Lots & Collections

Welcome to Sparks Auctions' Sale 35. For the last several months we have been preparing this sale, and we believe the results shown here will prove our hard work, attention to detail, determination and passion for the hobby.

At Sparks Auctions we consider the property of our consignors to be of the utmost importance. Our aim is first and foremost to make sure every consignment, whether it be a single stamp or several cartons, to obtain the highest realisation. Our lotting, descriptions and numerous high quality scans speak for themselves. This is why we are receiving more and more consignments not only from estates, but more importantly from collectors, who often consider it very important that their treasures be handled in the most professional and lucrative way.

This is the first of three sales we are preparing for the first half of 2021. We are confident it will provide you with nice new material for your collections or dealer stock. Some of the interesting items offered in this sale include:

- A worldwide collection in 228 albums, offered by country or area
- Retired postal history dealer worldwide stock including many Graf Zeppelin flights, censor mail, etc.
- A great offering of worldwide first day covers  
Part 2 (post 1959) of the Jan van der Ven Canadian First Day cover collection
- Extensive collection of Large Queen stamps, postmarks and postal history including mixed frankings.
- Extensive collection of Karl Lewis hand-painted covers
- One of our best offerings to date of Newfoundland stamps, essays and proofs
- Extensive and rare offering of Newfoundland Cents Issue postal history from a "Western Holding"
- An outstanding offering of early Canadian air mail postal history and stamps with many very rare items

As a reminder, all of our sales are conducted in Canadian dollars, and our buyer's premium remains at an industry low of 17%. Please visit Stamp Auction Network to look at our high quality scans and place your bids, both before it begins and live during the auction. Our online images include more than 10,000 high quality scans.

Lastly, our late Winter 2021 sale "The Comox Valley Collection" promises to be a very popular one, as it will feature a high quality one-person collection of the world, featuring Canada, United States, British Commonwealth countries and more, all cataloguing over \$5 Million. We are always on the lookout for more nice quality material, with our promise that it will be given our careful attention and professional touch. With Stamp Auction Network live internet bidding and a large database of customers we cover the world in terms of potential buyers for your material.

Enjoy the sale!

<b>o.g./OG</b>	Original Gum
<b>⊙</b>	Used (includes full range of postally used, cancel-to-order, precancels)
<b>XF</b>	Extremely Fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not applied for modern stamps. The term "Superb" is occasionally used as an adjective in the text of a description.
<b>VF</b>	A stamp in superior condition which is well-centered and without fault.
<b>FVF</b>	Applied to stamps that are somewhat less well-centered than very fine, while taking into account what may considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
<b>F(ine)</b>	Stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. 5

- 4 (\*) **#1a 1851 3d Orange Red Beaver Imperforate on Laid Paper**, unused (no gum), with four large and even margins and clear laid lines. The stamp has a tiny corner crease at lower right, still rare and very fine appearance. Of the roughly 18 unused 3d Beavers on laid paper believed to remain, fewer than a small handful exist with four large margins such as this one, as most are cut into, etc. A lovely example of Canada's first stamp. Ex. Dale-Lichtenstein and Daniel Cantor (1990), accompanied by a 2016 Greene Foundation certificate. Rsv. \$18,000.  
..... **Unitrade \$60,000**

There are position dots and horizontal guidelines in the left margin and there is evidence of strong re-entering on all three stamps, especially in the vertical framelines, most prominent on the middle stamp. A lovely and rare multiple of this sought after proof, extremely fine. Catalogue value is for three singles only. Rsv. \$5,000.

The Moose stamps were printed on sheets with 6 panes of 4 stamps. the stamps are printed first by lithography (background colours, etc.) then by a separate printing pass through an intaglio press, which prints the engraved Moose. The “Missing Moose” error occurs when two of the gummed sheets temporarily adhere together and go through the intaglio press, resulting in a normal sheet on top and a sheet with a faint albino impression (but no ink) on the bottom. One of the most visually striking modern varieties, and arguably more so than the Inverted Seaway.

