Lots & Collections

Welcome to our General Sale #50, the second of three general public auctions scheduled for 2024. This sale offers our usual wide range of material, with quality Canada and provinces, British Commonwealth and worldwide singles, sets and collections. These include part three of the W.J. McGill collection of Scandinavia, a solid offering of Canadian Federal and Provincial Revenues, several remarkable Wildlife Habitat Conservation lots and much more. Also of note is the second part of the Andrew Ellwood precancel collection.

Be sure to have a close look at our over 120 lots of postal history and postcards, part four of the Gordon Richardson early Manitoba postal history collection, as well as a fine selection of useful postal history from Canada and worldwide countries including Scandinavia. Also of note in this sale is another great offering of philatelic literature.

We are proud to continue our long-standing tradition of showing online photos or scans of every single lot, so you know what you are buying, especially if you are not able to do pre-sale viewing in person. This sale is accompanied by thousands of high-quality pictures, far more than we can show in the print catalogue, which can all be seen in full colour on StampAuctionNetwork.com

As usual, this sale will be conducted live on StampAuctionNetwork.com, plus a live floor, via telephone and other traditional bidding methods. A reminder that our buyer's fee is still at 17%, and that all transactions are in Canadian dollars - a bonus for US customers and those using other currencies.

Enjoy the sale!

Federal Wildlife Conservation Stamps

- 212** ☉/** **Comprehensive and Valuable Federal Wildlife Conservation Stamp Collection from 1985 to 2009**, consisting of about two hundred items such as booklets (many signed by the artist), seldom offered sheets of 16 stamps (1986-1994, 1998-2000, 2004), First Day Covers, stamps on permit and some promotional material, all housed in 50 Vario-style stock pages. Appears complete in period, with some duplication up to 10 of each in some of the earlier issues from the 1980s, and then to a much lesser degree onwards. We counted \$9,969 in catalogue value, not including over 40 first day covers such as Rousseau, Gill Craft, Colorano and the colourful Milford cachets (retail around \$10 to \$20 each), as well as a few home made using postal stationery. This is definitely one of the most extensive collection we have handled. Overall very fine and ready for someone to fill in the few gaps that remain. This lot should appeal to collectors and dealers alike. Online photos show a sampling, therefore in-person viewing is recommended to better appreciate.

A good variety of issues with no obvious duplication. We noted a group of 5 seldom offered Saskatchewan Habitat Trust booklets 1988-1990 (SW1-3, c.v. \$1,000), 2 artist signed British Columbia fishing stamp booklets (BCF1A and BCF2A, c.v. \$110 for both) and also one artist signed British Columbia fishing stamp sheetlet of 4 (1991-92 issue), a scarce 1992 Nova Scotia first day cover signed by 3 artists (NSW1h, c.v. \$135), and the complete set of Prairie Provinces stamps (PC1-6, c.v. \$140), to mention a few. Almost complete in period (missing 1998 issues), with light duplication in some of the earlier issues, the owner was keen to collect most of the issued material resulting in a collection loaded with valuable and popular items throughout such as a group of 19 imperforate miniature sheets of 4 stamps (1988-1997, 1999, 2001-2002, 2004-2009), a seldom offered 1992 miniature sheet of 4 stamps with "Canada 92 +\$3.50" overprint (c.v. \$650 QW5t), as well as a 1988 miniature sheet of 4 stamps (QW1b, c.v. \$300) and more. The highlight of the collection is by far the scarce and popular 1992 miniature sheet of 4 stamps with "Canada 92 +\$3.50" overprint (c.v. \$650 QW5t) and the four fish and game stamps (QFG2, QFG3 x5, QGF4, c.v. \$750 for all seven) as well as the 1988 miniature sheet of 4 stamps (QW1b, c.v. \$300). Precancels and Perfins

x219

219 * Experimental Numeral Precancel Essays, c. 1928, six examples, hinged, with chiefly large part original gum, showing all recorded types, with Montréal (0700), Beamsville (2186), Toronto (4530) and Winnipeg (5850) on 3c carmine Admirals, further Beamsville and Winnipeg examples on 2c Arch/Leaf issues, typical centering, chiefly fresh and bright colour, a scarce group, with accompanying Kasimir Bileski note.

