Early Western Canadian Postal History

- 612** ☒ **1874 Fort Garry Manitoba Stampless Cover**, mailed from Fort Garry on JAN.19.1874 to Osakis Minnesota, without a receiver but docketed received on JAN.29. At this time the rate to the United States was 6c if prepaid, and this cover has a pencil "(5)" on front, possibly to denote cash [under] payment. A rare and early cover in the infancy of the province, very few stampless covers are known out of Manitoba after the province joined Confederation and before stamp pre-payment was required in 1875. Very fine and accompanied by an article on Fort Garry published in BNA Topics by Dr. Murray Campbell. Ex. Gray Scrimgeour.

- 613** ☒ **1868 Rupert's Land Cover with United States Stamp**, franked with a 3c rose Washington stamp (grilled, issued from 1867 to 1870) and in use on mail from Red River until the fall of 1870. The stamp was applied at Fort Garry, and the letter carried by the territorial courier to Pembina, Dakota, where it was datestamped NOV.23 (1868). The address on the envelope is in the handwriting of Archbishop Robert Machray, second Bishop of Rupert's Land, whose seal is embossed on the back flap. Archbishop Machray had made a trip to Canada and to the United States in the summer of 1868. The Bishop of Kentucky (to whom this letter is addressed) was his host in New York City. A very rare usage of United States postage on Canadian mail.

- 614** ☒ **Sault Ste Marie, Michigan Possible Manitoba Route Cover**, postmarked "SAUT DE STE. MARIE" c.d.s. dated MAR.2, with "PAID" and "10" in circle and addressed to Utica, New York. Before a post office was opened at Sault Ste Marie C.W. (November 6, 1846), much mail was sent to and from the settlement through the more accessible US town of Saut Ste Marie Michigan. In addition, mail from Michipicoten C.W. and the Red River Settlement was put into the mail stream there (see the 1846 examples in the De Volpi fur trade collection). This contemporary envelope entered the posts in Sault Ste Marie, Michigan but it's origin is unknown, as is it's year of mailing. An interesting cover.

- 615** ☒ **1850 Matawagamingue Ontario Trading Post H.B.C. Interesting Stampless Folded Letter**, written by Colin Campbell (of the Hudson's Bay Co.) in March, 1850 and addressed to James Keith, in Aberdeen, Scotland (North Britain). Carried by canoe in the summer of 1850 to Fort William (Canada East, AUG.1.1850 datestamp in red), rated "1/2" then post-marked at Pembroke, Bytown and Montréal, finally arrived in Aberdeen on SEP.3.1851 (all backstamps). Keith had retired from a senior position with the company in 1845, and the contents of the letter include the opinion that H.B. Co. governor Sir George Simpson had invested the dividends of his employees in an unwise fashion. it also goes on with "I have nothing favourable to say for the fur trade here this year. Through the great suffering of the Indians by starvation, they could not exert themselves in hunting furs and I fear our returns will be short of my average. Rabbits, almost the only dependence the Indians have for food, have disappeared almost entirely." A most interesting letter, rare and very fine. Ex. Gray Scrimgeour.

Lastly, a 1863 Shelburne NS registered "AR" green wrapper for a registered letter addressed to Chester NS, returned as an acknowledgement of receipt to Shelburne via Yarmouth on NOV.20.1863 (accompanied by in-depth article on these by David Handelman), very fine.

Faults, still an interesting historical letter.

624 **1813 Stampless Folded Letter Re: War of 1812**, datelined "Hudson Sept 18th, 1813" and addressed to [Capt.] Peter Ogilvie in New York. Ogilvie was born in 1792 in Little River, Nova Scotia and commanded in the War of 1812. He was captured by the British at the Battle of Queenston Heights in Canada. The letter is written by James Robert Mullany discussing Ogilvie's "arduous and disparate command on the 13th of October 1812 at Queenston. I know ... to entitle you to the character of a brave and valuable officer." signed Jason Robert Mullany / Lt. Col. 23rd Infantry. Insignificant stain on front does not detract from the historical importance of this otherwise very fine letter.

