Lots & Collections

Welcome to our General Sale #49, our first auction of 2024. This will be my last sale with Sparks Auctions, as I am moving on to other projects. I wish to thank all those who have consigned to us, and bought from us during my 16 years with the company. I am very proud of what I have accomplished while here, and it is in big part because of our customers, philatelic friends, and our small team of dedicated and passionate staff.

This sale offers our usual wide range of material, with quality Canada and provinces, British Commonwealth and worldwide singles, sets and collections, including part two of the W.J. McGill collection of Scandinavia, a good offering of early Great Britain, and much more. Also of note is the first part of the Andrew Ellwood precancel collection and a great offering of the Canadian Admiral issue.

Be sure to have a close look at our over 400 exciting lots of postal history offerings, including part three (and last) of the extensive David Hobden and Michael Rixon pre-Confederation Upper Canada postal history collection and part three of the Gordon Richardson early Manitoba postal history collection, as well as a fine selection of useful postal history from Canada and worldwide countries including those in Scandinavia. Also of note in this sale is another great offering of philatelic literature.

We are proud to continue our long-standing tradition of showing online photos or scans of every single lot, so you know what you are buying, especially if you are not able to do pre-sale viewing in person. This sale is accompanied by thousands of high-quality pictures, far more than we can show in the print catalogue, which can all be seen in full colour on StampAuctionNetwork.com

As usual, this sale will be conducted live on StampAuctionNetwork.com, also with a live floor, via telephone and other traditional bidding methods. A reminder that our buyer's fee is still at an industry-low 17%, and that all transactions are in Canadian dollars - a bonus for US customers and those using other currencies.

Enjoy the sale!

**251** ©/\*\*/\*\* Extensive and Specialized Precancel Collection, neatly displayed in black mounts in two deluxe Deveney Stamps precancel albums, which closely follow the Marasco and Taylor Precancel Catalogue. Volume 1 is for forerunners, bars and perfin, and volume 2 is for towns and cities. This is the most extensive collection we have offered to date, by far. It is loaded with stamps cataloguing \$100 to \$500, in fact far too many to list. One way to gauge the extensiveness of the collection is to say that we counted 2,395 different stamps in the towns and cities section alone, plus another 220 different forerunners and bar types for a total of 2,615 stamps. These numbers do not include the numerous added extras, usually in the form of pairs and blocks of four, but sometimes extra copies, or slight variations on the precancel. We noted that many stamps have never hinged gum, including the sought after Admirals, which adds to the desirability of this awesome collection. This collection was formed over a lifetime, and contains quantities of items that are difficult to locate. We have scanned only a small portion of the pages online, and can easily offer video viewing on request. Ex Andrew Ellwood collection.

**252** ©/\*\*/\*\* Extensive Collection of Precancel Varieties, neatly displayed and described in a heavy binder containing 90 black stock pages. The collection includes the types of varieties listed in Part IV of the Marasco and Taylor Precancel Catalogue, with broken bars, missing letters, partial letters, offsets of the precancel, stamps that have other postmarks, squished and clipped letters, missing province, and so many more, most appear to be constant varieties, as often proven with more than one issue or example of the variety. We counted about 558 bar type stamps and 3,852 town and city type stamps, for a total of about 4,410 stamps, including duplication of up to dozens in some cases, and each pair and block was counted as one only. We did not count precisely but there appears to also be 400 to 500 number between bar types, identified by position, as well as varieties. A very unique collection, in fact we do not recall ever seeing anything like this offered before, and would have taken a lifetime to assemble. If catalogued, the value would be immense, so we estimated an average of \$1 per stamp, based on the large quantity of items with high catalogue value, and the probable high level of interest. We show many representative pages online, but can also offer video viewing on simple request. Ex Andrew Ellwood collection.

