The material is more or less sorted by denomination and is more or less mixed within each, noting some items described for papers, postmarks, plate inscriptions, perforations, printings, shades and more, with some notable used strips, blocks, etc. There are loads of early printings here (many more than usual) with $3 c$ copper reds and roses, 1c orange and red orange, 6c yellow brown, many early 10c shades, etc, as well as some better postmarks, including dated town cancels, fancy corks, etc. We highly recommend viewing this one in person in advance of the auction, to better appreciate all that is present, despite our usual good sampling of pictures online. $\beta$

The exhibit starts by showing used perforations, then papers, guide dots, rates (on covers), shades, printing errors then postmarks, and shows a little bit of everything from the half cent to the 50c values. Lots of valuable material here, with early shades, covers, better postmarks, re-entries, imprints, and more. Some stamps are dated, which helps in identification of the printing / shade. We note one page showing similarities between some of the the $3 c$ and $10 c$ shades. The exhibit is missing some stamps such as some 1c shades (we assume these to be in our "remainders" lot), still a great basis for the beginner to expand upon, or advanced collector to pick out good items, etc. All pages scanned online for your home-viewing comfort. 丹

- \#89-95 Extensive Collection of 1c to 50c King Edward VII Issues, all neatly displayed on 17 album pages with catalogue numbers and descriptions. This stunning collection starts with two picture postcards depicting the King, then includes the following values: 1c (12 diff.), 2c (11 diff. including different Types, re-entries, etc.), 2c imperforate ( 5 different items incl. plates \#s), 2c booklet pane (complete booklet pane with catalogue value of $\$ 1,200$, a single and three booklet pane re-entries), 5c (16 diff. including 5 re-entries), 7c (16 diff. including 3 re-entries), 10c (7 diff. incl. very nice c.d.s. examples), 20c (7 diff.) and 50c (2 diff.). Also includes a cover from a philatelist in Ottawa franked with an imperforate pair and a very nice patriotic private postcard franked with a 1c to the United States. A collection which took many years to assemble, especially as the collector tried to include as many nice c.d.s. or nice postmark examples, even on some of the high values. Nice quality throughout, and by far the nicest collection of this used issue we have seen. All pages scanned online.

This type of variety or flaw, similar to the "diagonal line in" varieties on the 7c red brown, has now been called "Vertical Band Flaws" by the BNAPS Admirals study group, and is still being actively researched by specialists in term of cause, plates and specific positions on plates. A lovely item for the Admiral specialist, as the presence of the flaw and the extended frameline could allow someone to finally confirm the specific plate from which the 2c green endwise coil was printed from.

- \#104-140 Impressive and Extensive Collection of Used Admiral Issues, all neatly displayed on 43 album pages, with descriptions and catalogue numbers, left intact by us except for the major re-entry 1c blue green which was lotted separately. The collection covers all issues, including the regular 1c to $\$ 1$ issues, plus coils, part imperforates, imperforates and surcharges (no War Tax). We note a great many better items, too many to list in detail here, but does include just about every Unitrade-listed shade, many unlisted shades, papers, printings, retouches, re-entries, booklet panes and singles, coils are present in pairs, including pasteup pairs and three Toronto experimental coil pairs, and more, with many quite valuable items. Also note an introductory King George V picture postcard and a 1925 Montreal Philatelic Exhibition card franked with a 1c orange. What really stands out in this collection, aside from its vast array of different stamps, is the quality, as the collector made an effort to obtain as many c.d.s. postmarked examples, with many socked on the nose and dated, including the coil pairs and booklet panes. A once in a lifetime opportunity to obtain such a substantial, researched and well presented used collection.

The collection is complete, and includes all the early thin papers, as well as retouched dies, shades, etc. In the later issues we saw ribbed papers, a fluorescent paper, gum varieties, as well as varieties J28ai, J37ii and J37iii. A very fine collection, not often seen this extensive and complete.

The collection consists of all basic issues, plus a large quantity of varieties, including wet and dry printings, shades, papers, and a few constant plate varieties such as J37ii and J37iii. It should be noted that the collector spent years choosing nice quality examples, usually with c.d.s. cancels, with many socked on the nose, which is a difficult feat in itself. Very fine throughout.

