Part of the plate imprints can be seen at bottom, which are clearly doubled in places. - 33 ☉ #10 1856 6d Reddish Purple Consort Imperforate on Thick, Fibrous Paper, used with part 4-ring numeral cancel and four large to well clear margins. The stamp has a light horizontal crease, still fine-very fine appearance. A scarce stamp not that often encountered.

..... Unitrade \$6,750

34

- ☉ #11 1858 ½d Rose Queen Victoria, Perforated 11¾, a remarkable looking recreated block of 20, with each stamp cancelled by pen. The block was created by using three very fine and intact stamps (middle of bottom row, these alone catalogue \$3,000), to which are attached other stamps with faults, and the rest of the missing areas were created digitally on a plastic overlay. The end result is a very rare large block, almost unseen in the Pence era. Ex Daniel Cantor. Rsv. \$3,200.

- ☉ #12 1859 3d Red Beaver, Perforated 11¾, a group of three used stamps, first with part "Collingwood..." c.d.s. cancel and MAR 13 date, with faults including a horizontal crease, still scarce with c.d.s. cancel. Second with Hamilton #16 in grid is reperforated at left plus has a small tear at top, and third only has traces of a cancel, but appears to have one or more sides perforated or reperforated.

..... Est \$300

36

- \* #12vii 1859 3d Red Beaver Perforated 11¾ with Major Re-Entry, mint with original gum which is described in the certificate as "slightly disturbed" which probably only refers to the fact that it is previously hinged. The stamp is from plate position 61, pane B and clearly shows the major re-entry in several places (Trimble #3). An extremely rare, and possibly unique stamp with original gum, unpriced in Unitrade, but a fine centered regular stamp would catalogue \$30,000. Accompanied by a 2021 Greene Foundation certificate. Rsv. \$11,000.

..... Est \$15,000

- 37    ⊙ **#2, 5b, 9 Group of Three Used Pence Imperforate Issues**, with a #2 (used with centrally-struck target cancel and strong laid lines, margins are generally large except in a few places where they slightly cut into outer frameline. A bit discoloured on front, else fine appearance), #5b (used with indistinct cancel, the stamp has three large margins and is cut into frameline at top, with horizontal crease and a thin, fine appearance), and a #9 (used with indistinct 4-ring numeral cancel, 4 close to well clear margins and a small corner crease at top right and closed tear at right, still fine-very fine appearance).

There are a great variety of shades here, including some not listed in Scott, so we counted the catalogue value as all least expensive major shade only. The great majority of these are mint never hinged, with a few of the early imperforates being hinged. We have carefully examined these using the Scott and Schloss descriptions on how to identify reprints, and are fairly confident that they are regular issues, but we still recommend careful examination or viewing the scans we have online. A few of the imperforates have tiny toning spots, else an overall fine to very fine lot.

- 874** ☒ **Group of 120 Canada Post Annual Collections of First Day Covers**, consisting of cardboard packages issued in the late 1990s and early 2000s, with one example of each of the FDCs issued in that year (or six-month period) and for some years, the inclusion of a card showing all of the FDC cancellations in that set. Included here are 1997 (x1), 1998 (Jan.-June x8), 1999 (x5), 2000 (x35), 2001 (x15), 2002 (x38) and 2003 (x18) with a total retail value of \$7,948. A few of the years included bonus covers for joint issues and some indicate that one or more FDCs had sold out prior to the on-sale date of these collections, making them the only original source for those FDCs. In subsequent years, these annual collections became wooden-boxed offerings. We have seen a couple of these packages in consignments over the years, but not in this breadth of years and quantities. Here's your chance to check for varieties and covers issued in lower quantities. On our inventory sheet, we noted the original retail price shown on the packages, which appears to be the face value of the stamps on the covers. Online photos show an overview of this group. There is some wear-and-tear on some packages and we saw several were opened, likely from rough handling rather than being checked and pilfered. Still, we cannot vouch for the complete contents of opened items. This is a great opportunity for the online reseller, or for collectors who may not have seen this method of FDC marketing before. Much to enjoy here!

