Lots & Collections

Welcome to our General Sale #48, our fifth auction of the year.

The material in this sale is the property of an impressive 143 different consignors, and the result is this wide range of material, with quality Canada and provinces, British Commonwealth and worldwide singles, sets and collections, including part one of the W.J. McGill collection of Scandinavia, a good offering of early Great Britain, and much more.

Be sure to have a close look at our over 450 exciting lots of postal history offerings, including part two of the extensive David Hobden and Michael Rixon pre-Confederation Upper Canada postal history collection and part two of the Gordon Richardson early Manitoba postal history collection, as well as the Ted Nixon collection of Canadian fancy cancellations of the Small Queen issue, and an excellent offering of R.P.O. postal history from the Peter McCarthy collection. You will also find a large selection of other useful postal history from Canada and a wide variety of worldwide countries including those in Scandinavia. Also of note in this sale is a great offering of philatelic literature.

We are proud to continue our long-standing tradition of showing online photos or scans of every single lot, so you know what you are buying, especially if you are not able to do pre-sale viewing in person. This sale is accompanied by about 10,000 high quality pictures, which can all be seen in full colour on StampAuctionNewtwork.com

As usual, this sale will be conducted live on StampAuctionNetwork.com, also with a live floor, via telephone and other traditional bidding methods. A reminder that our buyer's fee is still at an industry-low 17%, and that all transactions are in Canadian dollars - a bonus for US customers and those using other currencies.

Enjoy the sale!

Cents Issue Scott #14-20

- 25 **1865 American Bank Note Co. Original Order for the Cents Issue**, the letter is handwritten on a printed letterhead page "American Bank Note Company / New York" dated Dec 4th 1865. It reads: "Sir, We beg to advise that we have this day sent to the Post Office Department of Ottawa a sealed box containing the following postage stamps - viz - 3000 sheets One Cent stamps / 1000 sheets Two Cent stamps / 3000 sheets Five Cent stamps / 2000 sheets Ten Cent stamps / 2000 sheets Twelve + a half stamps. Very respectfully / xxxx / Secy / Wm White Esq. / Secretary / Ottawa, Canada". There is a note added overtop the letter indicating that the order was received on December 8, 1865 and that the following quantities were actually received: " 300000 One Cent, 100000 2 Cent, 299900 5 Cent, 200000 10 Cent, 200100 12½c". There is also a filing note on back, and the letter has broken apart along two horizontal folds, long ago repaired with tape on back, still a rare and desirable item for the Cents Issue collector.

Geoffrey Whitworth (1966) and Senator Calder both list the following quantities ordered on September 25, 1865: 1c - 2,000 sheets, 2c - 2,000 sheets, 5c - 3,000 sheets, 10c - 3,000 sheets. 12½c - 3,000 sheets, it is interesting to see the discrepancies between the quantities ordered, the quantities said to be sent and the quantities actually received, including the fact that the 50 sheets of the 17c value were not mailed in this package.

..... **Estimate \$2,000**

- 312** **E/P #BCT43DP, BCT45DP 1911 5c and \$1 British Columbia Telephone Engraved Compound Die Proof**, in black, with die number 327 at bottom, signed (and dated 1911) between both stamps by the engraver Silas Allen. Mr Silas Robert Allen (1888-1958) was considered the founder of the Canadian school of engraving and first great Canadian security engraver of the twentieth century. He engraved many Canadian stamps from at least 1911 to the 1950s including items such as the 1928 20c Harvester, 1947 Bell issue, \$1 Fisherman, \$1 Totem, and many more. The British Columbia Telephone frank design changed in 1911, and basically kept this new design until 1968. We believe this might be one of his first, if not his very first engraving, kept as a memento, as it was found in a jewelry box owned by his niece (when he died in 1958 all of his belongings, except for this item, had been sold at auction). A very rare item and an early example of a signed Canadian compound die proof.

