- 856 ** #B3-B4 1900 1p Brown Olive and 2d Emerald Boer War Semi Official Set, both mint never hinged, fresh and with sheet margins, extremely fine. Geoff Kellow's [italics] Victoria[italics] handbook indicates that the sales of these were poor due to the huge (3sh) cost for only 3d of franking value, and only 4,500 sets were sold (with considerably fewer now remaining in mint, let alone VF+ condition). This set is most certainly one of the nicest sets in existence. Scott value given is for hinged only, and a considerable premium for NH should be added.

- 1063** **Extensive Collection of Squared Circle Postmarks**, all very neatly displayed in a quality Elbe album with plastic inter-leaving and quadrille pages. This collection consists mainly of 3c Small Queens, but when one could not be located, another stamp was used to illustrate the postmark. The collection is arranged in the same order as the handbook, with a space (mount) available for every reported time mark or hammer, etc., and all provinces and types are represented. It is important to note that there is no duplication in this extensive collection, as the collector searched for the best possible example of every town time mark, indicia errors, colour postmarks and sometimes ERD. We counted 700 different stamps plus 10 covers or cards. The last part of the album depicts all of the proof strikes for the squared circle hammers. Quite a lovely collection which is sure to please the most discriminating collector, or have loads of useful material for dealers. The cover is addressed to A. C. Roessler at the American Consulate in Rome and the back of the cover has their handstamp dated JUN.23. A superb quality and rare cover as only 75 of these covers were mailed with the un-overprinted stamp (as opposed to 225 mailed with the overprinted stamp). It is interesting to note that some covers (such as this one) did not have cancelled stamps, as the flight was last minute and uncertain, and had it not flown, the owners could have redeemed the value of the uncanceled stamps. The Marchese Francesco de Pinedo reached Trepassey, Newfoundland, on May 20, 1927 in the course of his round the world flight aboard the Santa Maria II. On May 23 he took off on his attempt to fly to Rome via the Azores. Accompanied by a 1962 Bolaffi certificate, plus three expert signatures on front of the cover. The accumulation also includes a selection of revenue stamps on loose album pages, glassines and on piece (we note Bill stamps and Ontario Law stamps). The collection also includes mint hinged back of the book Airmails, Special Delivery and Registration stamps, along with a small selection of Provinces (not counted for catalogue value). Spot check on mint stamps revealed mostly no gum on mint stamps up to the end of the Québec issues, and mint hinged from Admirals up to the Peace issues. A closer inspection could find more mint never hinged stamps. Catalogue value is for stamps up to 1951 only, with the collection continuing up to the Cameo issues with mint singles and a few plate blocks. A useful collection that is overall fine to very fine.

1341 ☉/** **Large Mostly Mint Collection, 1953 to 2007**, consisting of singles, plate blocks, booklets, souvenir sheets, all neatly displayed on quadrille pages, housed in 15 thick binders and one stockbook. Each issue is displayed with either a plate block, booklet or souvenir sheet, and paired with a used or mint single. Appears to be complete in period, with some light duplication. We noted different inscription plate numbers and booklet varieties. Includes many high value definitives, and better such as a #BK265 (NHL All Stars), #BK251A (Vancouver 2010), sheet of # 1991C-1991D (Canada-Alaska Cruise) and more. Face value does not include hundreds of stamps under 17¢. Also included are a few complete sheets and a 1995 sealed annual collection (\$30 face value). 1342 ☉/*/** **Highly Documented Collection of Mint and Used Stamps, from 1890s to 2003**, housed in 25 thick binders, consisting of complete sheets, souvenir sheets, booklets, blocks, plate blocks, and singles, in mounts, on home made pages, noting a few better stamps such as used #60. The earlier issues are for the most part used with the odd exception such as 2c Jubilee (mint block of 4), but becoming increasingly mint and never hinged from the late 1940s onwards. The collection features specially prepared pages with in-depth description for each issue, accompanied by many color photocopies (see scan for an example). We noted some tagging and perforation varieties, as well as some better such as #226 (50c Victoria Parliament) and 227 (\$1 Champlain Statue) in mint never hinged singles, #271 matched set of mint plate blocks (20c, Pl 2, Peace Issue), 272 LL mint plate block (50c, Pl 1 Peace Issue), and more. The face value was carefully counted by the owner and adds up to \$1,865. During our cursory look, we detected a faint odor of tobacco. A great collection to build on, and the online photo shows a representative page from the collection.