Included here are 1997 (x1), 1998 (Jan.-June x16), 1998 (July-Dec. x19), 1999 (x16), 2000 (x9), 2001 (x12), 2002 (x21) and 2003 (x14) with a total retail value of \$5,453. A few of the years included bonus covers for joint issues and some indicate that one or more FDCs had sold out prior to the on-sale date of these collections, making them the only original source for those FDCs. In subsequent years, these annual collections became wooden-boxed offerings. We have seen a couple of these packages in consignments over the years, but not in this breadth of years and quantities. Here's your chance to check for varieties and covers issued in lower quantities. On our inventory sheet, we noted the original retail price shown on the packages, which appears to be the face value of the stamps on the covers. Online photos show an overview of this group. There is some wear-and-tear on some packages and we saw several were opened, likely from rough handling rather than being checked and pilfered. Still, we cannot vouch for the complete contents of opened items. This is a great opportunity for the online reseller, or for collectors who may not have seen this method of FDC marketing before. Much to enjoy here!

Back of the book is equally comprehensive, with complete airs, special delivery, dues, war tax (with types, shades), registration as well as G and O.H.M.S. overprints. Some of the early imperforates may not have four margins, a few stamps are marked as having creases, and there are some obviously faulty stamps here and there (mostly thinned) which have not been counted (inscribed N/C in album). Some of the other stamps could use a good bath to wash off the heavy hinges, otherwise overall fine or better, with many pages scanned online. Catalogue value is for regular stamps and back of the book up to about 1951 only.

A very clean collection, it has been catalogued as mint, fine for basic issues and back of the book to 1950 (Unitrade \$10,730) plus approximately \$200 in face value from 1950-1991. We did not check for papers, shades or varieties. There is also an owner-identified block of four of the 1992 "Canada in Space" issue with two space shuttle holograms showing higher orbit than usual as well as a 2008 Unitrade Specialized catalogue. Rounding out this collection is a 1993 Canada Post Annual Collection, along with a few souvenir sheets, booklets, blocks of four and loose stamps with total face value of over \$210 (42c to \$5 denominations) and empty Lighthouse Hingeless supplements for 1992 through 1996. **1214**    ☉/\*/\*\* **#14/2183 Collection of Canada Mint and Used in Four Lighthouse Albums, 1859 to 2006**, with stamps mounted in clear or black mounts. The collection begins with a one-page tribute to the world's first stamp - a good used GB Penny Black (K-A with red Maltese cross postmark) then continues with some back of the book (air mail, special delivery, war tax, postage due International Reply Coupons), followed by Cents (x5) Large Queens (x10), Small Queens (x10), Jubilees (½c to 50c) and full Leafs, Numerals, Edwards and Québécois. All early issues are used, some with heavy postmarks and some with faults. It is then about half full from Admirals through the mid 1940s with more used than mint, though there is a fine mint hinged Bluenose. There is a high degree of completion and mostly mint with many being never hinged from the mid 1940s onwards, including duplication of some album pages and homemade pages that contain matched sets of plate blocks or additional souvenir sheets and some FDCs and commemorative event covers. Face value after 1950 is \$755 for denominations of 20c and over only. The collection is very neat and clean, though we note a bit of water damage on the edges of some pages in one album, which includes items from 2003, noted for the record; only a few FDCs were affected by the moisture. An excellent starter collection or to fill gaps in an existing one, also good catalogue value for dealers or resellers. See photos for an overview of the earlier material.

