1512 ** Mint Never Hinged Collection in 11 Schaubek Springback Albums with Slipcovers, 1967-2003, the owner counted over 14,700 different stamps, all neatly mounted in clear mounts, totaling \$7,400 in face value. This expanded collection includes booklets, souvenir sheets, sheetlets and all possible combinations of tab/stamp or se-tenant issues. For example, 21 pages were required to show all the combinations for the 1970 Christmas low values. No great rarities within, but just a really solid coverage of the issues in this period, useful both for postage, or for collecting / adding to. Very fine and fresh throughout, please have a look in person to better appreciate this one.

.....**Face \$5,400**

1513 ** Collection of Mint Never Hinged in 3 Lighthouse Hingeless Albums, from 1986 to 2011, in matching slipcases. Collection is missing only a handful of stamps to be complete in period. We noted booklets, souvenir sheets and even some sought after varieties including the Mammal definitive issues #1171c (Walrus c.v. \$600), 1175a (Wolf c.v. \$100), and the Christmas Angels perforation change (1764b, c.v. \$500). The total face value is \$1,251 in addition to the high retail value of the albums and pages. Beautiful clean collection, overall very fine. See photos for a small glimpse of the collection.

.....**Face \$1,251**

1514 ** Collection of Modern Varieties, with 63 items in all (multiples counted as one) showing a range of varieties such as perforation changes, tagging, no score line in coil multiples, missing colour, many with tagging omitted, etc. Noted Year of the Pig with missing gold inscriptions, 38c Parliament with red ink flaw, some Mammal issue varieties (best is 61c, perf 13.1), 38c Parliament with strong double printing, missing bird on 8c totem pole in a strip of 4, a strong offset on back of the \$5 Moose, #625a 6c Christmas with black colour doubled, a page full of stamps with tagging omitted, centre blocks of the untagged 1970 Christmas issues, two signed Canada 92 souvenir sheets and more. All pages scanned online.

.....**Est \$500**

1515 ** Large Collection / Stock of Mint Never Hinged Blocks of Four, with about 200 black stock cards, each containing one to 4 blocks of four (the multiples are sets). Also about 2,000 102 cards, each containing one block of four. The majority of the blocks are from the 5c to 8c era, and includes various quantities of the higher values such as 10c, 15c and 25c, as well as a few higher. We also note older blocks from the George VI era, mostly definitives. The best items include a set of Peace issue (\$340), 50c Suzor-Coté, \$1 Montréal (with short \$ flaw), two sets of 1c to 5c KGVI (with and without Postes - Postage), etc. Overall very fine, all appear to be never hinged.

.....**Est \$200**

1516 ** Collection of Interesting Modern Varieties, with a good assortment of material and types of varieties, such as double tagging, papers, partial tagging, misperforated, misplaced printings, a 5c Centennial UR corner block with W2aR tagging, and more. See pictures for an overview.

.....**Est \$200**

1517 ** Mint Never Hinged Collection in Three Lindner Hingeless Albums with Slipcases, 1972-1997, with many complete sets, souvenir sheets, booklets, etc.

.....**Face \$528**

1518 ** Topical Collection Depicting Different Canadian Prime Ministers, all appears to be mint never hinged, and contains many issues depicting Prime Ministers of Canada, from MacDonald to Trudeau. The collection is mostly made up of corner plate blocks, most often matched sets, plus singles pairs, a few plate inscription items, booklets, and more. Scans only show a small sampling, overall very fine.

.....**Est \$150**

1519 ** Collection of Mint Never Hinged in a Lighthouse Album, with a scattering of various issues, from the QV Leaf to about 1976. All stamps are mint never hinged, and we noted a block of 6 of Scott 87, a corner plate block of the 8c Arch, 1c Arch coil pair, etc. Overall fine or better, some of the better pages have been photographed online.

.....**Scott US\$2,310**

1520 ** Collection of Mint Complete Sheets, from 1940s to 1960s, consisting of about 50 sheets as well as some large blocks, all displayed in a leatherette mint sheet file. We noted War (1c to 5c), George VI Postes-Postage omitted, and Karsh definitives, as well as commemorative issues with inscription or in field stock sheets. Also included is a Millennium collection, and a quantity of mint postage mainly populated by low denominations in one stockbook, with an estimated face value of \$100. Some faults to be expected. Clean lot overall very fine.

.....**Est \$300**

1521 ** Selection of Mini Packs and Panes, Etc., includes a signed Canada 92 souvenir sheet, two complete sheets of 100 of the 1970 Christmas issues (5c and 6c, untagged), also includes 16 mini-sheets still shrink wrapped (Christmas, etc.) plus another 18 mini-sheets for Cameo, Centennial, Wilding, etc., some tagged. A very fine lot.

1524 ☉ Collection and Stock of Used Stamps in 5 Stockbooks and one binder, from 1897 to 2000s, consisting of well over a thousand stamps starting with Small Queens, Jubilees (low denominations) and a good representation onwards of Edwards, Quebecs, Admirals, etc. A cursory look revealed two Bluenoses, several nice postmarks, as well as some blocks of four. Also included are several first day covers from the 1970s, two airmail covers, sealed packs of special event Olympic covers and a quantity of modern issues on paper. Clean lot overall fine to very fine.