The lot also includes some earlier blocks and plate blocks from the 1927 issues on to the 1950s. Many booklets also included, from KGV to Centennial, again with a few better, as well as a box of mint stock in envelopes, from #275 to 533, a stack of Canada Post souvenir folders, a group of used cheques, used blocks, a collection of Federal Duck stamp booklets (complete 1985-1999, c.v. \$400), and more. We conservatively counted the face value (items 25c and higher only) at \$1,180. A few of the older mint blocks have small faults, otherwise a mostly very fine lot, worth a close look, as this is a better than average lot.

1344 ☉/*/☒ **Collection of Mostly Used Canada and BNA, 1859 to 2021**, consisting of thousands of stamps mostly hinged in two luxurious ledger books, with an impressive level of completion for basic issues including many dated postmarks and some souvenir sheets with c.t.o. cancels, still hard to gather in this breadth. Canada starts with Scott #4, then a basic set of Cents (no #16) followed by Large Queens (basic set plus shades, and we noted a 1c watermarked with a full E), then Small Queens (x124) with many shades, a few fancy cancels and some perforation varieties noted by the owner. Jubilees run through the 50c and then it is complete through the Québécois and Edwards. The Admirals include some shades; we noted a silver-black 50c. A fine Bluenose is there along with definitive issues through the \$1 and very few gaps into the late 1960s. There is also a scattering of mint issues, mostly in black mounts along with a few covers here and there. The BNA includes PEI (x12), British Columbia (x1), Nova Scotia (x8, including #2, the 3d with four margins, c.v. \$150), New Brunswick (x6) and Newfoundland (x66) with a good mix of mint and used including a MNH set of Postage Dues). We noted that some varieties were identified by the owner. Condition is generally very good to fine in the early issues and fine or better from the 1940s onwards. This collection would fill gaps for many collectors or prove useful to dealers or resellers. Our online photos only show the earlier material plus some back of the book and the BNA, along with a few pages of the more modern material of the past decade. Best viewed in person to appreciate the breadth of the contents.

1345 */** **Group of Over 150 Mint Souvenir Sheets, a "Write Me, Ring Me" Card Set, and a Canada-Alaska Cruise Sheet**, among other interesting items including a 2001 Series 2 All-Stars NHL stamp card set plus 2 booklets and a FDC of personal postage commemorating Snelling Paper's 100th anniversary. The souvenir sheets have face value of \$514, with strength in the 45c to 57c era, along with other denominations to \$2 and over 130 "P" stamps, and some duplication. Another \$15 in face value is included in loose stamps. The "Write Me, Ring Me" is a complete set of four unopened packs containing the stamps and phone cards (Unitrade c.v. \$200). The Canada-Alaska Cruise sheet catalogues \$100. Also includes 34 Wildlife Habitat and Fishing stamps (van Dam over \$600 total) in booklets on black stock sheets, with federal and provincial issues from the 1990s. This very clean and very fine group of items would be attractive to collectors, dealers or postage users or resellers. Our online photos provide a glimpse of the contents.

1346 ***/** Collection of Mint Stamps, 1953 to 2013**, with thousands of stamps on more than 100 black Vario-style double-sided (mostly filled both sides) stock sheets. There is substantial completion in the period, including in many cases se-tenant blocks and strips, coil pairs or strips, some complete booklets or booklet panes, and some souvenir sheets. The last decade or so is populated by die-cut stamps likely taken from quarterly packs or annual collections. There is a full set of 17 Millennium miniature panes and other owner-identified, Unitrade-listed varieties. We noted the inclusion of a block of four of 730iv (imperforate coil with no score line, Unitrade c.v. \$150) and a single of each of the unissued Christmas stamps 1534ii and 1535ii (c.v. \$800). Our observation showed that most stamps were hinged through 1970 and most were never hinged from the 1970s onwards. The high face value of the modern issues would be great for the postage user or reseller in addition to the collector looking to fill gaps. Our photos of this very clean and fine or better lot provide a mere glimpse at the contents, though viewing is recommended.