© \#08-105/08-248, etc. Valuable Collection of Used 5-Hole Perforated O.H.M.S. Official Stamps, neatly displayed on 14 album pages with catalogue numbers and descriptions. This collection was carefully assembled by an informed and knowledgeable collector over many years, from reliable sources. The Admirals are represented by 35 different stamps, including shades and wet / dry printings. The rest of the collection is only missing 9 items to be complete (at least as per the collector's album pages, not necessarily expensive items) and there is presence of back of the book in the form of 4 different Airmail and 2 different Special Delivery issues. When possible, the collector obtained c.d.s. examples, and attention was put towards obtaining high quality (only the 50c Bluenose has rough perforations on one side). By far the most complete collection of these we have handled, sure to please any collector or dealer. Centering varies, so we have catalogued the entire collection as fine-very fine overall, as there appears to be about half and half. It should be noted that we only catalogued those items which are listed in the 2022 Unitrade catalogue, but the collection includes another 32 stamps which the BNAPS Perfins Study Group has determined "not officially produced" (these denoted on pages as $N / C$ ). Shades were catalogued as regular listed items, all pages are scanned online. Sold as is.

- \#8-13, etc. Extensive Collection of Used Nova Scotia Cents Issues, neatly displayed on 8 album pages with catalogue numbers and descriptions. Includes a basic set, on both the white and the yellowish papers, plus a good number of shades and varieties, some unlisted in Unitrade but mostly constant in nature, as the owner has them identified by position number. We also note the presence of a few blocks of four on piece. The last page of the collection is an assemblage of 13 different issues, each with a socked on the nose "Halifax H" duplex canceller. Catalogue value of $\$ 975$ (in Scott) for regular shades only, with postmarks or varieties counted as regular items, does not do this collection justice. A very nice and extensive collection which took years to carefully assemble, overall fine to very fine.

Includes a basic set, plus a plethora of papers, shades, perforations, dies and varieties, and combinations thereof, some unlisted in Unitrade. We also note the presence of a 6d bisect tied to piece, with an accompanying letter from Billig \& Rich (New York) dated 1947, attesting to its authenticity (the piece is also signed Rich). Catalogue value is from Scott Specialized for only those items listed there, all others counted as regular stamps (two bisects were not counted). */** \#1-16, etc. Extensive Collection of Mint Prince Edward Island Issues, with Many Extras, a most comprehensive collection, neatly displayed on 18 album pages with catalogue numbers and descriptions. Left intact and offered as received, this collection includes all of the basic issued stamps, plus a plethora of extras such as shades, perforation changes, printing errors and flaws (with many constant, indicating from which position) and much more (there are no imperforates). Some items not listed in Unitrade are identified using S.G. or Lehr numbers or descriptions. For reference, a basic set of PEI comprises 16 stamps - this collection has a whopping 94 different mint stamps. The 4 different perforated 9 first issues all have original gum and a spot check of the rest of the collection revealed a mix of hinged and never hinged and nice quality throughout, with a great many well centered stamps. A very conservative catalogue value, using Scott for hinged only and shades only, counting all the varieties as regular stamps, comes to over \$9,800, which, if counted in Unitrade would be much higher because of all the NH and varieties. The collection continues with a set of 10 different 6d reprint die proofs as well as two very fine Bartlett letter heads, each with a different watermark. A once in a lifetime opportunity to acquire such a lovely and extensive collection. All pages scanned online.

Hamlin and Hamlin by the Postmaster General the Hon. Wilson S. Bissell, in 1893, who then gifted it to a family member in 1959. The proofs consist of the 1847 issues (reproduction \#s 3 and 4), the 1851s are a mix of perforated and imperforate designs, up to the 1893 issues, including the Columbians, Special Delivery, Postage Due, Carriers, Newspaper and all of the Officials. The book is accompanied by a letter (with corner card envelope (stamp missing)) from the Postmaster General (on his letter head) to the Hamlin boys' father explaining the gift. 1071
1842 Masonic Letter Written by James Fitzgibbon, regarding Masonic affairs, written to the Honourable R.B. Sullivan, datelined Kingston, 20 June, 1842, signed James FitzGibbon; FitzGibbon writes "Brother - May I request of you to place in the hands of Brother Dean, on or before the 6th July next, a Bill for $£ 50$ Sterling, to be remitted to London to pay the fees on the Warrant, and in part payment for the Jewels for the New Lodge. There are sixteen subscribers to the Petition: four pounds from each will be $£ 64$, currency, which is about the amount required to purchase a Bill for $£ 50$ sterling. As this charge will hereafter be defeated from the funds of the Lodge, each Brother will be reimbursed the sum now called for, and which may be considered as an advance. I remain fraternally yours, James FitzGibbon". Fitzgibbon, praised for achieving the surrender of 462 American officers and men at the Battle of Beaver Dams, and for his role in suppressing the Rebellion of 1837, was a prominent Freemason, serving as Deputy Provincial Grand Mater - the most senior office in Upper Canada - from 1822 to 1826. Laura Secord famously informed him of the planned American invasion in June, 1813, which allowed a combined force of British and Mohawk forces to repel the attack at the Battle of Beaver Dam. The addressee, Robert Baldwin Sullivan, served as Mayor of York and on Sir Francis Bond Head's Executive Council at the time of the Rebellion. A wonderful letter between two significant Upper Canadian figures.