.....**Est \$200**

- 1525** ◉ **Collection and Stock of Used Plate Blocks, Back of the Book, Etc.,** with over 100 used corner plate blocks of four from the 1960s to 1990s (some with nice c.d.s. cancels, some high values, good variety, etc.) as well as some nice used blocks of four and strips of four of the 1927 Historical and Confederation commemoratives, etc. Lastly there are about 250 black 2-row stock cards with extensive used back of the book, including War Tax, Special Delivery, Postage Dues, Air Mail and a few Officials with duplication of most, including better values. We note many nice c.d.s. cancels throughout, should be seen in person to better appreciate.
..... **Est \$250**
- 1526** ◉ **Collection of Used Singles, Pairs and Blocks, Small Queens to late 1980s,** with thousands of stamps in six binders on White Ace album pages and homemade pages, and six smaller-format albums. The White Ace album starts with the Small Queens and we noted Jubilees to the 50c, along with full sets of the Edwards and Québec Tercentenary issues. There is good representation of most issues through 1975 along with some Postage Due, Special Delivery and Air Mail. Several binders contain pairs and blocks of four and the smaller-format albums have mostly singles, with emphasis on the 50's and 60's. We noted some good strikes of c.d.s., barrel and MOON cancels and a few RPOs here and there. We also noted some precancels and perfins scattered throughout this clean collection. Also includes three books of light philatelic reading. Hours of fun await. Our photos provide an overview only - best viewed in person to discover any treasures that may await.
..... **Est \$100**
- 1527** ◉ **Old Time Accumulation of Canada and Worldwide in a Box,** this box is exactly as received and from an "attic find". It weighs 4.2kg (box included) and contains thousands of on and off paper stamps, all of which appear to be from the late 1800s to the 1920s (for Canada, Small Queens to Admirals). Many of the stamps appear to have been accumulated for their postmarks, and the ones that are still on piece have been cut close to the postmarks, thus leaving the postmarks intact and very little paper attached. Countries noted (in order of importance) are Canada, USA, bit of Germany, and perhaps more, as we have not looked beneath the top layer, both to describe the lot or to take the three photographs found online. We highly recommend viewing this one in person to better appreciate the postmark and stamp interest in this box, as it is undoubtedly unpicked and may hold some nice finds.
..... **Est \$350**
- 1528** ◉ **Large Quantity of On and Off Paper,** consisting of over 200 bundles of 100 stamps, ranging from the 17c to 40c period (1970s to 1990s), housed in one large plastic tote and tens of thousands of stamps on paper from the 8c to 47c period (1970s to 2000s), with a weight of 4.5 kilograms without the box. We noted some nice postmarks on mostly definitives. Also included are 2 gold stamp reproduction (Beaver and Jacques Cartier) as well as five 1976 Olympic commemorative sets, each consisting of 3 metal stamps reproductions. Clean lot.
..... **Est \$100**
- 1529** ◉ **Accumulation of Bundleware,** consisting of about 800 bundles of one hundred stamps, mostly definitives from George VI to QEII (1940s to 1970s). Worthy of mention are 56 used 8c Small Queens, with many very fine centered and some fully dated. Also included are a few covers as well as a few thousand stamps on and off paper. Clean lot.
..... **Est \$150**
- 1530** ◉ **Old Time Hoard / Stock of Mostly Used,** starts off with a box with many hundreds of loose mostly older on and off paper, noting many Small Queens and such, with good postmark interest such as squared circles, saw a 3c SQ with a nice Crown cancel, etc. Also a box full of #10 envelopes with old time used stock from about 1900 to 1940, sorted by issue, with better such as many Admiral denominations, Edwards, 50c Grand Pré, and more, all in quantities between one and hundreds of each issue. Lastly there is a box full of 1950s-60s bundleware, a box of on and off paper from roughly the 1930s to 1960s (with a bit of worldwide mixed in) and a folder containing old album pages with a few stamps. A stock card contains only a few of the nice things our very brief inspection revealed, including a very fine used 50c Bluenose, 20c Grain Exhibition used with broken X, very fine used 5c and 10c Québec Tercentenary and a mint 8c Jubilee. A great lot as it has remained unseen since the early 1960s and is very likely to reveal some goodies, such as varieties, postmarks (saw a good quantity of nice c.d.s. town cancels) and more. Inspection is recommended to better appreciate.
..... **Est \$350**
- 1531** ◉ **Accumulation of Used in a Jam-Packed Bankers Box, 1890s to 1990s,** with many thousands of stamps and a few covers, on and off-paper, in an overflowing stockbook, a 2" stack of loose home-made pages, several clear bags and many envelopes. We saw definitive and commemorative issues with many c.d.s. postmarks, along with Officials, some revenues, precancels, coils and some blocks. There is one plastic tub containing 90 individually-sorted envelopes of Numerals (½c to 5c) and Edwards (1c and 2c) with 100 in each envelope - we noted c.d.s. postmarks, a few precancels and a few RPOs in our very quick look. The covers include some Schering FDCs and CAPEX 1978 items. This fairly clean accumulation would be ideal for the avid sorter and we suspect there are finds to be had. See the photos for a glimpse and try to view in person.
..... **Est \$100**
- 1532** ◉/** **Two Collections of Mint Canada, from early 1970s to late 1990s,** starting with a mint collection from #853 to #1817, with over 650 stamps in black mounts, displayed on Lighthouse album pages. Appears all mint never hinged and almost complete with many plate blocks. We noted 3 plate blocks of the Legendary Creatures with the perforation variety, and some 2005 Wildlife definitives (\$1 and \$2). The owner indicated a catalogue value of \$1,855 with a face value of over \$675. The second collection, ranging from #561 to #1353, appears mostly mint never hinged (a few used stamps) all displayed on Lighthouse hingeless pages and almost complete to 1985, then sparsely populated onwards and all in one album. We noted some souvenir sheets and about \$75 in face value.
..... **Face \$750**
- 1533** ◉/* **Collections of Mint and Used, from late 1800s to 1981,** consisting of two similar collections each displayed in a Minkus album, with one collection showing a slightly higher level of completeness, starting with used low denominations Small Queens, Leafs, Numerals, Edwards, then increasingly populated from the Admirals onwards with the \$1 dollar denomination missing at times in sets, until the War issue. We noted some nice postmarks and mint stamps are well represented from the 1960s onwards, often displayed in black mounts. Also included are 6 sealed Lunar Year thematic collections. A clean lot, overall fine to very fine. We have removed some of the better stamps and inserted them in a stock sheet in order to provide an overview photo of the content from both collections.
..... **Est \$100**

1534 ☉/*/** **Extensive Collection of Varieties, 1954 to 1980**, all on pages and in stock pages in a thick binder. There appears to be at least 1,500 stamps (singles, blocks, panes, etc.) showing varieties such as tagging, many tagging shifts, phosphor issues, mini panes on fluorescent paper, colour shifts, different se-tenant positions, shifted colours and printings, as well as printing flaws (dots, scratches, etc.). Many of the varieties are shown beside a regular issue for comparison. Most of the material is mint never hinged and perhaps less than 5% is used, see photos online for a glimpse, better yet see it in person to better appreciate the contents.