The collection is then essentially complete mint to the end (noting only 6 used stamps), with all coils present in pairs, and we note that the mint stamps are all NH (incl. the Small Queens) except for some exceptions which are noted on the pages. Jubilees are complete mint to the \$1 and also includes a used \$2. The rest of the collection is essentially complete mint for basic issues from the QV Leaf and on (noted about 4 missing lower value stamps in the 1940s). The back of the book section includes complete mint Airmails and Special Delivery, mint and used Registration issues to the 8c, as well as a selection of mint coil singles and pairs, from the Admirals to the War issue, and there is a scattering of Provinces issues at the end. The early mint issues are either without gum or hinged (incl. some with heavy hinging), then becomes a mix of mint hinged and never hinged from the Admirals to the 1950s, then mostly NH to the end. Some early mint issues have small hinge thins, else overall a fine to very fine collection with a very high catalogue value, should easily be worth out estimate. There appears to be a high level of completion, with the later years largely populated by die-cut stamps, likely from quarterly packs or annual collections. Advance viewers might expect to find some varieties. In addition, we saw more than 20 Federal Wildlife Habitat stamps in their original booklets in the range of 1986 to 2009, with a few years missing and some duplication. 1520 **☉/*/** Various Parallel Mint and Used Collections of Various Caribbean Countries**, to about 1975, in 9 albums. This collection includes, in order of importance, Bermuda, St Lucia, Grenada, Jamaica and Trinidad and Tobago. The Bermuda collection is the most extensive and the one with the most developed Victoria era section. Among the many better items, we noted Scott mint 18-26, with 25a, (c.v. \$246), 55-69 (c.v. \$142) and a nice section of George VI Keytypes including 3 different mint pound values (total c.v. \$892). St Lucia really starts with the Edward VII period and goes longest, to 1997. In addition to mint and used sets, it features a large number of "specimen" overprinted sets from 1983 on. Grenada is strongest in the early issues such as mint #s 39-48 (c.v. \$140) and 91-112 (c.v. \$147). Owner's identification of early issues and varieties has not been checked by us. Faults noted in early material, otherwise, fine to very fine.

1562 ☉/* **Mint and Used Collection on Home Made Pages in a Springback Album, 1852-1972**, starts off with a selection of 16 used Céres or Napoléon perforated and imperforate issues (some have faults), followed by nice basic used sets of Peace and Commerce, Blanc, Mouchon, Rights of Man, Sowers, and so on up to the 1930s, where some of the sets start to be missing stamps. We estimate the collection from the 1930s to the end to be about 50 to 60% complete, with many complete sets, and a mix of mint and used. We noted only a few back of the book issues, and no souvenir sheets. Overall fine to very fine.

Also present are some better mint never hinged stamps, such as 22, 138-42, 624, B249-54, B276-81, B285-90, B294-99, C7, C8-11, C22, C23-27, C29-32, J80-92, J93-97, etc. As well as these listed stamps, the collection contains a quite complete run to 1999, including back of the book issues, and is lacking 3 early souvenir sheets. From 1939-1999, all of the issues checked are NH. There are also 120 used stamps from 1849 to 1930 which would add considerably to the catalogue value given, which is for the mint stamps only. A lovely collection, overall fine to very fine. We have 50 photos on our website for those who cannot make it in to view.

1567 ☉/* **Collection and Accumulation of 280 Used Céres and Napoléon Classics**, on 8 stock pages. The collection starts with France #3 and goes to #63. It includes multiple copies of most stamps in that range. One Bordeaux 40c stamp (Scott 47 c.v. \$425) is mint hinged and signed by expert Calves. Three other items from the Bordeaux issue are shown on our first scan: one 30c with a spectacular pre-printing paper fold, a black-brown copy of 43a (c.v. \$200) and a very fresh on-paper single of 43 (c.v. \$550). We catalogued the whole lot as the least expensive of the varieties, for each catalogue number and came to a total of \$13,250. True value will be considerably above that number since lots of paper and shades varieties are present and some cancels are worth a premium. No value was assigned to the 5 essays for Sc #6, which usually retail in the \$50-\$100 range each. The collection also includes a used 5fr Napoléon, which appears to be rebacked, etc. (not counted in c.v.). Condition is generally fine to very fine, though small faults are present here and there. The complete lot is shown on our scans.

