Lots & Collections

Welcome to the Sparks Auctions Spring 2025 Sale

We are pleased to present our Spring 2025 auction, featuring our signature offering of stamps and postal history from Canada and around the world.

Our Canadian section includes a strong showing of proofs, among them the ever-popular “Dickens Head” and “Vikings Head” designs, alongside an extensive range of very fine singles and multiples from the reign of Queen Victoria through to modern errors and varieties. Small Queen specialists will find much to explore, with both individual items and collections including postmark studies and lifetime accumulations. The Admiral issue is particularly well-represented, with a notable selection of extremely fine examples, many accompanied by graded certificates—seldom encountered in this quality on today’s market.

We are especially pleased to introduce the first offering from the extraordinary “Simone Collection” of Canadian Revenues, one of the most comprehensive and refined holdings in existence, assembled over decades with a focus on both rarity and quality.

We also continue to present material from the collection of the late Dr. Earle Covert, including additional Canadian tobacco tax stamps and an exceptional research group of Victorian postal stationery.

Our British Commonwealth and worldwide sections feature many attractive sets and singles, including the iconic 1933 Falkland Islands Centenary, high-quality Great Britain with a superb example of the elusive 1935 Silver Jubilee Prussian Blue error of colour, and scarce varieties and re-entries from the acclaimed collection of noted expert Ralph Trimble, from whose collection we also offer many specialised lots and collections.

Postal history collectors will discover another fine selection of classic India, as well as early aviation and balloon mail, including covers signed by famed aviators such as Amelia Earhart, alongside military and disaster mail, Zeppelin items, and more.

The Lots and Collections section is rich with seldom-seen classic-era material, including noteworthy holdings from Belgium, the Italian States, Spain, and Switzerland—much of it drawn from a single, dedicated collector’s lifelong accumulation. For those who cannot view the sale in person, many of our larger lots are supported not only by extensive online photos but also by video walkthroughs offering complete views of their contents. As always, for full details on our approach to the conduct of the sale, we encourage all bidders to carefully review our Terms and Conditions before each auction.

We are now accepting consignments for our upcoming sales, including our traditional Autumn auction and the second of our dedicated Postal History sales. We welcome the opportunity to help you realise the full value of your philatelic collections, whether through consignment or direct sale.

Thank you for your interest in the auction, and best of luck with your bidding!

King George V Era Admiral Issues Scott #104-140

121 E/P #104var Admiral Issue Experimental Essays, 1c green and 1c red singles, perforated 11.9, lithographed, with portrait of Postmaster General Pelletier, adapted from the Admiral issue, with design changes including the Maple Leaf being substituted for Crowns at the upper corners, and POSTAGE substituted for CANADA POSTAGE, believed to have been supplied by Stanley Deville of the Post Office Department in Ottawa to Montreal stamp dealer Allan Brophy, originating from two blocks of six that were offered in the famed Nickle sale (Firby Auctions, January 1996, lot 83), there described as unique, quite striking, and an important piece of Canadian philatelic history.

In the 1996 Firby sale, the blocks were accompanied by a letter from Mr. Deville to Brophy, noting "Here are the experimental stamps I spoke to you about. The transfer stamps bear the portrait of Hon. L.P. Pelletier, then Postmaster General, and are an adaptation of the 1910 design. The idea was that the stamp could not drop off if put on by means of a transfer. It was turned down as impractical."

The “Simone” collection was assembled with extraordinary care over several decades, with a strong emphasis on acquiring Canadian Revenue material of both exceptional rarity and superior condition. Leading Canadian Revenue authority Erling van Dam has described it as “one of the most comprehensive Canadian Revenue stamp collections in existence... it is loaded with rarities.”

Sparks Auctions is honoured to have been entrusted with the sale of this outstanding collection, which will be offered over a series of auctions. The current sale highlights Consular Fee and Visa stamps, Excise issues, a scarce America Embossed stamp, a remarkable and historically significant Chinese Immigration Head Tax certificate, and an impressive range of Telegraph and Telephone franks, including notable rarities of superior quality. Future offerings will present further selections of Federal and Provincial Revenues, including full documents, in dedicated sections of our upcoming sales. We are delighted to offer collectors this exceptional opportunity to enhance their collections with elusive revenues rarely encountered on the philatelic market.