..... **Est \$500**

1535 ☉/*/** **Balance of Large Consignment**, with a wide variety of material, including a used set of Electrical Light Inspection stamps (FE1-FE7, van Dam \$194), a 1998 Jean Paul Riopelle Québec Duck Stamp souvenir sheet of 4 with folder (QW11a, \$180), a group of 25 used BCL44, used Small Queens (incl. 10c, 20c, 50c), 11 different unopened Canada Post "Thematic Collections" (1982 and 1990s), a small stack of modern booklets (\$85 in face), a 20-page stockbook filled with used from 1900 to about the 1980s, a second stockbook filled with mint stock from the 1940s to the 1980s (probably around \$80 in face, including some 50c, \$1, \$2, \$5 values) and last, but not least, about one hundred 102 cards and 70 black stock cards with mostly mint material (singles, sets, blocks) with about \$80 in usable face value, plus some catalogue value for the earlier 1910s to 1940s material). Some faults, but overall fine to very fine. Pictures only show a small portion, in-person viewing recommended to better appreciate.

..... **Est \$250**

1536 **/☒ **Small Group of Misperforated Stamps**, with two 2c definitives, a 1c Québec Tercentenary on 1908 picture postcard and 6 covers from 2007 to 2020, each with a misperforated definitive issue. An interesting collecting area.

..... **Est \$100**

1537 ☉/* **Nice Group of Modern Varieties**, mostly on their original purchase cards (Saskatoon, Weeda, Bileski) with a total of 25 lots (more stamps than that), mostly mint, but with some used. Includes varieties such as pre-printing creases, perforation shift, doctor blade flaw, tagging errors, untagged, doubled inscriptions, perforation changes, etc. Overall very fine, with a high retail value. See photos for an overview.

1538 */** **Two Collections in a Stockbook: Mint Jubilees and Mint War-Related Stamps**, starts off with a mint Jubilee collection, with ½c, 1c (x2), 2c, 3c (x2), 5c (x4), 6c and 10c (these all described by owner as NH, but some are lightly hinged or have light bends). Second collection starts with a stock of KGVI War issue (to the \$1, in various quantities, includes some plate blocks, etc., all appear to be fresh and NH), followed by KGVI War issue coil singles, pairs, strips of 4 and some end coils (appears to be all NH), and ends with some modern War-related stamps (face \$20). Overall fine to very fine.

..... **Scott US\$450**

1539 ☉/** **Valuable and Extensive Collection of Modern Varieties and Errors Filling a Bulging 30 Page Stockbook**, with most of the items still on dealer cards such as from Saskatoon Stamp, etc. A wide variety of varieties in this one, such as misperforated, smeared ink, pre-printing paper crease, many with various tagging varieties, perforation changes, printed on gum side, double and triple print, aniline ink, untagged errors, imperforate varieties and much, much more. We counted over 165 items (incl. singles, pairs, blocks or groups), with retail prices ranging mostly in the \$25 to \$300. Most of the material is never hinged but also includes a few used. A real treasure trove and could be a very profitable lot for the online reseller (165 items sold for a minimum of \$25 each would generate over \$4,000 alone, not counting the much more valuable items), or a great addition to an existing collection. All pages scanned online.

..... **Est \$2,500**

1540 */** **Red Box half Full of Mint Canada in 102 Cards**, with a wide range of material (with a little duplication) from the late 19th century to modern, saw many fine and very fine never hinged items, and noted some better, for example: #s 71 (VFNH), 99 (fine NH), 102 (VF hinged), 122 (VFLH x2), 130 (VFNH pair), 158 (two NH singles), 158 (lightly hinged), 159 (NH), coil singles and pairs, back of the book and much more. Nice quality in this lot, and we highly recommend viewing in person to better appreciate the contents, we photographed the first 60 cards, only to give an idea. Catalogued by owner (unchecked by us) as Unitrade \$15,450.

Also includes a 2014 Annual Collection (still shrink wrapped, price new \$82) and a Titanic100 souvenir book in its original box (price new \$140), etc. A nice lot, with a decent amount of face value and other goodies, well worth our estimate.

There are a good number of federal (Weights and Measures, Excise, Cigarette, etc.) and provincial revenues (Quebec Prohibition, Registration and Law; Saskatchewan Law; Ontario Law; Newfoundland Revenue) and we note a few hundred cheques in typical worn condition (we saw 1924 to about 1926 mostly from the Canada Life Assurance Company) mostly franked with excise stamps. We also saw a dozen or so larger-format FDCs including Forts, Scenic Rivers and a few Canada Day souvenir sheets. Rounding out this lot are four annual collections (1977, 1980, 1981 and 1984 with total face value of \$31) and another \$15 or more in mint postage found in complete booklets and a sheet of 8c stamps. Overall quality is fine, with a little something for everyone. The photos provide a glimpse of the contents, best viewed in person to discover other potential.

1552 ☉/*/** **Collection/Stock of Mint and Used in 22 Stockbooks, 1880s to 2009**, consisting of thousands of stamps with broad coverage of the period and much duplication of some stamps. The collection starts off with 7 pages of Small Queens (1c through 50c), followed by Leafs (no 5c) and Numerals (to 8c). It continues with Map stamps, Provisionals, Edwards (no 50c), Québec Tercentenary (no 10c or 15c) and Admirals (we saw many shades present) through the Peace issue, with all of the previous being used, some with clear, dated postmarks. From about 1947, there is a mix of used and mint through the end of the period, including good representation of Centennials along with some semi-postals, War Tax and other back of the book, including 8 part-sheets of O39 (G overprinted Kayak x368 stamps, plate blocks removed, some with fading and discoloration). Centennials are well-represented and we did not check any stamps in the collection for paper or tagging varieties. We saw some NH among the mint as well as a few plate blocks, coil pairs and strips and booklet singles. There are faults particularly in the early period and though not complete, this collection would be suitable for someone starting a Canadian collection or for the existing collector looking to fill gaps, especially with the more recent used material, which sparsely fills the stockbooks. We counted the mint (denominations of 15c and over) for a total of \$414 face value. Our pictures show some of the pages but in-person viewing will tell the whole story.

