The stamps and covers in this collection all have a high level of description, noting shades, alphabet types, blued papers (some quite so), Ivory Heads, re-entries, lettering varieties, different dies, guidelines, various flaws and more. There is also extensive attention given to postmarks, noting that about 150 of the stamps have Maltese Crosses, some identified, including a few with numbers (#2, 5, 6 and a lovely #8 on cover), and the rest are mostly identified numeral grids of all sorts, and we noted a few items where the stamp is cancelled by a circular date stamp.