**1221**    ☉/\*/\*\* #35/1970 Collection of Mint and Used Canada and BNA, 1880 to 2003, in five thick stockbooks and a few black stock pages, from the personal collection of retired Canada Post designer Bernard J. Reilander. One stockbook begins with several pages of mint and used BNA including New Brunswick (x5), Nova Scotia (x4), PEI, (x3) and Newfoundland (over 120). Canada used begins with a #15, followed by a 5c Large Queen, and then lower-denomination examples of Small Queens, Jubilees, Map, Quebec Tercentenary, then continuing through the early 1970s. The stockbooks finish off with a couple of pages of federal revenues including postal scrip, customs duty, excise, cigarette and Ontario Law. We noted some c.d.s. cancels and a couple of precancels as well. The remainder of the stockbooks are a combination of mint and used. We carefully counted only the mint face value postage in denominations of 15c and over in loose stamps, plate blocks, souvenir sheets (more than 100), full and part-sheets, some booklets and other multiples, plus early Canada Post semi-annual packs (1974 and 1975, total of 16 packs) and 20 pre-packaged plate blocks from 1974-1976 issues. Total face of the mint stamps is over \$1,480, over \$1,000 of which is in denominations of 30c to \$5.00 (see inventory in online photos). Also included is a box (5 lb, 2.3kg) of used mostly sorted by issue into envelopes and glassines; we observed many town cancels from the 1950s and 60s. Great lot for a collector, dealer or postage reseller alike. See our online photos for an overview.

**1222**    ☉/\*/\*\* #35/1548 Collection of Mint and Used Canada, 1880 to 1995, consisting of thousands of stamps on Minkus and home-made pages in 8 binders, one stockbook and about a hundred loose pages. The stamps are in mounts or hinged, and neatly arranged throughout. There is more than \$275 face value from the late 1950's onwards in denominations of 15c and over. Also included is a ratty but interesting store ledger book with revenue stamps paying various excise taxes, along with a glassine of over 100 loose revenues including higher denominations. Rounding out the collection are some collecting supplies (one stockbook, several pairs of tongs and a few open packages of black mounts) and a small tub of about 1.5 lbs of used, mostly Canadian, on and off paper. This is a fun lot for the collector or dealer. See our photos online for an overview of the contents.

**1223**    \*/\*\* #35/1292 Collection of Mostly Mint Stamps and Plate Blocks, 1880 to 1990, in two hingeless Lindner albums and a full binder for the plate blocks. The early years are used and sparsely filled (we note a few Small Queens, Jubilees, Québéc and Admirals) with increasing completion and largely mint from the late 1930s onward, including a few Unitrade-listed varieties. Face value of the plate blocks is over \$550 and we note two items of particular interest: one LL Regiments inscription block (Unitrade #1250, cat \$250) and one Legendary Creatures LL inscription block perforation 12.5 x 12 (Unitrade #1292d, cat \$425). Total face value of the collection for denominations of 14c and over is above \$1,000. Also included is a group of 13 Canada Post Thematic Packs. This lot is clean and very neatly organized and would serve a collector or dealer equally. Our online photos provide an overview.

**1224**    ☉/\*/\*\* #35/1403 Collection of Mint and Used, 1880 to 1992, in one Minkus album, a binder and two full stockbooks. The album has good representation of most issues, mostly used or mint hinged, from 1880 to the late 1970s along with a few Newfoundland. The binder starts with six pages of used Small Queens (at least 450 stamps) with town postmarks, squared circles, duplex and some fancy cancels in many shades - many with faults but still helpful to the student of the issue. It continues with many hundreds more used Jubilees, Leafs, Numerals, Admirals and some back of the book, on through the early 1950s. The stockbooks are filled mostly with plate blocks, blocks and multiples from Small Queens through the early 1980s. Loose postage is divided by denomination into glassines. Mint postage totals \$520 in denominations of 15c and over, including souvenir sheets, inscription blocks, a few full sheets (notably the 1977 Silver Jubilee, 25c x 50 stamps) and a 1984 Canada Post Annual Collection. Clean and fairly organized, mostly fine or better. See photos for an overview.