Group of 5 Old Documents Written at Québec City, 1782 to 1803, four of these documents have embossed Revenue stampings, similar to the rare ones that are listed in the van Dam catalogue (page 92) but without the "America" at top (so they were stamped once they arrived in England). We note many values such as $6 p$, 1sh, 1sh6d and 3sh, one of the documents has four different embossed revenues), and two of the documents also have postmark handstamps (Half Penny and Three half Pence). The documents are legal in nature but still interesting to read and a nice glimpse into early Lower Canada. A sixth document is not dated, nor does it have revenues, but is a two page "Royal Belfast Ginger Ale (original formula)". File folds and other faults, as usual.

$\boxtimes / \odot$ Australia and States Extensive Collection of Town Postmarks on Stamp, all neatly displayed (alphabetically, by State) and mostly identified in four 32-page stockbooks. - Dealer Stock of Used Canada in 5 Red Boxes, consisting of thousands of 102 cards, organized and priced by Scott. The stock begins with a small representation of Victorian issues (a couple of Small Queens and some Leafs and Numerals), through the 1940s then with better representation from the 1950s onward to about 2015 with strength in definitives and Christmas issues, with a few commemoratives and many varieties identified by the owner. We note mostly single stamps with prices ranging between 20c-\$2 (Scott 2017 pricing), but also duplication of many and some priced higher, including 1990s and 2000s higher-value definitives. The 102 cards and red boxes are brand new as the dealer did not get the chance to put them to use. We noted about 200 new, unused 102 cards in the fifth box. Many more stamps are off paper in envelopes sorted and identified by issue and denomination, from Small Queens to Québecs. #### Abstract

1550 */** Accumulation of Mint and Never Hinged Canada, 1908-1992, consisting of a few thousand of stamps, sorted by Scott number into envelopes. A cursory check showed singles, pairs, blocks, and a few plate blocks, with the majority of material ranging from 1930 onward. Better items include Scott \#s: 122 ( x 4 , n.h., c.v. $\$ 860$ total), 157 ( $x 10$, n.h., c.v. $\$ 1,200$ ), 175 ( $x 20$, n.h., c.v. $\$ 1,900$ total, includes two plate blocks counted as singles), 226 (x9, n.h., c.v., $\$ 337$ total), 227 (x13, n.h. c.v. \$1,072 total), 245 (x16, n.h., c.v. \$1,760), E3 (x24, n.h., c.v. \$1,680). A spot check indicated the majority of stamps were never hinged, along with some mint hinged, and a few no gum, with an estimated total Scott catalogue value in excess of $\$ 10,000$. Online photos shows an overview, and recommend in-person to better appreciate the contents. A good opportunity for dealers to add to their stock. Overall fine to very fine.

The lot also includes a representation Airmails with Scott \#C1 plate block of 6 (m.h., c.v. \$100), C1 block of 4 (n.h., c.v. \$100), C2 (x7, 1 n.h., c.v. $\$ 360$ total), along with red Postage Dues, and a small selection of pre-cancels in roughly $20 \times 102$ cards. The lot also includes face value totals \$315 (10c and up only, the majority in the 17c to 36 c range). Duplication up to 20 in some cases. #### Abstract

** Large Lot Including Many Sealed Matched Sets of Corner Plate Blocks, includes a collection of sealed matching corner blocks from the mid-1980s with a face value of $\$ 462$. There are many other corner blocks from the late 1970s and 1980s, plus complete sheets (these tend to have small faults) and booklets from the same period. Also included is a sealed Millennium Collection. The stamps we counted are mostly in the 17 c to 52 c range with numerous high values. We have not calculated the stamps at less than 17c face, of which there are hundreds, including many 5 c corner blocks. Tobacco smell, else very fine.

** Large Offering of Canada Post New Issue Service Material, 1983 to 2014, plus additional stamps ranging back to the 5c period. The consignor was a long-time subscriber to Canada Post's Philatelic Service and the lot consists mostly of a plate block of four and a single of every issue in the period, plus numerous additional souvenir sheets and booklets. We have opened most of the mailers the material came in for the first time, and our face value above was calculated by adding up the invoices in the mailers. The over 200 ' $P$ '-stamps in this lot were added into the total using the values they were originally purchased at; the total face value would be considerably higher if their current value was considered. The total face value that was found in Philatelic Service mailers was $\$ 3,464$. For the remaining, older stamps, only the 17c and higher values were counted. Overall very fine.