## North Borneo

x590

- 590    **\*\* 1942 2c, 4c, 6c, 8c Crest of the Colony Postage Due Issues Overprinted with 3 Kanji Characters**, each in a full sheet of 50, with complete selvage, with fresh colour, well centered and never hinged. The gum and parts of the selvage has moderate browning due to original climate and tissue protection. In online searches we found only one group of four singles offered at AUD\$250. This lot includes the original O.H.M.S. envelope in which these were stored for almost 80 years. Each of the four sheets here are very likely unique. The two lots offered here (see also lot #593) were delivered to North Borneo during the Japanese Occupation and have stayed with one family since that time. The three overprint characters literally translate as "sealed paper" and are most often described as custom seals. The comprehensive 186 page "Dai Nippon in South East Asia" lists all 5 of the North Borneo postage dues as receiving the Kanji overprints, but only 6 denominations of the Sarawak set, with the highest value being the 20c. Listed in Barefoot as a heading only, with the note "used to be listed as revenues, these are now known to have been used only as postal seals". See scans online of the fronts and backs of each sheet to show the fresh, well centered stamps, but also the browning of the gum mentioned in our description.

Engravers, New Maden, Surrey, England" imprint. Fresh colour, well centered and never hinged and only a little perf separation on one sheet. The gum and parts of the selvage has moderate browning due to original climate and tissue protection, and the \$4 sheet still has about one third of the tissue still adhering. Listed in the 2000 (6th edition) of Barefoot as #s 107 (£20 each stamp for used) and 109 (£25 each stamp for used). Each of these two sheets here are very likely unique.

The two lots offered here (see also lot #590) were delivered to North Borneo during the Japanese Occupation and have stayed with one family since that time. The three large overprint characters were primarily intended as censor seals or control stamps, formerly listed as "revenues", and the Barefoot values given is for used only. ## Early Western Canadian Postal History

- 612** ☒ **1874 Fort Garry Manitoba Stampless Cover**, mailed from Fort Garry on JAN.19.1874 to Osakis Minnesota, without a receiver but docketed received on JAN.29. At this time the rate to the United States was 6c if prepaid, and this cover has a pencil "(5)" on front, possibly to denote cash [under] payment. A rare and early cover in the infancy of the province, very few stampless covers are known out of Manitoba after the province joined Confederation and before stamp pre-payment was required in 1875. Very fine and accompanied by an article on Fort Garry published in BNA Topics by Dr. Murray Campbell. Ex. Gray Scrimgeour.

- 613** ☒ **1868 Rupert's Land Cover with United States Stamp**, franked with a 3c rose Washington stamp (grilled, issued from 1867 to 1870) and in use on mail from Red River until the fall of 1870. The stamp was applied at Fort Garry, and the letter carried by the territorial courier to Pembina, Dakota, where it was datestamped NOV.23 (1868). The address on the envelope is in the handwriting of Archbishop Robert Machray, second Bishop of Rupert's Land, whose seal is embossed on the back flap. Archbishop Machray had made a trip to Canada and to the United States in the summer of 1868. The Bishop of Kentucky (to whom this letter is addressed) was his host in New York City. A very rare usage of United States postage on Canadian mail.

- ☒ **Sault Ste Marie, Michigan Possible Manitoba Route Cover**, postmarked "SAUT DE STE. MARIE" c.d.s. dated MAR.2, with "PAID" and "10" in circle and addressed to Utica, New York. Before a post office was opened at Sault Ste Marie C.W. (November 6, 1846), much mail was sent to and from the settlement through the more accessible US town of Saut Ste Marie Michigan. In addition, mail from Michipicoten C.W. and the Red River Settlement was put into the mail stream there (see the 1846 examples in the De Volpi fur trade collection). This contemporary envelope entered the posts in Sault Ste Marie, Michigan but it's origin is unknown, as is it's year of mailing. An interesting cover.

- 615** ☒ **1850 Matawagamingue Ontario Trading Post H.B.C. Interesting Stampless Folded Letter**, written by Colin Campbell (of the Hudson's Bay Co.) in March, 1850 and addressed to James Keith, in Aberdeen, Scotland (North Britain). Carried by canoe in the summer of 1850 to Fort William (Canada East, AUG.1.1850 datestamp in red), rated "1/2" then postmarked at Pembroke, Bytown and Montréal, finally arrived in Aberdeen on SEP.3.1851 (all backstamps). Keith had retired from a senior position with the company in 1845, and the contents of the letter include the opinion that H.B. Co. governor Sir George Simpson had invested the dividends of his employees in an unwise fashion. It also goes on with "I have nothing favourable to say for the fur trade here this year. Through the great suffering of the Indians by starvation, they could not exert themselves in hunting furs and I fear our returns will be short of my average. Rabbits, almost the only dependence the Indians have for food, have disappeared almost entirely." A most interesting letter, rare and very fine. Ex. Gray Scrimgeour.