Winthrop Boggs in his seminal *The Postage Stamps and Postal History of Canada* references these essays, observations on which were further expanded upon in *The Canada Precancel Handbook*, which quotes H.G. Walburn as noting that "there are six of these Essays" and identifying them as originating from Beamsville (2), Montréal (1), Toronto (1) and Winnipeg (2). Walburn further noted that "from the evidence, there are trial printings of four sheets of the 3c carmine Admiral issue and two sheets of the 2c Maple Leaf." Kasimir Bileski, on his note which accompanies this lot, remarks "these experimental precancels are of extreme rarity as only one sheet of each existed in the first place" and affirms them as "genuine in all respects."

..... Estimate \$500

220 (*) Group of Four Admiral "Military Precancel Essays", all four are 2c carmine issues, each with a different overprint. We believe these to be the same four items (based on the precise positioning of each overprint) illustrated in an article published in the *Canada Precancel Handbook* (Walburn et al. Unitrade Press, 1988, pp. 161-162) where it is proposed by Ed Richardson that these may have been prepared by the Department of National Defense in 1917 for use on overseas Soldiers' correspondence, but never put into use. According to this article, these once were accompanied by a note reading "owned by Lloyd Scovill, Toronto / April 1917". A most interesting group, believed unique, and a must have for the serious Admiral or Precancel collector. Ex Andrew Elwood collection.

..... Estimate \$250

221 ☉/ ** **Page of Precancel Printing Varieties**, with 41 items (pairs and a block of 8 were counted as one) from the Jubilee issue to the Medallion issue, showing a good variety of types of varieties, including to the bars and to the city names, and includes a number of "nailhead" printing varieties as well. Overall fine or better and a useful page for the precancel collector. Ex Andrew Elwood collection.

..... Estimate \$200

222 ☉/ ** **Valuable Collection of Precancel Multiples, Varieties and Interesting Material**, all put aside by an avid collector / dealer over a long period of time, mostly for attributes making these items different. Displayed on pages and stock pages in a binder, the lot contains material from the Small Queens to the Centennials, including many mint blocks of four (many are never hinged or have never hinged stamps), many precancel varieties, including double, inverted, mis-printed, diagonal, nailheads, varieties se-tenant with regular (including a block from Bridgeburg), fakes and unlisted items, several cutting arrow corner blocks of four and other multiples, plate blocks (incl. cracked plate, etc.), QV and KEVII wavy line multiples, lots of Admiral content, paste-up coil strips, some stock and a collection of printing varieties described on pages. All in all a scarce offering, ideal for both dealers and collectors alike, see our photos online for a good sampling (not all pages scanned). Ex Andrew Elwood collection.

..... Estimate \$1,500

223 ☉/ ** **Extensive Collection / Stock of Precancel "Nailhead" Varieties**, from the Small Queens to mostly the Medallion issues, all sorted by style and then town in 23 black stock sheets, noting all sorts of "nailhead" varieties and their placement within the precancel impression. We counted 57 Small Queens, plus another 850 items, including singles, pairs, blocks of four and larger, with some mint never hinged here and there. A collection like this can encourage one to realize that many of these "nails" were constant varieties. "Nailhead" is the term used to describe an impression made by a precancel when the screw, or nail holding the plate in position became loose. The collection includes Wayne Munson's work on this variety, including an introduction, then a legend of the type nomenclature, followed by a listing of the known impressions at the time (1991). The collection is already valuable for its precancels alone, and even more so with its added varieties, which must have taken a lifetime to assemble. A very rare offering and a great addition to any serious precancel collection. See online pictures for an idea of the contents. Ex Andrew Elwood collection.

There is a tiny and negligible spot at top of stamp and crease in lathework, still very fine and quite rare. Ex Andrew Ellwood collection.

We note a good variety of precancel types (incl. double, inverted, etc.) as well as perfin companies (incl. sideways, reversed, etc.). The collection appears to contain mostly different items, but we did see some duplication. A very rarely offered collection, and should be good value here as we have seen several items cataloguing over \$100 in the Precancel Catalogue. A wonderful opportunity for the precancel as well as private perfin collector. Ex Andrew Elwood collection.

We noted several printing errors (missing or severed letters, etc.) and other varieties such as double, inverted, etc., as well as some perfin precancels (over \$100 catalogue value), at least one mis-perforated stamp and more. Overall fine or better and a great collection to build on. Ex Andrew Elwood collection.