The bulk of the value in this lot resides in the Canada and Provinces displayed in a stockbook, noting material such as Small Queens, a few mint Jubilees, a set of used Québécois, mint and used Admirals with strength in mint coils, mint Arch coils, plus others to 1950, including back of the book, as well as a page of mint and used Provinces (see photos online). 1585 */ #22/557 Valuable Mint Collection in a Lindner Hingeless Album, 1868 to 1971,** starts with very fine #s 22 and 24 (no gum and regummed), then very fine 1c to 5c Small Queens (2c is hinged rest are NH), very fine hinged 20c and 50c Widow Weeds, then the collection starts to be mostly NH (but does have some hinged here and there), with a great selection of Jubilees, and close to complete after that. A lovely collection, with emphasis on centering and freshness, saw some jumbo stamps, etc., and includes shades, papers, coils (early are singles, then transitions into pairs, then strips), War Tax, two 50c Bluenoses, complete Airmails, OHMS overprints, G overprints missing only 2 stamps, decent Postage Dues and complete Special Delivery. Quality is very nice throughout, save for a few corner creases or gum bends on a few early issues, overall very fine. See our photos online for an example of some of the better pages, don't miss this opportunity to acquire such a nice collection which is easily worth much more than our estimate. Rsv. \$6,400.

1587 ☉ #34- Nice Used Collection in Parliament Albums and Three Stockbooks, the albums have pages up to 2005 and the stamps run from Small Queens to about 2003. The collection is about 50% complete from the Small Queens to the 1920s, and from then onto the 2000s we estimate a completion level of about 95%, mostly only missing some non-regularly issued stamps. We note nicely cancelled souvenir sheets, coil pairs, sets, different printings, se-tenant issues (sometimes with individual sets alongside the se-tenant or souvenir sheets, etc. A better than average collection for its level of completion (in the period noted), with many useful nice c.d.s. cancels and quality material. Also includes 3 stockbooks filled with a very good range of material, also with different printings, etc., and several hundred stamps in all. Overall fine to very fine, see pictures online for just a small glimpse into this clean collection..

1588 ☉/*/ #34- Mostly Mint Canada Stock in 3 Stockbooks and a Few Boxes,** first stockbook starts with a nice selection of used, with many Small Queens, followed by most issues up until 1960 (saw 3 Bluenose issues, etc.), then a mint stock starting with #53 up to about 1960 (owner's c.v. for the mint is \$1,175). The two other stockbooks contain mint issues from the 1960s to modern, with singles, plate blocks, souvenir sheets, etc. noting 9 sheets of #582-85 Earth Sciences (face value in these two stockbooks, for stamp denomination of 25c and up is \$134, including many "P" stamps). Next is a box full of 102 cards holding one or more mint stamps from the 1920s to modern, with a wide range from Arch issues to many P stamps, half of the box is in the 17c era to modern with a face value of \$150, and the older material contains a few goodies such as two E4 (both VFNH), etc (this box smells of tobacco). We then see a small box containing 62 small size booklets (BK49c to BK88b) plus another small box with 35 small size booklets. Last but not least is a limited edition The Gates of China Collection in its original box and sticker price of \$88.88.

1593 ☉/*/ #35/1814 Collection of Mint and Used Stamps in a Hingeless Lighthouse Album, 1880s to 1986,** a stockbook, a double-sided black stock sheet, loose album pages, and glassines. The Lighthouse album is very clean, with album pages from 1851 to 1986 inclusive and typically retails over our estimate for the entire lot and is very sparsely populated with mostly used material. The contents of the stockbook, loose album pages and glassines would fit well into the album. We also noted a full sheet #297, the 1c green without Postes/Postage NH (Unitrade c.v. \$30), a mint NH sheet of #513, the 10c United Nations commemorative with an owner-identified tagging error (c.v. \$50 as the regular stamp), a #10 envelope stuffed with about 25 complete booklets from the late 1960s to early 1980s, and some back of the book (mostly G overprints and some used Air Mails). Some used revenue stamps are present also (first Bill Stamps, gas and light inspection on two separate documents, Québec Stock Transfer, Saskatchewan Law). Also included is a bundle of postal history from 1915 to late 1930s with Admirals, Air Mails, censor strips, first flights and a few illustrated covers. The lot is rounded out by several useful publications: Volumes 1 and 2 of BNA Reference Manual of Forgeries (Pugh); BNA Fakes and Forgeries (Smythies); and Volume 1 of Album Weeds, A-L (Earee). This eclectic lot of mostly fine material should satisfy a collector or prove useful to a dealer or reseller. Our photos provide a general overview only.

1594 ☉/*/** **#35/2387 Collection of Mint and Used, 1880 to 2010**, in 8 full binders on Minkus and home-made pages, 6 stockbooks, and a mint sheet file containing thousands of stamps, booklets, souvenir sheets and a smattering of FDCs, postal history and postal stationery. The collection starts with used examples of most Small Queen denominations including various shades and a 50c Widow Weeds, mint Jubilees from the 1c to the 5c, some used Leafs and Numerals including a precancelled 1c, used Edwards and a mix of mint and used Québécois. Admirals are used with many owner-identified shades through most of the coil singles and War Tax stamps, including a few precancels and private perfins. The collection continues from there with mostly used and nearly complete through the Pictorial issue, then a mix of mint and used through the 1950s, then primarily mint (with some used) through the 1980s. We noted a significant effort was spent on identifying Centennial varieties, though we did not confirm them, nor check for any paper, perforation or tagging varieties that may exist throughout the collection. From the 1990s we observed mostly mint, with related postal stationery and examples of postal history scattered throughout. One of the binders contains nothing but Lunar New Year stamps, souvenir sheets, Canada Post Thematic Packs and postal stationery and another has annual souvenir cards and other thematic packs. A few stockbooks are jammed with plate blocks and mint singles including high-value definitives. There are also two full shoe boxes with thousands of used off-paper, sorted roughly by year or type including back of the book, precancels and perfins. There is very good face value here (many hundreds of dollars) and strong catalogue value also. This could serve as a very solid start to a new Canada collection, or prove quite useful to the online reseller. Our photos provide a mere glimpse at the contents.