1631 ** Lot of Mostly Blocks of Four, 17c to 38c Period, plus a few Annual Collections from 1979 to 1983. Also included are some miniature panes, souvenir sheets and booklets as well as plenty of singles. Our face value does not include the many stamps at less than 17c. Overall very fine.

** Group of Quarterly Packs, 2003 to 2014, including a few duplicated packs. Nine were opened; these we counted and the total reflects their contents. Most of the opened packs were missing a few stamps, but had additional duplicates added. Note; there will also be additional value because of the rising value of ' P ' stamps, as our total is based on the issue prices of ' $P$ ' stamps at the time. Outer packaging is generally in very good condition.
** Mint Never Hinged Postage Lot, 1970s-1990, consisting of many hundreds of plate blocks (many being matched sets), singles, and souvenir sheets. The vast majority of postage is in a binder with several Vario-style stock pages, containing plate blocks, ranging from the 1970s to 1990. We note better plate blocks including Unitrade \#936i matched set (c.v. \$120 total), 1084 matched set (c.v. $\$ 240$ total). Face value of the binder totaled $\$ 1,004$ (counting 10c and up, with the vast majority in the 30c to 39c range). The remainder of the lot consists of a stockbook, binder and loose material containing singles, plate blocks (some matched sets), and a few souvenir sheets with a face value totaled at $\$ 334$ (counting 10c and up). Clean and very fine.

1637 ** Large Lot of Complete Sheets, 1970s to the 1990s, including a number of miniature panes and souvenir sheets from the same period. This is a well cared-for group of sheets, essentially as purchased from Canada Post through their new issue service. We noted two sheets of 926A (Unitrade mint c.v. $\$ 800$ for both). The face value total for complete sheets is $\$ 6,364$. Also included are a number of matched corner blocks, some booklets as well as singles, etc. The Face value just in odds and ends is $\$ 294$. Not counted in the total are Wildlife Habitat Conservation Stamps from 1985 to 1991 (mint c.v. total $\$ 450$ ), a 1982 program for the Constitution Act and a couple of covers. Overall very fine.

These auction lots tend to start in the \$20 range of old catalogue value and are often comprised of sets, singles, part sets or small groupings of stamps from the same country/period. There are over 75 lots in this group, with 67 being British Commonwealth. The British Commonwealth has an old catalogue value of $\$ 4,979$ and the rest of the world, which is comprised mainly of European stamps, is at \$1,592; for an owner's total old catalogue value of \$6,571. There are a number of lots of old-time Iran which we did not count into the total. Great for the re-seller. Overall fine to very fine.

1716 •/*/** Selected British Commonwealth Country Collections from Classics to the 2000s, mostly on computer generated pages in three attractive binders. Included are collections of Australia, New Zealand plus Cayman Islands on older quadrille pages. The Cayman Islands is where most of the value is, and this collection includes some 5 shilling, 10 shilling and pound values of the definitive sets of George V , George VI and Elizabeth. The Caymans collection is mostly mint and we estimate to be half complete to the 1990s. The Australia collection we estimate to be about 70\% complete by album illustration from the first few issues until the early 1990s. The New Zealand collection is in it's early phases. Overall fine to very fine.

$1717 \odot / * / * *$ Collection / Accumulation of Mint and Used British Commonwealth, consisting of a few thousand stamps in two 64 page stockbooks. The first stockbook has a larger representation of issuing countries, with the second stockbook being roughly half full with a focus on India and area. The material has good selection of Victorian issues overall, but generally ranges from King Edward VII to King George VI. We note most of the issuing countries are represented, including British Guiana, Ceylon, India and area, Gold Coast, and Trinidad. A few highlights (using S.G. numbers and values) includes Bahamas \#31x (inverted watermark, unused,, c.v. £180, accompanied with a Sismondo 2004 certificate), St. Kitts \#23x (Specimen, m.h., c.v. $£ 55$ ), along with some stamps cataloguing $\$ 10$ and up in Scott. A good lot for the specialist with the potential for finds. A cursory check of the mint stamps indicated mostly light hinging with a few never hinged stamps. Online scans show a representation. Overall fine to very fine.

