Lots & Collections

Welcome to our September 2020 sale. Our June sale was again a huge success, with a hammer of just under \$1 Million plus many new buyers and consignors. This sale is a little more subdued, but still contains many interesting items, with our usual wide range of material for every collector or dealer, with something for every budget. The sale will again be conducted without a public floor, which has been proven (as in our last sale) not to be a deterrent to successful sales. Here are some highlights from this sale:

Here are some highlights from this sale:

- Extensive, advanced collection of used People's Republic of China stamps in six volumes.
- Extensive collection of early Great Britain stamps and postal history
- A lovely selection of outstanding Canadian used and mint never hinged, very fine or extremely fine stamps with certificates
- Retired postal history dealer stock, featuring worldwide censored mail and Great Britain postal history
- One of the most important collections of Canadian Pre-1960 First Day covers we have offered, loaded with scarce and rare items
- The Jerry Olesnyckyj worldwide mostly used stamp collection in 100 albums, offered by country or region, including the remainder of his dealer stock, with each lot identified by "J.O."
- Part three of three of the Leon V. Pont collection of early India first flight postal history

We are confident that you will find something you like in this sale. Don't forget that all our sales are conducted in Canadian dollars, and that our buyer's premium remains at an industry low of 17%. Please visit Stamp Auction Network to look at all our high quality scans and place your bids, both before it begins or live during the auction. Our online images include nearly 10,000 scans, and we apologize that some are smaller than usual and therefore not up to our usual high standards.

Lastly, our January sale promises to be an important one, with many consignments already on hand. We are always on the lookout for more nice, quality material, with our promise that it will be well grouped and described, with many illustrations; we always have at least one photo or scan per lot, with some lots having hundreds. With Stamp Auction Network live internet bidding we cover the world in terms of potential buyers for your material.

Enjoy the sale!

<b>F(ine)</b>	Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. The stamps and covers in this collection all have a high level of description, noting shades, alphabet types, blued papers (some quite so), Ivory Heads, re-entries, lettering varieties, different dies, guidelines, various flaws and more. There is also extensive attention given to postmarks, noting that about 150 of the stamps have Maltese Crosses, some identified, including a few with numbers (#2, 5, 6 and a lovely #8 on cover), and the rest are mostly identified numeral grids of all sorts, and we noted a few items where the stamp is cancelled by a circular date stamp. ## Canada Stampless Covers

- 507  **Group of 31 Stampless Covers**, representing a diverse array of stampless material, noting a faint Montréal straight-line, oval Montréal Steam Boat datestamp, three Money Letters, Guelph manuscript cancel, a scarce Aldborough UC with manuscript date, transatlantic, various rates, broken circles, and c.d.s. postmarks, some small faults, a good representation of the era with many quality items. All scanned online.

- 508  **Group of Broken Circle Postmarks on 56 Stampless Covers, 1830s to 1850s**, with the majority from Ontario, all bearing double broken circle cancels, from a few dozen different towns and cities, note several early or late dates, including from Jarratt's Corners, Preston, Pembroke, Castleton, Plantagenet, and Orono, as well as registered, "too late" markings, embossed liquor advertising, 1d rate from Niagara with interesting contents regarding a charge of assault against a soldier with the 3rd Battalion, a wonderful lot for further study of rates or markings. ## Canada by Stamp Issue

- 510  **#4, 5 3d Beaver and 6d Consort Imperforates on Folded Cover**, mailed from Montréal (very unusual AUG.4.1857 "MONTREAL" datestamp clear free strike), addressed to Québec City, with partial receiver on back. The folded cover is franked with a 3d red Beaver and a 6d slate grey Consort, both tied to each other and to cover by two strikes of the 4-ring #21. Accompanied by a 2011 Greene Foundation (pink) certificate explaining that "the No. 4 was removed, a heavy crease ironed out while cover was repaired, then No. 4 replaced on cover in original position" repairs which have in our opinion rendered the cover more attractive and desirable. Ex. Carrington and Cantor. Rsv. \$2,500.

..... Est \$3,000

- 511  **#4iii 3d Red Imperforate Beaver on Ribbed, Hard Wove Paper on Cover**, mailed from Kingston (OCT.19.1857 broken circle) to Guelph (OCT.20 receiver) via Toronto and Belleville (both OCT.20 transits on back). The cover is franked with a sheet margin single of the ribbed, hard wove paper 3d red imperforate, ideally tied by a double broken circle datestamp (contrary to regulation, scarce). Light horizontal fold does not detract from this desirable cover, both for the cancellation and for the scarce stamp usage. Accompanied by a 2015 Greene Foundation certificate. Rsv. \$675.