The stockbook contains used stamps including a few 5-hole OHMS (13c Halifax Harbour and a few Mufti definitives). We noted some clearly dated c.d.s. postmarks and counted the mint denominations of 15c and over, which totals over \$285. 1596 ** **#43/1395ii Valuable Group of Mint, with Many Varieties**, all sorted and identified in glassines, with a few QV items, Admirals and other KGV era material, followed by KGV including many coil strips, War issue, etc. The bulk of the material is in the definitives of the QEII era, with many coil strips, plate blocks, blocks, etc. of the Cameo, Centennial, and other issues. Varieties we noted include scarcer plate block numbers, tagging, paper coatings, perforations, tagging omitted, coil jump strips, coil precancels, paste-up oil strips, coil wide spacing, and more. There is duplication of many, still the quality is quite high, items seem to be properly identified and the catalogue value is probably impressive, as many items catalogue in the \$100 to \$200 range or more. 1610 ☉/*/** **#89-315 Extensive and Expanded Mint and Used Collection, 1903-1952**, with all stamps in black mounts on home made pages, the collection appears to be complete in range for mint stamps (missing the 50c Edward), and includes a large quantity of different additional mint and used stamps, sometimes with duplication, these often in the higher denominations. These includes blocks and multiples, many precancels (bars, towns and numbers), imperforate varieties, a few perfins, shades, printings, booklet panes, coils (incl. singles, pairs and strips, with end strips, paste-up and joint pairs, etc.) and varieties, including Scarface, Burr on Shoulder, Broken Spire, and more. The Admiral section is extensive, with wet and dry printings, etc. (no War Tax). The overall quality appears nice, with the odd small fault, we catalogued the collection as all hinged for the mint, even though there is a possibility of some never hinged. The varieties not listed in Scott were counted as least expensive regular stamp, and the extensive precancels or perfins were not counted, so all of that should add considerably to the conservative catalogue value given.

1656 */ Collection of Mint Plate Blocks, 1940s to 1990s,** in 5 stockbooks, an envelope and on Bileski album pages. We saw quite a few matched sets of inscription blocks in the collection, and some good plate numbers from the Mufti, War and Peace issues, along with 50c, Oil Wells, 50c Textiles and \$1 Totem Pole, with some separation noted on the earlier items. More than half of the contents runs from the late 1960s to late 1990s, mostly single inscription blocks. Back of the Book is represented by a set of red Postage Due matched inscription blocks on Bileski album pages, along with some Special Delivery, Air Mail Special Delivery and Officials with O.H.M.S. (including regular blocks of four with Postes/Postage narrow spacing) and G. Face value is quite good with a total of \$660 counting only denominations of 15c and over. There is also good catalogue value in this clean collection, and the contents would fit well into an existing collection, or get used by a reseller or postage user or seller. Our photos show the range of material included, but viewing in person will be helpful.

The collection starts off fairly well with Pence and even better Cents issues, followed by a fairly comprehensive showing to the end (with duplication). It contains a mix of used and mint (including never hinged), complete sets, blocks, etc. The emphasis of the collection is towards re-entries or constant plate flaws, with at least 70 stamps (some in blocks), usually accompanied by a large coloured enlargement clearly showing the variety. This does not count the numerous guide lines, engraver's slips, slip prints, dots, scratches, blobs of ink, etc found throughout. There is also an extensive presence of perforation varieties, all clearly described, as well as shades, watermarks (incl. many inverted) and much more. Total face value is \$1,996.

- 1713 ** Large Box with 10.88 Kg of Mint Stamps 14c and Under,** with singles, multiples which includes blocks, part sheets and a few sheets. The stamps alone weigh 10.88 kg (box not counted) and we took a sampling of 200 various-sized stamps which weighed 20g. Since there appears to be a good quantity of every denomination between 1c and 14c, we estimate the total face value (by weight) to be \$5,440 using a conservative value of 5c a stamp. We assume most to be NH and overall very fine, unchecked by us for tagging or any other varieties, see photos for an overview. As we cannot attest to the exact face value of this lot, we ask that you bid accordingly.

Also a shoebox of plate blocks housed in small photo album pages and a second small box with what appears to be mostly plate blocks. There will be a good amount of face value in this lot.

We note two 1972 Geophysical Year sheets of 16, an \$8 grizzly sheetlet and at least 140 "P" stamps in this very clean group with a total face value of \$1,024. Great for the collector or reseller. Our online images show only some of the contents plus an inventory sheet with the quantity of stamps by denomination.

- 1720 ** Accumulation of Mint Sheets, Sheetlets, Souvenir Sheets and Plate Blocks, 1975 to 1990s,** with total face value of \$542 counting only denominations of 14c and over. There is strength in the 17c to 39c eras, more than \$75 in denominations of \$1 and over and another \$30 or more in face value for the denominations of 12c and under. There is duplication of between 3 and 10 of some in this very clean group, with face value of \$617 for the booklets and \$372 for the souvenir sheets (which include 1976 high-value Olympics mini-sheets and 3 unopened packages of 2010 overprinted souvenir sheets) and additional loose postage (including denominations of \$1, \$2 and \$5). 1726 */ Collection of Mint Stamps and Souvenir Sheets, 1982 to 2016**, in five large, very full binders with mostly White Ace pages and black stock sheets for additional items not included in the published album pages. This collection is nearly complete in the period with singles, coils, set-tenant pairs and blocks and some plate blocks as well as a significant number of the souvenir sheets, with some booklets scattered here and there. We note that a large number of more recent singles are "P" stamps and the very desirable "die-cut from booklet" varieties typically found in annual collections and quarterly packs. There is duplication of some of the issues. Also included are 2 full binders of plate blocks (many matched sets) from 1947 to the early 1980s. We did not check for other potential varieties in perforations, tagging and paper types in either group. Total face value of the collection for denominations 15c and over is \$2,525. This is a great opportunity to acquire a strong modern collection and continue building it, or for a dealer to resell it intact or in parts.

