Lots & Collections

Welcome to our General Sale #47, our fourth auction of 2023, with one more to look forward to in the Fall.

Here at Sparks Auctions consignments come in almost daily. We recommend that you contact us early if you have material to sell, so that it can be included in our next available, well-publicized sale. Our April 4-6 sale #46 resulted in 382 different buyers from all over the world.

This sale has our usual wide range of material, with quality Canada and provinces, British Commonwealth and worldwide singles, sets and collections, including a lovely and fresh British Commonwealth collection which has not seen the light of day since it was safely put away at the beginning of World War II.

Don't forget to have a close look at our over 400 lots of postal history offerings, including part one of the extensive David Hobden and Michael Rixon pre-Confederation Upper Canada postal history collection and part one of the Gordon Richardson early Manitoba postal history collection. We also offer many airmail, first flight and airship covers, plus useful postal history from a wide variety of worldwide countries.

We are proud to continue our long-standing tradition of showing photos or scans of every single lot, so you know what you are buying, should you not be able to do pre-sale viewing in person. Our sales average 10,000 to 12,000 high quality pictures, which can all be seen in full colour on StampAuctionNetwork.com

As usual, this sale will be conducted live on StampAuctionNetwork.com, also with a live floor, via telephone and other traditional bidding methods. A reminder that our buyer's fee is still at an industry-low 17%, and that all transactions are in Canadian dollars.

Enjoy the sale!

- 575** **PC Group of Three Canadian Airplane Picture Postcards**, first card has caption "McCurdy's Silver Dart, Flying over Baddeck Harbour, February 23rd, 1909". Picture of the airplane in flight. This is an original post card. On the reverse, the manuscript message "What do you think of this air ship" and is addressed to South Wales (England) but has no stamp so it was probably sent in an envelope. The flight took place in Baddeck Harbour, Nova Scotia, and the plane flew close to 1½ kilometres at 65 km/hour at an altitude of 9 metres, and was the first flight in Canada and the British Empire. The pilot was John A.D. McCurdy; second card old photographs of the Silver Dart and on the reverse an ink cachet "Canada Airmail. Commemorating first flight by Aeroplane in Canada 23 February 1909 "Silver Dart" pilot J.A.D. McCurdy. Distance flown: half-mile. Cachet sponsored by International Airmail Society". Postmarked "Baddeck, N.S. 23.FEB.1934" and signed on reverse by pilot John A.D. McCurdy (1886-1961); third real photo card with caption "Frank Coffyn's Aeroplane - the first to fly in Winnipeg". Shows an original photograph of the plane on the ground (Lyal Commercial Photo Co. Winnipeg, Manitoba). On the reverse a manuscript message dated August 30th 1911 and a Winnipeg August 31, 1911 postmark. Frank Coffyn, an American barnstomer, appeared in Winnipeg with his Wright biplane for an exhibition from July 15 to 20th, 1911. He carried the first air passenger in Western Canada. A very fine group. Also comes with a first flight cover for the Vancouver to Québec City Frank Hawkes flight (one of the first cross-country airmail flights), signed by the pilot and catalogued in the AMCN2 as no. 3343 (\$350).

He is buried in the Schoonselhof cemetery (near Antwerp) in Belgium. In her letter, his mother writes to her son that his letters of July 20th and 21st were received by the family. She continues: "They tell us all the Canadian casualties from France are being rushed to Canada so if anything should happen to you (which I hope it won't) then you might get home sooner too...[...] Well darling there is no news here and I just live for your letters so write when ever you can. The radio gives good reports so I hope it will soon be over." Soldier Jack Lovell was probably killed during the battle of the « crête de Verrières », near Caen. The Essex Scottish Regiment, formed in Windsor (Ontario), played an important role in this battle which lasted from July 18 to 21, 1944. It suffered 300 casualties, either dead or wounded. Lyon, while 4 were on the New York-Haiti flight only and one was flown only on the return flight (and could have been on the first leg also). Of the round-trip group, 4 covers are signed by both Boyd and Lyon, one is unsigned but franked with the rare Haiti C4A overprinted stamp (c.v. for used \$80) and one unsigned cover is franked with the Citadel stamp with the rare (fewer than a dozen known) unauthorized flight overprint (unlisted in Scott). Of the 4 New York-Haiti flight covers, one is signed by both pilots, and 3 are signed by Boyd (of which 2 have the rare Globe cachet). The Haiti-New York cover is unsigned. Covers have various backstamps. The collection also includes a press photograph of Boyd and photocopies of numerous articles published in Airpost Journal. A nice study collection to further expand upon.