Each item is accompanied by a small tag with precancel number and asking price, often also a catalogue value. We noted a good variety of material, with very little (usually up to only two) duplication, with prices ranging from under \$1 to over \$50. The lot contains singles, pairs, blocks of four or larger, plate blocks and a few matched sets of plate blocks. There are several thousand dollars worth of material here, all neatly presented in clean stockbooks, ready to sell. Parts of the sheet are hinge reinforced, and so the sheet has 20 stamps that are hinged because of this, all being in the top and bottom rows, as well as the 4 center stamps, and the remaining 80 stamps are never hinged. The sheet has light gum residue on front, confined entirely in the top and bottom margins, and not affecting any of the stamps. The stamps are overall well centered and we assume there are probably not many of these sheets left intact, in fact the Walsh / Goldberg article referred to above mentions that the authors did a "sheet search" which only revealed one full sheet (of the orange shade) sold in the UK in 2016. Catalogue value does not include premiums for both plate inscriptions. A rare opportunity for any sheet or Newfoundland collectors.

Also included is a group of identified varieties (by owner), mostly on used stamps, all housed in a file folder or a few hundred 102 cards. Worthy of mention is mint never hinged block of #455xx (c.v. \$180). Clean and useful lot, that comes with two reference books. Unchecked for tagging, papers, and other varieties. Duplication generally 2 to 3 per issue, and up to 8 or more for a few issues. A nice lot for sheet and Elizabethan collectors. 521 ☉/*/ Collection of Mint Postage Dues, from 1906 to 1978,** consisting of singles, blocks and plate blocks of 4 or 10 displayed in 3 stockbooks. Mostly complete in period, with very light duplication. With the exception of the 3 blocks of 4 from the first issue (two top stamps are hinged), the remainder of the collection appears mint never hinged. 524 ☉/* Specialized Perforation Collection of the 1923 Pictorial and 1928-31 Publicity Issues, all mounted on 27 specialized Lighthouse pages, showing a wide variety of perforations for the 1923 Pictorial (6 pages, 9 perforation combinations / varieties), 1928 Publicity (12 pages, 21 perforation combinations / varieties), 1929 Publicity unwatermarked, re-engraved (6 pages, 12 perforation combinations / varieties) and 1931 Publicity watermarked, re-engraved (2 pages, 6 perforation combinations / varieties). The collection consists of mainly mint stamps, but there are used here and there (in some cases both), and the perforations were unchecked by us. Catalogue value is for all the least expensive perforations (per Scott), and although there are a few NH here and there, we have catalogued all as hinged, so a conservative approach throughout. All pages scanned online.

595 ☉*/ Valuable Dealer Stock of Mint and Used British Commonwealth Countries in 7 Volumes**, with most Br. Comm. countries represented, ranging from their earliest days, some up to the 1980s. The stock, which has very little duplication, includes singles, sets, souvenir sheets and multiples, in a fairly equal mix of used, mint hinged and mint never hinged. Each item (single or set, etc.) is neatly identified by a tag denoting Scott (and sometimes also S.G.) catalogue value and asking price. These prices range from 10c to as high as several hundred dollars, and the owner has totaled-up some of the countries with values ranging from \$1,000 to over \$10,000 each for some of the countries. This is a very meticulously assembled stock, with focus given to varieties, unlisted items, revenue cancels properly identified and priced, etc., and the catalogue values given are fairly recent and up to date. This lot is sure to impress any dealer, in its cleanliness, presentation and with the better than usual quality of the stamps. There are way too many notable items to list here, so a careful viewing is highly recommended to better appreciate the value involved, despite our numerous online pictures.

The lot also includes 13 large sized envelopes containing British Commonwealth country collections that the owner did not put into albums, having the same level of completeness and catalogue values as mentioned above. Fresh colours throughout, which collectors and dealers will appreciate, with a spot check noting a mix of hinged and never hinged material. ☉/** Extensive and Valuable Mint and Used France Collection, 1849 to 2010, all neatly displayed in eleven 32-page stockbooks. The collection starts with 61 used Cérés and Napoléon imperforate and perforated issues, followed by a fairly comprehensive collection to the end, mostly used at the beginning, turning into mint and used (sometimes both are present) from about 1935, then becoming at least mint never hinged from about 2002 to the end, as the collector subscribed to a new issue service. In many cases the owner shows a NH souvenir sheet, with used singles alongside, otherwise there is little to no duplication. The collection is missing the early souvenir sheets (Pexip 1937 is present as a NH block of four only) but extensive in the modern era, also note some stationery items and other ephemera. Semi-postal issues are quite strong and valuable as well (1914 to 2009, used and mint hinged to 1930, then mostly NH to the end, incl. Red Cross booklets, with a Scott value of \$2,596 to 1940 only) and occupy two of the stockbooks. One of the stockbooks contains what appears to be complete NH Council of Europe and UNESCO issues to 2008, followed by mint and used airmails to 2008 (70 different stamps), dues, precancels and other various back of the book. We counted the face value regular and Semi-Postal issues Euro denominations only, which came to an impressive €2,190, including 901x 20g (permanent value) stamps. Great Britain – Isle of Man