1575 ◎ **Valuable Used Collection to 1960 on Stock Pages**, in one large binder. Starting with a pen cancelled Scott 12 (c.v. \$165) the collection shows a high completion rate for regular and semi-postal stamps and also includes other back-of-the-book issues. We also noted 14 (c.v. \$110), B23-7 (c.v. \$151), B49-57 with 55a instead of 55 (c.v. \$287), B310-3 (c.v. \$130) and B320-3 (c.v. \$110). In fact most of the semi-postals from the post-war period to 1960 are present. Up to 1995, in certain years only, one of the 3 copies is cancelled to order, from 1995 to 1999 all copies are mint never hinged. However, the number of copies, both mint and used is often higher up to 1985. In addition a group of about 90 automatic dispenser stamps of various values to 3DM is also included. There is duplication among these collections, which are also on loose quadrille pages and in about 75 Vario-style black stock sheets (this latter group with a faint odor of tobacco). There is duplication in the modern material and we noted some faulty in the early stamps. Overall fine or better, this lot would be a great entry into to this very popular collecting area. 1611 ◎ **Valuable Collection/Accumulation of Victorian Era Stamps, 1847-1900**, ranging from Scott #5/126, housed in over 500 black 2-row stock cards, (along with roughly 15 102 cards). We note better items such as Scott #s: 28 (strip of 4 c.v. \$1,200); 40 (c.v. \$400); 55 (x5 c.v. \$200 each); 57 (c.v. \$600); 108 (x6 c.v. \$250 each). We noted a wide array of postmark types (including numeral, parcels, but also saw some c.d.s.) and about 30% of the stock cards have owner's notes which include plating information, shades, paper types and cancel information. A good lot for Great Britain collectors, postmark collectors, and dealers looking for stock. Stamps are generally in fine or better condition. Online pictures show an overview, plus a small representation of this lot, so we recommend in-person viewing for better appreciation, as we assume there will be some interesting finds. Includes a complete inventory (scanned online), showing Scott catalogue numbers, values and quantities. Catalogue value is for the least expensive shade, paper, postmark or variety.

The stockbook of Egypt is an accumulation of many hundreds of used which appear to be the owner's duplicates. The lot continues with a binder of few hundred mint and used Iran, ranging from 1903 to 1974, of note, Scott #448-463 (c.v. \$35), along with a few hundred mint and used Iraq ranging from 1954-1963. Rounding out the lot is a mixture of mint and used (includes souvenir sheets with C.T.O.) from Saudi Arabia, Bahrain, Qatar, Kuwait, Oman, Fujaira and Ajman State to name a few. An interesting lot that could be beneficial to a specialist and has topical possibilities. Online photos show a representative sample. Overall, fine.

- 1654** ©/* **Mint and Used Netherlands Collection on Quadrille Pages in Three Springback Albums, 1852-1996**, a comprehensive collection which is a mix of mint and used up to about the 1960s, then becomes mint to the end. The collection abounds with items not listed in Scott such as shades, perforations or printings, so we have counted all those as least expensive in Scott. There are a lot of extra items, such as a good number of sheetlets mounted beside the issued stamps, a few WWII era covers, some booklets, coil pairs, etc. We estimate the collection to be complete in range except for a very few missing items. A few of the better mint items we came across include #s 33 (\$900), 52 (\$200), 53 (\$400), 54 (\$700), 74 (\$150), 100 (\$225), C13-14 (\$250), used #133 (\$200) and many more. The back of the book is equally strong but not as complete, and has a good number of Postage Due types, etc. Overall nice quality, although the hinging tends to be on the strong side. See our many photos online for a good idea, better yet plan on seeing it in person before the sale. Catalogue value is for all items only up to 1960 and does not include 1961 to 1996 which appears to be complete.

- 1728 ☉ Accumulation of Canada and Worldwide Private Perfins,** consisting of thousands of private perfin stamps in several envelopes and glassines. We estimate two thirds of the accumulation to be Canada (completely unsorted, ranging from Admirals to Queen Elizabeth II), along with unsorted USA and Great Britain private perfins (primarily ranging from the 1930s onward). This lot also includes a small glassine of perfins from other various countries. We note many different patterns but would expect heavy duplication of stamps with an accumulation of this size. An interesting lot, perfect for the perfin specialist. Overall fine, online photos show an overview of this old time lot.