$\odot / *$ Mint and Used Collection, from Classics to the 1970s, on quadrille pages in three binders. This group includes better mint stamps, such as British Antarctic Territory \#s 1-15 (c.v. \$172), 24 (c.v. \$160), 39-42 (c.v. \$53) and 54-62 (c.v. \$71), Tonga \#s 48 (c.v. \$50), 73-81 (c.v. \$50) and more. Beyond B.A.T. and Tonga, other countries which are quite wellrepresented are Egypt, Ghana and Hong Kong as well as the Australian and Indian States. Included is a small envelope with various interesting cancels on GB stamps from Victorian to Elizabeth era, such as Belfast and Dublin. We also noted complete George V Silver Jubilee sets for a number of the colonies, including Hong Kong. Overall fine to very fine.

1720 ○/*/** British Guiana and Guyana Mint and Used Collection, 1860 to 1987, on older album pages in a binder, including many better issues such as \#s 83 (used c.v. \$90), many other Seal of the Colony issues, 168 (used c.v. \$90), 239a (used c.v. \$600), more. We noted numerous varieties. The British Guiana collection often features the mint as well as the used version of the same issue. The issues of Guyana are over $80 \%$ complete from 1966 to 1970, often with a used and mint example of each. There is also additional material tucked in throughout and at the end of the collection. Some of the better issues include \#s 5 (mint c.v. \$90), 21 (mint c.v. \$110), 46 (mint c.v. \$95) and many others. There is often a mint and a used example for the same issue, plus extra stamps stacked up to three deep in some of the mounts. There are also extra stamps in 102 cards which have yet to be added into the collection. Overall fine to very fine.

1722 •/* Collection of Mint and Used Brunei, 1907-1986, consisting of roughly 350 stamps in eight Vario-style pages, also containing some 2 and 3 -row dealer stock cards. The first four stock cards have mint issues from 1907-1977, with duplication up to 3 in some cases. The lot continues with a stock card of Scott \#54 mint block of 4 (c.v. \$160), along with three stock cards of mint and used stamps from 19491986. Spot check of mint stamps indicate the majority are mint hinged, with a few mint never hinged and lightly hinged. Catalogue value, along with identification notations, provided by owner. 1724 \#A1/109b Collection of Used Brunei, 1895-1973, consisting of about 100 hundred stamps (primarily used with only a few mint stamps), in stock cards and quadrille pages. The collection has a good run of early issues with Scott \#A1A8, 8, 11, 12, 13-38 (mint and used set, c.v. \$970), Malaya Borneo Exhibition 1922 (14b-37a used set, c.v. \$790), and continues with primarily used singles and sets up to 1973. Catalogue value, along with identification notations, provided by owner and are fairly current. We note some small faults, along with a tear in stamp \#A3 and a spot check of the few mint stamps indicate a mixture of mint hinged and no gum. All pages scanned online. Overall, fine to very fine.

(Cypress, California) for People's Republic of China regular issues (1949 to 1979) with spaces for varieties, early issues have spaces for issued stamps as well as reprints, souvenir sheets, etc. The second set is printed on heavy bond paper and prepared by Michael Rogers Inc. and has pages for PRC Provinces, with the same degree of completeness. The third is a single album printed by the N.C. Yang Stamps and Coins (Hong Kong) and covers PRC from 1949 to 1967, with sections for Commemoratives, Special Issues, Cultural Revolution Special Issues and Regular Issues. These auction lots tend to start in the $\$ 20$ range of old catalogue values and are often comprised of sets, singles, part sets or small groupings of stamps from the same country / period. The Germany portion is particularly intriguing with many stamps from the German Colonies, States and Offices Abroad, notably; China. This is a huge offering with over 360 lots in all, with an owner's old total catalogue value of $\$ 46,104$. Although there are many images included for this group, there are numerous high cataloguing lots not shown. It includes many Helvetias and early semi-postals. The Austria portion consists of a neatly annotated collection on quadrille pages beginning with classics plus additional material. The Liechtenstein material also comes in the form of a collection on older album pages with additional material. We estimate that Switzerland will be comprised of well over 5,000 stamps, along with several hundred each for Austria and Liechtenstein. Overall fine to very fine.