- 646 ☉/**/ Mint and Used Collection of Isle of Man, with 1973 to 1983 in Lindner hingeless pages, 2004 to 2008 in a thick stockbook. Iran

- 658** ☉//** Extensive and Valuable Lifetime Collection of Persia (Iran) in Four Stockbooks, to About 1960, meticulously collected by the owner who was a consul in Iran at the time, and who collaborated on an early (ca. 1960) Iran Specialized catalogue with Robert Denzin (included in the lot). The collection was put aside in 1961 and not touched until now. Most of the stamps issued up to the early 1950s are represented in one to dozens of examples, displayed with used at first, followed by mint (most often never hinged), with many stamps identified by Scott numbers. In the used section, we noted many better items (not counting any of the numerous stamps before 1925 with overprints), including #s 46 (x3, \$30 ea.), 49 (x4, \$100 ea.), 50 (x3, \$60 ea.), 51 (x6, \$60 ea.), 52 (x6, \$40 ea.), 55 (x3, \$80 ea.), 56 (\$70), 88 (x2, \$25 ea.), 89 (x4, \$30 ea.), 119 (x2, \$25 ea.), 488 (x11, \$35 ea.), 493 (x3, \$125 ea.), 494 (x20, \$50 ea.), 495 (x2, \$100 ea.), 498 (x23, \$100 ea.), 499 (x22, \$100 ea.), 560-577 (in various quantities, total \$865), 677 (x12, \$35 ea.), 678 (x12, \$35 ea.), 679 (x13, \$40 ea.), 680 (x17, \$45 ea.), 734 (x2, \$75 ea.), 758 (x8, \$30 ea.), 759 (x10, \$60 ea.), 766 (x14, \$40 ea.), 785 (x2, \$55 ea.), 815 (x2, \$75 ea.), 816 (x4, \$40 ea.), 817 (x3, \$50 ea.), C1/C13 (28 various stamps, \$217 total), C17-21 (3 complete sets plus various others, \$790 total), C29-C33 (37 various stamps, \$750 total), C48-50 (\$170 total), C62 (\$100), and many more. The mint section includes better items such as #s 27-30 (\$310 total), 437 (\$35), 442 (\$50), 445 (x2, \$200 each), 439-445 (set, #1,198), 733 (\$60), 755 (\$150), 758 (\$200), 759 (\$175), 766 (x4, \$37 ea.), 768 (x4, \$50 ea.), 769 (\$85), 770 (x3, \$90 ea.), 786-94 (x7 complete sets, \$118 ea.), 803 (x2, \$45 ea.), 804 (\$150), 807 (x2, \$50 ea.), 808 (x2, \$100 ea.), 809 (\$350), 813 (\$140), 814 (x3, \$85 ea.), 818 (\$400), 819 (\$150), 820 (x2, \$100 ea.), 821 (\$200), 822 (\$200), 870A-870H (set of 8 imperforate sheets and set of 8 perforated sheets, \$846 in footnote), C12 (x6, \$45 ea.), C13 (x2, \$45 ea.), C17 (x2, \$125 ea.), C51-67 (complete set, \$585), etc. There is much more value in this collection, especially if counting all of the possible reprints, or overprinted material, some of which has a good chance of being genuine, as the owner bought a lot of this material directly from the post office. Aside from the mint and used regular issues, the collection contains Airmails, Revenues, Officials, a page of overprint varieties, mint and used blocks of four, cinderellas, perforation varieties, parcel post stamps, newspaper stamps and a number of items that were not listed when the owner did his inventory in 1958. A wonderful and rare opportunity to acquire a true old-time collection. See our many online photos for a sampling, better yet try to view it in person to better appreciate its value.