- 1729 ☉ Accumulation of Worldwide Used Duplicates in 33 Binders,** containing tens of thousands of used stamps jammed into stock pages. We note individual binders for countries such as: Argentina, Australia, Austria, Belgium, Czechoslovakia, Germany, Great Britain, Greece, France, Hungary, India, Ireland, Italy, Poland, Portugal, Romania, Switzerland, Sweden, Spain, along with binders containing countries from A to S. Stamps primarily range from 1900 to the 1970s, however we noted some stamps that are pre-1900 for some countries, and seemingly unpicked for postmarks, varieties, etc. The lot also includes a two drawer wooden box of used Canada in glassines organized by Scott number (primarily ranging from #170/850). Duplication is up to 100 in some cases. Scans only show a small representation of this lot, and we recommend in-person viewing to better appreciate this fine lot.

- 1735 ☉/** Mint and Used Dealer Stock in 7 Red Boxes,** on about 4,000 to 5,000 102 cards, all identified by Scott number and priced according to very old catalogue values. This is a very diversified stock of mostly European items but also including stamps from Asia, Africa and Central America. No Canada, USA or British Commonwealth. Most items are priced below \$5 but prices shown are very much outdated. We noted China Scott C59 (c.v. \$150) and Finland 7a (faults c.v. \$300). 1748 */** **Worldwide Massive Dealer's Stock Featuring British Commonwealth and Selected Countries**, all displayed on thousands of Vario-style sheets inserted in clear sheet holders filling 17 binders, with each stamp or set identified as per Scott number and retail asking price. This stock had been made accessible to customers in Tarifold displays in the retired dealer's shop. While some sheet holders are dusty, the Vario sheets and the stamps inside have all been well protected. The majority of the stock is mainly comprised of mint never hinged new issues ranging from the 1960s to the 1990s with occasional earlier and later items. The stocks includes many souvenir sheets, sheetlets and booklets. Some of the earlier material is mint hinged and we saw only a very few used items. Most items are priced in the range of \$5 to \$30 with some under \$1 with only a few items over \$100. There is extensive duplication of the new issues material but generally not exceeding eight copies. Among the Commonwealth countries, we noted Great Britain, Isle of Man, Jersey, Papua New Guinea, St. Vincent, Malta, Singapore, among others. Well represented European countries include Austria and the Soviet Union. The listed prices were obviously based on older catalogue values, and for some, the prices exceed current catalogue values. A diversified and clean lot that will appeal to dealers and resellers as there are loads of topicals and other useful material. We recommend in-person viewing as online scans show a representation of this lot. Very fine and fresh throughout.

1753 ☉/* **Large Worldwide Mint and Used Collection**, in 48x 2-inch Uni-Safe binders and one box. This unusual collection features hundreds of full and near-full pages from dozens of different countries. Among a large number of counties with a count of over 1,000 or even 2,000 stamps, we especially noted Japan which goes to about 2013 with much mint stamps and sheetlets from 2000 on, and Russia which goes to about 1993. Otherwise, most stamps are from the period between 1920 and the early 1980 with more than 90% used. The small box holds thousands of mostly off-paper stamps that were meant to be inserted in the albums. The collection is made up of pages from a variety of albums resulting both in some duplication and in a broader than usual offering. Quality varies but is generally fine to very fine. og original gum

⊙ used includes full range of postally used, cancelled-to-order, precancels.

XF extremely fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.

VF very fine a stamp in superior condition which is well-centered and without fault.

F-VF fine-very fine applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.

F fine stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.

VG very good equivalent to "average". Typically with poor centering, heavy cancellation or faults such as minor thins, light creases, etc.

✉ cover which here embraces stampless folded letters (SFL), envelopes, first day covers (FDC's), stationery envelopes, etc.

PC post card applies to picture postcards, postal cards, stationery cards, etc.