Included are mint and mint never hinged singles, multiples, plate blocks, booklets and sheets/sheetlets and we counted over \$575 in face value postage in denominations of 15c and over (strength in 32c to 43c). We note several areas of interest: many hundreds of mint and mint never hinged singles from the ½c Numeral through the Suzor-Côté issue, often with duplication of up to 20 of each; more than 100 booklets from the Centennials through the 75th anniversary of the NHL, including three of each of the better 1988 Christmas booklets #107, 108 and 109 - total catalogue \$366; a good group of Centennial issues (regular, tagged, likely with paper fluorescence varieties but unchecked by us); more than 50 souvenir sheets or sheetlets including 10 copies of the Canada in Space hologram sheetlet showing different placements of the space shuttle; several multiples of G-overprinted officials; four Canada Wildlife Conservation stamp booklets; and a "Canada Postage Stamps 1967" hardcover book (by Roger Duhamel, Queen's Printer). We noted some related postal stationery and special event items here and there. We did not check for paper varieties, tagging or varieties. Some used stamps were inserted here and there. We noted a few Newfoundland covers including a larger registered first day cover of the Long Coronation issue with a lovely "ST.J.&PA.B.R.P.O" receiving cancel on the back. Also included are 27 covers franked with Newfoundland stamps on Salvation Army, YMCA and Canadian Legion covers, most with military censor marks. Unitrade catalogue value for the NB (x10), NS (x9) and PEI (x13) stamps is \$830 counting all as the least expensive, basic stamps in fine condition only. We did not look closely for paper varieties. The Newfoundland is rather sparse, with around 30 stamps present, mostly mint hinged. A very clean offering, this lot would be ideal for a collector looking to start new areas of interest. See photos which show all the stamps except Newfoundland, along with a good representation of the postal history.

The collection includes singles, complete sets, souvenir sheets and booklets, with many of the items having sheet margins. We assume that it is complete in period except for some missing runs in the late 60s and early 70s, as it was carefully assembled through new issue services over the years. The catalogue value noted here does not include the last two years, as well as many items that are not listed in Scott, such as some of the complete booklets, and some of the souvenir sheets or sheetlets, which were sometimes only catalogued by number of stamps they contained. We also did not catalogue some of the souvenir or annual folders that are still sealed, in order to preserve their unopened state. A magnificent and valuable collection, and a rare occasion to acquire such beautiful stamps together. Online scans only show a tiny portion of this desirable collection.

Most stamps are present in blocks or strips of 4, while most souvenir sheets are in 3 copies, definitive booklets in 1 to 5 copies and commemorative booklets in one copy. We found the face value of this lot to be €1,470 (CAD\$2,150 today). In addition, two pages of St. Pierre et Miquelon issues for the same period, also in blocks of 4, totaling €55 (CAD \$80). Not counted are officials and two pages crammed with single semi-postals from the 1960-1990 period. Very fine.

Also included in the back are some railway stamps as well as WWII occupation issues, with Germany, Baden, Württemberg, etc. We note many better items throughout, including B66-67 (\$130), 329 (lightly hinged Pexip sheet, \$700), B157a (\$100), C8-14 (\$976, the 50fr is signed by Berck), C15 (\$625), C23-27 (\$212), C29-32 (\$281) and many more. Also includes a stockbook containing a stock of French liberation issues, with overprints identified from Lyon, Nice, Bordeaux, Lille, Paris, Niort, Pons, Cherbourg and Saverne. A nice quality and clean collection, overall fine to very fine.

