#163, 191 1932 Incoming Eastern Arctic Patrol Cover to the Captain of the Hudson Bay Company ship SS Ungava. Letter mailed at the 5c rate from Hamilton on AUG.1.1932 to Greenland, via Denmark to meet with the ship when it stopped on a courtesy call to drop off mail to Europe. Has a purple boxed "Eastern Arctic / Mail Service. / Hudson's Bay Co. / S.S. UNGAVA" Sept. 7, 1932 receiver on the front, which is later than all reported dates in O'Reilly "Northwest Territories Postal Cancellations 1907-1986" book, which is still the authority on the area. O'Reilly only reports one bag of mail carried on the 1932 trip, so all mail from the Ungava is quite scarce. Edge wear, else fine-very fine.

541 🖂 #249, 254 1946 Cover Mailed to Germany, Returned to Sender in Ambulance Cover, 1c + 4c War issues on cover mailed from Toronto on DEC.17.1946 to Germany, probably couldn't be found and was sent back with two RETOUR handstamps on front, plus a number of notations in German on back. Arrived back Toronto (oval datestamp) on FEB.25.1947 and sent to District Director of Postal Services / Toronto (purple circular datestamp dated next day), then on to Ottawa, where it received a bright red INSPECTION DIVISION / DEAD LETTER OFFICE (bilingual) machine cancel (with dater at right) dated MAR.24.1947 (the first we have seen of this machine). They probably opened the letter and found the addressee's address in Toronto and mailed it back to him in an ambulance cover with the same bright red machine (this one is undated) with 3c in postage dues and a note reading "You owe Postie" beside. The cover was mailed back with an accompanying form giving a lengthy explanation of why it is useful to put your name and address on the outside of your letters (in both French and English). Very interesting items.

Correspondence from Norway House Keewatin, 1906 to 1909, consisting of 15x 2c Edward covers (one registered is missing its stamp), each still retaining its original letter inside. These covers are all addressed to Harry Marshall Erskine Evans either in Winnipeg or in Edmonton (he seems to have been travelling between both places in this period). Evans became Mayor of Edmonton in 1918 and had moved to the area to develop a coal mine. The letters were written in a number of different places (as per headlines) including The Hudson Bay Company in York Factory, Fort Churchill, Oxford House, Pepekwatooce, Churchill, God's Lake, and Split Lake, and all despatched from Norway House Keewatin, except for one mailed from King Edward Man. Before this correspondence was found, only about a dozen Norway House postmarks had been recorded. The covers help to learn how mail was delivered in this part of the world, by analyzing all of the backstamps for routings, etc. These other postmarks include Edmonton, Selkirk, Winnipeg, Gimli, Lac Ste Anne, Icelandic River, Stony Plain and Winnipeg Beach. The letters are a most fascinating read (some are quite long and interesting) were written by, and about a number of people involved in the Northern fur trade, and touch on a number of subjects including the writing of the book "Kasba, a Story of Hudson's Bay" (a rare surviving example of this book is included with the lot) and one of the letters includes a draft of the preface page. One of the covers also includes 4 real photographs of Norway House (very rare). Eight of these letters were extensively written about in issue 72 of The Northerner, the newsletter of the Northern Canada Study Group, a study group of the Postal History Society of Canada (article is included with the lot). A most fascinating and historically important lot, scans show an overview.

⊙/*/** Stock of Mint and Used from Late 1800s to late 1990s, consisting of thousands of stamps mostly sorted by issue in five stockbooks, four binders, and over 60 loose manilla stock sheets, starting with a selection of mint low denomination issues ranging from the SQs (2x 1c), to the 1960s (some in blocks of 4), including Jubilee (3c MNH), Leafs (1/2c), a few Scrolls (2c), Arch (1c to 5c mostly MNH), Medallion (1c to 4c many MNH), George V Silver Jubilee (1c to 13c many MNH) and so on. The used material includes SQs (1c to 8c), low denomination Jubilees (up to 3c), Leafs (½c to 8c), Numerals (up to 10c), Maps, Edwards (1c to 50c), Québecs (1/2c to 15c), and a good representation of Admirals, Arch, Medallion, and so on. Duplication can go up to over 40 of each especially with the modern definitive issues. We noted a selection of mint coils (some are MNH), many nice postmarks and fancy cork cancels, a few federal revenues, and precancelled issues, some back of the book such as postage dues, air mails, special delivery, perforated and overprinted officials, as well as many high value definitives. Also included are over 180 mint blocks of 4 mounted on pages in one binder from the 1930s to the 1960s as well as a group of miscellaneous philatelic souvenir material. Lot is as received, therefore unchecked for tagging, perforations and varieties. Further inspection may yield some surprises. Faults to be expected especially with the early material. Clean lot, overall fine to very fine.