- 324 **/✉ Collection of Christmas Seals, Sheets and Covers, 1927 to 2021**, with thousands of mostly mint stamps (singles, booklets, blocks, sheets) plus used on covers on album pages and black Vario sheets in three binders. The breadth and depth of coverage in this collection is above average, including some early precursors to the regular issues that began in 1927 in both English and French. The collection is complete in the period for singles and has an abundance of extra material including booklets (complete or panes only for 1938, 1939 and 1940) and progressive proofs (1941, 1942, 1945, 1946, 1947, 1948, 1963, 1979, 1990 and others), gift tags, and local and regional letters from the Tuberculosis societies, with which the seals arrived. The material is fine to very fine and has the makings of a future exhibit. There is duplication of many sheets, singles and multiples. This very clean, well-organized collection also includes two excellent references: The National Christmas Seals of Canada 1927-2008 (Beattie, Chung and Vogel) and Green's Catalog of Canadian Local and Provincial Tuberculosis Seals (Christmas Seal and Charity Stamp Society, Revised 2007). Our photos capture only a small portion of the collection, which would benefit from in-person viewing to appreciate the full contents.

- 463 ☉ #11-15 Extensive Collection / Accumulation of the 1864-70 Royal Emblems Issues with 3-Ring Numeral Cancels, starts with a collection of 100 different numbers (#1 to 227) on the 4s value, mounted on 6 pages, annotated by the corresponding town names. Also includes 5 stock pages full of additional numbers on all the values, many of which could be incorporated into the main collection. This includes the 2s (x14), 3s (x9), 4s (x200), 8s (x3) and 16s (x4). We note that some of the stamps have the ideal combination of a town postmark plus the numeral, and there are also some shade varieties, unchecked by us for the much better perf. 12½ variety. Some faults here and there, but the majority of the cancels are readable, and many are lovely socked on the nose examples. A wonderful and rare opportunity for the specialist.

- 534** **PC/✉ Old Time Original Montréal Correspondence, 1897 to 1904**, consisting of about 175 stationery covers and roughly 500 stationery cards, all addressed to the same business in Montréal "Messrs. P. S. Ross & Sons. / Auditors Sun Life Assurance Company of Canada". This lot is offered as received, unpicked for postmarks, etc., and we did note many interesting and useful postmarks including Bickerdike and International machines, street c.d.s., carrier markings, etc. Some of the better postmarks we encountered during a quick overview include two Union Jack flag cancels, a St Polycarpe QUE squared circle (RF55) with an inverted day slug, an "N.P.B." carrier datestamp, two different Montréal 1902 experimental machine postmarks, etc. We did not check all of the flag machine cancels for better dates, etc. Most of the postcards were mailed from Montréal, but the envelopes were mailed from all over the country, including a few small BC towns, etc. There is also much interest in the backs of the postcards, as all of them are pre-printed with advertising, meetings, etc. A very interesting lot for the postmark enthusiast, as well as Montréal postal historians, online resellers, etc. Well worth a close look, as our online photos only show a few of the better items we encountered. Postmarks-Squared Circles

- 584** **Large Dealer Stock of Squared Circle Postmarks on Stamp and on Piece**, mostly sorted in black stock cards and glassines by town, province, stamp issue, etc., with most of the material having retail asking prices, for example "\$2 each" or "\$5 each", etc. We estimate close to 1,000 stamps, mostly Small Queens, but also Jubilees and other QV issues. See our online photo for an overview, have a closer look to better appreciate. A useful lot for dealers or collectors alike.

- 585** **Small Group of ASSA and ALTA Squared Circle Postmarks**, on 30 stamps, with Small Queens, Jubilees and Leafs / Numerals. We note postmarks from Macleod, Calgary, Lethbridge, Maple Creek, Prince Albert, Moose Jaw, Regina and Edmonton. All strikes are identifiable and range from partial to socked on the nose. A useful group.