It goes through the three designs extensively (lined background, solid background and soil under feet) with all of the values in each, using mint and used singles, blocks, plate blocks, gutter pairs to show the different shades, varieties, papers, printings, various plate layouts and such, with many enlarged illustrations of the differences and varieties. The exhibit also contains usages for many of the issues, with destinations, rates and more, as well as essays, an imperforate 10c pair, colour trials, specimen overprints, booklet panes (incl. publicity), some stationery items, postmarks, and the exhibit ends with precancelled Sowers, the sought-after Semi-Postal issues plus overprints for use in the Colonies. This lot is also accompanied by extensive extras, either bought since the exhibit was prepared or before, and "didn't make it in". This includes a binder with 10 pages of reworked exhibit pages (saw a Strasbourg Exhibition cut down block), some stock sheets full of duplicated stock and articles, notes, illustrations, etc., plus about 60 covers, stationery cards and picture postcards with rates, frankings, illustrated advertising, wrappers and last but not least is a stack of numerous 102 cards, stock cards and glassines full of more mint and used Sower issues. Also includes 7 different sets of unused PHQ cards without indicia and a group of pre-decimal mint singles, sheets and part-sheets, these not counted in the face value but shown in our photos (we note some of the sheets and part-sheets have separation and some are stuck together). There are also a few Channel Islands items not included in any value or count. The face value items in this clean accumulation are fine or better and ready for use or resale as postage or to fill gaps in a collection. Our photos provide an overview of the contents.

1925 ◎/ * **Great Britain Valuable Collection of Queen Victoria Issues**, mostly identified on 13 album pages plus some black stock pages. There is a great variety of material here, including different plate numbers, perforations, watermarks and printings, and we note more than usual amount of high denominations to the One Pound, including some 5 shillings, and a higher than usual number of expensive stamps, etc. There is also a good variety of useful postmarks, including many dated town cancels, #s 44 and 57 with Panama postmarks, and much more. Also note the presence of a few pages on on-piece stamps, a few on cover fronts, a block of 6 of the imperforate Penny Red, and much more. Some of the stock pages include various extra material up to the KGVI issues, not counted. We roughly catalogued the collection at well over \$20,000 in Scott, the collection is overall fine or better and merits a close look, which is why we have scanned every page online.

The period of 2003-2012 appears to be about 95% complete. The great majority of the collection is mint never hinged, as we only saw a few hinged sets in the early years. We noted singles, pairs, se-tenant strips and multiples, souvenir sheets, meter stamps, etc. One album contains a nearly complete mint never hinged Regional issues collection from 1958-2012, only missing a dozen stamps. The album also contains a complete collection of mint Postage Due issues from 1914 to 1994, with a few additional items (usually shades) and about 3 used stamps (these catalogue £2,906 in S.G.). The collection is housed in two hingeless blank albums with no written indications, save on the back of some Large Hermes Heads which are identified with Scott, Michel and Vlastos numbers. A seven-page section at the end of volume II includes mainly Hermes Heads chosen for clear legible cancels. We should list dozens of valuable stamps and sets found in the collection. 1994 ☉/*/** **New Zealand Extensive and Advanced Collection of Health Stamps, 1929 to 2016**, all neatly displayed on pages filling two binders, using Campbell Paterson numbers and descriptions, with every issue in range present, with the first issues in both mint and used, then quickly becomes mint only to the end, but includes lots of extra material such as re-entries and printing flaws (usually accompanied by an enlarged colour reproduction of the variety, an sometimes indicating the plate position), inverted watermarks, appears to have most of the mini sheetlets and later souvenir sheets (these accompanied by singles of the issues), and often we see large blocks, usually to prove the plate position of a variety. We note two complete sheets of 12 of Scott B28 and B29. Also saw first day covers with plate varieties on the stamps. We counted a catalogue value for stamps listed in Scott at \$2,190, which does not include the 42 varieties listed in Campbell Paterson and valued at NZ\$2,144 (equivalent to C\$1,830 at time of writing), for a total of C\$4,020. Varieties not listed in C.P. were catalogued by Scott. Very fine throughout, see pictures for a small taste of this great collection.

Also 3 pages of mostly used Queen Victoria postal fiscal issues with many varieties and a few postal cancellations, and ends with two pages of mint and used Arms types, with some postal cancellations, two inverted watermarks and three 5sh Officials. An overall nice quality collection, fine to very fine. All pages scanned online.

1998 ☉/⌘/** **New Zealand Extensive and Advanced Collection of Definitive Issues, 1909 to 2016**, all neatly displayed on pages in 6 binders, with the stamps identified by Campbell Paterson numbers and descriptions. Throughout the collection there are a large quantity of varieties, including printings, perforations, shades, watermark varieties, formats (singles, se-tenant, souvenir sheets, booklets and booklet panes, self-adhesives, blocks, plate blocks, etc.) and also a good showing of printing varieties including re-entries, plate flaws, etc. The collection starts with the KEVII set, then shows an extensive collection of the 1909-1925 1d Universal (about 325 stamps, saw Dickie coil experimental issues, most are plated by position and printing, and much more on 43 pages), skips KGV (lotted separately) and continues with KGV issues and early QEII Heads, then becomes quite extensive for all the definitive sets from 1960 to recent years. The stamps are mixed mint and used at the beginning and quickly become all mint never hinged to the end. Our many scans only show a tiny portion of this huge collection, we recommend in person or video viewing to better appreciate the scope within. Very fine throughout.