- 624**  **1813 Stampless Folded Letter Re: War of 1812**, datelined "Hudson Sept 18th, 1813" and addressed to [Capt.] Peter Ogilvie in New York. Ogilvie was born in 1792 in Little River, Nova Scotia and commanded in the War of 1812. He was captured by the British at the Battle of Queenston Heights in Canada. The letter is written by James Rovers Mullany discussing Ogilvie's "arduous and disparate command on the 13th of October 1812 at Queenston. I know ... to entitle you to the character of a brave and valuable officer." signed Jason Robert Mullany / Lt. Col. 23rd Infantry. - 863 **/PC Extensive Collection of Grey County Postal History**, in 10 volumes, with a total of 721 covers and cards ranging from the earliest to modern. Items are neatly displayed on pages with in-depth descriptions of the rates, routes and postmarks, as well as information on each post office, from Aberdeen to Yeovil (Owen Sound is a separate lot), showing opening and closing dates (some were only open for a very short period), etc. It is immediately evident that this collector sought the best possible strikes for each postmark (with early and late dates), and was conscientious about quality of each item he added to the collection. There are too many good items to describe here, so we have selected a few scans for Stamp Auction Network, and have also scanned every page on our website, not only for our customers' viewing enjoyment, but for preservation's sake. This collection is loaded with goodies, such as stampless, Cents, Large Queen, Small Queen covers, a good quantity of registered material, either with single frankings (eg. 8c SQ, Leaf and Numerals) or with Registration stamps, and we note some very nice early Money Letters. We note covers, stationery cards, picture post cards, registration receipts, etc., and we note all sorts of postmarks including pre-instrument manuscripts, r.p.o., many broken circles (a very quick spot check revealed some unreported instruments, as well as many earliest and latest dates), c.d.s., "changelings", duplex, registration and much more. We noted a stampless folded letter with a unique manuscript date-stamp from "Derby" which never opened (this is illustrated in "Canadian Manuscript Town Postmarks" by Handelman and Poitras). The collection puts emphasis on all of the postmarks used at that office up to 1902, including the newly recorded earliest date for the Owens Sound (as it was called then) double broken circle (11 Decr 47), several "changelings", broken circles, three 4-ring 26 covers, two of which are dated earlier than the current earliest recorded date, a scarce 2-ring #44 cover, c.d.s., squared circles, all sorts of manuscript and handstamped rates, various cork cancels, and much more. We also note advertising covers (including illustrated), registered (including F1 and F2), a November 1888 cover with deep rose carmine 2c registration and 3c SQ (both quite deep and bright), cancels in blue, three covers (with 1c SQ and 3c SQ) dated in 1870, and much more. - 879** ☒ **1857 Registered Stampless Folded Letter with the New Earliest Recorded 4-Ring #26**, mailed registered from Owens Sound C.W. on APR.24.1857 to Toronto, originally rated "3" handstamp, obliterated with a proof-like strike of the scarce 4-ring #26 cancel, then re-rated "6" handstamp. Back shows Guelph (APR.25) and Toronto (APR.27) datestamps. 4-ring numeral obliterations are known used from as early as MR.3.1857 (Hamilton) so this is a pretty early date, but more importantly, it is earlier than the current earliest recorded date for Owens Sound of JUL.31.1862 by a whopping 5 years, and the only example on cover in the Pence era. A lovely and important cover.

There is also a 2c which came from the 1989 Siverts sale (lot 885) which was described as "NB grid #19 on a 2c - 2 strikes recorded". - 917 **1867 Victoria BC to Nova Scotia Via Panama and the United States**, franked with a perforated 5c rose British Columbia issue (Scott #5) paying the Colonial domestic rate, tied by an oblong oval "Post Office / Victoria Vancouver Island / Paid" in blue. The cover was forwarded to San Francisco (arrived there SEP.30) and franked with a 5c Jefferson and 10c Washington, both tied by cogwheel cancels, the rate necessary for the rest of the voyage, which consisted in traveling south in a closed packet by steamer to Panama, where it would have crossed by rail to the Atlantic side, took another steamer to New York, and then on to its destination. The back shows three datestamps: Amherst NS (OCT.23.1867), Pugwash (OCT.24) and finally Wallace receiver (OCT.24). According to Robson Lowe, the entire trip was of 6,455 miles (sea distance). Small faults to two of the stamps, still a very fine and rare cover, the only one we have seen with this exact franking to the Maritimes. A similar cover to Nova Scotia (with same US franking but with a 2½d imperforate) recently sold for US\$35,000. From a recent find by a descendant of the addressee, therefore on the market for the first time ever.