We noted numerous well-centered postmarks. We estimate the Netherlands, along with it's colonies, to total over 10,000 stamps. For the Belgium segment of this lot, there is a collection on quadrille pages as well as a collection on older album pages. We estimate there to be more than 2,000 stamps from Belgium, Belgian Congo and RuandaUrundi. Included also are some decent collections from the modern nations of Burundi, Democratic Republic of Congo, Indonesia and Rwanda. We estimate these modern countries to comprise over 2,000 stamps. The proportion of stamps from the various colonies, such as Mozambique and St Pierre \& Miquelon is quite high at, we estimate, $20 \%$ of the total number of stamps in the lot, with proportions varying: there are, for example, more stamps for the French Colonies than for France itself. We estimate the total number of each countries with their colonies to be as follows; France 3,000, Italy 1,000, Spain 6,000 and Portugal 2,000, for a grand total of over 12,000 stamps. ○/*/** New Zealand and Ross Dependency Mint and Used Collections, 1864 to 2007, on older album pages in three thick binders. The New Zealand collection we estimate to be over $80 \%$ complete in period by album illustration for regular issues. There is also a respectable back of the book section, particularly in the semi-postals, where many of the miniature panes are included. There are enough issues with both the mint and the used examples included to merit the characterization, 'dual collection'. Included also are hundreds of additional stamps in glassines and 102 cards tucked in here and there throughout the collection. The Ross Dependency portion is complete by album illustration from 1957 to 1982 and is mostly mint. Overall fine to very fine.

The collection is missing only a handful of stamps by album illustration, with just a few of the souvenir sheets never hinged. Of the c.d.s. stamps, only a few are roller or machine cancelled, the rest are true c.d.s. The collection has numerous extras, such as plenty of better shades listed in the Norgeskatalogen catalogue, as well as some blocks of four with neat central postmarks. $\odot / *$ Mint and Used Collection of Classics to About 1927, in 4 old brown Scott International albums (with pages up to about 1927). These four albums are somewhat worn on the outside, but their contents are well preserved. Spot checking the collection, we did not note any stuck-down mint stamps. These albums contain a few thousand stamps in total, with material from the original owner's time as well as material appropriate to the period of the albums added somewhat recently. We noted better material from Bavaria and Denmark, along with lower cataloguing, more exotic material from places like some of the French Colonies, Colombia and Nyassa. There are numerous loose stamps, stamps in glassines and 102 cards tucked in between the pages, yet to be mounted in place. Overall condition is fine, with the classics being in a little more mixed condition.

These albums have wear to the corners, jackets, etc., the stamps themselves are almost always neatly hinged in place. We spot checked the collection and did not note any mint stamps to be stuck-down. This large collection is strong in Western European countries, such as Austria, Belgium, France, Germany and Netherlands. The stand-out, however, might be French Africa, which is particularly well represented. We noted much in the way of Algeria, Dahomey, French Morocco, Mauritania and Tunisia. We estimate there to be more than 6,000 stamps in total. Overall fine to very fine.

The Papua New Guinea album runs from 1952 to 1988 with a good level of completion of never hinged sets in the period, usually missing only the highest denominations of sets. The two Singapore albums run from to 1948 to 1982 (this one has no stamps) and 1983 to 1993 (this one appears to be complete in the period and never hinged) plus a group of mint booklets. The Scandinavian album is sparsely filled but useful and the two stockbooks are full of "J to M" countries. The USA consists of several sheets (10c to 29c) and Celebrate the Century packets (32c x4 and 33c x10, with some duplication) and loose postage with face value of just over US\$115. The bags contain a range of worldwide countries (British Commonwealth, Russia, Germany, GB, Romania, Hungary, Vatican, etc.) with a lot of topical interest, and both mint and used, in complete mint booklets, 102 cards and loose in clear bags. We noted a few FDCs and commercial covers as well. Also included are three never-used, vintage Shaubek albums in slipcases. This clean lot would be a fun way to start a new collecting area, or fill gaps in an existing collection. Our online photos provide an overview, best viewed in advance to appreciate the contents.

This large collection was assembled with passion, where the collecting budget was clearly put into the stamps themselves, rather than the albums. The albums being a ragtag mix of Harris, Scott, Unitrade and Whitman and, for the most part appearing rather well-worn on the outside. These older albums have done their job in preserving the stamps, though, with spot testing showing no stamps with gum being stuck-down. This collection must have been assembled by a contrarian collector, as we noted the bulk of the material to be from more esoteric collecting areas, such as French Italian and Portuguese Colonies, Latin America and places like Azerbaijan and Tannu Tuva. There are fairly respectable individual collections for Chile, Ethiopia, Nicaragua and Russia, among others. Throughout the greater collection are things like stock pages, 102 cards and selection cards tucked in, some of which have never hinged stamps. We estimate there to be more than 15,000 stamps in all in this collection with a correspondingly respectable total catalogue value, this largely owing to the level of completion among certain countries in the classic period. ## Estimate \$100