## Historical Canadian Documents

- 374** **October 30th, 1759 Soldier's Letter from Québec City**, written by then Major Roger Morris, who served for the Louisbourg Grenadiers, a special corps made up of the Grenadiers of the 22nd, 40th and 45th Regiments during General James Wolfe's invasion of French Québec, where he participated in the Battle of the Plains of Abraham. In the letter, Morris writes about difficulties in communications, and the fact that he is "apprehensive" that he may not get an answer "...before the River is shut up.". He goes on to say that General "Monckton sailed for New York yesterday" (Monckton was relieved of his duties at Québec on 26 October 1759 and was reassigned to New York for convalescence). This letter, Morris explains, was carried by Col. (Richard) Gridley, who has "promised to deliver it", etc. Morris later retired from the British army in 1764 and settled in New York City. In 1765 he built a huge mansion in Manhattan (still there) and during the American Revolution, he left for England (left his wife and children behind) and lent his mansion to General George Washington, who used it as his temporary headquarters. A note on the back reads in part "Rec'd Col. Gridley / Nov 20 1759". An important historical document.

**846**    **\*/\*\* Accumulation of Mint Canada in a Stockbook and Stock Pages, 1897-1980s**, containing many hundreds of stamps. The lot begins with selections of Victorian issues up to the Admirals, with the majority of material from the 1920s onwards, including coil pairs, and back of the book material. A spot check indicated just a few of the better items with Scott #s 45 (m.h., c.v. \$675), 76 (x10, m.h., \$500 total), 83 (m.h., \$450), MR2C (m.h., \$180), O9-O10, O25 (m.h., \$422 total), along with singles and a few sets cataloguing \$20 and up, noting Peace sets (x2, m.h.), and accumulations of low denomination Scrolls, Arch, Medallion, and War issues. We estimate \$150 of face value, generally low denominations up to 38c. Online photos show a sampling, with accumulations up to 10 for some issues. We note a few small faults with a few of the early stamps, including a few with no gum, still a useful lot, overall fine to very fine.

The lot continues with used partial sets of Jubilees, Leafs, Numerals, Edwards, and Admirals onwards, noting 50c Bluenose (x2). The mint material generally ranges from the Admirals onwards including #105 1c Admiral block of 8 (n.h., c.v. \$520 total), along with partial sets from Scrolls to the Peace issue, with general completeness from the 1950s up to 1979. We note the majority of mint issues pre-1900 have no gum, with a mixture of mint hinged and never hinged post-1920, along with a few small faults with a few of the early used stamps. Mint material includes a set of Québécois (c.v. \$978), with primarily mint material post-1960. **850**    ©/\*/\*\* **#1/1834 Extensive Mint and Used Canada Collection in Two Lighthouse Albums, 1851 to 2000**, starts off with a few used, incl. #s 1 (pen cancel removed and regummed), 9, 15, 22, 26 and a few more, and the rest is either mint or unused, noting #s 8, 11, 14, 15, 17-20, 22b, 23, 27a, 29 (x2), 34-47 (with shades, printings, perforations), complete Leafs and Numerals, complete Jubilees, complete Québécois and Edwards, and essentially complete to the end (missing a few items near the end), including back of the book (missing only one War Tax variety). Quite a valuable collection, with a Scott catalogue value of \$49,706 for stamps up to 1951, and a face value of \$748 after that (counting only 15c and up). The catalogue value was conservatively calculated as all hinged, even though we saw many never hinged stamps (some of which are identified on the pages) and the early material (Large Queens and earlier) was catalogued as no gum (as per Scott Classic) as so many of those stamps are regummed. A great collection, which we left intact (offering only a #16 separately), with many well centered and fresh stamps, a high degree of completeness and huge catalogue value. A few stamps here and there have no gum and there are also a few with gum thins, still an overall fine to very fine and nice quality collection.