863 ☒/PC **Extensive Collection of Grey County Postal History**, in 10 volumes, with a total of 721 covers and cards ranging from the earliest to modern. Items are neatly displayed on pages with in-depth descriptions of the rates, routes and postmarks, as well as information on each post office, from Aberdeen to Yeovil (Owen Sound is a separate lot), showing opening and closing dates (some were only open for a very short period), etc. It is immediately evident that this collector sought the best possible strikes for each postmark (with early and late dates), and was conscientious about quality of each item he added to the collection. There are too many good items to describe here, so we have selected a few scans for Stamp Auction Network, and have also scanned every page on our website, not only for our customers' viewing enjoyment, but for preservation's sake. This collection is loaded with goodies, such as stampless, Cents, Large Queen, Small Queen covers, a good quantity of registered material, either with single frankings (eg. 8c SQ, Leaf and Numerals) or with Registration stamps, and we note some very nice early Money Letters. We note covers, stationery cards, picture post cards, registration receipts, etc., and we note all sorts of postmarks including pre-instrument manuscripts, r.p.o., many broken circles (a very quick spot check revealed some unreported instruments, as well as many earliest and latest dates), c.d.s., "changelings", duplex, registration and much more. We noted a stampless folded letter with a unique manuscript date-stamp from "Derby" which never opened (this is illustrated in "Canadian Manuscript Town Postmarks" by Handelman and Poitras). British Columbia & Vancouver Island

- 917 1867 Victoria BC to Nova Scotia Via Panama and the United States, franked with a perforated 5c rose British Columbia issue (Scott #5) paying the Colonial domestic rate, tied by an oblong oval "Post Office / Victoria Vancouver Island / Paid" in blue. The cover was forwarded to San Francisco (arrived there SEP.30) and franked with a 5c Jefferson and 10c Washington, both tied by cogwheel cancels, the rate necessary for the rest of the voyage, which consisted in travelling south in a closed packet by steamer to Panama, where it would have crossed by rail to the Atlantic side, took another steamer to New York, and then on to its destination. The back shows three datestamps: Amherst NS (OCT.23.1867), Pugwash (OCT.24) and finally Wallace receiver (OCT.24). According to Robson Lowe, the entire trip was of 6,455 miles (sea distance). Small faults to two of the stamps, still a very fine and rare cover, the only one we have seen with this exact franking to the Maritimes. A similar cover to Nova Scotia (with same US franking but with a 2½d imperforate) recently sold for US\$35,000. From a recent find by a descendant of the addressee, therefore on the market for the first time ever.

1061 ⊙ **Impressive Collection of Mostly Fancy Cork Postmarks on Stamps**, filling 4 double-sided black stock sheets with a total of 136 stamps, and includes a great many types of cork cancels, many listed in Lacelle, partially sorted by postmark type. We note grids, corks within datestamps, fancy leaves, sunbursts, bulls eyes, targets and a few rollers. There is also good interest in the stamps themselves, with many shades, very fine stamps, imprints, a few pairs, etc. The owner kept careful records, and paid an average of \$30 to \$50 for a great many of these stamps, with about a dozen having bought years ago for \$100 to \$120 each. Well worth a close look (all are scanned online), as this is a rarely offered lot, difficult to assemble and great for expansion or upgrading to or from.