720 ◎/* **Worldwide Collection in 38 Scott International Albums, Classics to 1990s**, mostly used. Some highlights include, U.S.A. Scott # 239 (used, \$90), Australia 144 (mint, \$52), Great Britain 86 (used, \$92), 98 (used, \$185), 99 (used, \$52), 100 (used, \$92), 102 (used, \$115), 120 (used, \$56), 136 (used, \$75), 139 (used, \$150), 140 (used, \$220), 180 (used, \$145), Hong Kong 178-79 (mint, \$225), Iceland 17 (used, \$50), Monaco 6 (used, \$75) and Norway 17b (used, \$75). We also noted many singles and sets in the \$10 to \$35 of catalogue value. This very large collection is fuller through the early period for most countries with the pages sometimes out of order. This is not a comprehensive collection in terms of having pages for all the countries in period, while a number of countries have duplicated pages, with these often rather full of potential shades and other varieties for study, etc. The majority of the pages have the owner's pencilled-in catalogue values with totals at the bottom of the pages, with many of the pages totaling between \$20 and \$80. The albums show some wear, however the collection within is clean. The condition of the stamps is a little mixed among the classics, otherwise the group is overall fine to very fine. Our photos provide a mere glimpse at the contents, best seen in person to appreciate.
..... **Estimate \$2,500**

721 ◎/*/** **Worldwide Mint and Used Collection in 19 Supreme/Master Global Albums**, from classics to the 2000s with tens of thousands of stamps. This large collection is about an even mix of mint and used with some countries more complete than others. There is a little overlap early on in the alphabet where an extra album was later added. Included is a fair China collection with a good start on the PRC section. Our photos provide just a glimpse. Overall fine to very fine.
..... **Estimate \$1,500**

722 ◎/*/** **Worldwide Mint and Used Collection in 30 Scott International Albums, Classics to the 1990s**. This large collection is comprised of used stamps in the earlier period and mint in the modern period. We noted that the collection does not have complete pages for all of the countries in period, with the pages often out of order. There is some overlap as well with accompanying light duplication. There are decent collections for a number of the countries which we come to expect, such as U.S.A., Belgium, Russia, etc. There are also decent collections among some of the less-likely countries, such as, Albania, Brazil, China, Guinea, Mexico and Turkey. A few of the pages have the owner's pencilled-in catalogue values with totals at the bottoms of the pages, with some of the pages not shown among the images having totals between \$20 and \$80. The albums show some wear and tear, except where there is slight moisture damage to a couple of the albums, otherwise the collection within is generally clean. Many of the stamps in black mounts are loose or have detached. A fabulous project for the intrepid worldwide collector. Overall fine or better.
..... **Estimate \$1,000**

Foreign – Topical Collections

723 ◎/*/** **Topical Collections of Sports and Art**, with Sports neatly displayed and written-up on about 180 White Ace pages in two binders, with a wide variety of sports and countries. The owner counted 1,456 stamps, which are mostly in the form of mint and used sets. The Arts collection is in three thick binders, two of them contains about 240 well written-up quadrille pages, representing many various Art themes through the stamps of 26 different countries. The third binder contains hundreds more Art stamps (mostly paintings) from 37 countries, in 48 black stock pages. We note singles, sets, souvenir sheets and the quality is very nice throughout. See online pictures for a small sampling of what can be found in this extensive collection.
..... **Estimate \$250**

724 */** **Comprehensive American Christmas and Easter Seal Collection and Stock, from 1908 to 2004**, consisting of tens of thousand seals in singles, blocks, and plenty of sheets, housed in 8 volumes, 3 sheet files and a small box. The lot starts off with a specialized collection, from 1908 to 1984, neatly displayed in mounts on album pages and Vario style stock sheets, housed in a White Ace album. We noted plenty of early issues, blocks of imperforates, milk caps and milk bottle collars. The remainder of the inventory is made of a several hundred full sheets of Christmas and Easter seals from 1917 to early 2000s mostly sorted chronologically, as well as some Boys Town and National Wildlife Federation stamps. Duplication up to 8 of each for some issues, and appears quite complete for the period. Online photos show a sampling therefore in-person viewing is recommended to better appreciate the scope of content. More Christmas and Easter seals are listed in the Canada Cinderella section of the catalogue.
..... **Estimate \$300**

725 ◎/*/** **Topical Accumulation in Two Stockbooks, 1930s to 1990s**, with popular topics such as animals, mammals, marine life, arctic and antarctic, Europa, EXPOs, flags, maps and U.P.U. Our online photos provide a good overview. Overall fine to very fine.