..... **Estimate \$100**

- 586** **PC Huge Collection of Squared Circle Postmarks on Cover, Card and Stamp**, mostly in black stock pages filling 18 binders. We counted about 750 covers / cards, plus probably a few thousand off-paper stamps. The stamps appear to be mostly large town calendar collections (mostly sorted by town) plus other, smaller towns as well. The covers and cards are mostly from Ontario, Québec and the Maritimes, but we saw a few other provinces, and they include a little bit of everything, and we assume most postmarks will have a RF of 50 or lower. A quick look through revealed better towns like Formosa State II, Cheltenham, Powassan, Wooler, Thamesford, Newport Landing, etc., with duplication; for example, we counted about 50 St Anne's (RF50) covers and cards. The postmark usages include despatch, receiver and transit, and we saw perhaps a dozen or more covers / cards that have two different squared circle towns on the same side, many different indicia, and we noted more than a dozen registered covers, some corner cards, advertising (incl. a few illustrated), some destinations such as to England, and the stamps encountered include Small Queens (mostly), Jubilees, Leafs and Numerals, Maps, Edwards and Admirals, as well as Québec Tercentenary. A massive collection which took a lifetime to assemble, which we recommend viewing in person to better appreciate, our online photos and description cannot do justice to all that is included. Condition varies, as there are cover fronts, covers roughly opened and such, but still overall fine or better.

..... **Estimate \$5,000**

- 587** **PC Collection of Manitoba Squared Circles on 38 Covers and Cards**, plus a number of stamps and pieces. We note between 1 and 3 covers or cards for each of the listed towns that used squared circles, including the Souris & Winnipeg #1 and #2 hammers (both backstamps on registered covers). We noted a lovely 2c purple Numeral on a Queen's Hotel corner card cover from Morden, a purple Minnedosa on 1c GPC, Gretna strikes on a 1c Jubilee stationery card to Germany, a scarce Portage la Prairie TM "2" on 1c GPC, Morden on a nice 8c Small Queen corner card front, Morden strikes on a 1908 1c Québec Tercentenary postcard, and more. There is a mix of usages, with both despatch and receivers, and there is also good interest in small town broken circle postmarks as well. A few faults as usual, still overall fine or better for the covers and cards and the strikes range are partial to proof-like.

..... **Estimate \$350**

- 588** **1916 Laurentides QUE Squared Circle on Admiral Cover to Switzerland**, mailed on AUG.12 (no year slug in squared circle free strike) to Berne Switzerland, with partial 1916 receiver on back, franked with a 1c and 2c Admiral, as well as a 2c + 1c War Tax Admiral. The manual records only 3 strikes in Period 3 (from 1911 to 1920) and so this would be a 4th report. A very fine cover, with a small part of the back flap missing, a "must have" for the serious squared circle collector.

..... **Estimate \$200**

- 589** **Group of Squared Circles on Covers and Stamps**, 1897 Golden BC on 3c SQ cover front (RF 55, light strike but fully legible); 1895 Clarenceville QUE on 3c SQ cover (RF 40, light strike but fully legible); 1902 Innisfail, ALTA on Leaf / Numeral registered cover with 2 diff. An overall fine to very fine group, ex Don Fraser collection.

A very fine cover of a sought after postmark, which is not only uncommon on Small Queen stamps, but quite rare on cover, especially this nice. Surely to become the focal point of any important fancy cancel collection. Ex Stanley Cohen collection (Hennok, 1987, lot 1565).
..... **Estimate \$400**

- 729**  **Russell 1857 "SUEDERLAND / C.W" Unrecorded and Unknown Post Office**, a cover mailed Free to Toronto from "SUEDERLAND / C.W" on MR 4 / 1857 / O. Arrived Toronto on MAR.9 and passed through City of Ottawa on MAR.4 (same day as departure). A very interesting postmark, as there are no post offices listed under that name, so one can only guess that this is a spelling error by the postmark manufacturer. The most plausible post office we can think of is Cumberland, and if so, it is logical that the cover would have passed through Ottawa on the same day on its way to Toronto. The Sunderland post office opened several years after this postmark was applied, and the Sutherland post office is in Essex county, and would not have passed through Ottawa. So this may very well be a variant of the Cumberland office postmark, as this town is also one of the few in Canada West that used the basal "O" in its "C.W" instrument.