1072 Collection of Eastern Arctic Mail Service S.S. Nascope Covers, 1934-1936, a nice group of 43 covers, with one from 1934, 39 from 1935 and one from 1936. Includes 13 covers with Nascope handstamps, 12 with the usual oblong cancel and one with a straight-line we have never seen before. Of the 12 with the oblong handstamps, one is incorrectly dated 1933, but should be 1935 as it is franked with a 1935 Jubilee issue (accompanied by a 2011 RPSL certificate verifying the error). Also note two covers with printed cachets and one with a nice Nascope handstamp cachet. We also noted 10 registered covers, all from stops along the Nascope's route and one special delivery cover. Three of the covers still include their correspondence. Includes an undated Nascope handstamp on thick card, possibly a proof or trial impression, as well as two Post Office announcements - one dated JUN.8.1935 announcing the July 1935 sailing and explaining how to get mail on board, and the second detailing how to send mail to points along the Nascope's route. Also 4 photos or post cards of the Nascope or places along the route and two unused #10 size Hudson's Bay Company envelopes. The lot comes with a DVD with scans of this material when it was in exhibit format, as well as a wealth of research information the owner has kept over the years. - 1116** ☒ **British Commonwealth Advanced Collection of 1935 Silver Jubilee O.H.M.S. Covers and Receipts**, being an advanced and specialized collection of (mostly registered) envelopes used to mail new issues to collectors around the world from various British Commonwealth countries' stamp authorities. The collector's main aim was to collect these envelopes with their original receipts and often accompanying letters, which is not an easy task, as they are not often encountered. The amazing result of decades of collecting these is the lot we are offering here, which includes some 104 various sized covers (mostly franked with 1935 Silver Jubilee issues, as well as a few other frankings and a few mailed unfranked), about 55 of which still have their receipts or letters or stamp advertising included. There are many collecting interests in the covers themselves, including the stamps (saw some listed varieties, some mailed on first or last day of issue), frankings, rates, and postmarks. The enclosures are also quite interesting, showing the various styles of receipts used by the different countries, interesting letters with various styles of letter heads talking about availability and stocks held, orders that could not be fulfilled, etc. The lot also includes a few "precursor" items such as a 1907 OHMS cover and stamp information letter from Mombassa, East Africa and Uganda and a 1939 cover and letter from Nairobi, Kenya, both similar to the items collected, plus two postcards with printed 1d stamps from the Gold Coast (1894 to Philadelphia discussing the purchase of used stamps, 1895 rare card mailed locally being a discussion between two postal officials). The lot includes a folder with many related notes and articles, as well as a DVD loaded with photos of all the items, many additional articles and information folders, as well as a detailed PDF list of all the items in the collection with notes on each of them. Overall nice quality lot, with the usual creases or opening tears, etc. still a unique opportunity to acquire such an impressive collection. Scans only show a small portion of the lot.

Noted covers, picture post cards (incl. real photo), stationery cards and covers, registered, registration receipts, censor mail, some FDC, event covers, many interesting rates such as insured, printed matter, a bag tag, postmarks and frankings galore, and much more. As seen in our first photo, about one third of the covers are larger, rest mostly European or smaller size. 1228 ☒ **Worldwide Lot of Philatelic Covers in Three Large and Heavy Cartons**, okay, perhaps that doesn't sound so good at first, but there are thousands of covers in here, with good value, but viewing in person is recommended to better appreciate. We note mostly FDC, but also event covers, and a few commercially used from a large number of different countries. Overall very fine and easily worth our estimate of \$100 only per box.

1229 ☒ **/PC Worldwide Lot of Thousands of Modern Commercially Mailed Covers and Some Cards**, in two large cartons, in a number of cover albums, stockbooks, etc., and the rest are loose. We note a good quantity mailed from European countries, notably Germany. Our photo definitely does not do this lot justice, and we estimate the value to be in excess of our valuation of \$150 per box.

Karl Lewis Illustrated Covers

1313 ☒ **Spectacular Collection of Karl Lewis Hand Painted Covers of the World**, with 102 covers plus 3 post cards. The post cards are some of Karl Lewis' first creations, as he was a photographer early in his career and sold post cards to earn a living. An extensive and beautiful collection, containing many "crème de la crème" of Lewis' works of art, all displayed and neatly written up on album pages. The collection contains first day covers of newly issued Japanese stamps, covers mailed from the summit of Mount Fuji and covers with Japanese or American ship postmarks. In the first half, the collector uses mostly Japanese covers to illustrate his chronological story of Karl Lewis. In the second half, he presents all his better foreign covers, first day covers, Mount Fuji and Ship covers and ends it with some of his postcards. We also included a non-illustrated cover with a Karl Lewis return address mailed to Marks Stamps in Toronto, Canada (probably mailed while he worked as a manager of an automobile sales company, as there is an automobile-themed label on back). Listing the better illustrated covers would be difficult, as they are all masterpieces, but collectors who know his work should rest assured that the collection is packed with goodies of all sorts, with many rarities. In many instances the owner wrote on the opposite side of the page how much he paid, and from what auction house he bought items, with several priced in the \$400 to \$850 range, with the lowest priced at \$175. Each cover is scanned on our website, and the lucky buyer of this remarkable collection will also get a publication listing all of the Lewis post cards offered in his 1905 catalogue, as well as a few article clippings and an issue of *Japanese Philately* which includes a very detailed article on Karl Lewis covers, one of a long series published in this magazine from 2011 to 2017, plus the useful 2019 auction catalogue (and PR) for sale of Dr. Steven J. Berlin's impressive collection. We are offering this collection without a reserve starting price, as we are certain that it will attract competitive bidding. All of the items in this lot are of the highest quality, with fresh, bright colours and very fine or better.