Originally franked with a strip of three of the 5c dark blue Harp Seal and somewhere along the way a large part of the middle stamp got removed (remaining two are damaged), with "Stamp Lost / In Transit" boxed handstamp. There is also a red "PAID ALL" handstamp on front. Once arrived in Melbourne on APR.11, several attempts were made to try and find the addressee, with many hand written notes to that effect, as well as pink Letter Carrier handstamps on front. Both front and back show a boxed "Unclaimed At / Melbourne" handstamp, and the cover was opened at bottom and re-sealed with stamp selvedge, with a pencil "2/9/89" date, as well as an interesting note on back reading "Opened by Mrs. Strachan but not for her, 11/4/89." The back then shows several circular and boxed datestamps, mostly Dead Letter Office, dated OCT.10 and DEC.3. Very fine, and a rare destination for Newfoundland, plus a great story to boot.

The enclosures are also quite interesting, showing the various styles of receipts used by the different countries, interesting letters with various styles of letter heads talking about availability and stocks held, orders that could not be fulfilled, etc. The lot also includes a few "precursor" items such as a 1907 OHMS cover and stamp information letter from Mombassa, East Africa and Uganda and a 1939 cover and letter from Nairobi, Kenya, both similar to the items collected, plus two postcards with printed 1d stamps from the Gold Coast (1894 to Philadelphia discussing the purchase of used stamps, 1895 rare card mailed locally being a discussion between two postal officials). ## Karl Lewis Illustrated Covers

**1313**  **Spectacular Collection of Karl Lewis Hand Painted Covers of the World**, with 102 covers plus 3 post cards. The post cards are some of Karl Lewis' first creations, as he was a photographer early in his career and sold post cards to earn a living. An extensive and beautiful collection, containing many "crème de la crème" of Lewis' works of art, all displayed and neatly written up on album pages. The collection contains first day covers of newly issued Japanese stamps, covers mailed from the summit of Mount Fuji and covers with Japanese or American ship postmarks. In the first half, the collector uses mostly Japanese covers to illustrate his chronological story of Karl Lewis. In the second half, he presents all his better foreign covers, first day covers, Mount Fuji and Ship covers and ends it with some of his postcards. We also included a non-illustrated cover with a Karl Lewis return address mailed to Marks Stamps in Toronto, Canada (probably mailed while he worked as a manager of an automobile sales company, as there is an automobile-themed label on back). Listing the better illustrated covers would be difficult, as they are all masterpieces, but collectors who know his work should rest assured that the collection is packed with goodies of all sorts, with many rarities. In many instances the owner wrote on the opposite side of the page how much he paid, and from what auction house he bought items, with several priced in the \$400 to \$850 range, with the lowest priced at \$175. Each cover is scanned on our website, and the lucky buyer of this remarkable collection will also get a publication listing all of the Lewis post cards offered in his 1905 catalogue, as well as a few article clippings and an issue of *Japanese Philately* which includes a very detailed article on Karl Lewis covers, one of a long series published in this magazine from 2011 to 2017, plus the useful 2019 auction catalogue (and PR) for sale of Dr. Steven J. Berlin's impressive collection. We are offering this collection without a reserve starting price, as we are certain that it will attract competitive bidding. All of the items in this lot are of the highest quality, with fresh, bright colours and very fine or better.

## Canada Collections

- 1395** ☉ **Stock of Used and Off-Paper Mix**, starting with many thousands of stamps from 1940s to 2001, sorted by issue, in a few hundred glassines. We noted many nice postmarks throughout including on about thirty Year of the Snake souvenir sheets. Followed by tens of thousands of unsorted used stamps, mostly from the 1950s to mid 1990s, filling one medium size plastic container. A cursory look revealed a mixture of commemoratives and definitives, with some back of the book such as airmails, postage dues, also some federal revenues, Newfoundland issues and the odd worldwide stamp presence. The whole lot of off paper (including the container) weighs in at 9.8 pounds.

Also included is a collection of about 60 mostly used BNA stamps, housed in a small album, and a worldwide collection housed in a partially filled Harris Statesman album and one stockbook. Our online scans show a small but impressive example of this lot.