Stamps are from variety of Commonwealth countries dating mostly from the 1980s. All appear to be never hinged and duplicates consisting of about 90 stamps are housed separately in a small stockbook. Kennedy Collection in 6 volumes**, consisting of over one thousand mint never hinged stamps, neatly displayed in about 375 White Ace specialized album pages, with matching binders and slipcases. ..... **Estimate \$250**

- 731** */** **Olympics Comprehensive and Valuable Summer and Winter Olympics Mint Topical Collection, from 1896 to 2019**, virtually all mint never hinged, and from A to Z countries, all neatly displayed chronologically and then alphabetically in black mounts, on specialized pages, in 31 thick albums (average of 5-6 inch thick). We noted complete sets, souvenir sheets, imperforates, large die proofs, plate proofs, booklets, surcharges, overprints, extensive gold and silver foil items and more. The first three sets were catalogued as hinged, since a cursory check revealed some very lightly hinged stamps, never the less, all appear mint never hinged onwards. We noted many valuable and popular sets such as Greece #117-128 (c. v. \$1,784), 159-163 (\$485), 184-197 (\$517), France 198-201 (2 sets, \$125 each, one being displayed with gold foil issues), Y&T 960-965 (€450 die proof set of 6), also a rare compound die proof of three of six stamps, Y&T 1088 (€450 for both imperf and die poof), Y&T 1265 (€305 for both imperf and die proof), Y&T 1543-1547 (€610 for both imperf and die proof set of 5), Germany B91-92 (\$200), Korea 616-623 with imperf souvenir sheets (\$162), Lebanon 18-21 (\$100), 45-48 (\$130), Syria 133-136 (\$120), 166-169 (\$116), Yugoslavia 359-364 imperforate (\$800), Trieste 51-56 imperforate (\$950), just to mention a few, as it is impossible to list them all. We counted about 900 items in one binder of average thickness, and therefore can estimate there is more than 26,000 items housed in this collection. We noted two of the binders are devoted to Trucial states issues only, while 3 binders contain bronze, silver and gold foil often displayed with the issued stamps. Also included are over 100 gold and silver foil souvenir sheets housed in one envelope not yet in mounts, as well as some Olympic related paraphernalia and an exhaustive owner's inventory with Michel and Scott catalogue numbers for each item. High level of completeness and no apparent duplication throughout. This is by far the most extensive Olympic collection we have handled. Overall very fine and quite fresh. Our many photos only provide an overview, viewing is strongly recommended to appreciate the care, dedication, and resources invested in this collection which is easily worth our low estimate (owner's older catalogue value is over \$330,000).

og  **original gum**

 **used** includes full range of postally used, cancelled-to-order, precancels.

XF extremely fine applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.

VF very fine a stamp in superior condition which is well-centered and without fault.

F-VF fine-very fine applied to stamps that are somewhat less well-centered than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.

F fine stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Many better classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.

VG very good equivalent to “average”. Typically with poor centering, heavy cancellation or faults such as minor thins, light creases, etc.

 **cover** which here embraces stampless folded letters (SFL), envelopes, first day covers (FDC's), stationery envelopes, etc.

PC post card applies to picture postcards, postal cards, stationery cards, etc.

E/P essay, proof, die proof

F forgery

UL upper left usually used to describe the corner of a sheet, block or individual stamp. The abbreviations UR, LR and LL are used similarly.

c.d.s. circular date stamp postmark

l.h. lightly hinged

v.l.h. very lightly hinged

h.r. hinge remnant

perf. perforation used in the context of “short perfs” or a perforation measurement, such as “perf. 12.0 x 11.5”

Valuation of Lots

Catalogue values are listed for many lots in the sales. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot's description. Thus a “fine” collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2023/2024 Scott Catalogue Volumes 1A through 6B in US\$

2023/2024 Scott Classic and US Specialized in US\$

2023/2024 Unitrade Specialized Catalogue of Canadian Stamps in CAN\$

2023/2024 Stanley Gibbons 1840-1970 (SG), values in £

2007 or later Michel catalogues of the World (Mi), values in €

2022 The Canadian Revenue Stamp Catalogue by E.S.J. van Dam in CAN\$

2022 American Air Mail Catalogue: The Air Mails of Canada and Newfoundland, 2nd Edition (AMCN2) in US\$

Other specialized catalogues as noted in descriptions.

The U.S. Specialized and the Scott Classic are referred to as “Scott” interchangeably with the standard 6 volumes.

The term “owner's catalogue value” indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an “owner's catalogue value”. Likewise, we will note “owner-identified” or “owner's count” or “owner's face value” when there are varieties or other notations included in the consignment, even if we have not verified them.

“Estimates” (“Est.”) are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.

“Face Value” is used for entire lots when it best describes the value of the contents. From time to time, “face value” is used to identify the face value of a portion of a lot that also considers additional factors.
