## Back of the Book Complete Booklets

- 620 \*\* Red Box Full of Complete Booklets, 1950s to 1985, with well over 250 booklets in all (incl. duplication), mostly all 25c to \$1.50 but also includes 9x Forts Across Canada booklets (32c and 34c) and 4x 1985 Christmas booklets (32c). Good lot for the variety specialist or to use as postage.

- 621 \*\* Group of 235 Mint Commemorative Booklets, 1990 to 2019, with strength in the 40c to 52c eras and more than \$70 in "P" denominated stamps. We noted both versions of the Eatons booklets packaging, several packages of wedding stickers for use on the Greetings issues (these not counted in the value) a few Canadian Memorial Chiropractic College booklets, and several NHL All-Star Hockey issues. There is some duplication in this very clean group, with total face value of \$1,071. It could be useful to collectors, postage users or resellers. Our photos provide an overview of the lot and the inventory sheet showing the contents.

Face \$1,071

- 622 \*\* Group of 160 Mint Christmas Booklets, 1988 to 2000s, with strength in the 34c to 55c denominations, but with a good representation of international rates also (76c to \$1.55). We noted some better items, including the 1989 issues (Unitrade BK107 x5, c.v. \$60 each; BK108 x6, c.v. \$22 each; BK109 x8, c.v. \$40 each; total c.v. for this group alone is \$752), as well as examples of both glued and open covers of many booklets and several packages of Santa labels for use on the popular Greetings Stamps of the late 1990s. There is duplication of up to 17 in this very clean group, with total face value of \$583. It could be useful to collectors, postage users or resellers. Our photos provide an overview of the lot, plus some of the better items and the inventory sheet showing the contents.

- 624 \*\* #BK3/BK238 Dealer Stock of Complete Booklets, filling a black box, with all the booklets in glassines, which all have catalogue numbers and values, there appears to be a good variety of material, with French and English, bilingual, varieties, and duplication sometimes up to about 5. The owner counted the catalogue value using a 2008 Unitrade, and so we assume the modern value would be higher. Overall fine to very fine, we photographed the first 30 items to give an idea.

There are also 10 booklets of BK74 with the perforations shifted down which are part of the "over 400 booklets" but not part of the catalogue value, as well as a few that are missing stamps (indicated as such). A useful lot, which has much duplication of some, but also lots of variety and better items and totally unchecked by us for tagging, perforations or other such varieties.

There are a multitude of Unitrade-listed varieties as well as others that are mostly listed in Harris *Centennial Definitive Series 1967-1973* including different booklet covers, different sealing strips, counting marks, fluorescence and tagging varieties, plate wear, a few Opal private vending machine items, ink smear and printing varieties and much more. According to Harris *Centennial Definitive Series 1967-1973*, 1,270 sets of these were prepared by the Opal Manufacturing Company in 1972 and dispensed in three machines in Toronto, as the Post Office was researching the use of 50c vending machines. Interestingly, these have an additional bonus: both inside back covers have a handstamp reading "This is Exhibit "B" mentioned and / referred to in the affidavit of / William Edward Greig / Sworn before me this 18th day of / March A.D. 1974 (signed R.Stainton) / "A" Commissioner, &c". Each stamp has the inscription "I Merit" at top plus four different merit categories at bottom. Listed in Lafrenière as nos. 1b to 4b, described there as being earned by students for perfect recitation, good conduct, punctuality and/or diligence, and could be exchanged for merit cards of higher denominations, leading to the end of the year where the student with the most merit points could exchange them for a book prize. Very rare and very fine, unpriced in Lafrenière.

Not all of these are listed in Lafrenière, so value is higher than those we catalogued. Some with faults such as creases or stains (mostly earlier items), and condition varies from no gum to never hinged. Lots of duplication but still a useful lot.

- 755**    ☉ **#1b, 3a 1851 3d and 1sh Heraldic Imperforates, Both Bisected on Piece**, each stamp being bisected in half diagonally and affixed next to the other on a small piece, properly tied to each other and to piece by a neat and very fine strike of the New Brunswick grid numeral 8 (Chatham, RF 7 in Pence period). This was one of the proper ways to pay the 7½d rate to the U.K. (after 1854), since no stamps were issued in that denomination (another much more common way being to use a complete 6d and bisected 3d). Fine, with owner (or expert) signature on back dated 1926, and accompanied by a 2021 PSAG certificate.

Proper usages of the 1sh bisect are extremely rare, and in fact none were found in our search of recent offerings, and the only reference to it is this interesting one from Argenti *The Postage Stamps of New Brunswick and Nova Scotia* reading: "Jarrett, on p. 235 of his British North America catalogue, records a bisected 1/- with a bisected 3d making the 7½d rate; this is probably the same piece which was in Alderman Bainbridge's collection and was sold on October 6th 1930 at Harmers, Lot 142. It was on a small piece but had a Royal Certificate (N.S.A.)." We believe there is a strong possibility this could be the item mentioned.

Plate position 95 shows the "scratch" variety at left, and plate position 12 shows the newly discovered (and unlisted by Unitrade) re-entry, as described in detail by Ralph Trimble on his re-entry website and by a great article on this stamp by Walsh and Goldberg. Parts of the sheet are hinge reinforced, and so the sheet has 20 stamps that are hinged because of this, all being in the top and bottom rows, as well as the 4 center stamps, and the remaining 80 stamps are never hinged. The sheet has light gum residue on front, confined entirely in the top and bottom margins, and not affecting any of the stamps. The stamps are overall well centered and we assume there are probably not many of these sheets left intact, in fact the Walsh / Goldberg article referred to above mentions that the authors did a "sheet search" which only revealed one full sheet (of the orange shade) sold in the UK in 2016. Catalogue value does not include premiums for both plate inscriptions. A rare opportunity for any sheet or Newfoundland collectors.