☉ **Old Time Collection and Correspondence**, being an old family accumulation just discovered, filling a bulging 32 page stockbook. Most of the value is in the three pages full of mint never hinged issues of the Jubilees, Québecs and Maps, mostly all fresh, including a very fine centered block of #99 (\$1,800, with some separation), the rest of the Québecs are mostly very good to fine centered and includes 5c (x5), 10c (x7), 15c (x5) and 20c. The Jubilees are mostly very good to fine centered and includes 1c (x3), 2c, 3c (x3), 5c, 8c (x16 including a block of 6) and 50c. We also counted 28 Map stamps, as well as a number of earlier Queen Victorias, including three 3c Small Queens, Numerals and more. Some of the stamps listed above have gum skips or bends, etc, still there are many fresh and sound stamps with a high total catalogue value. The rest of the stockbook includes a correspondence (QV era to Admirals, with stationery cards and covers, most of which were roughly opened and faulty, but includes a few F2 registered covers, advertising and Nova Scotia postmark interest), plus some used GB and Canada, some on piece, etc. We have scanned many pages for your convenience.

☉ **#4/609, etc. Extensive and Valuable Mint Collection in a Thick Lighthouse Album**, left intact by us, and is loaded with better valuable and interesting material. The collection starts off with a mix of mint and used to the Cents issues, then mint to the end starting with the Large Queens. We note four used #4 (incl. a pair), nice used #5, used #8, unused #8 (faulty), used #7, two pages of mint and used Cents issues, a page of mostly mint Large Queens, two pages of mint Small Queens to the 50c, mint Jubilees to the \$3 (missing the \$2) with many extra copies, then appears complete to 1972. The main collection is enhanced with items such as Admiral booklet panes and coils, 1927 issues in imperforate-between vertical pairs, an 8c Medallion imperforate pair, a set of imperforate-between vertical pairs of the Scroll issue including the \$1 in an upper left corner pair, followed by many coils and booklet panes (including a selection of complete Centennial booklets) to the end. The back of the book is equally strong, with complete air mails, complete special delivery (missing E1 but includes an E3a pair), F1-F3, first two dues sets complete, basic set of War Tax as well as almost complete overprinted officials. The collection has a good number of never hinged items, including some high value items, as well as a higher than usual overall quality including a good proportion that are very fine centered (a very few early imperforates were not counted in the catalogue value because of faults, and expect the odd gum offsets, hinge remnants, etc). A great opportunity to enhance one's own collection, or to acquire a large amount of good and useful material for the reseller. Rsv. \$8,000.

**1405**    ◎/ \*\* #14/906 **Mint and Used Collection, from 1850s to 1981**, housed in 2 hingeless Schaubek albums. Starting off with earlier issues used or otherwise stated, such as some First Cents issues (14, 15, 18, 19, 20), then complete basic sets of LQs (½c and 15c are mint), SQs (including some early printings), Leafs (½c mint), Numerals (½c, 1c, 2c, 3c, 8c mint), Edwards, Québecs (½c, 1c, 2c, 7c.10c mint), Admirals, Jubilees up to 20c, missing only the 6c (all mint except ½c and 5c). Appears complete from the late 1920s (Historical and Scroll issue) to the end with increased presence of mint and never hinged. We noted that a good number of stamps are well centered and many used stamps were chosen for their postmarks. Back of the book is well represented with special deliveries, airmails, registration (complete with used 8c), overprinted officials, War tax (including #MR2D mint), postage dues. Clean lot, overall very fine. See scans for a glimpse of the content.

**1406**    ◎/ \*\* #15- **Collection in a Springback Album to the 1950s**, some of the early issues are used, with better such as #s 15, 30b, 82, 159 strip of three, E5, etc., but most of the value is in the fresh mint blocks of four where the top two stamps are hinged and bottom two never hinged. We note better items in these blocks, such as #s 51, 85-86, 105, 144-45, 146-48, 149-54, 157, 166-72, 175, 192-94, 200-01, 202, 204, 209, 211-16, 217-25, 241-43, 259-61, 268-72, 302, C1, C5-8, C01-2, E3, E9-10, E01-2, O6-8, O16-23, etc. Present also are a number of vertical pairs where the bottom stamp is NH: 115, 155-56, 190, 244-45, 262, 273, C3-4, etc., There are also many better mint hinged singles such as #s 37, 56, 70, 87-88, 91, 96-103, 176-77, 226-27, C2, E1, E4, O9-10, O24-25, etc. The last 12 pages have a small Newfoundland collection (\$375). **1407**    ◎ #15- **Group of Mostly Used Collections and Stock**, with 5 different collections in Scott, Minkus or Jarrett albums, loaded with good material such as many complete sets and issues and high values like the Bluenose and \$1 Parliament, also lots of good back of the book and Newfoundland. We noted Jubilees to the 50c, complete basic Large Queens (many very fine and fresh), and Small Queens (including a lovely pale copper red 3c with Toronto fancy "2" cork) and much more. Also includes 8 stockbooks full of used stock, again with Cents, Large and Small Queens, Jubilees and so on, with many high denominations, blocks and large multiples, etc. We saw hundreds of "2x4" cut outs with slogan cancels from the 1930s to 1940s, black stock sheets with a few hundred 3c SQs, some old time pages with early material collected for postmark types. Half of a Banker's Box is filled with used stock sorted in envelopes by issue from early to modern with many hundreds in some, and also includes a decent United States collection in a Minuteman album plus separate pages. A nice lot, better than is often seen for this type of offering. Scans only show a small portion.