..... Unitrade \$800

- 512  **#8 1/2d Rose Queen Victoria on Printed Circular**, mailed from Toronto (large OCT.6 circular datestamp) to Cayuga (OCT.7.1857 receiver), being the top part of a printed report, franked with an extremely fine, four margin single adhesive, just tied by a Toronto square grid, slightly reduced at top. Catalogue value given is for stamp alone. Accompanied by a 2018 Greene Foundation certificate. Rsv. \$950.

The cover is franked with a 10c purple brown shade Consort, perforated 11.7 all around, likely from the 4th printing order. Small closed tear at bottom and adherence on back, mostly on the back flap, still a scarce postmark and very fine appearing cover, ex. Laycock.

Stamp is cancelled by a tired and plugged 4-ring #19 from London, is very fine centered, and pays the drop letter rate. Folded circular has overall foxing but is complete. Accompanied by a 2014 Greene Foundation certificate stating "stamp only partly adhering to cover, strong vertical crease from becoming unstuck and folded over". WRIGHT (1), WALTER STARRUSZEWSKI (1), UNKNOWN A (2), UNKNOWN 1947 B (2), UNKNOWN 1955 C (1), UNKNOWN RECREATION D (1), and MISC. A M BURNS FROM BANCROFT (11). Many of these items were purchased at more than \$1,000 each, many more for several hundred dollars each, and a good proportion of this material is rarely seen, if even offered on the market. Many of the cachet makers were written about by the owner in "First Impressions" the newsletter of the BNAPS First Day Cover Study Group, and copies of these articles accompany the related sections. A complete list is included, and all covers have been scanned on our website. A unique opportunity to acquire such an extensive collection, as we are fairly certain this occasion will not present itself again for a long time, if ever. Very fine quality throughout. ## The Jan (John) Pieter van der Ven Canadian Pre-1960 First Day Cover Collection

Most Canadian Philatelists will know John as an avid FDC collector who has been active in this field for the last 30 years. He strived to obtain as many different covers as possible, either for cachets, cachet colours or types and varieties, different frankings and different postmarks, and is known for his numerous contributions to "First Impressions" the newsletter of the BNAPS First Day Cover Study Group.

The comprehensive collection offered here contains all of his better pre-1960 material, lotted mostly by stamp issue, and we have tried to have no duplication in any lot. The values given are the retail prices John paid over the years for his treasures. Some were bargains and some he paid whatever it took to secure the items, as many of the gems in his collection are either the only one he has seen in 30 years, or one of very few. This rare offering will start with John's unique collection of hand painted first day covers, offered intact in one lot. We hope you will find something of interest in this rarely offered group.

## The L.V. Pont Collection of Early Air Mail Postal History - Part III

Leon Pont 1916

Leon Victor Pont (1883-1982) was a railway engineer who joined the 36th Jacob's Horse regiment of the British Indian Army in 1916 and helped to build the railway system in Mesopotamia from 1918-1920.

He then moved back to India, and while working on various Indian railways he joined the Indian Air Mail Society in its first year of existence. He immediately became a good friend of its Secretary and co-founder Stephen Smith, and they both collaborated in financing and organizing first flights in India. Their correspondence, often describing some of these airplane or rocket flights, will be offered in part two of his sale.

Mr. Pont exhibited his New Zealand airmail collection in Calcutta in 1932 and also exhibited in three classes at the London International Air Post Exhibition in 1934, and won a trophy and some medals, all offered in part two of this sale.

Leon Pont 1960

Mr. Pont moved back to England in 1937, much to the chagrin of his good friend Stephen Smith. Smith founded the Calcutta Philatelic Club during the 1920s, and the Aero Philatelic Club of India (which changed its name to the Indian Airmail Society on 19th January 1930). After Mr. Pont's departure, Smith ran out of money and often wrote to his friend seeking financial aid, selling him his best worldwide first flight covers to help finance his first flight and rocket endeavors. All of the material sold in the Leon Pont sales will be on the market for the first time since the 1930s.

This is the third and final part of Mr. Pont's material.

Enjoy!