J. Erroll Boyd (1891-1960), nicknamed the 'Lindbergh of Canada' was the first Canadian pilot to cross the Atlantic. He did so in October 1930 with navigator Harry P. Connor on the same Bellanca plane. The New York-Haiti flight again in the same airplane was with co-pilot Robert G. Lyon (died in 1940) and a passenger. The Bellanca, built in 1925, had already crossed the Atlantic with Boyd but also with Charles Chamberlin in 1927. .

The owner of this material thought it would become a collection or an exhibit over time, but changed his collecting focus; now it's someone else's turn with the material. The contents include a single with a 1-bar tagged error (Bileski note included, showing his \$100 selling price) and both philatelic and commercial covers with regular issued stamps and varieties and interesting ephemera related to the issue, including maximum cards, advertising posters and Post Office Department marketing materials. We saw a Schering cover and one with the first day of a postal code being incorporated into a canceling device. Also included are lists of the profuse varieties that have been found since the 1972 issue date, and articles from The Canadian Philatelist, the BNAPS Elizabethan II Study Group and contemporary newspaper clippings. We noted several better items including a Bluenose with Sun Life, higher denomination Admirals, a good number of Jubilees and commemoratives from the 1920s to 1970s. We saw perfins from the Ontario Legislative Assembly and the Province of Saskatchewan and companies such as Bank of Montreal, Sun Life, Bell Telephone, Various versions of both CNR and CPR, and WJG, along with the CBC, as well as various positions of the same perfins. Also included are several Provincial Law issues (Quebec, Alberta, Saskatchewan, Ontario) and a page-and-a-half of First and Second Postal Note / Postal Scrip issues along with War Savings, Unemployment, Playing Cards and Tobacco / Cigarette and Telegraph items. There is duplication (x10 or more) of some of the most common material and some can only be considered to be space fillers at best (three Québec Prohibition stamps in particular) though a collector will find items to fill gaps and online resellers will be able to list some right away. The 1983 labels came in 12- and 25-packs and multiples of both are included along with open packages still in their attached strips. Identified varieties on the stock sheet include "Double Berries", "Low Berries", and "Flat Leaf." The 1984 labels are in original packages of 12 and loose and there is one single label proof on the black stock sheet; these were sold by Bileski for \$50 each. The covers are all privately-prepared, either commercial or philatelic, as no Canada Post products were made available. We did not check for first days or last-day-of-sale postmarks, nor for the various paper fluorescence that exist on the 1983 labels. These issues were the precursors to the discount Christmas card postage of the 1980s and 1990s, and are an interesting back-of-the-book sideline to collect and study. - 1327** * **#46/252 Old Time Collection of Mint Straits Settlements, 1892-1938**, a lovely collection displaying rich and vibrant colours not often seen in these issues. The collection consists of roughly 170 stamps (including a few used and never hinged), on hand written old style quadrille pages. The collection begins with a small selection of mint and used Victorian issues, with primarily mint onward. A few of the highlights include Scott #s: 93/103 (#103 n.h., c.v. \$251 total), 105-108 (c.v. \$86 total), 109/134 (c.v. \$585 total), 179/201 (#201 n.h., c.v. \$215 total), 217-234 (#230-234 n.h., c.v. \$243 total), 238/252 (c.v. \$195 total). All pages scanned online. A cursory check indicated stamps are lightly hinged onto pages, leaving a few with little to no hinge traces once removed. A visually stunning collection, overall fine to very fine. From the estate of a collector who stopped collecting during World War II, and whose albums have not been opened until now.

- 1329** * **Collection of Mint Switzerland in Two Albums, 1881-1964**, consisting of many hundreds of stamps. The lot begins with a Minkus album containing a small representation of pre-1907 mint stamps including Scott #60-69 and #98-100, with strength post 1907 up to 1963. The stamps are collected by issue date, including Semi Postals and Airmails, and we estimate roughly 90% completeness for basic stamps and includes a few souvenir sheets. We note better items with Scott #s: 184 (c.v. \$155), 185 (c.v. \$275), 226 souvenir sheet of 4 (c.v. \$350), 244-246 granite paper (c.v. \$120 total), 293-305 used PAX set (#293 and #298 m.h., c.v. \$788 total), B105 souvenir sheet of 4 (c.v. \$175). Catalogue value for the album totaled at \$4,414 (up to 1945 only, counted as mint hinged, with the possibilities of never hinged finds). The second album contains primarily mint Officials, including League of Nations and United Nations, ranging from 1935 to 1950. We note some sets cataloguing \$30 and up, including Scott #701-7020 (c.v. \$263 total). Catalogue value for the album totaled \$1,615. The lot also includes roughly 30 envelopes from the new issue service from the 1970s, along with several glassines of assorted mint sets and a few souvenir sheets (including B143, c.v. \$130). Online photos show a representation of the lot. We note some small faults with the early stamps, along with a few hinge remnants. Overall fine to very fine.