A second used collection in a Unity album has a high completion level from the late 1920s to the 1980s. A third collection is comprised of mint stamps only in a White Ace album, with most of the value in the 1985-1990 period. Two more mint and used collections fill a Minkus and a Scott album each with hundreds of stamps, with a notable group of mint Newfoundland being found in the Harris album, strong on the 1920s to 1947, with a few dozen mint before that. The stock consists of a thick binder full of Manila pages containing many hundreds of mostly modern used, as well as a small stockbook with same. Some faults to be expected in the early material, still overall fine or better.

We noted various level of organization depending on the volume, with a wide range of items including a good selection of Centennials, some back of the book, including a glassine full of 5c Registration (F2), special delivery, overprinted officials, a small group of Nova Scotia issues, a large roll of several hundred 2c Wilding coil stamps, also some precancelled issues, Christmas seals, revenues, bundleware and so on. ⊙/* Collection of Precancels and OHMS 4-Hole Officials, 1885 to 1977, consisting of many hundreds of singles, multiples and blocks filling four double-sided black stock sheets plus many 102 cards and glassines. We noted a few private perfins among the regular official issues. The precancels start with a 1c Small Queen and run though most definitive issues from Maple Leaf through the reign of the three Kings and into the Elizabethan era to the Caricature issue. Many MOON (Money Office Order Numbers) and individual city markings and regular bar types are included and there are some varieties also: inverted, partial-overprint and misplaced precancel. Bundles remain unchecked by us for broken bars, missing bits of overprints, etc. so there is good potential for some interesting finds. A clean, attractive lot to fill gaps in an existing collection or a great start to a new collecting area. See photos online for a good overview of this niche material.

A powerful collection which starts off with strong Pence issues, with #s 1a, 2b, 4 (x3), 5d, 7 (unused), 7a, 8 (x2), 9, 10 (with VGG cert), 11 (x2), 12, 13 (with VGG cert), then a good showing of used and unused First Cents including shades, such as a #16 (with PSAG cert), unused #s 14, 15, 17b, 20. Starting with the Large Queens and on to the end, stamps are mostly mint, hinged or no gum at first, changing to mostly never hinged later. We note 22 Large Queens (#33 is used) with shades and many thin papers, Small Queens show 34 mint stamps to the 50c, with some early shades, complete Leafs and Numerals with duplication, Jubilees are complete to the \$5 (missing \$3 and \$4), with duplication (28 stamps in all), complete Admirals (with War Tax, coils, blocks, etc.), Edwards, Québecs, and pretty much complete to the end, with some duplication such as the 50c Bluenose (x3), \$1 Parliament (x2), \$1 Cavell (x3), and more, including some back of the book such as a complete set of airmails, etc. A wonderful opportunity for the eBay seller, we have conservatively counted the catalogue value, for example, all the early mint was counted as having no gum, all the later mint was counted as being hinged (even though there are many NH throughout), so the actual catalogue value will be higher. There are faults on some of the early issues, especially on the expensive items, but the overall collection is fine to very fine. We have scanned every page online. Rsv.

The collection starts with a #2 plate proof (not included in catalogue value), used #4 (x2), 5 and 7, then a mix of mint and used through the Cents issue, then mint only to the end starting with a complete basic set of Large Queens and continuing through the Small Queens, Jubilees, Leaf, Numerals and Edwards, featuring never hinged panes of both BK#1 and BK#2, five pages of Admirals (we note many shades and examples of lathework) then appears complete through 1976. The collection is enhanced by many additional items such as all booklet panes and coils (singles and many pairs) from Admirals through Elizabethan, 1927 issues in imperforate-between vertical pairs, an imperforate pair of #146, and a fine Bluenose. Back of the book is strong in the period, with complete air mails and special delivery including two E3, plus F1-F3, the first three dues sets, a set of War Tax with coil singles and pairs for almost all, and what appears to be complete overprinted officials. Not counted in the catalogue value are a few early stamps with major faults and all the material after the mid-1950s, which has good catalogue value. The Elizabethan era has stronger than usual representation of plate blocks, miniature panes and tagged stamps. We noted a few reperforated Large Queens and a few larger hinge remnants, etc. otherwise the condition is overall fine or better. The Arch issue is equally impressive, with a basic set, plus different dies, re-entries in blocks, coil pairs and singles, line-coil strips of 4 with "cockeyed King" varieties, complete Medallions with coil pairs and booklet panes, and basically complete up to the Centennials, noting items of interest such as 217P-222P, all the coils in pairs, all the booklet panes, many mini-panes and more. The Centennials are on 43 pages and cover the whole range of material, with tagging, papers, booklet panes, plate blocks, precancels, etc. The back of the book follows tradition in that it is equally strong, with complete airmails, special delivery (incl. three E1 shades), an impressive page of 2c to 8c registration stamps, including an F2b with PF certificate, complete postage dues, complete Admiral War Tax including dies, some revenues, Officially Sealed issues and Officials including perfins and complete G and OHMS overprints with varieties, etc. A very impressive collection which would require viewing to better appreciate its huge catalogue value and quality, see online scans for just a sample. This part is about 95% complete from 1930 to the end, probably 50% or so before that with both commemoratives and definitives, we noted #246 (Scott U\$600) noting the presence of coils but not many souvenir sheets. The second part is composed of semi-postal stamps 1914 to 1981, close to complete from 1936-on, with a good selection before that, with a Scott catalogue value up to 1960 of \$2,841. The last part is composed of airmail, postage due, European Council and precancel issues, all strongest in the 1940s to 1980s period, with good value before then. We also note many more thousands of stamps in larger brown paper envelopes, not opened by us and so unchecked as per whether sorted or not. Lastly, 6 stockbooks (one with about 300 worldwide revenues) and a pile of covers and postcards round up this bulk offering. - hinged with original gum
- (*) unused without gum either as issued, or having gum fully removed. This is normally further qualified in the description.