348 ◉ #FHT1 1913 (July 16), \$500 black and green Chinese Immigration Act tax certificate, commonly known as a “Chinese Head Tax” certificate, number 77212 issued at Vancouver, bearing the embossed seal of the Immigration Office and an oval purple handstamp reading “Dominion Immigration Agent / July 16, 1913 / Vancouver P O”, with manuscript signature of the Controller of Chinese Immigration, all tying an affixed portrait of the applicant secured with a metal grommet, a powerful artifact of Canada’s exclusionary immigration policies toward Chinese nationals in the early 20th century; as these documents were required to be presented upon demand, the certificate exhibits expected multiple folds and some edge wear, still remarkably well-preserved and exceptionally rare. Under the Chinese Immigration Act of 1885 and its subsequent amendments, Chinese immigrants were required to pay an increasingly punitive entry tax, reaching \$500 by 1903, a sum equivalent to more than two years’ wages for a labourer, in an attempt to restrict Chinese settlement in Canada.

TERMS & CONDITIONS OF SALE
(Updated May 15th, 2025)

1. The property described in the sale catalogue (print and online versions) will be offered at public auction by Sparks Auctions Inc. (hereinafter “Sparks Auctions”) on behalf of various consignors. By bidding on any lot, whether in person, or through an agent, via Stamp Auction Network, via Philasearch, by mail, email, fax, telephone, website, or any other means, **the bidder acknowledges and agrees to all of these Terms and Conditions of Sale.**

2. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “hammer price” means the last bid acknowledged by the auctioneer. **The purchase price payable by the buyer will be the sum of the hammer price plus a commission equal to 18% of the hammer price** (“buyer’s premium”), together with any tax which may be applicable. See [About Bidding](#) for more information about how bidding is conducted in Sparks Auctions’ sales.

3. All bids are per lot as numbered in the catalogue. The auctioneer shall regulate the bidding and reserves the right to reject any bid believed by him not to be made in good faith; to withdraw any lot prior to sale; to divide a lot; or to group two or more lots and to act on behalf of the vendor. In the event of any dispute, **the auctioneer’s decision shall be final.** Sparks Auctions reserves the right to prohibit any bidder from participation in its sales for any reason, at its sole discretion. Sparks Auctions will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Unless a bidder has established payment terms with Sparks Auctions prior to each sale, Sparks Auctions must receive payment in full before the lots will be delivered. Buyers not known to Sparks Auctions must make payment in full within five days from the date of invoicing, after which time Sparks Auctions reserves the right to cancel any sale for which payment has not been received. All expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$100.00 will be charged for any cheque returned for insufficient funds.

5. All sales are conducted in [Canadian Funds](#). Payment may be made by e-transfer, bank draft, bank wire transfer, cheque drawn on a Canadian or U.S. bank, Canadian or International postal money order, cash or credit card. **There is a 3.5% fee to process credit card or PayPal payments.** Buyers wishing to pay in US dollars may do so, and the amount owing in U.S. funds will be noted on invoices. Credit cards will be processed in Canadian Funds. Buyers from Canada will be charged the taxes applicable in their home province. Buyers resident outside Canada are not liable for Canadian taxes if purchases are delivered outside of Canada. Buyers outside Canada are responsible for all customs duties, import fees, sales taxes or any other charges assessed by their home country or intermediaries.

6. Until paid for in full, all lots remain the property of Sparks Auctions on behalf of the seller.

7. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs and carry appropriate insurance. See [Shipping Information](#) below for Sparks Auctions’ shipping policies.

8. Because the auction catalogue is available in multiple formats (print, online at sparks-auctions.com, at StampAuctionNetwork.com and Philasearch.com) there is a possibility of technical or other error. In that event **the auctioneer’s decision will be final.** If discovered before the sale, corrections will be posted on www.sparks-auctions.com These are only provided as a service to bidders and Sparks Auctions does not guarantee their completeness or accuracy. See [Valuation of Lots](#) for an overview of Sparks Auctions’ use of catalogue values and estimates.

9. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned to us within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason:**

- a) Lots containing five or more items;
- b) Any lot described with “faults”, “flaws”, or “defects” may not be returned because of any fault, flaw or defect;
- c) Lots illustrated in our printed catalogue or online may be returned because of centring, margins or other factors

shown in the illustrations, including easily visible flaws. It is the bidder's responsibility to view lot images online before bidding;

d) Any lot that was viewed in advance of the auction by the buyer or his agent;

e) Any lot sent for expertization by Sparks that receives numerical grading unless the graded certificate describes faults not already described by us;

f) It is normal for postal history items to have small faults including but not limited to minor nicks, pencil notations on back, edge and back flap tears, and slight reductions consistent with commercial usage. Folded letters should be expected to have at least one file fold. While we strive to mention more significant flaws, condition issues such as the aforementioned are not grounds for return. Items being offered primarily on the basis of the postmark are not returnable on the basis of flaws to the underlying item.

10. All lots are sold as genuine, unless otherwise noted.

If a purchaser wishes to obtain an expert opinion on a lot, an extension for expertization may be granted provided that the following conditions are met:

a) Notice of this intent is given prior to finalizing the purchase;

b) All lots to be sent out on extension must be paid in advance, including the expertizing fee(s), and shall be submitted by Sparks, directly. Sparks will use one of the following expertizing services:

i) Vincent Graves Greene Foundation (Canada and BNA); or

ii) BPA or RPSL (British Commonwealth); or

iii) Philatelic Foundation or PSE (USA and territories); or

iv) Another authority mutually agreeable to both parties.

c) Extensions are granted for the reasonable period of time required by the expertizing authority;

d) If in the opinion of the authority the lot is not genuine or was grossly misdescribed, the purchaser shall receive a full reimbursement of the purchase price including the expertization fee;

e) If a purchased item has a recognized certificate dated within the last seven years, extensions will not usually be granted.

11. All lots are subject to a minimum bid (reserve), below which the lot will not be sold. Any lots which do not meet this minimum bid will be declared to have been "passed."

12. Sparks Auctions, its shareholders, directors, employees, and contractors reserve the right to bid on and purchase lots as principal.

13. Should any dispute arise over these Terms and Conditions, such dispute will be settled according to the laws and regulations of the Province of Ontario, Canada, with options for resolution being negotiation between the parties, followed by mediation, followed by action in the most appropriate legal venue in Ontario.

Shipping Information

Local residents may arrange for pick-up from our office by appointment only.

Items will be shipped using the most economical method, including tracking and/or signature upon delivery, unless alternate arrangements are made with Sparks Auctions before shipping. Buyers are solely responsible for insuring shipped items. Buyers outside Canada are responsible for all customs duties, import fees, sales taxes or any other charges assessed by their home country or any intermediaries.

Shipping methods are subject to the current regulations and protocols of the shipping provider, which may change over time due to external factors beyond Sparks Auctions' control. Single or multiple lots will be shipped with no additional handling, packaging, or insurance fees. However, cartons and larger lots may incur extra handling or packaging charges.

To improve shipping efficiency and reduce costs for buyers, some lots may be shipped without multi-ring binders or other bulky housing mentioned in their descriptions. In some cases, the contents of multiple housings may be consolidated into fewer containers.

Symbols and Abbreviations

- ** never hinged** with original gum (NH also used)
- * hinged** with original gum
- (*) unused without gum** either as issued, or having gum fully removed. This is normally further qualified in the description.
- og Original gum**
- ⊙ **used** includes full range of postally used, cancelled-to-order, precancels.
- XF extremely fine** applies to stamps with exceptional quality and margins well in excess of what would typically be found. This term is used rarely and is not used by us on items usually only found this way.
- VF very fine** a stamp in superior condition which is well-centred and without fault.
- F-VF fine-very fine** applied to stamps that are somewhat less well-centred than very fine, while taking into account what may be considered as typical margins of classic material. The term has also been applied to multiples with individual stamps with range of grade or for larger lots/collections.
- F fine** stamps having perforations that do not cut into the design and without damaging faults. Items described as such may have slight detracting features such as short perforation tips or natural inclusion. Much classic material naturally falls into this category and may be expected to command prices similar to those ascribed by catalogue values.
- VG very good** equivalent to “average”. Typically with poor centring, heavy cancellation or faults such as minor thins, light creases, etc.
- ✉ **cover** includes stampless folded letters (SFL), envelopes, first day covers (FDC’s), stationery envelopes, etc.
- PC post card** applies to picture postcards, postal cards, stationery cards, etc.
- E/P essay, proof, die proof**
- F forgery**
- UL upper left** usually used to describe the corner of a sheet, block or individual stamp. The abbreviations UR, LR and LL are used similarly.
- c.d.s. circular date stamp** postmark
- l.h. lightly hinged**
- v.l.h. very lightly hinged**
- h.r. hinge remnant**
- perf. perforation** used in the context of “short perfs” or a perforation measurement, such as “perf. 12.0 x 11.5”
- Est. estimate** are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.
- 📄 scan or photo can be found online
- or / used when describing a range of catalogue numbers, where “-” indicates the range is complete between two numbers, and “/” indicates missing one or more items.