*** hinged** with original gum

(*) unused without gum either as issued, or having gum fully removed. This is normally further qualified in the description.

og original gum

⊙ used includes full range of postally used, cancelled-to-order, precancels.

XF extremely fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.

VF very fine a stamp in superior condition which is well-centered and without fault.

F-VF fine-very fine applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.

F fine stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.

VG very good equivalent to “average”. Typically with poor centering, heavy cancellation or faults such as minor thins, light creases, etc.

 **cover** which here embraces stampless folded letters (SFL), envelopes, first day covers (FDC's), stationery envelopes, etc.

PC post card applies to picture postcards, postal cards, stationery cards, etc.

E/P essay, proof, die proof

F forgery

UL upper left usually used to describe the corner of a sheet, block or individual stamp. The abbreviations UR, LR and LL are used similarly.

v.l.h. very lightly hinged

h.r. hinge remnant

perf. perforation used in the context of “short perfs” or a perforation measurement, such as “perf. 12.0 x 11.5”

1100 ☉ **#85- Extensive Collection of Used in 7 Lighthouse Hingeless Albums, 1897 to 2016**, we estimate this collection to be between 90 and 95% complete. This completeness is quite high from the 1897 QV Leaf issue all the way up to the 1970s, tending towards the lower end of that range in the more modern years, as per Lighthouse pages, as some of the the missing stamps will tend to be booklets, perf varieties, se-tenant formats and such. One of the nicest and strongest collections we have seen, and it is clear that the collector sought nicely cancelled c.d.s. examples when he could, lightly cancelled when he couldn't. The collection, again as per Lighthouse pages, includes strong back of the book and many souvenir sheets, as well as other material not often seen used. We chose only a few of the stamps that stood out for our online photo, but recommend an in-person viewing to better appreciate the extensive nature of this collection. The good condition albums included would cost over \$1,900 to buy new.

Danish West Indies

1228 ◎/✱ **Specialized Collection / Accumulation of Mint and Used Danish West Indies,** displayed on 6 black stock pages. Most of the material is used but there is good value in mint. The majority of the value is in the specialized collection of the 1874-79 issues, with shades, identified Types, postmarks, etc. Our catalogue value for these is as if they were all the first issues, and not the later 1896-1901 printings, so there will probably be a final difference in the catalogue value, also taking into account that we did not value better shades or varieties, of which there are plenty. The lot continues with a selection of postage dues and a page of later issues (these not counted in the total value). We note mint NH blocks (56 stamps total) of #24 (c.v. \$896), a lovely used block of #19 (\$170), a used block of 5 of #15 (\$362) and more. A generally fine to very fine offering, seldom seen, and all pages are scanned online.

Denmark

1230 ◎ **Extensive Collection / Study of the Denmark Numeral Issues of 1870 to 1912**, with thousands of used stamps mounted on pages filling a 3 inch thick binder. The owner was visibly passionate about this issue, as each page is riddled with note after note on types, printings, varieties, and much more. The collection is also abundant in postmark interest, as the owner used mostly dated copies to help him identify them. The collection also includes a few covers and stationery items. Please see our representative photos to get a small glimpse, or better yet plan on seeing it in person to better appreciate the quantity and range of material included.

1231 ◎ **Accumulation of Thousands of Used Denmark, 1900s-1980s**, with material on and off paper, in glassines, bags, and envelopes. Online photos show a sampling of the lot. Overall fine to very fine.