**851**    © **#1/972 Advanced Used Canada Collection in a Thick Lighthouse Hingeless Album, 1851 to 1981**, starts off strong with a #1, 4 (x3 shades and papers), 14 (x11), 15 (x10), 17 (x6), 18 (x4), 19 (x4), 20, Large Queens (58 stamps of all denominations, with shades, etc.), Small Queens (280 stamps of all denominations, with shades, printings, etc.), Jubilees (complete to the \$5, missing only the \$3 but has extra \$2, 10c and 8c), and essentially complete from there to the end, with loads of extra material, such as 380 blocks of four or larger, booklet panes, extra copies of stamps such as the aforementioned, plus two 50c Bluenoses, three \$1 Parliaments, page full of extra Edwards to the 50c, many extra stamps from the 1950s-on with tagging and other varieties, and much more, including some covers and cards (and FDC fronts). Also, many of the early issues have good postmark interest such as numerals, corks, socked on the nose town cancels, etc. All in all a nice and valuable collection. Our online photos only show a small part of the collection, so we recommend in-person viewing in order to better appreciate all this has to offer.

**852**    ©/\* **#2/558 Mostly Mint Collection of Canada in a Lighthouse Hingeless Album, 1851 to 1971**, starts off with used #s 2, 4 (2 diff. papers), 7, 8, 17 (2 diff. shades), 18, 25, 27, 29, and the rest of the collection is mint, starting with #s 14 (x2), 15, 19, 20, 28, Small Queens (23 mostly different stamps), Jubilees (½c to \$1, plus \$3 and \$4), complete Leafs and Numerals, KEVII missing the 10c and 50c, complete Québécois, and probably 95% complete to the end, including back of the book, mostly missing a few easily obtainable stamps. A nice clean collection (only a few faults on the early) with many very fine centered stamps, but also with a high percentage of the stamps having glazed gum, due to storage conditions. Our catalogue value (for up to 1951 only) is therefore based on hinged only, even though there may be many never hinged items. See our online scans for an overview of only a few of the better pages.

This could be a good lot for postmarks or varieties, etc, many of the stamps are damaged, as is often the case in old stocks like this. We recommend viewing, as we did not open all the envelopes to look inside. Our photos only show an overview, these original stocks are becoming quite scarce.

**920**    ©/\*/\*\* **#44/270 Collection of Mint and Used Newfoundland Blocks and Multiples**, all displayed on 57 quadrille pages, starting in the 1890s and well represented until the end, with some duplication as well as some varieties, such as "fish hook", "watermarked next to unwatermarked", many Scott 87 with "NFW" (counted) and "JAMRS" (not counted), several shades, etc. The great majority are presented in blocks of four, with several being larger, several with sheet margins, and near the end turns into mostly corner blocks. Includes some complete sets, as well as a basic set of postage dues as well. We counted 270 mint blocks (with a Scott value of just over \$17,200) plus another 162 used blocks. Catalogue value for the mint was for hinged or never hinged, with most blocks having two and two, and where it is not the case there is a small pencil note. Two early blocks (Scott 28 and 41) were not counted because of small toning spots, as well as 5 or 6 other blocks that had no gum (mostly Scott 82). Overall fine to very fine, and we note that the hinges used are of good quality, many times leaving only a little trace. Photos only show a portion of the collection.

The GB section starts with an in-depth collection of the 1965 Memorial Issue (Scott 661-662) with numerous varieties, a sheet, etc. followed by the Br. **TERMS & CONDITIONS OF SALE**  
(Updated January 12th, 2024)

1. The property described in the sale catalogue (print and online versions) will be offered at public auction by Sparks Auctions Inc. (hereinafter "Sparks Auctions") on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, by mail, email, fax, telephone, website, or any other means, the bidder acknowledges and agrees to all of these Terms and Conditions of Sale.

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "hammer price" means the last bid acknowledged by the auctioneer. The purchase price payable by the buyer will be the sum of the hammer price plus a commission equal to 17% of the hammer price ("buyer's premium"), together with any tax which may be applicable. See "About Bidding" for more information about how bidding is conducted in Sparks Auctions' sales.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, the auctioneer's decision shall be final. Sparks Auctions will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Opening bids will be available on Stamp Auction Network and will be updated by that system.