1330 ☉/*/** **Large Switzerland Mint and Used Collection and Accumulation, 1854-2012**, including semi-postals, officials and other back-of-the-book, filling 2 stockbooks. All time periods are well represented across all types of stamps in this lot, and noteworthy items are too numerous to all be mentioned. We do note 34 used imperforate "Seated Helvetia" Scott 14-40, 64 used and 44 mint perforated "Seated Helvetia" 41-68 and about 80 mint and used copies of the "Standing Helvetia" sets. We only note a used group of 89-93 (c.v. \$914) though we saw at least a dozen of stamps valued \$100 and more in Scott in this early group. We saw a complete 1945 Pax set cancelled with defacing parallel bars (c.v. \$806) and another partial used set of the high values (c.v. \$723) and a mint 185 (c.v. \$275). Semi-postals run from B1 to B750, some mint, some used, many in both conditions, including numerous souvenir sheets and used blocks of 4. We saw mint and used B3-4 (c.v. \$177), mnh pairs and used singles B4-6 (c.v. \$466), mnh and used B7-11 (c.v. \$317), mint and used B116 (c.v. \$400), used B105 (c.v. \$500) and much more. Airmails C1 and C2 are represented with mnh pairs and a mint set (c.v. \$842) and a used C1 forgery. Lets not forget the Postage Dues, possibly holding surprises and the large group of mint and used officials including mint 101-8 (no #3) (c.v. \$522), 2 mint sets 109-16 (c.v. \$360), used 2030 and 3024 (c.v. \$287). Finally, we counted over 720CHF (CAD \$950) of recent mint valid for postage (from the early 1960s to 2012). Inspect to convince yourself that our estimate of \$3,500 is very conservative. Mostly very fine, faults in earlier material.

VF very fine a stamp in superior condition which is well-centered and without fault.

F-VF fine-very fine applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.

A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are conducted in **Canadian Funds.** Payment may be made by e-transfer, bank draft, bank wire transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card. **There is a 2.5% convenience fee to process credit card payments.** Cash/ Cheque payment in U.S. funds is acceptable at the same rate which Sparks Auctions can purchase Canadian Funds at our bank (2.5% percent above the midmarket rate). The amount owed in U.S. funds will be noted on invoices. Credit cards will be processed in Canadian Funds. **Buyers from Canada will be charged the taxes applicable in their home province.** Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See "Shipping Information" for Sparks Auctions' shipping policies. Buyers outside Canada are responsible for all customs duties applied by their home country.

6. **Until paid in full, all lots remain the property of Sparks Auctions on behalf of the seller.**

7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.

8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com and StampAuctionNetwork.com) there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on www.sparks-auctions.com. These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.

9. **Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt.** All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason:**

- lots containing ten or more items;
- any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- lots illustrated in our printed catalogue or online may not be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
- any lot that was viewed in advance of the auction by the buyer or his agent.
- any lot sent for expertization by Sparks that receives numerical grading unless the graded certificate describes faults not already described by us;
- it is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and back flap

tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

10. All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted if the following conditions are met:

- Notice of this intent is given prior to finalizing the purchase;
- All lots to be sent out on extension must be paid in advance, including the expertizing fee(s), and shall be submitted by Sparks, directly. Sparks will use one of the following expertizing services:

- Vincent Graves Greene Foundation (Canada and BNA); or
- BPA or RPSL (British Commonwealth); or
- Philatelic Foundation or PSE (USA and territories, see Section 9e above); or
- Another authority mutually agreeable to both parties.

c) Extensions are granted for the reasonable period of time required by the expertizing authority;

e) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price including the expertization fee;

f) If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.

11. Lots which include the notation '**Rsv.**' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.

12. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

Shipping Information

Please note that items will be shipped by the least expensive method below unless other arrangements are made between the buyer and Sparks Auctions in advance of shipping. Insurance on shipped items is the responsibility of the buyer entirely.