1999 ☉/⌘/** **New Zealand Extensive and Advanced Collection of Commemorative Issues, 1906 to 2021**, all neatly displayed on pages in 9 binders, with the stamps identified by Campbell Paterson numbers and descriptions. In the earlier years there is a good quantity of varieties, including printing varieties and throughout the collection we see many formats: singles, se-tenant, souvenir sheets, booklets and booklet panes, self-adhesives, blocks, plate blocks, etc.) with the souvenir sheets often also shown with a set of singles. Stamps are a mix of mint and used at the beginning, then become almost exclusively mint never hinged from the 1960s to the end. The collection starts with a mint block of 4 of the 1913 1d Auckland Exhibition overprinted issue (top are hinged, bottom NH, Scott c.v. \$210), followed by extensive showings of all the commemorative sets from the 1920 Victory to modern issues, and appears to be complete in period (Christmas and definitive issues lotted separately), but unchecked in detail by us. There is a very high face value and huge catalogue value in this collection (the hundreds of complete sets and souvenir sheets in the last 30 years alone catalogue in the US\$10 to US\$25 range each), and our few scans cannot do it justice, so we recommend in-person or video viewing to better appreciate the value here.

2003 ☉ **Norway Near Complete Used Collection to 1975**, with extensive duplication for selected shades and cancels, where even high value items are present in more than one copy. For example, we noted two copies each of Scott #s 1 (c.v. \$165), 2 (c.v. \$150) and 6 (c.v. \$250) among others. Other noteworthy items include #s 7 (c.v. \$300), 41 (c.v. \$400), 59-61 with 2 copies of 60 (c.v. \$325). The difficult 1907-1918 King Haakon set is complete in all three dies with many extra copies (c.v. \$824). The same completion level extends to all back-of-the-book issues; thus items such as #s B1-3 (c.v. \$370 with some extras), B24 (c.v. \$100) and O44-54 (c.v. \$162) are all present. A remarkable and overall very fine collection.

We did not attempt to ascertain the level of completion but counted 140 pages, thus somewhat over 1,000 stamps. All very fine.

We noted Scott #s 1 (c.v. \$850), 5 (c.v. \$900), 62 (c.v. \$600), the long commemorative sets of the 1920s such as Camoens 315-345, Castello-Branco 346-376, all three Independence issues and more. The numerous souvenir sheets of the 1940s all appear to be included: 1940 World Exhibition (594a, c.v. \$110), Rowland Hill (602a, c.v. \$75), both Regional Costume issues (614a and 682a, c.v. \$375) and more. The back-of-the-book section looks similarly complete from airmail to franchise stamps and also includes period cinderellas. Some sections, notably the 8 pages of Cérés issues, hold numerous stamps identified for paper and perforations as per the Afinsa catalogue. Some apparent duplication in the early issues which could be due to paper or perf varieties. An extensive, and very fine used collection.

- 2088** ◎/*/** **United States Collection of Mint and Used, 1870s to 1980s**, consisting of thousands of stamps in two "Scott's American" albums (sparsely filled and the albums themselves in rough shape: loose pages, broken spine, etc. but the contents are unaffected), one U.S. Congress Stamp Album (1870 to 1984) that is sparsely filled, a thick binder with home made pages (Steiner-style) 1984 to 2005 about 25% full of mostly used stamps (but we also saw some more recent with face value of at least \$50), a 32-page Lighthouse stockbook with mostly 1950s and 1960s mint issues (some NH) and a shoebox filled with mostly used off paper. We saw a few part sets of better issues: two mint hinged sets of Columbian Exposition both to the 10c (one 8c is torn) and a mint hinged set of the Washington Bicentennial. We noted a group of small-format binders with many hundreds of precancels, largely organized by stamp issue, plus a package of interesting and beautiful "Educards" with larger-than-life reprints of many early proofs. Also includes a group of Christmas seals and other cinderellas, including a part sheet of more than sixty 1936 Green Bay Health Seal stamps. This would serve as a good beginning to a new collecting area or as stock for a reseller. Our online photos provide an overview and a few samples of the contents.

Close to complete from 1938 to 1990, with many stamps before and after. The catalogue value quoted does not include stamps from the Roman States #s 1-9, 12-15 and 19-25 which were once catalogued at Michel 2,683 Euros, but we cannot attest to that. The collection is quite complete, missing some in 1995-96 and near the end, and we note many newer items presented with their tabs and/or in mini-sheet format. Apart from the expected single stamps, the collector also included extras, such as mint or used pairs, blocks and strips, perfins, precancels, interesting cancels, some fiscals, as well as a few FDCs and commercial covers. Too many thousands of stamps for us to count or to describe in detail, but we still noted a selection of 70 stamps from the 1946 Belgium -10% handstamped issues, Ivory Coast mint never hinged first butterflies Sc 446A-D (c.v. \$280), apparently complete mint hinged 1937 King George VI and 1952 Elizabeth II Coronation omnibus issues. 2109 ◎/*/** **Worldwide Mint and Used Collection and Accumulation in 183 Binders**, with tens of thousands of stamps on a variety of album and homemade pages and in manilla sheets. Includes a large USA collection and accumulation to the 2000s with mint and used blocks, mint booklets and panes and more. We also noted larger collections of France, Japan, Germany, Poland and Czechoslovakia but no Canada. Note that the Russia and United Nations collections are being sold separately. Alongside the stamps, the collector has added numerous mint and used blocks and strips and sometimes duplicates, as well as commercial covers and FDCs. The alphabetical organization of this collection is based on an idiosyncratic and not always accurate system based on French language country names. Our estimate is only based on the stamps we could see on the album pages and manilla sheets; however at least as many more stamps are enclosed in various types of envelopes in each album and we did not open the envelopes to examine their contents. The collection is housed in two IKEA Billy bookshelves which can be available free of charge to the buyer if they so wish. Quality varies as is common with collections this large, and we did not see anything of significant value, still a wide variety of countries represented with loads of material. We noted a slight tobacco smell emanating from the binders themselves.