**1473    ☉ France Valuable Old Time Stock of Early Used Issues, 1849 to 1900**, with about 1,770 stamps, all neatly displayed on 23 stock pages in a stockbook, identified by owner by Yvert & Tellier numbers with older French franc prices. Starts off strong with Scott #s 1, 3 (x9), 6 (x14), 11 (x29), 12 (x9), 13 (x11), 14 (x41), 15 (x110), 18 (x66), 19 (x12), 22 (x14), 23 (x31), 25 (x43), 26 (x66), 27 (x66), 28 (x12), 29 (x13), 30 (x11), 32 (x11), 33 (x41), 34 (x26), 35 (x14), 36 (x6), 37 (x2), 38 (x4), 39, 40 (x2), 41 (x2), 42 (x3), 43/45 (x19), 46, 47 (x3), 48 (x3), 50 (x22), 51 (x24), 52 (x11), 53 (x58), 54/55 (x15), 56 (x31), 57 (x11), 58 (x100), 59 (x53), 60 (x8), 61 (x42), 62 (x42), 63 (x16), 64 (x10), 65, 66 (x5), 67 (x2), 68 (x14), 69 (x14), 70 (x18), 72, 73 (x23), 74 (x7), 75 (x15), 76 (x10), 77 (x7), 78 (x43), 79 (x3), 80 (x23), 81 (x49), 82 (x17), 83 (x9), 84 (x18), 86 (x37), 88 (x42), 89 (x23), 90 (x18), 91 (x19), 92 (x21), 93 (x16), 94 (x12), 95 (x28), 96 (x14), 97 (x15), 98 (x17), 99 (x31), 100 (x22), 101 (x46) and 102 (x11). There is a great variety of shades and types, mostly identified by the owner but not in our count of Scott numbers, which are all for the least valuable variety. We also note a very nice selection of postmarks including lozenge grills, dated town cancels, numeral grids, lettered grids, at least one anchor grid, red cancels and more, as well as multiples including pairs up to strips of four which often can have higher catalogue values. There will obviously be faults in a lot like this, and we observe that they are often in the most valuable stamps, so viewing in person is recommended. Otherwise overall fine to very fine, with many of the imperforate issues having 4 margins, etc. There is very high catalogue value in this one, photos only show part of the lot.

**1474    ☉ France Used Collections and Accumulation from Classics to about 1980**, on album and stockbook pages, plus a 1kg bag of Marianne bundles. This lot is comprised of a group of old time collections and accumulations bought over the years by the collector but never reorganized. The classical issues are represented from Scott #5 on, including a nice selection of the Bordeaux and the Sage issues. Semi-postals, airmail and postage due issues are well represented. Duplication is prevalent throughout, but generally in small numbers, allowing to create a quality collection from the best copies. Some colonies, fiscals and foreign stamps to be found here and there. Faults as can be expected in such old collections, but generally fine to very fine.

**1477    ☉/\*\*\* France Comprehensive Mint and Used Collection in a Stockbook, 1849 to 1975**, a lovely and very strong collection left as received, which is not missing much to be complete, and includes loads of material not often offered in such collections. Starts off used with mint scattered here and there and quickly becomes mint with used scattered. The souvenir sheets included include #s 226 (used, \$1,100), 241 (MH, \$1,000), 329 (NH, \$700), we also noted some complete booklets: 30c Sower and 10c Pasteur, 1952 (\$375) and 1956 Red Cross as well as good overprinted issues such as #s 197 (MH, \$140), 246 (MH, \$600), etc. The mint and used (mixed) regular issues and semi-postal issues are quite extensive, often with extra shades and printing types, such as for the 1929 3fr to 20fr issues. The airmail issues appear complete, with most of the high catalogue stamps being mint. Dues are extensive, missing only the high denominations in the early period and a few more, and there is a good showing of European Council issues, Military Franchise stamps and 4 sets of mint German Occupation issues. Included in the lot but not counted in the catalogue value are many items, including Franco-Prussian issues, parcel stamps, and a few imperforates and better cinderellas. Last but not least is a 22 page collection of mint United Nations, appearing complete to 1975 and including many extras such as stationery, inscription blocks, souvenir sheets and special folders. Most of the mint stamps we spot checked were lightly hinged but we did see some NH and note that many have a pencil number on back. Good overall quality, except that some of the early imperforates might not all have four margins. An outstanding offering which should be seen in person despite our many scans online. Catalogue value is by owner, and each page has its own value penciled-in.