Also includes good mint and used back of the book issues including overprinted Officials. Overall nice quality, the mint are in sealed pockets and have not been checked for hinging, so there is a possibility of NH. See scans for an idea.

**1409**    ◎ #15- **Collections of Used and Stock**, starting with a collection mounted in a Ka-be album, from 1859 to 1979. Starts off with a 5c Beaver, 3c LQ, Jubilees (½c, 1c, 3c, 8c), Edwards (complete, 50c is precancelled), and Québecs (½c to 5c), complete basic set of SQs (with many extra shades and perforations), Leafs, Numerals, and Admirals onwards is complete until the end, except for a handful of missing coil issues. The back of the book has a nice selection of airmails, special deliveries, postage dues, and officials. The second collection is mounted on Charlton album pages in one binder, starting with #15 (Beaver) and partial early sets such as LQs, SQs, Leafs, Numerals, Edwards, Jubilees, and mostly complete from the Admirals onwards missing only a few stamps to 1983. Another collection is mounted on album pages housed in 5 binders from 1897 to 2008, and begins with a sparse representation of Leafs and Numerals with increasing completeness up to the 1970s and then almost complete to the end, with a richness in clean modern issues, etc. The back of the book is mounted in a 1956 Jarrett album featuring a small selection of Newfoundland from the late 1800s to early 1940s, postage dues, special deliveries, officials, as well as revenues (Bill and Excise stamps), cut squares (stationery), precancelled, and more. Stock is in 4 binders and 2 stockbooks, consisting a nice selection of earlier to modern issues, presented in a mixture of commemoratives and definitives mostly sorted by issue, with duplication up to 100 of each for some. We noted some nicer postmarks throughout. Clean and useful lot. Overall fine to very fine.

We estimated there are over 4,000 cards (average between 500 and 600 cards per box). A cursory look revealed a good selection of used Victorian era issues such as LQs (2c, 5c, 6c, 15c), some SQs (up to 50c), a few Jubilees to 50c (mint ½c to 5c and also 8c), leafs (mint ½c to 5c), numerals (up to 10c), Maps (3 mint copies), also a mint set of Scroll up to 20c, many town cancels throughout (including many on the 3c SQ), appears fairly complete from the Admirals onwards, good mixture of mint and used with increasing presence of mint from the Jubilee issue, and some mint never hinged noted from the Medallion issue to the modern era. Also noted that many of the recent issues (from the 1980s onwards) are cancelled. Duplication is up to 20 of each for some, one box is filled with back of the book issues, including postage dues, official overprints, special delivery, registration, also some Newfoundland and other maritime provinces, with a group of federal revenues. Well organized and a great acquisition for a stamp dealer.

We noted a good mixture of definitives and commemoratives with many used stamps chosen specifically for their socked on the nose postmarks. Appears quite complete from the Admirals onwards to the end except for coils and tagging varieties. We noted a mixture of mint and used from the 1970s onwards, and many used stamps throughout were chosen for their centering and postmarks. Back of the book is represented by postage dues and some federal revenues. A cursory look revealed nicer than usual postmarks and manageable duplication. Unchecked for varieties. Also included is one box of modern Canada stamps "on paper" (1.5 kg), about 400 commercially used Canada covers from the 1970s and 1980s mostly #10 size, and approximately 100 postage due receipts (1970s). The collection is then complete from the QV Leafs to the end, including all the Lighthouse-included varieties (noting for example #1764b perf change \$500 and many more), booklets, mini-sheets, booklet panes, coil singles, etc., and also includes a few extras such as the 38c Regiment in a plate block plus a plate block on FDC. The collection appears to be never hinged from at least the Arch issues to the end, with many NH before that as well (we catalogued all issues before the Arch issue as hinged, rest as NH). A cursory spot check revealed a few stamps with gum glazing, the 3c brown Admiral is used, 10c plum Admiral has no gum, etc, still a very nice collection, especially for its high level of completeness in period. The collection is overall of very fine quality, a few early issues may have small toning spots on the perfs. The Scott catalogue value up to and including 1951 only is \$18,564, and we estimate the face value after that to be well over \$1,000 (not counting those items and varieties with high catalogue value after 1951). The collection is housed in four albums, a fifth empty album is included (these retail quite a bit).