1232 ◎/* **Extensive Collection of Denmark's Royal Emblems First Issues, 1851-1863**, with 335 stamps displayed on 6 stock pages and 2 album pages. We note a good variety of printings, denominations, shades, etc., and most of the stamps have 3-ring numeral cancels, many of which are easily readable / identifiable (at least one 8s value has a nice c.d.s. cancel, and there are also a few mint or unused stamps). A group like this will contain faults, still a tremendous opportunity for the specialist wishing to find better numeral cancels, printings, etc. A rare offering which should easily be worth our estimate of \$3 per stamp, all pages are scanned online.

Hodge Podge of Interesting and Valuable Germany and Area Material, all in 102 cards, dealer stock cards and in glassines, with a good variety of material, including Germany, States, Occupations, etc. The lot is in three sections: first is uncatalogued and contains a few early high denominations, a few dozen perfins, etc.; the second is a zip lock bag labeled "Occupation" which has been catalogued by the owner at \$18,500; and the third contains a variety of German material, this one catalogued by the owner at \$17,200. A quick review revealed many stamps which were enthusiastically over-valued by the owner because of perceived shade or other varieties, but there is still lots of value within for the person willing to sort through it. There are a great variety of shades here, including some not listed in Scott, so we counted the catalogue value as all cheapest major shade only. The great majority of these are mint never hinged, with a few of the early imperforates being hinged. We have carefully examined these using the Scott and Schloss descriptions on how to identify reprints, and are fairly confident they are regular issues, but we still recommend careful examination or viewing the scans we have online. A spot check of the collection revealed many stamps cataloguing in the \$100 to \$500 range, with many others cataloguing \$1,000 and up, so the collection's total catalogue value would be huge. Another highlight is the wealth of postmark types including numeral and town cancels that will benefit from further study. Our several online photos show a sampling of this collection. Since this was assembled in the 19th century, the stamps were affixed to the album pages with either home made paper hinges, or a spot of adhesive on the upper portion of the stamp. We dipped one lower valued stamp in hot water and the glue dissolved, resulting in a sound stamp. A few stamps that had fallen off the pages were mounted in modern mounts or hinges by descendants of this pioneer collector. We recommend in-person viewing to better appreciate the depth of this awesome and valuable material, as well as the quality, as there are several faults. An ideal collection for the right person who will want to spend a little time on conservation, as the benefits should greatly outweigh the time investment.

A cursory check indicated Scott #s 4 (used, c.v. \$300), 11 -13 (used, \$125 total), 17-19 (mint no gum, \$220 total), and a 1862 10c half used on piece, along with a few stamps cataloguing \$10 and up. Some of the stamps have been identified and catalogued by the owner using current Scott cataloguing values. The lot also includes a few articles and catalogues relating to Chile and Mexico. A nice lot that could yield surprises with closer inspection. We note a few small faults with the early material. Overall fine to very fine.