Collection of Four Different Better Letter Scales, the first is a tiny hand-held one that comes in its own leather pouch, with a Canadian postage rates table. Then we have a Triner Air Mail Accuracy Scale (Chicago, with chrome weight) and the other two are older pendulum scales, one with a porcelain weight indicator, the other (a double pendulum called "bilateral") with two different weight indicators. All four are in good working order and in very fine condition (except for the tarnished brass parts). The lot also comes with a rubber registration rubber handstamp, as well as a perforating pin from the Lowe Martin Co. in Ottawa (with an explanation page.
.Estimate \$300

Antique Cast Iron and Brass Post Office Balance Counter Scale, circa late 1800s to early 1900s, featuring the Canada Post Office ("Canada P.O.") marking in relief on the base. The body is cast iron with one solid brass beam and iron sliding weight. One tray is made of cast iron while the other one is curved and made of copper, hinting that its primary function was to weigh newspapers. Scale is showing signs of wear, with what appears to be original paint, though missing in spots and with some oxidation. Great addition for the postal artifact collector, or to decorate a stamp den.

Estimate \$50

## og original gum

- used includes full range of postally used, cancelled-toorder, precancels.

XF extremely fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.

VF very fine a stamp in superior condition which is well-centered and without fault.

F-VF fine-very fine applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.

F fine stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.

VG very good equivalent to "average". Typically with poor centering, heavy cancellation or faults such as minor thins, light creases, etc.
$\triangle$ cover which here embraces stampless folded letters (SFL), envelopes, first day covers (FDC's), stationery envelopes, etc.

PC post card applies to picture postcards, postal cards, stationery cards, etc.

E/P essay, proof, die proof
F forgery
UL upper left usually used to describe the corner of a sheet, block or individual stamp. The abbreviations UR, LR and LL are used similarly.
c.d.s. circular date stamp postmark
I.h. lightly hinged
v.l.h. very lightly hinged
h.r. hinge remnant
perf. perforation used in the context of "short perfs" or a perforation measurement, such as "perf. $12.0 \times 11.5$ "

Est. estimate when there is no price guide for the item, this is our estimate of the final hammer price if there is average competition for the lot.

## TERMS \& CONDITIONS OF SALE

1. The property described in the sale catalogue (print and online versions) will be offered at public auction by Sparks Auctions Inc. (hereinafter "Sparks Auctions") on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of these Terms and Conditions of Sale.
2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price plus a commission equal to $17 \%$ of the hammer price ("buyer's premium"), together with any tax which may be applicable. See "About Bidding" for more information about how bidding is conducted in Sparks Auctions' sales.
3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks Auctions will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Opening bids will be available on Stamp Auction Network and will be updated by that system.
4. Unless a bidder has established payment terms with Sparks Auctions prior to the sale, Sparks Auctions must receive payment in full before the lots will be delivered. Buyers not known to Sparks Auctions must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of $\mathbf{2 \%}$ per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of $\$ 100.00$ will be charged for any cheque returned for insufficient funds.
5. All sales are conducted in Canadian Funds. Payment may be made by e-transfer, bank draft, bank wire transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card. There is a $2.5 \%$ fee to process credit card payments. Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks Auctions can purchase Canadian Funds at our bank ( $2.5 \%$ percent above the midmarket rate). The amount owed in U.S. funds will be noted on invoices.. Credit cards will be processed in Canadian Funds. Buyers from Canada will be charged the taxes applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See "Shipping Information" for Sparks Auctions' shipping policies. Buyers outside Canada are responsible for all customs duties applied by their home country.
6. Until paid in full, all lots remain the property of Sparks Auctions on behalf of the seller.
7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.
8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com and StampAuctionNetwork.com) there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on www.sparksauctions.com These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.
9. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:
a. Lots containing ten or more items;
b. Any lot described with "faults" or "defects" may not be returned
because of any fault or defect;
c. Lots illustrated in our printed catalogue or online may be returned
because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
d. Any lot that was viewed in advance of the auction by the buyer or his agent.
e. Any lot that receives subsequent numerical grading unless the graded certificate describes faults not already described by us;
e. It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and back flap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the
aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.
f. If electronic media are included with a lot (for example: CD, DVD, USB device, etc.) we cannot take any responsibility for the contents or integrity of such media and the buyer assumes all risk associated with use of it, including any damage to electronic devices by such use.
10. All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted provided that the following conditions are met:
a. Notice of this intent is given prior to finalizing the purchase.
b. The purchase price of the lot is paid in full, including any expertizing fees.
c. All lots to be sent out on extension must be paid in advance and submitted by Sparks, directly. Sparks will use one of the following expertizing services:
i. Vincent Graves Greene Foundation (Canada and BNA); or
ii. BPA or RPSL (British Commonwealth); or
iii. Philatelic Foundation or PSE (USA and territories); or
iv. Another authority mutually agreeable to both parties.
d. Extensions are granted for the reasonable period of time required by the expertising authority;
e. If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price including the expertization fee;
f. If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.
11. Lots which include the notation 'Rsv.' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.
12. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

## Shipping Information

Please note that items will be shipped by the least expensive method below unless other arrangements are made between the buyer and Sparks Auctions in advance of shipping. Insurance on shipped items is the responsibility of the buyer entirely.