2113 ◎/*/** **Worldwide Massive Dealer's Stock Featuring British Commonwealth and Selected European Countries**, all displayed on thousands of Vario-style sheets inserted in clear sheet holders filling five heavy boxes. This stock had been made accessible to customers in 35 Tarifold displays in the retired dealer's shop. While some sheet holders are dusty, the Vario sheets and the stamps inside have all been well protected. The stock is mainly comprised of mint never hinged new issues of the 1960s to the 1990s with occasional earlier items and a few as recent as 2001. The stocks includes many souvenir sheets, sheetlets and booklets. Some of the earlier material is mint hinged and we saw only a very few used items. Most items are priced in the range of \$5 to \$30 with some under \$1 with only a few items over \$100. There is extensive duplication of the new issues material but generally not exceeding eight copies. Among the Commonwealth countries, we noted large stocks of Bahamas, Bermuda, Isle of Man, Jersey, Papua New Guinea and St Vincent among others. Well represented European countries include Austria, France, Norway, Russia and Romania. The dealer's identification and pricing label of each item have stayed in place. We noted the listed prices were based on older catalogue values, and for some items the listed prices largely exceed current catalogue values. From a large sample we estimated total listed prices to be about \$90,000 which could be about one and a half times the current catalogue value. A diversified and clean lot that will appeal to dealers and resellers as there are loads of topicals and other useful material. Very fine and fresh throughout.

2114 ◎/*/** **Worldwide Mint and Used Collection in 12 Scott International Albums to 1975**, with strength in the 1840 to 1950 period. The earlier albums are the ones holding the most stamps as well as the most value. The early pages for the USA, Brazil, Belgium, Great Britain, Greece, Italy, Japan, Mexico, Peru, Russia and Switzerland all hold interesting stamps that will fill a lot of holes in just about any collection. The many thousands of stamps in this collection make it difficult to identify all items of interest here; nevertheless, we should mention Italy Scott #s 115-8 mint hinged (c.v. \$420) and Japan #479 in both mint hinged and used conditions (c.v. \$205). The volumes for the period 1941 to 1968 hold fewer stamps than those for the preceding period, however, countries such as Brazil, Chile, Greece, Haiti, Italy, Japan, Portugal and specially Russia are very strong. The volumes for 1969 to 1975 mainly hold mint never hinged issues for Japan and the Netherlands as well as miscellaneous used items. - 2134** ☉/*/** **Worldwide Mint and Used Collection to 2015 in 15 Citation Albums**, with a good quantity of mint never hinged sets, souvenir sheets and booklets, all rarely seen in these types of albums. Multiple incomplete sets of pages and lots of blank pages have been assembled to hold this unusual collection. The collection is thus somewhat disorganized with sets being distributed over a number of pages and chronological sequence not being respected. However, the Scott catalogue number has been written underneath each stamp making identification easy. While coverage varies with each country, the usual pattern is for a good showing of used issues to 1940 and a mixture of mint sets with used stamps from 1960 on up to 2015 for some countries. Dozens of countries are notable for the large number of stamps, among them Australia, Austria, Brazil, Rep. of China, People's Rep. of China, Egypt, Greece, India, Israel, Netherlands, Portugal, St. Pierre and Miquelon, Spain and Vietnam. Large quantities of mint stamps and souvenir sheets are enclosed in mounts and are never hinged. Some countries such as USA, Great Britain, France, Russia are absent. Our scans can only show a very small portion of the interesting pages. This collection will appeal to both the worldwide collector and to resellers. Quality is generally fine to very fine, though faults noted on some older material.

Some of the better or interesting material we note includes a variety of French, German, Belgian, occupation issues, an 1868 silver 5fr Napoléon coin, an 1871 Prussia "Victory" silver Thaler coin, some interesting military covers (with postmark, rate and addressee interest), an August 1870 letter from a soldier with interesting contents, original engravings of some of the important people related to the subject, numerous contemporary picture postcards, a Prussian helmet brass plate, two German war medals plus a selection of different ribbons, many Occupation issue stamps chosen for nice town cancels and on cover, two French war medals, and more. This letter box was in use in the post office located in the Hamilton Dominion Public Building on John Street (now the John Sopinka courthouse) from 1936 to 1991. This post office was (and still is) quite lavish, with marble and brass everywhere, 19 (yes, nineteen!) postal wickets, etc., and its elevators were described as being the most lavish of the Art Deco style in the Dominion at the time. Most posters show signs of having been displayed at the post office (which is normal for these), such as toning, pin holes and bends or creases that do not detract from the overall beautiful designs and colours commonly used during that period. Great lot for the postal ephemera collector. See scans for a glimpse of the content.

⊙ **used** includes full range of postally used, cancelled-to-order, precancels.

XF extremely fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.

VF very fine a stamp in superior condition which is well-centered and without fault.

F-VF fine-very fine applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.

F fine stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.

LET'S TALK EXHIBITING

David Piercy, FRPSC

A Publication of The Royal Philatelic Society of Canada

RPSC BOOK ON EXHIBITING TO BE LAUNCHED AT CAPEX 22

The RPSC is pleased to announce the publication of its new book *Let's Talk Exhibiting* by renowned author, exhibitor and judge David Piercy. The book, based on his columns of the same name in *The Canadian Philatelist*, will be beneficial for exhibitors, and potential exhibitors, whether beginning, intermediate, or more advanced.

Profusely illustrated with exhibit pages from many different award-winning exhibits by Canadian exhibitors, the author discusses getting started in exhibiting, exhibit types, exhibit evaluation criteria, and the intricacies of creating effective exhibits and exhibit pages.

"The RPSC has wanted to publish a Canadian book about exhibiting to encourage more collectors to begin exhibiting. As an incentive, we are offering RPSC members a reduced price of \$45 (regular retail \$60) at the show and subsequently. If you are not currently an RPSC member, please consider the purchase of a digital membership at the special CAPEX price of only \$17.50 CAD for the full year. The 15 dollar RPSC discount off the book will almost entirely offset the cost of your year's digital membership!" - Ed Kroft, President RPSC