4. Unless a bidder has established payment terms with Sparks Auctions prior to the sale, Sparks Auctions must receive payment in full before the lots will be delivered. Buyers not known to Sparks Auctions must make payment in full within five days from the date of sale. Accounts more than thirty days in arrears will be subject to a late payment charge of 2% per month. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are conducted in Canadian Funds. Payment may be made by e-transfer, bank draft, bank wire transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, PayPal, cash or credit card. There is a 3.5% convenience fee to process credit card payments. Cash/Cheque payment in U.S. funds is acceptable at the same rate which Sparks Auctions can purchase Canadian Funds at our bank (3.5% percent above the midmarket rate). The amount owed in U.S. funds will be noted on invoices. Credit cards will be processed in Canadian Funds. Buyers from Canada will be charged the taxes applicable in their home province. Bidders resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. See "Shipping Information" for Sparks Auctions' shipping policies. Buyers outside Canada are responsible for all customs duties applied by their home country.

6. Until paid in full, all lots remain the property of Sparks Auctions on behalf of the seller.

7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. See "Shipping Information" below for Sparks Auctions' shipping policies.

8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com and StampAuctionNetwork.com) there is a possibility of technical or other error. In that event the auctioneer's decision will be final. If discovered before the sale, corrections will be posted on www.sparks-auctions.com These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See "Valuation of Lots" for an overview of Sparks Auctions' use of catalogue values and estimates.

9. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason:

- a. Lots containing ten or more items;
- b. Any lot described with "faults" or "defects" may not be returned because of any fault or defect;
- c. Lots illustrated in our printed catalogue or online may not be returned because of centering, margins or other factors shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding.
- d. Any lot that was viewed in advance of the auction by the buyer or his agent.
- e. Any lot sent for expertization by Sparks that receives numerical grading unless the graded certificate describes faults not already described by us;
- g. It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and back flap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

10. All lots are sold as genuine, unless otherwise noted. If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted if the following conditions are met:

- a. Notice of this intent is given prior to finalizing the purchase.
- b. All lots to be sent out on extension must be paid in advance, including the expertizing fee(s), and shall be submitted by Sparks, directly. Sparks will use one of the following expertizing services:
  - i. Vincent Graves Greene Foundation (Canada and BNA); or
  - ii. BPA or RPSL (British Commonwealth); or
  - iii. Philatelic Foundation or PSE (USA and territories, see Section 9f above); or
  - iv. Another authority mutually agreeable to both parties.
- c. Extensions are granted for the reasonable period of time required by the expertizing authority;
- d. If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full refund of the purchase price including the expertization fee;
- f. If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.

11. Lots which include the notation 'Rsv.' are offered subject to a minimum bid ("reserve"), agreed to between the consignor and Sparks Auctions, below which the lot will not be sold in the auction. Any lot which does not meet the reserve will be stated to have been "passed" during auction proceedings.

12. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

#### Shipping Information

Please note that items will be shipped by the least expensive method below unless other arrangements are made between the buyer and Sparks Auctions in advance of shipping. Insurance on shipped items is the responsibility of the buyer entirely.

All shipping methods are subject to the current regulations and protocols of the shipping provider, which can change from time-to-time in response to various conditions outside the control of Sparks Auctions. To maximize shipping efficiency and minimize cost to the buyer, some lots may be shipped without multi-ring binders or other bulky housing mentioned in a lot description, or by combining the contents of multiple housings into fewer of them.

Within the National Capital Region:

- a) Normally, it is expected that local residents will arrange for pick-up from our office, by appointment only.
- b) Shipping can be arranged using the "Within Canada" methods described below, or by other means if specific arrangements are made between the buyer and Sparks Auctions.

Within Canada:

- a) Single or multiple lots that fit into one or more regular Canada Post Xpresspost labeled envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- b) Cartons and larger lots will normally be shipped by parcel post or FedEx with signature required. If bulky lots have a value in excess of \$1,000 they will be shipped by Xpresspost with signature required. This category of lots will usually be charged an additional handling or packaging fee.