All shipping methods are subject to the current regulations and protocols of the shipping provider, which can change from time-to-time in response to various conditions outside the control of Sparks Auctions. To maximize shipping efficiency and minimize cost to the buyer, some lots may be shipped without multi-ring binders or other bulky housing mentioned in a lot description, or by combining the contents of multiple housings into fewer of them.

Within the National Capital Region:

- Normally, it is expected that local residents will arrange for pick-up from our office, by appointment only.
- Shipping can be arranged using the "Within Canada" methods described below, or by other means if specific arrangements are made between the buyer and Sparks Auctions.

Within Canada:

- Single or multiple lots that fit into one or more regular Canada Post Xpresspost labeled envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1,000 they will be shipped by Xpresspost with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
- Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by FedEx.

About Bidding

Bidding in a Sparks Auction takes place in accordance with our Terms and Conditions and can happen in several ways:

1. Advance Bidding

We accept bids in time-honoured traditions before the auction starts:

- by printed bidsheet (included with the print catalogue and also available for download from our site). If you use mail to send us a bidsheet, please call at least the day before the sale begins to confirm that we have received it.
- you can fax a printed bidsheet (included with the print catalogue and also available for download from our site) to 613-567-2972.
- you can call our office at 613-567-3336 or use our North American toll-free number: 844-252-2032.
- you can email bids to info@sparks-auctions.com. Simply provide the lot number and your maximum bid in Canadian dollars.

Please use the following bidding increments:

\$10 - \$200	\$10	\$7000 - \$15,000	\$500
\$200 - \$500	\$25	\$15,000 - \$30,000	\$1,000
\$500 - \$1500	\$50	\$30,000 - \$100,000	\$2,000
\$1500 - \$3000	\$100	\$100,000 - \$500,000	\$5,000
\$3000 - \$7000	\$200	above \$500,000	\$10,000

All bids not conforming to these increments will be rounded down to the previous increment. If two identical bids are received for a particular lot, the bid received earliest will prevail, regardless of how the bid was received.

2. Telephone Bidding

We can arrange for participation via telephone. Phone bidding must be arranged at least one day in advance so we can assign someone to call you at the appropriate time. Often, phone bidding is best for more expensive items. If phone bidding is not convenient for you, we encourage bidders to engage an agent, or to bid live via Stamp Auction Network to be sure bids are executed in the way they would like. See below for more information about live bidding or contact us for more information at 613-567-3336.

Sparks Auctions reserves the right to refuse telephone bidding at any time. Sparks Auctions will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service.

3. Auction Agents

Having an agent act for you is another way to ensure your bidding intentions are well represented if you cannot participate in person or by bidding live via Stamp Auction Network. Auction agents can view material, when public viewing is an option. The following agents are knowledgeable, experienced auction buyers known to Sparks Auctions and familiar with our sales. Please contact one of them, or your own existing agent directly to make arrangements suitable to both parties. Sparks Auctions is not responsible for a bidder's relationship with any agent. Agents: please contact our office at least two days before the start of a sale to make arrangements for your clients to be billed and to have their winnings shipped.

Valuation of Lots

Catalogue values are listed for many lots in the sale. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2022 and 2023 Scott Catalogue Volumes 1A through 6B in US\$

2022 and 2023 Scott Classic and US Specialized in US\$

2022 and 2023 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$

2007 or later Michel catalogues of the World (Mi), values in €
2022 The Canadian Revenue Stamp Catalogue by E.S.J. van Dam in CAN\$

2022 American Air Mail Catalogue: The Air Mails of Canada and Newfoundland, 2nd Edition (AMCN2) in US\$

Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 6 volumes

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value". Likewise, we will note "owner-identified" when there are varieties or other notations included in the consignment, even if we have not verified them.

"Estimates" ("Est.") are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.

"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.

Corrections & Updates

Sparks Auctions' Sale 47

As of Monday, May 29, 2023 at 10:30am EDT.

Posted at [Stamp Auction Network](#) on Monday, May 8, 2023 at 2:00pm Eastern Time.

LOT#	Correction
219	The caption under the picture in the print catalogue should say Lot 219, not 209.
364	The variety is in position 78, not 52.
441	Withdrawn.
460	This stamp does not have a pre-printing crease, but rather a plate crack, the result of the printer dropping the plate & causing a crack in the glass. The stamp can therefore be attributed to position 7 on the sheet of 12.
558	The first cover left from St Catharines, not Québec City.
581	The years covered in this lot are 1951-2006, not 1981-2006.
600	The postmark identified by the owner as a 42 could also be a 12.