A few pages hold mainly France used stamps mostly from the early 1950s, and Colonies mint and used. A rare Castellarizo Scott 12 (CV \$275) was found among other interesting items. A larger stockbook holds a mint collection from 1942 to 1976 on manilla sheets - this one was subjected to humidity and some stamps are stuck to the pages. **1529**    **\*/\*\* Great Britain Collections and Dealer Stock, 1840 to Late 1950s**, consisting of thousands of mostly used stamps on black stock sheets, loose album pages, dealer cards, quadrille pages and in envelopes and glassines. The early issues are faulty or have smudged postmarks, with most issues in the period represented and significant duplication of many items. We note Penny Blacks, Reds and 2p Blues (some of these three with faults), some better sets and singles, two sets of "London Parcel Delivery Service" labels and small collections of "The Postmarks of Scotland"; newspaper and printed matter postmarks; and 11 covers of Free Frankings. There is also a group of several hundred GB Offices (Tangier, Morocco, M.E.F., etc.) from George V to early Elizabeth II. This lot promises many hours of organizing and likely has nice surprises, as we did not check for varieties. There is very good catalogue value here. The collection starts off with Penny Blue and Penny Red stamps in a stockbook along with other Victorian and Edwardian issues (some faulty, as expected), then fair representation of a good portion of issues through the 1980s along with many items well into the 2010s. There are many thousands of stamps here, including over £2,000 in modern face value postage (singles, se-tenant strips, blocks and booklets), and much duplication in some of the stockbooks - we note many clear postmarks worth investigation. Also includes mint and used issues from British Offices (Qatar, A.E.F., M.E.F., Morocco, Tangier), Lundy and Channel Islands including Jersey and Guernsey. This large lot with very good catalogue and high face value will bring many, many hours of organizing for the collector and promises good potential for resellers. From 1948 on, mint stamps are accompanied by used duplicate copies with very few used copies after 1995. From 1976 on to 2012, mint stamps all appear to be MNH and the collection is close to complete. We counted face value above 20p only from 1976 on to be £1,721, where non-denominated 1st stamps are valued at 85p, 2nd at 66p and E stamps at £1.70. Phosphor and many Machin varieties are present. We also saw airmail, special delivery and two sets of postage dues, as well as the 1991 to 1998 UK Duck Stamps. Regional issues are included. Two binders are devoted to FDCs and PHQ cards, with a few more FDCs and postal stationery in the stamp binders. Faults on some older material, then consistently very fine.

Lot is as received, therefore further inspection may yield some surprises. See scans for a glimpse of the content from some of the glassines. Clean lot, overall fine to very fine.

The collection houses many thousands of stamps and is strongest in Canada, the USA, Europe, China and a few British Commonwealth countries. The Vatican City collection is mostly complete MNH from 1945 on, with only a few used copies and the occasional duplication. 7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.

8. Because the auction catalogue is available in multiple formats (print, online at [sparks-auctions.com](http://sparks-auctions.com) and [StampAuctionNetwork.com](http://StampAuctionNetwork.com)) there is a possibility of technical or other error. In that event **the auctioneer's decision will be final.** If discovered before the sale, corrections will be posted on [www.sparks-auctions.com](http://www.sparks-auctions.com). These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.

9. **Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt.** All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason:**

- a. Lots containing ten or more items;
- b. Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- c. No lots illustrated in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
- d. No lot shall be returned due to subsequent numerical grading unless the graded certificate describes faults not already described by us;
- e. It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected

to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

f. If electronic media are included with a lot (for example, CD, DVD, USB device, etc.) we cannot take any responsibility for the contents or integrity of such media and the buyer assumes any and all risk associated with use of it, including any damage to electronic devices by such use.

10. All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted provided that the following conditions are met:

- a. Notice of this intent is given prior to finalizing the purchase.
- b. The purchase price of the lot is paid in full, including any expertizing fees.
- c. All lots to be sent out on extension must be paid in advance and submitted by Sparks, directly. Sparks will use one of the following expertizing services:
  - i. Vincent Graves Greene Foundation (Canada and BNA); or
  - ii. BPA or RPSL (British Commonwealth); or
  - iii. Philatelic Foundation or PSE (USA and territories); or
  - iv. Another authority mutually agreeable to both parties.
- d. Extensions are granted for the reasonable period of time required by the expertising authority;
- e. If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price including the expertization fee;
- f. If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.