og original gum

- used includes full range of postally used, cancelled-toorder, precancels.
- **XF** extremely fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.
- **VF** very fine a stamp in superior condition which is well-centered and without fault.
- **F-VF fine-very fine** applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
- **F fine** stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.
- **VG** very good equivalent to "average". Typically with poor centering, heavy cancellation or faults such as minor thins, light creases, etc.
- **cover** which here embraces stampless folded letters (SFL), envelopes, first day covers (FDC's), stationery envelopes, etc.
- **PC** post card applies to picture postcards, postal cards, stationery cards, etc.

- -,/ used when describing a range of catalogue numbers, where "-" indicates the range is complete between two numbers, and "/" indicates missing one or more items.

TERMS & CONDITIONS OF SALE

(Please read carefully. The placing of an auction bid as an individual or agent indicates acceptance of these terms.)

- 1. The property described in the sale catalogue (print and online versions) will be offered at public auction by Sparks Auctions Inc. (hereinafter "Sparks Auctions") on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of these Terms and Conditions of Sale.
- 2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 17% of the hammer price ("buyer's premium"), together with any tax which may be applicable. See "About Bidding" for more information about how bidding is conducted in Sparks Auctions' sales.
- 3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks Auctions will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Opening bids will be available on Stamp Auction Network and will be updated by that system.
- 4. Unless a bidder has established payment terms with Sparks Auctions prior to the sale, Sparks Auctions must receive payment in full before the lots will be delivered. Buyers not known to Sparks Auctions must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.
- **5.** All sales are conducted in **Canadian Funds**. Payment may be made by e-transfer, bank draft, bank wire transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card. **There is a 2.5% convenience fee to process credit card payments**. Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks Auctions can purchase Canadian Funds at our bank (2.5% percent above the midmarket rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds. **Buyers from Canada will be charged the taxes applicable in their home province**. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See "Shipping Information" for Sparks Auctions' shipping policies. Buyers outside Canada are responsible for all customs duties applied by their home country.
- 6. Until paid in full, all lots remain the property of Sparks Auctions on behalf of the seller.
- **7.** The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.
- 8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com and StampAuctionNetwork.com) there is a possibility of technical or other error. In that event **the auctioneer's decision will be final**. If discovered before the sale, corrections will be posted on www.sparks-auctions.com These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.
- 9. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:
 - a. Lots containing ten or more items;
 - **b.** Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
 - **c**. No lots illustrated in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
 - d. No lot shall be returned due to subsequent numerical grading unless the

graded certificate describes faults not already described by us;

- e. It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.
- **10.** All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted provided that the following conditions are met:
 - a. Notice of this intent is given prior to finalizing the purchase.
 - **b.** The purchase price of the lot is paid in full, including any expertizing fees.
 - c. All lots to be sent out on extension must be paid in advance and submitted by Sparks, directly. Sparks will use one of the following expertizing services:
 - i. Vincent Graves Greene Foundation (Canada and BNA): or
 - ii. BPA or RPSL (British Commonwealth); or
 - iii. Philatelic Foundation or PSE (USA and territories); or
 - iv. Another authority mutually agreeable to both parties.
 - **d.** Extensions are granted for the reasonable period of time required by the expertising authority;
 - **e.** If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price including the expertization fee;
 - **f.** If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.
- **11.** Lots which include the notation '**Rsv.**' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.
- **12.** Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

Valuation of Lots

Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description.

2020/2021 Scott Catalogue Volumes 1 through 12 in US\$ 2020/2021 Scott Classic and US Specialized in US\$

2021 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$ 2020/2021 Stanley Gibbons 1840-1970 (SG), values in £ 2007 or later Michel Catalogues of the World (Mi), values in € 2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam in CAN\$ Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 12 volumes.

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value".

"Estimates" ("Est.") are used when there are multiple factors to consider and to identify what we believe the lot might sell for when there is reasonable competition for it.

"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.

VIEWING

Viewing will be booked by appointment only to ensure appropriate social distancing measures are taken to keep staff and bidders safe.