To the USA:

- a) Single or multiple lots will be sent by Canada Post with signature required and no extra handling, packaging, or insurance fees.
- b) Cartons and larger lots will be shipped by Canada Post parcel post or FedEx Ground with signature required. This category of lots will usually be charged an additional handling or packaging fee.

Overseas:

- a) Single or multiple lots will be sent by Registered or Xpress Mail with signature required and no extra handling, packaging or insurance fees.
- b) Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by FedEx.

## About Bidding

Bidding in a Sparks Auction takes place in accordance with our Terms and Conditions and can happen in several ways:

### 1. Advance Bidding

We accept bids in time-honoured traditions before the auction starts:

- by printed bidsheet (included with the print catalogue and also available for download from our site). If you use mail to send us a bidsheet, please call at least the day before the sale begins to confirm that we have received it.
- you can fax a printed bidsheet (included with the print catalogue and also available for download from our site) to 613-567-2972.
- you can call our office at 613-567-3336 or use our North American toll-free number: 844-252-2032.
- you can email bids to [info@sparks-auctions.com](mailto:info@sparks-auctions.com). Simply provide the lot number and your maximum bid in Canadian dollars.

Please use the following bidding increments:

\$10 - \$200	\$10	\$7000 - \$15,000	\$500
\$200 - \$800	\$25	\$15,000 - \$30,000	\$1,000
\$800 - \$1500	\$50	\$30,000 - \$100,000	\$2,000

\$3000 - \$7000	\$200	above \$500,000	\$10,000

All bids not conforming to these increments will be rounded down to the previous increment. If two identical bids are received for a particular lot, the bid received earliest will prevail, regardless of how the bid was received.

### 2. Telephone Bidding

We can arrange for participation via telephone. Phone bidding must be arranged at least one day in advance so we can assign someone to call you at the appropriate time. Often, phone bidding is best for more expensive items. If phone bidding is not convenient for you, we encourage bidders to engage an agent, or to bid live via Stamp Auction Network to be sure bids are executed in the way they would like. See below for more information about live bidding or contact us for more information at 613-567-3336.

Sparks Auctions reserves the right to refuse telephone bidding at any time. Sparks Auctions will not be held responsible in the event that a telephone bidder cannot be contacted or does not have reliable service.

## 3. Auction Agents

Having an agent act for you is another way to ensure your bidding intentions are well represented if you cannot participate in person or by bidding live via Stamp Auction Network. Auction agents can view material, when public viewing is an option. The following agents are knowledgeable, experienced auction buyers known to Sparks Auctions and familiar with our sales. Please contact one of them, or your own existing agent directly to make arrangements suitable to both parties. Sparks Auctions is not responsible for a bidder's relationship with any agent. Agents: please contact our office at least two days before the start of a sale to make arrangements for your clients to be billed and to have their winnings shipped.

## Valuation of Lots

Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2023/2024 Scott Catalogue Volumes 1A through 6B in US\$

2023/2024 Scott Classic and US Specialized in US\$

2023/2024 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$

2023/2024 Stanley Gibbons 1840-1970 (SG), values in £

2007 or later Michel catalogues of the World (Mi), values in €  
2022 The Canadian Revenue Stamp Catalogue by E.S.J. van Dam in CAN\$  
2022 American Air Mail Catalogue: The Air Mails of Canada and Newfoundland, 2nd Edition (AMCN2) in US\$  
Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as "Scott" interchangeably with the standard 6 volumes.

The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an "owner's catalogue value". Likewise, we will note "owner-identified" or "owner's count" or "owner's face value" when there are varieties or other notations included in the consignment, even if we have not verified them.

"Estimates" ("Est.") are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.

"Face Value" is used for entire lots when it best describes the value of the contents. From time to time, "face value" is used to identify the face value of a portion of a lot that also considers additional factors.