11. Lots which include the notation '**Rsv.**' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.

12. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

### Shipping Information

**Please note that items will be shipped by the least expensive method below unless other arrangements are made between the buyer and Sparks Auctions in advance of shipping.**

All shipping methods are subject to the current regulations and protocols of the shipping provider, which can change from time-to-time in response to various conditions outside the control of Sparks Auctions. To maximize shipping efficiency and minimize cost to the buyer, some lots may be shipped without multi-ring binders or other bulky housing mentioned in a lot description, or by combining the contents of multiple housings into fewer of them.

Within the National Capital Region:

- a) Normally, it is expected that local residents will arrange for pick-up from our office, by appointment only.
- b) Shipping can be arranged using the "Within Canada" methods described below, or by other means if specific arrangements are made between the buyer and Sparks Auctions.

Within Canada:

- a) Single or multiple lots that fit into one or more regular Canada Post Xpresspost labeled envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1,000 they will be shipped by Xpresspost with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by FedEx.

## About Bidding

Bidding in a Sparks Auction takes place in accordance with our Terms and Conditions and can happen in several ways:

### 1. Advance Bidding

We accept bids in the time-honoured tradition before the auction starts:

- a. you can mail us a printed bidsheet (included with the print catalogue and also available for download from our site). If you use mail to send us a bidsheet, please call at least the day before the sale begins to confirm that we have received it.
- b. you can fax us a printed bidsheet (included with the print catalogue and also available for download from our site) to 613-567-2972.
- c. you can call our office at 613-567-3336 or use our North American toll-free number is 844-252-2032.
- d. you can email your bids to [info@sparks-auctions.com](mailto:info@sparks-auctions.com). Simply provide the lot number and your maximum bid in Canadian dollars.

Please use the following bidding increments:

\$10 - \$200	\$10	\$7500 - \$15,000	\$500
\$225 - \$800	\$25	\$15,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$30,000 - \$100,000	\$2,000
\$1600 - \$3000	\$100	\$100,000 - \$500,000	\$5,000
\$3000 - \$7000	\$200	above \$500,000	\$10,000

All bids not conforming to these increments will be rounded down to the previous increment.

If two identical bids are received for a particular lot, the bid received earliest will prevail, regardless of how the bid was received.

### 2. Telephone Bidding

We can arrange for you to participate in the sale via telephone. Phone bidding must be arranged at least one day in advance so we can assign a staff person to call you at the time the lots you want come up for sale. In general, telephone bidding is best for more expensive items. If telephone bidding is not convenient for you, we encourage bidders to engage an agent, or to use live bidding on Stamp Auction Network to make sure their bids are executed in the way they would like. Please see below for more information about live bidding or contact us for more information at 613-567-3336.

Sparks Auctions reserves the right to refuse telephone bidding at any time. Sparks Auctions will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service.

### 3. Auction Agents

Having an agent act for you is a good way to make sure your bidding intentions are well-represented if you cannot participate in person or through live bidding via Stamp Auction Network. Auction agents can view material, when public viewing is an option. The following agents are knowledgeable, experienced auction buyers known to Sparks Auctions and familiar with our sales. Please contact one of them, or your own existing agent directly to make arrangements suitable to both parties. Sparks Auctions is not responsible for a bidder's relationship with any agent. Agents: please contact our office at least two days before the start of a sale to make arrangements for your clients to be billed and to have their winnings shipped.

### Valuation of Lots

Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2021 and 2022 Scott Catalogue Volumes 1A through 6B in US\$  
2021 Scott Classic and US Specialized in US\$  
2021 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$

2020/2021 Stanley Gibbons 1840-1970 (SG), values in £  
2007 or later Michel Catalogues of the World (Mi), values in €  
2017 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam in CAN\$  
Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 6 volumes.

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value". Likewise, we will note "owner-identified" when there are varieties or other notations included in the consignment, even if we have not verified them.

"Estimates" ("Est.") are used when there are multiple factors to consider and to identify what we believe the lot might sell for when there is reasonable competition for it.

"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.
