Canada Stampless Covers

- 1089** 1826 Québec City Folded Letter to Calcutta, Via Boston, mailed from Québec City on January 15th, 1826 (datelined inside and dated backstamp of a fine Québec Fleuron, in use 1825-1830) and addressed to Edward Hale in Calcutta, care of L. Deblois & Co. in Boston. The front shows two fine strikes of the QUEBEC / PAID (in use 1817-1830), one with the currency rate to the border "1N" and the other with the rate to Boston "18¾". The long and interesting letter of 4 pages would have been carried to Calcutta by favour, and docketing indicates it was received there on June 16th 1826. Born in 1820, Edward Hale was the secretary of his uncle Lord Amherst in India from 1823 to 1829 (the period when this letter was mailed to him there). The Deblois family were merchants in Boston who imported goods from England and India twice a year, and therefore would have been able to carry this letter by favour. The contents are full of political news and gossip of the day. A very fine and interesting letter.

An article in the October 1977 Maple Leaves reports that these were produced by the Peterborough Review Printing and Publishing Co. (Ltd.) to commemorate the inauguration of the Imperial Penny Postage and were inspired by the Mulready envelopes of 1840. R.B. Winmill in his book *The Evolution of the Penny Postage and The Postal History of the Canadian 1898 Map Stamp* states that "Unaddressed De 25 98 covers are at best philatelic, but more probably are outright fakes". We agree that the postmarks on these could be fakes, but there are a number of these exact same covers mailed (from Peterborough) to England or Ireland, and these just happen to have not been mailed. Nonetheless an interesting conversation piece which is accompanied by a contemporary descriptive insert in English and German. Very fine.

Militia, an 1849 Murray "1829" type postmark on folded letter to Montréal, some 5c Beaver covers from Picton, two 1843 Picton money letters, various other SFLs from Picton, an 1855 Rednersville LRD (receiver in red), a nice 1888 Pickering fancy cork (unlisted in Lacelle), an 1870 3c SQ on cover with Lacelle #803 (ERD) from Wellington, some cross border covers, some business corner cards, rate covers (for example 1c SQ printed circular, etc.). Also a #2 (3d blue perf. 9 with one side clipped) on cover to NS (USC \$2,000 on cover). Most of the covers are franked with #5, with many shades and perforations (noted some compound, etc.) as well as a variety of obliterations and town postmarks, all dated between 1865 and 1872. Also includes a 3c (#13) on 1873 cover to Wood Islands (with fine receiver). Worldwide Postal History and Postmarks

- 1350**  **Australia and States Extensive Collection of Town Postmarks on Stamp**, all neatly displayed (alphabetically, by State) and mostly identified in four 32-page stockbooks. We counted 37 covers and cards, plus the following number of different post offices, counted by the owner as: New South Wales (x307), Tasmania (x60), Queensland (x118), Western Australia (x84), South Australia (x166) for a total of about 965 different towns. Some of the towns have different postmarks (c.d.s., squared circle, etc.), and a number of towns are represented on different stamps (with many better issues), so the total number of stamps will be in the thousands. A much better than average collection for the quality of the postmarks, as most of them are fully dated and socked on the nose. The collection also includes some numeral, and other type of non-town postmarks, again of better than usual quality. See our many random photos online for a glimpse into this lovely collection which includes a lengthy hand-written inventory of all of the different towns in the collection.