⊙/*/** **Impressive and Valuable 42-Volume Worldwide Stamp Collection**, housed in Supreme Global Stamp Albums. This enormous, clean collection was assembled over the course of three generations and has stamps ranging from classics to 2014, with a mix of used, mint hinged / never hinged in the early period, and often exclusively mint never hinged from about 1990 and on. Spot checking the collection, we noted mint never hinged stamps (in black mounts) at least as far back as the 1920s. This collection has thousands of complete sets, such as many British Commonwealth definitive sets. There is good value in early People's Republic of China with numerous stamps in the Cultural Revolution period. Taking a look at modern mint stamps; Canada, the United States, Australia and New Zealand all have in the neighborhood of \$1,000 each in face value alone, with Great Britain having about £1,000. Other countries with notably high face value offerings include; Denmark, Japan, Norway and Switzerland. Mint never hinged Euro-value totals for these countries are significant also: Austria, Belgium, Cyprus, Finland, France, Germany, Gibraltar, Greece Ireland, Luxembourg, Malta, Monaco, Netherlands, Portugal, Spain and Vatican City. To get a picture of the overall Euro face value, we added the total for France from 1999 to 2015 which came to €2,606. There is a great deal of material, such as booklets, miniature panes and souvenir sheets tucked in through the latest years of the collection, where the item does not have an album illustration. This collection is full of surprises, with some less likely countries quite full and almost entirely mint never hinged in the modern period, like Andorra (French Administration), Costa Rica, Fiji, F.S.A.T., Greenland, Hong Kong, Iceland, Liechtenstein, Macao, Mayotte, Montserrat, Namibia, New Caledonia, Pitcairn Islands, St. Lucia, St. Pierre & Miquelon, Singapore, South Africa, Turks & Caicos Islands, United Arab Emirates, Vanuatu, and Zimbabwe. There are many, many better singles and sets in the \$10 to \$90 range and these will cumulatively catalogue far more than those above this value. Many of the sets and singles cataloguing \$100 or more include Scott #s Angola 5 (c.v. used \$175); Antigua 30 (mint \$115); Austria 27-33 (used \$1,044), 34-40 (used \$268), C54-8 (The Birds, used, \$258); Bahamas 33-36 (mint, \$111), 58-62 (mint, \$135); Belgium 1-5 (used, \$844); Bermuda 96 (mint, \$160); Cayman Islands 1106-117 (mint, \$110); China 10 (mint, \$175), J1-J6 (used, \$150); Cook Islands 9-12 (used, \$167); Danish West Indies 3 (used, \$320) and 43-50 (used, \$121); Denmark 15 (used, \$175), 68 (used, \$120), 135 (used, \$175), C4 (mint, \$130) and C5 (mint, \$105); Falkland Islands 37 (mint, \$120), 48 (mint, \$100), 84-96 (mint, \$361) and 107-20 (mint, \$120); Falkland Islands Dependencies 1L19-1L33 (mint, \$238); France J10 (used, \$110); F.S.A.T 28 (mint, \$280); Gabon 32 (mint, \$127); Gibraltar 107-22 (mint, \$106) and 132-45 (mint, \$100); Great Britain 108 (used, \$290), 109 (x3 used, \$615 each), 137 (mint, \$150), 138 (mint, \$100), 141 (used, \$500), 142 (used, \$825) and 209 (used, \$600); Greece 126 (mint, \$325), 127 (mint, \$575), Greenland Q9 (mint, \$110), Hong Kong 178-79 (mint, \$225), India 203-06 Gandhi (mint, \$557), Iran 1150 (mint, \$175), Ireland 12-14 (mint, \$370), 77 (used, \$175), 96-98 (used, \$290), Italy 37-44 (used, \$114), 58-63 (mint, \$147), J25 (mint, \$130), J26 (mint, \$525) and Q1 (mint, \$125); Jamaica 86 (used, \$100); Liechtenstein 152 (used, \$100); Malta 116-29 (mint, \$144) and 246-62 (mint, \$127); Monaco 27 (mint, \$100); Mongolia 44 (mint, \$250), Netherlands 33 (used, \$105); New Guinea C14-C27 (mint, \$366), and C57 (mint, \$110); New Zealand 288-301 (mint, \$179); Pakistan 1-19 (mint, \$135); Singapore 21-22 (mint, \$122); Southern Rhodesia 14 (used, \$175); Switzerland B1-B6 (used \$254); Tunisia 25 (mint \$175); and Zanzibar 38-52 (mint \$278). Based on a sampling of several volumes and extrapolating a total from this, we estimate this collection to contain at least 200,000 stamps. There are many, many seldom seen items such as imperforate varieties, unusual overprints and much more, as one might expect to see in a collection assembled with passion over the course of many decades. Just over 400 images accompany this collection and even so, only a tiny portion of it is shown online. Overall fine to very fine, and a great opportunity for dealers, or to a collector who would like to expand on it.