TERMS & CONDITIONS OF SALE

1. The property described in the sale catalogue (print and online versions) will be offered at public auction by Sparks Auctions Inc. (hereinafter "Sparks Auctions") on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, **the bidder acknowledges and agrees to all of these Terms and Conditions of Sale.**

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. **The purchase price payable by the buyer will be the sum of the hammer price and a commission equal to 17% of the hammer price** ("buyer's premium"), together with any tax which may be applicable. See "About Bidding" for more information about how bidding is conducted in Sparks Auctions' sales.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, **the auctioneer's decision shall be final.** Sparks Auctions will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Opening bids will be available on Stamp Auction Network and will be updated by that system.

4. Unless a bidder has established payment terms with Sparks Auctions prior to the sale, Sparks Auctions must receive payment in full before the lots will be delivered. Buyers not known to Sparks Auctions must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a **late payment charge of 2% per month.** All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are conducted in **Canadian Funds.** Payment may be made by e-transfer, bank draft, bank wire transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card. **There is a 2.5% convenience fee to process credit card payments.** Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks Auctions can purchase Canadian Funds at our bank (2.5% percent above the midmarket rate). Contact us if you require the exact amount owed in U.S. funds. Credit cards will be processed in Canadian Funds. **Buyers from Canada will be charged the taxes applicable in their home province.** Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See "Shipping Information" for Sparks Auctions' shipping policies. Buyers outside Canada are responsible for all customs duties applied by their home country.

6. **Until paid in full, all lots remain the property of Sparks Auctions on behalf of the seller.**

7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.

8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com and StampAuctionNetwork.com) there is a possibility of technical or other error. In that event **the auctioneer's decision will be final.** If discovered before the sale, corrections will be posted on www.sparks-auctions.com. These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.

9. **Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt.** All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason:**

- Lots containing ten or more items;
- Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- No lots illustrated in our printed catalogue or online may be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
- No lot shall be returned due to subsequent numerical grading unless the graded certificate describes faults not already described by us;
- It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and backflap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more

significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

f. If electronic media are included with a lot (for example, CD, DVD, USB device, etc.) we cannot take any responsibility for the contents or integrity of such media and the buyer assumes any and all risk associated with use of it, including any damage to electronic devices by such use.

10. All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted provided that the following conditions are met:

- Notice of this intent is given prior to finalizing the purchase.
- The purchase price of the lot is paid in full, including any expertizing fees.
- All lots to be sent out on extension must be paid in advance and submitted by Sparks, directly. Sparks will use one of the following expertizing services:
 - Vincent Graves Greene Foundation (Canada and BNA); or
 - BPA or RPSL (British Commonwealth); or
 - Philatelic Foundation or PSE (USA and territories); or
 - Another authority mutually agreeable to both parties.
- Extensions are granted for the reasonable period of time required by the expertizing authority;
- If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price including the expertization fee;
- If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.

11. Lots which include the notation '**Rsv.**' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.

12. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

Shipping Information

Please note that items will be shipped by the least expensive method below unless other arrangements are made between the buyer and Sparks Auctions in advance of shipping.

All shipping methods are subject to the current regulations and protocols of the shipping provider, which can change from time-to-time in response to various conditions outside the control of Sparks Auctions. To maximize shipping efficiency and minimize cost to the buyer, some lots may be shipped without multi-ring binders or other bulky housing mentioned in a lot description, or by combining the contents of multiple housings into fewer of them.

Within the National Capital Region:

- Normally, it is expected that local residents will arrange for pick-up from our office, by appointment only.
- Shipping can be arranged using the "Within Canada" methods described below, or by other means if specific arrangements are made between the buyer and Sparks Auctions.

Within Canada:

- Single or multiple lots that fit into one or more regular Canada Post Xpresspost labeled envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1,000 they will be shipped by Xpresspost with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
- Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by FedEx.

Valuation of Lots

Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2021 and 2022 Scott Catalogue Volumes 1A through 6B in US\$
2021 Scott Classic and US Specialized in US\$
2021/2022 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$

2021/2022 Stanley Gibbons 1840-1970 (SG), values in £
2007 or later Michel Catalogues of the World (Mi), values in €
2017/2022 The Canadian Revenue Stamp Catalogue by E.S.J. Van Dam in CAN\$
Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 6 volumes.

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value". Likewise, we will note "owner-identified" when there are varieties or other notations included in the consignment, even if we have not verified them.

"Estimates" ("Est.") are used when there are multiple factors to consider and to identify what we believe the lot might sell for when there is reasonable competition for it.

"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.