**1482**    ◎/ \*/ \*\* **British Commonwealth Extensive Collection on Steiner Pages in 29 Albums, QV to 1970**, with the mint stamps displayed in black mounts on good quality bond pages, with a mix of mint (including much never hinged) and used, covering what appears to be most countries. We note many complete sets, and loads of better singles and sets throughout, noting perforation varieties, and the collector has removed all of the KGV Jubilee, KGV Coronation and Silver Wedding and QEII Coronation issues for his continuation. The collection was catalogued by the owner with an older Scott catalogue, and so we did a spot check of about a dozen pages, which resulted in about half now cataloguing more, and half less. It also appears that the owner did not factor in the never hinged premiums when required to, but also catalogued some fiscally used at full price, so the total catalogue value given of \$49,880 is probably pretty close, if not conservative. The collection includes a few non-British Commonwealth collections such as United Nations (\$275) and Vatican (\$1,288). Overall nice quality, with a quick spot check only revealing one stamp with a thin and a few small faults, mostly on high value stamps. We have scanned many pages online to give an idea, but recommend in-person viewing of this one.

- 1535**    ◎ **Hungary Extensive and Valuable Collection in 18 Lindner Hingeless Albums with Slipcases, 1871-1980**, with most of the content being from 1871 to 1980. Appears to be more than 95% complete in this period, but includes pages up to 1989 and few stamps in the 1981 to 1989 range except for 1986 which has many complete sets. An impressive collection which starts with #s 1-12 used (\$1,249) followed by a comprehensive collection of mostly used to the 1920s, then mint and used to 1944 (including never hinged) then mostly mint from about 1945 to the end, most often with an imperforate variety as well. Better imperforate sets include #s 700-07 (\$500), 708-22 (\$200), 723-37 (\$110), 738-84 (\$400), 785-88 (\$500), 788A-800 (\$175), 829-41 (\$425), 842-55 (\$305), 856-58 (\$175), 871-84 (\$450), 1392-99 (sheet-let set \$200), B179-86 (\$175), B188-91 (\$135), B192-94 (\$325), B198A-D, CB1-C (\$250), C45-62 (\$370), C81 (imperf souvenir sheet \$600, perforated souvenir sheet \$525), C95, CB13-14 (\$550), C128 (\$300), and tons more, way too many to list. In fact, most of the collection from 1945 to 1980 is presented with a mint set and a mint imperforate set, including hundreds of souvenir sheets, and the modern imperforates are often with sheet margins. A tremendous catalogue value here, and our scans only show a tiny portion of the collection. Nice quality as well and mostly all very fine, and certainly the largest collection of its type we have offered.

## TERMS & CONDITIONS

**(Please read carefully. Placing of an auction bid indicates your acceptance of these terms.)**

1. The property described in the catalogue and on the internet will be offered at public auction by Sparks Auctions Inc. (Sparks) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of the following Terms and Conditions of Sale, which are subject to change without notice.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 17% of the hammer price ("buyer's premium"), together with any sales tax which may be due on the sale.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established payment terms with Sparks prior to the sale, Sparks must receive payment in full before the lots will be delivered. Buyers not known to Sparks must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are in CANADIAN FUNDS. Payment may be made by bank draft, bank transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card; there is a 2.5% convenience fee to process credit card payments). Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks can purchase Canadian Funds at our bank (2.5% percent above the mid-market rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds.

6. Buyers from Canada will be charged Federal GST or HST as applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See shipping instructions.

7. Until paid for in full, all lots remain the property of Sparks on behalf of the seller.

8. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

9. Because the descriptions and scans of the auction will be available in a printed catalogue, on our website and on Stamp Auction Network, there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on sparks-auctions.com. Opening bids will be available on the websites and will be updated. These are only provided as a service to bidders and Sparks does not guarantee their completeness or accuracy.

10. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;

- No lots illustrated either in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws;
- No lot should be returned due to subsequent numerical grading unless the graded certificate describes faults not already described by us;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

11. All lots are sold as genuine, unless otherwise noted. If a prospective purchaser wishes to obtain other expert opinion from a mutually acceptable authority, an extension for expertization may be granted on a lot provided that the following conditions are met:

- (1) The purchase price of the lot must be paid in full;
- (2) The item must be submitted to an acceptable expertizing committee with a properly executed application form within 14 days of the sale; Canadian material must be sent to the V.G. Greene Foundation for certification only. Certification by any other issuing entity may not qualify for returning incorrectly described Canadian material.
- (3) A copy of the application form must be given to Sparks Auctions;
- (4) Unless prior arrangements are made, extensions are granted for a period of up to 100 days;
- (5) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price plus costs of certification up to \$100;
- (6) Lots back-stamped or marked by the expertizing committee are not returnable. It is the purchaser's responsibility not to let this happen;
- (7) If a purchased item has a recognized certificate dated 15 years or older, extensions will be granted.

12. Lots which include the notation 'Rsv.' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions Inc., below which the lot will not be sold. Any lot which does not meet the reserve will be stated to have been "passed."

13. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

2020 Unitrade Specialized Catalogue of Canadian Stamps

### About Bidding

**Please bid using these increments.  
(All bids are in Canadian dollars.)**

<b>\$225 - \$750</b>	<b>\$25</b>	<b>\$16,000 - \$30,000</b>	<b>\$1,000</b>
<b>\$800 - \$1500</b>	<b>\$50</b>	<b>\$32,000 - \$100,000</b>	<b>\$2,000</b>

<b>\$3200 - \$7000</b>	<b>\$200</b>	<b>above \$500,000</b>	<b>\$10,000</b>

1) Please bid using the increments above. All bids not conforming to these increments will be rounded to the nearest amount.

2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.

3) **BID CONFIRMATION & OUTBID NOTICES** If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and, without divulging the high bid, telling you which lots you are winning on at that moment. You then have the option of updating your bids. If you have bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.

4) If you give your bids in advance to Stamp Auction Network or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. We do not accept "buy" bids.

5) The auctioneer may permit telephone bidding during the auction. This must be arranged before the day of the auction. Sparks reserves the right to refuse telephone bidding at any time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service. Long distance telephone expenses may be charged to telephone bidders outside of North America.

6) **OPENING BIDS** will be available on Stamp Auction Network and are updated in real-time. These show the bid that is one increment over the underbid (second-highest bid). In our experience, most of these will be well below the eventual hammer price, even immediately before the sale. Opening bids are updated constantly as new underbids are received. They are provided as bidding advice only; if you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this knowledge allows you to focus on other items of interest. Opening bids are not final or audited and Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$500). This feature allows you to bid with the confidence that you will not overspend your budget if you are very successful in the auction. It also allows you to use a strategy of bidding on many lots with the expectation of winning only some of them.

8) Because of currency fluctuations, we are not able to offer bidding in U.S. dollars. See XE.com for current Canadian dollar rates.

## How To Bid

**Advance Bidding** We accept bids in the time-honoured tradition: you can mail us a printed bidsheet (available for download from our site), or fax it to us at 613-567-2972, or call us at 613-567-3336 with your bidding information. E-mail bids also work well; simply provide the lot number and your maximum bid in Canadian dollars, plus whether you would like tie breaks.

## Live Internet Bidding

Live bidding on the internet allows bidders anywhere in the world to participate in the auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

**Connect to Stamp Auction Network at:**  
**[stampauctionnetwork.com](http://stampauctionnetwork.com)**

Register once and create a user name and password, which will allow you to choose auction firms to bid with, including Sparks Auctions. We will approve your registration as soon as possible during normal business hours. We recommend that you register at least 24 hours prior to any sale.

## The Approval Process

Once you have registered, we need to confirm your account before you will be able to place bids with us.

Details that will help us quickly approve you for bidding include:

- \* Philatelic references (including eBay feedback, auction houses you've dealt with, etc.)
- \* Philatelic memberships (APS, RPSC, BNAPS, etc.)
- \* Your own professional website (stamp-related or otherwise)
- \* A valid e-mail address (we will not approve you if your e-mail bounces)
- \* Call us at 613-567-3336

A complete bidder registration with many of these details included will result in speedy approval. Unless you have already established a positive buying history with us, payment must be made before lots are shipped, preferably by credit card, but we also accept cheques, money orders and e-transfers.

## The On-Line Auction

Once you have been registered and approved by us, you can keep track of lots you are interested in and place bids on-line at any time before the auction begins. This is similar to any other form of advance bidding (i.e., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid. You can also then participate live during the auction.