Back shows a purple cachet with map "ITALIAN / WORLD AIR / FLIGHT" (also another strike partly visible on front), with green initials of Stephen Smith and the president of the Aero Philatelic Club of India H.A. Outhwaite (these, apparently to prevent duplication). This is the right half of the cover only, as the 93 existing covers had all been intentionally cut in half, as they had been signed by de Pinedo after a promised charity donation had failed (the half with his signature are missing). Accompanied by an original two page contemporary article written on these interesting covers, with strike of the map cachet and Stephen Smith signature. Consisting of tens of thousands of early to modern used issues, both on and off paper, with a good mix of commemoratives and definitives in four stockbooks, glassines, envelopes and "zip lock" style bags. During our cursory look, we noted, some precancelled, back of the book, revenues, as well as postmark interest and a quantity of bundleware from the Edward issue to the late 1960s. **1140**    **⊙/\*\*\* British Commonwealth Lovely Old Time Collection of War Tax Stamps and Covers**, purchased by the owner in 1947 from Harmer Rooke and tucked away since then (a few stamps have been added) thus with fresh bright colours. The collection is neatly displayed and written-up on about 85 quadrille pages and consists of mint and used stamps (including blocks, plate blocks, varieties) plus used on piece and at least 55 covers (mostly registered to the USA) from 26 different countries, including several pages of Canada. Unfortunately many (not all) of the mint stamps have stuck down to the pages due to humid storage. We have very easily unstuck some simply by passing a tong fork underneath, and can say that many more will easily be removed. Some are quite stuck (such as many of the Canada) and will require soaking off, unless the new owner is content to simply admire the fresh and bright colours of an intact collection. Our many scans only show a portion of the collection.

- 1153**    **◎ China (PRC) Extensive Specialized Collection of Used in Six Albums, 1949 to 1982**, left intact as received (a few duplicated items were lotted separately) and essentially complete from 1949 to 1970. The period from 1971 to 1982 is probably about 60 to 80% complete and there are pages for up to 1987. The collection includes both original and reprint issues up to, and including the 1952 Gymnastics set, and it is important to note that there are a number of additional copies for most of the stamps, sometimes up to 3 or 4 copies, usually with postmark interest, indicated by owner as "PU" for postally used and/or CTO, and each additional copy is tucked underneath in the mounts, so not immediately noticeable if not closely inspected, although owner usually notes how many copies there are in the margins (this often includes the expensive sets of the late 1960s). The collection is also enhanced by many blocks, pairs, on piece, first day of issue postmarks (usually on piece but sometimes on cover), paper and perforation varieties, printing varieties, postmark studies, souvenir sheets (many cataloguing several hundred dollars each), and much more. A notable collection with almost every stamp being presented with a postally used cancel (usually more than one copy), which according to Scott footnote "postally used stamps generally sell for ½ the unused price" which in this case represents a huge dollar amount. Our many scans only show a small portion, so we highly recommend viewing this one in person, to better appreciate the high level of completeness, quality, quantity and scarcity of many of the items.

Noted postmarks from Peking, a very fine group. Also includes (but not counted in catalogue value) are a few modern non-denominated souvenir sheets and three "1949-1979" souvenir folders with first day cancels on the stamps inside.

The collection is notable for all its extra material, including shades, varieties, graphite and phosphor issues, training stamps, watermarks, some nice postmarks and more. A great collection for the specialist, as it was put together with variety in mind, a bit disorganized but many items are identified by owner and would greatly benefit from remounting. Very high catalogue value, and overall fine or better, with all pages scanned online. Have a close look at this one.

Most of the collection is used, save for a few mint, including a complete set of the last issue of 1887-1900. The very high catalogue value is mostly for cheapest shades and does not include varieties only listed in Stanley Gibbons. No expensive stamps seen, still a good variety and a bit of face value. Clean lot, overall very fine.

Better issues abound, unfortunately Italian issues are known for faked postmarks, so we have uploaded many scans online - the collector was very knowledgeable in this area, so there are good chances the postmarks might be good. Some of the questionable items might be #s 165-69, 232-38, 280-89, 305, 359-66, 574, B20-38, C4-9, C25-26, C28-33, D1-14, etc, but there are hundreds of others that look legitimate, including 119-25, 469-92, 514-46, 575-96, C100-05, C127-28, etc. A quite beautiful collection, with mostly nice and clean postmarks and overall fine to very fine. ## TERMS & CONDITIONS

(Please read carefully)

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale. The definitive version shall be referenced at <https://sparks-auctions.com/terms/>.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 17% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established payment terms with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card; there is a 2.5% convenience fee to process credit card payments). Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered

before the sale, corrections will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated either in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws;
- No lot should be returned due to subsequent numerical grading unless the graded certificate describes faults not already described by us.
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine, unless otherwise noted. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:

- (1) The purchase price of the lot must be paid in full;
- (2) The item must be submitted to the mutually acceptable expertizing committee with a properly executed application form within 14 days of the sale;
- (3) A copy of the application form must be given to Sparks Auctions;
- (4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
- (5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100; and
- (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen.
- (7) If a purchased item has a recognized certificate dated 15 years or older, extensions will be granted.