For stamps with an owner's pricing of \$20 or more, the approximate total is over \$30,000 in 102 cards with another several hundred in 101 pages in the counter books. There are also thousands of dollars in priced sets and singles in the \$1 to \$15 of owner's / catalogue value. This group appears to come from a few sources and, other than the counter books, which are neat and in some order, the 102s are not in order. There is strength in Germany and other Europe as well as Great Britain and British Commonwealth with a bit of China. Postal Artifacts and Ephemera

- 1547** **Circa 1840s Thomas Steiner Postmaster General Mail Trunk**, an original mail trunk made of pine which was professionally stripped from most of its original paint, with an important section left untouched, leaving the following text on front: "T. A. STAYNER ESQre / Du. P. Mr. General / No. 2". Measurements are 27" (W) x 20" (D) x 14" (H). The box was then finished in a good quality oil to preserve its wood, and retains its original hardware, including original flat head screws, lock (no key) as well as the original handles and hinges. The corners are joined by lovely dovetail joins. Thomas Allan Steiner (1788-1868) was a British soldier from 1808 to about 1823, and was in Montréal during the War of 1812. In 1827 he succeeded his father-in-law as postmaster general of Upper and Lower Canada, when there were more than 80 post offices, and held the position until 1851 when there were 853. This trunk obviously belonged to him, and would have been used to carry mail during his office. Hinges are a little loose from the lid, and there is age wear, as appropriate, still a very fine example of early Upper Canada furniture in very fine condition.

One poster (x2) is the Canada Post lobby poster for the issue, one poster is the Eaton internal promotion poster for the sale of the stamps as an "Ideal Stocking Stuffer", likely in their philatelic department of the time and the final item (x2, one French, one English) is on thick poster board, likely from a store display (showing both Canada Post and T. Eaton Co. logos on stickers affixed to the items). These are in good condition, with some corner wear and bends, and would be great for the ephemera collector. All items shown in our online photos.

One tray is flat and made of cast iron while the other one is curved and made of copper indicating that its primary function was to weigh newspapers. Buyers outside Canada are responsible for all customs duties applied by their home country.

6. Until paid in full, all lots remain the property of Sparks Auctions on behalf of the seller.

7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.

8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com and StampAuctionNetwork.com) there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on www.sparks-auctions.com. These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.

9. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- a. Lots containing ten or more items;
- b. Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- c. Lots illustrated in our printed catalogue or online may not be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
- d. Any lot that was viewed in advance of the auction by the buyer or his agent.
- e. Any lot sent for expertization by Sparks that receives numerical grading unless the graded certificate describes faults not already described by us;

g. It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and back flap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

10. All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted if the following conditions are met:

- a. Notice of this intent is given prior to finalizing the purchase.
- b. All lots to be sent out on extension must be paid in advance, including the expertizing fee(s), and shall be submitted by Sparks, directly. Sparks will use one of the following expertizing services:
 - i. Vincent Graves Greene Foundation (Canada and BNA); or
 - ii. BPA or RPSL (British Commonwealth); or
 - iii. Philatelic Foundation or PSE (USA and territories, see Section 9f above); or
 - iv. Another authority mutually agreeable to both parties.
- c. Extensions are granted for the reasonable period of time required by the expertizing authority;
- d. If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full refund of the purchase price including the expertization fee;
- f. If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.

11. Lots which include the notation 'Rsv.' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.

12. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

Shipping Information

Please note that items will be shipped by the least expensive method below unless other arrangements are made between the buyer and Sparks Auctions in advance of shipping. Insurance on shipped items is the responsibility of the buyer entirely.

All shipping methods are subject to the current regulations and protocols of the shipping provider, which can change from time-to-time in response to various conditions outside the control of Sparks Auctions. To maximize shipping efficiency and minimize cost to the buyer, some lots may be shipped without multi-ring binders or other bulky housing mentioned in a lot description, or by combining the contents of multiple housings into fewer of them.

Within the National Capital Region:

- a) Normally, it is expected that local residents will arrange for pick-up from our office, by appointment only.
- b) Shipping can be arranged using the "Within Canada" methods described below, or by other means if specific arrangements are made between the buyer and Sparks Auctions.