All shipping methods are subject to the current regulations and protocols of the shipping provider, which can change from time-to-time in response to various conditions outside the control of Sparks Auctions. To maximize shipping efficiency and minimize cost to the buyer, some lots may be shipped without multi-ring binders or other bulky housing mentioned in a lot description, or by combining the contents of multiple housings into fewer of them.

Within the National Capital Region:
a) Normally, it is expected that local residents will arrange for pick-up from our office, by appointment only.
b) Shipping can be arranged using the "Within Canada" methods described below, or by other means if specific arrangements are made between the buyer and Sparks Auctions.

Within Canada:
a) Single or multiple lots that fit into one or more regular Canada Post

Xpresspost labeled envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of $\$ 1,000$ they will be shipped by Xpresspost with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:
a) Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
b) Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

## Overseas:

a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees. b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by FedEx

## About Bidding

Bidding in a Sparks Auction takes place in accordance with our Terms and Conditions and can happen in several ways:

## 1. Advance Bidding

We accept bids in time-honoured traditions before the auction starts: a. by printed bidsheet (included with the print catalogue and also available for download from our site). If you use mail to send us a bidsheet, please call at least the day before the sale begins to confirm that we have received it.
b. you can fax a printed bidsheet (included with the print catalogue and also available for download from our site) to 613-567-2972.
c. you can call our office at 613-567-3336 or use our North American tollfree number: 844-252-2032.
d. you can email bids to info@sparks-auctions.com Simply provide the lot number and your maximum bid in Canadian dollars.

Please use the following bidding increments:

| $\$ 10-\$ 200$ | $\$ 10$ | $\$ 7000-\$ 15,000$ | $\$ 500$ |
| :--- | :--- | :--- | :--- |
| $\$ 200-\$ 800$ | $\$ 25$ | $\$ 15,000-\$ 30,000$ | $\$ 1,000$ |
| $\$ 800-\$ 1500$ | $\$ 50$ | $\$ 30,000-\$ 100,000$ | $\$ 2,000$ |
| $\$ 1500-\$ 3000$ | $\$ 100$ | $\$ 100,000-\$ 500,000$ | $\$ 5,000$ |
| $\$ 3000-\$ 7000$ | $\$ 200$ | above $\$ 500,000$ | $\$ 10,000$ |

All bids not conforming to these increments will be rounded down to the previous increment. If two identical bids are received for a particular lot, the bid received earliest will prevail, regardless of how the bid was received.

## 2. Telephone Bidding

We can arrange for participation via telephone. Phone bidding must be arranged at least one day in advance so we can assign someone to call you at the appropriate time. Often, phone bidding is best for more expensive items. If phone bidding is not convenient for you, we encourage bidders to engage an agent, or to bid live via Stamp Auction Network to be sure bids are executed in the way they would like. See below for more information about live bidding or contact us for more information at 613-567-3336.

Sparks Auctions reserves the right to refuse telephone bidding at any time. Sparks Auctions will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service.

## 3. Auction Agents

Having an agent act for you is another way to ensure your bidding intentions are well represented if you cannot participate in person or by bidding live via Stamp Auction Network. Auction agents can view material, when public viewing is an option. The following agents are knowledgeable, experienced auction buyers known to Sparks Auctions and familiar with our sales. Please contact one of them, or your own existing agent directly to make arrangements suitable to both parties. Sparks Auctions is not responsible for a bidder's relationship with any agent. Agents: please contact our office at least two days before the start of a sale to make arrangements for your clients to be billed and to have their winnings shipped.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 6 volumes.

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value". Likewise, we will note "owner-identified" when there are varieties or other notations included in the consignment, even if we have not verified them.
"Estimates" ("Est.") are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.
"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.

We note a number of sets and souvenir sheets cataloguing at $\$ 10$ and higher. A very clean and fresh collection. Online scans show a representation. Very fine.

[^5]:    Valuation of Lots

    Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

    When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled $X$ under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

    The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.
    2022 and 2023 Scott Catalogue Volumes 1A through 6B in US\$
    2022 and 2023 Scott Classic and US Specialized in US\$