12. Lots which include the notation 'Rsv' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed."

## SHIPPING INFORMATION

**Please note that due to worldwide COVID-19 restrictions, some shipping delays may be expected.**

Unless specific other arrangements are made between the buyer and Sparks Auctions, lots will be shipped in the safest and most economical method available at the time.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2020/21 Scott Catalogue Volumes 1 through 12  
2020 Scott Classic and US Specialized  
2020 Unitrade Specialized Catalogue of Canadian Stamps  
2020 Stanley Gibbons 1840-1970 (SG), values in £  
2007 or later Michel Catalogues of the World (Mi), values in €  
2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam  
Other Specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 12 volumes.

### About Bidding

**Please bid using these increments.  
(All bids are in Canadian dollars.)**

<b>\$10 - \$200</b>	<b>\$10</b>	<b>\$7500 - \$15,000</b>	<b>\$500</b>
<b>\$225 - \$750</b>	<b>\$25</b>	<b>\$16,000 - \$30,000</b>	<b>\$1,000</b>

<b>\$3200 - \$7000</b>	<b>\$200</b>	<b>above \$500,000</b>	<b>\$10,000</b>

1) Please bid using the increments above. All bids not conforming to these increments will be rounded to the nearest amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) **BID CONFIRMATION & OUTBID NOTICES** If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and, without divulging the high bid, telling you which lots you are winning on at that moment. You then have the option of updating your bids. If you have bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids in advance to Stamp Auction Network or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service. Long distance telephone expenses may be charged to telephone bidders outside of North America.

6) **OPENING BIDS** will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (second-highest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.

8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

## How To Bid

**Advance Bidding** We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars, plus whether you would like tie breaks.

## Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:

**[stampauctionnetwork.com](http://stampauctionnetwork.com)**

Register once and create a user name and password, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve your registration as soon as possible during normal business hours. We recommend that you register at least 24 hours prior to any sale.

## The Approval Process

Once you have registered, we need to confirm your account before you will be able to place bids with us.

Details that will help us quickly approve you for bidding include:

- \* Philatelic references (including eBay feedback, auction houses you've dealt with, etc.)
- \* Philatelic memberships (APS, RPSC, BNAPS, etc.)
- \* Your own professional website (stamp-related or otherwise)
- \* A valid e-mail address (we will not approve you if your e-mail bounces)
- \* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in speedy approval. Unless you have already established a positive buying history with us, payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders and e-transfers.

## The On-Line Auction

Once you have been registered and approved by us, you can: Keep track of lots you are interested in and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (i.e., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid. You can also then participate live during the auction.

Comprehensive internet bidding instructions can be found at:

**3d Red Imperforate Beaver on Ribbed, Hard Wove Paper on Cover**, mailed from Kingston (OCT.19.1857 broken circle) to Guelph (OCT.20 receiver) via Toronto and Belleville (both OCT.20 transits on back). The cover is franked with a sheet margin single of the ribbed, hard wove paper 3d red imperforate, ideally tied by a double broken circle datestamp (contrary to regulation, scarce). Light horizontal fold does not detract from this desirable cover, both for the cancellation and for the scarce stamp usage. Accompanied by a [2015 Greene Foundation certificate](#). Rsv. \$675. Unitrade \$800

**1868 1c Brown Red Large Queen on Laid Paper on Folded Circular**, from The Ontario Mutual Fire Insurance Company, containing a Report of Directors, Financial Statement, etc. and dated Feb. 1869. Stamp is cancelled by a tired and plugged 4-ring #19 from London, is very fine centered, and pays the drop letter rate. Folded circular has overall foxing but is complete. Accompanied by a 2014 Greene Foundation certificate stating "stamp only partly adhering to cover, strong vertical crease from becoming unstuck and folded over". A very rarely offered stamp on cover, apparently fewer than 5 exist, and a must have for the serious Large Queen collector. Rsv. \$3,000. Unitrade \$10,000