Within Canada:

- a) Single or multiple lots that fit into one or more regular Canada Post Xpresspost labeled envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1,000 they will be shipped by Xpresspost with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by FedEx.

About Bidding

Bidding in a Sparks Auction takes place in accordance with our Terms and Conditions and can happen in several ways:

1. Advance Bidding

We accept bids in time-honoured traditions before the auction starts:

- by printed bidsheet (included with the print catalogue and also available for download from our site). If you use mail to send us a bidsheet, please call at least the day before the sale begins to confirm that we have received it.
- you can fax a printed bidsheet (included with the print catalogue and also available for download from our site) to 613-567-2972.
- you can call our office at 613-567-3336 or use our North American toll-free number: 844-252-2032.
- you can email bids to info@sparks-auctions.com. Simply provide the lot number and your maximum bid in Canadian dollars.

Please use the following bidding increments:

| | | | |
|-----------------|-------|-----------------------|----------|
| \$10 - \$200 | \$10 | \$7000 - \$15,000 | \$500 |
| \$200 - \$800 | \$25 | \$15,000 - \$30,000 | \$1,000 |
| \$800 - \$1500 | \$50 | \$30,000 - \$100,000 | \$2,000 |
| \$1500 - \$3000 | \$100 | \$100,000 - \$500,000 | \$5,000 |
| \$3000 - \$7000 | \$200 | above \$500,000 | \$10,000 |

All bids not conforming to these increments will be rounded down to the previous increment. If two identical bids are received for a particular lot, the bid received earliest will prevail, regardless of how the bid was received.

2. Telephone Bidding

We can arrange for participation via telephone. Phone bidding must be arranged at least one day in advance so we can assign someone to call you at the appropriate time. Often, phone bidding is best for more expensive items. If phone bidding is not convenient for you, we encourage bidders to engage an agent, or to bid live via Stamp Auction Network to be sure bids are executed in the way they would like. See below for more information about live bidding or contact us for more information at 613-567-3336.

Sparks Auctions reserves the right to refuse telephone bidding at any time. Sparks Auctions will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service.

3. Auction Agents

Having an agent act for you is another way to ensure your bidding intentions are well represented if you cannot participate in person or by bidding live via Stamp Auction Network. Auction agents can view material, when public viewing is an option. The following agents are knowledgeable, experienced auction buyers known to Sparks Auctions and familiar with our sales. Please contact one of them, or your own existing agent directly to make arrangements suitable to both parties. Sparks Auctions is not responsible for a bidder's relationship with any agent. Agents: please contact our office at least two days before the start of a sale to make arrangements for your clients to be billed and to have their winnings shipped.

Valuation of Lots

Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2023 Scott Catalogue Volumes 1A through 6B in US\$
2023 Scott Classic and US Specialized in US\$
2023 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$
2023 Stanley Gibbons 1840-1970 (SG), values in £
2007 or later Michel catalogues of the World (Mi), values in €

2022 The Canadian Revenue Stamp Catalogue by E.S.J. van Dam in CAN\$

2022 American Air Mail Catalogue: The Air Mails of Canada and Newfoundland, 2nd Edition (AMCN2) in US\$
Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 6 volumes.

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value". Likewise, we will note "owner-identified" or "owner's count" or "owner's face value" when there are varieties or other notations included in the consignment, even if we have not verified them.

"Estimates" ("Est.") are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.

"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.

| 419 | The high value in this group is 1 Shilling and not 1 Pound. |
| 421 | \$925 is a Scott catalogue value, not Unitrade. |
| 440 | This stamp should be in the category: Australian States. |
| 442 | The catalogue value for this set is \$1,475. |
| 467 | #s 4 and 4a are in fact #s 5 and 5a, and the catalogue value should therefore be \$957. |

| 836 | This lot also includes postmarks from the Faroe Islands. |
