will be rewarded. Clean lot, overall fine to very fine.

Most of the lot is already sorted, either by country, or by “packet” lot (for example one envelope contains Scott U\$3,472 worth of worldwide stamps, another is catalogued at \$2,700, etc). Noted a bag with 100s of GB “Penny Reds” on large pieces and noted many items cataloguing hundreds to thousands, but these need to be looked at closely. A very useful lot for online resellers, and well worth a close look as we only did a cursory look as there is so much material (scan does not do this lot justice). Prices given here appear to date from the late 1990s. The whole lot fills three Banker’s Boxes which weigh in at 65 pounds total.

## Antiquarian Prints & Maps

- 1959 Circa 1910 Sepia Photogravure Print of Captain Robert Falcon Scott**, from a photograph taken circa 1904-05, wearing the Victoria Order and the Polar Medal, sunken-in on a card measuring 38 x 51 cm, with facsimile signature of Scott and imprint below the image reading "Copyright Maull & Fox, 187 Piccadilly, London, W.". The Print is overprinted with "SPECIMEN" handstamp. A lovely and detailed print, with a few foxing spots and other small faults here and there, still would look great framed in a stamp room, etc. According to Wikipedia, Robert Falcon Scott (1868-1912) was a Royal Navy officer and explorer who led two expeditions to the Antarctic regions: the Discovery expedition of 1901-1904 and the ill-fated Terra Nova expedition of 1910-1913. On the first expedition, he set a new southern record by marching to latitude 82°S and discovered the Antarctic Plateau, on which the South Pole is located. On the second venture, Scott led a party of five which reached the South Pole on 17 January 1912, less than five weeks after Amundsen's South Pole expedition. Non-specimen framed examples of this print have been selling at auction in England in the £900 to £1,100 range.

## TERMS & CONDITIONS

(Please read carefully)

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale, which are subject to change without notice. The definitive version shall be referenced at <https://sparks-auctions.com/terms/>.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 17% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established credit with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card (VISA and MasterCard only; there is a 2.5% convenience fee to process Visa & MasterCard payments). Cash/ Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on [sparks-auctions.com](https://sparks-auctions.com). Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated either in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine, unless otherwise noted. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:

- (1) The purchase price of the lot must be paid in full;
- (2) The item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale;
- (3) A copy of the application form must be given to Sparks Auctions;
- (4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
- (5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100; and
- (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen.

12. Lots which include the notation 'Rsv' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed".

## SHIPPING INFORMATION

**Please note that due to worldwide COVID-19 restrictions, some shipping delays may be expected.**

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the safest and most economical method available at the time. Our insurers mandate a "signature required" method of delivery.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2020 Unitrade Specialized Catalogue of Canadian Stamps  
2020 Scott Worldwide Catalogues  
2020 Scott Classic Specialized  
2019 Scott US Specialized  
2020 Stanley Gibbons 1840-1970 (SG), values in £  
2007 or later Michel Catalogues of the World (Mi), values in €  
2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam  
Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeable with the standard volumes.

### About Bidding

**Please bid using these increments.  
(All bids are in Canadian dollars.)**

|                        |              |                            |                |

| <b>\$1600 - \$3100</b> | <b>\$100</b> | <b>above \$50,000</b>      | <b>\$5,000</b> |

1) Please bid using the increments above. All bids not conforming to these increments will be rounded to the nearest amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) **BID CONFIRMATION & OUTBID NOTICES** If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and, without divulging the high bid, telling you which lots you are winning on at that moment. You then have the option of updating your bids. If you have bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids in advance to Stamp Auction Network or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service.

6) **OPENING BIDS** will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (second-highest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.

8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

## How To Bid

**Advance Bidding** We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars.

For the most satisfying and realistic experience akin to being on the auction floor, you should become familiar with Live Internet Bidding.

## Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

## Connect to Stamp Auction Network at: [stampauctionnetwork.com](http://stampauctionnetwork.com)

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve you to bid as soon as possible during normal business hours. If your application was made more than one month ago, please re-submit.

## The Approval Process

We will not extend credit terms to any buyer who has not made arrangements in advance of the auction. Payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders, etc. We need to confirm your account before you will be able to place bids with us. For fastest bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account. Other details that will help us

quickly approve you for bidding include:

- \* Credit Card number (Visa or MC, with expiry date and CVC code)
- \* Philatelic references (including eBay reputations, BidStart etc.)
- \* Associations (APS, RPSC, BPA, etc.)
- \* Your own professional website (stamp-related or otherwise)
- \* A valid e-mail address (we will not approve you if your e-mail bounces)
- \* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in a speedy approval. We want your bids, but we do not want "problem buyers!" NB: We do not normally check references from banks, AMEX, individuals (non-philatelic), etc.

## The On-Line Auction

Once you have been registered and approved by us, you can:

Keep track of lots you are interested in, and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

Comprehensive internet bidding instructions can be found at: [sparks-auctions.com/how-to-bid-with-us/](http://sparks-auctions.com/how-to-bid-with-us/)

## Corrections & Updates

AUCTION #33 UPDATES TO LOT DESCRIPTIONS

**Updated Tuesday, June 23rd, 2020 at 2:30pm EDT.**

*[Sale posted at Stamp Auction Network](#) on Friday, May 22nd, 2020 at 12:30pm EDT.*

### **LOT# Correction**

- 839 The #6 referred-to is a #5.
- 841 This lot does not contain any #6 stamps.
- 918 Withdrawn.
- 924 The used stamp is [SG #351Wi](#) [and not 340Wi].
- 942 Withdrawn.
- 1002 We assume that some of these signatures may have been done by autopen.
- 1376 All the covers in this lot are from India, not worldwide.
- 1842 This lot does not contain 3x #97, but rather 3x #124 which catalogue \$47 each for hinged.
- 1843 This lot is being sold as is, as we are uncertain as to the genuineness of the stamps.
- 1871 The Davo albums are not hingeless but rather have their stamps in black mounts.