📖 Literature

Valuation of Lots

Catalogue values are listed for many lots in the sale. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections, we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified in the lot’s description. Thus a “fine” collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints, etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp in a lot means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and often put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance from this list, it will be mentioned in the text of the description.

2024/25 Scott Catalogue Volumes 1A through 6B in US\$
2024 Scott Classic and US Specialized in US\$
2024 Unitrade Specialized Catalogue of Canadian Stamps in CAD\$
2024 Stanley Gibbons 1840-1970 (SG), values in £
2007 or later *Michel Catalogues of the World (Mi)*, values in €
2022 The Canadian Revenue Stamp Catalogue by E.S.J. van Dam in CAD\$
2022 American Air Mail Catalogue: The Air Mails of Canada and Newfoundland, 2nd Edition (AMCN2) in US\$
Other specialized catalogues as noted in descriptions.

The *U.S. Specialized* and the *Scott Classic* are referred to as “Scott” interchangeably with the standard 6 volumes.

The term “owner’s catalogue value” indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of an “owner’s catalogue value”. Likewise, we will note “owner-identified” or “owner’s count” or “owner’s face value” when there are varieties or other notations included in the consignment, even if we have not verified them.

“Estimates” (“Est.”) are used when there are multiple factors to consider, to identify what we believe the lot might sell for when there is reasonable competition for it.

“Face Value” is used for entire lots when it best describes the value of the contents. From time to time, “face value” is used to identify the face value of a portion of a lot that also considers additional factors.

Bidding in a Sparks Auction takes place in accordance with our Terms and Conditions and can happen in several ways:

1. Advance Bidding

We accept bids in time-honoured traditions before the auction starts:

- * via Philasearch or Stamp Auction Network online.
- * by printed bidsheet (included with the print catalogue and also [available for download from our site](#)). If you use mail to send us a bid sheet, please contact us at least the day before the sale begins to confirm that we have received it.
- * you can fax a printed bidsheet to 613-567-2972.
- * you can call our office at 613-567-3336.
- * you can email your bids to info@sparks-auctions.com. Simply provide the lot number and your maximum bid in Canadian dollars.

Please use the following **BIDDING INCREMENTS**

\$10 - \$200	\$10	\$7,000 - \$15,000	\$500
\$200 - \$800	\$25	\$15,000 - \$30,000	\$1,000
\$800 - \$1,500	\$50	\$30,000 - \$100,000	\$2,000
\$1,500 - \$3,000	\$100	\$100,000 - \$500,000	\$5,000
\$3,000 - \$7,000	\$200	above \$500,000	\$10,000

Bids not conforming to these increments will be rounded down to the previous increment. If two identical bids are received for a particular lot, the bid received earliest will prevail, regardless of how the bid was received.

2. Telephone Bidding

We can arrange for participation via telephone. Phone bidding must be arranged at least one day in advance so we can assign someone to call you at the appropriate time. Often, phone bidding is best for more expensive items. If phone bidding is not convenient for you, we encourage bidders to engage an agent, or to bid in advance or live via Philasearch or Stamp Auction Network to be sure bids are executed in the way they would like. See below for more information about live bidding or contact us for more information at 613-567-3336.

Sparks Auctions reserves the right to refuse telephone bidding at any time. Sparks Auctions will not be held responsible if a telephone bidder cannot be contacted or does not have reliable service.

3. Auction Agents

Having an agent act for you is another way to ensure your bidding intentions are well-represented if you cannot participate in person or by bidding in advance via Philasearch or in advance or live via Stamp Auction Network. Auction agents can view material, when public viewing is an option. The following agents are knowledgeable, experienced auction buyers known to Sparks Auctions and familiar with our sales. Please contact one of them, or your own existing agent directly to make arrangements suitable to both parties. Sparks Auctions is not responsible for a bidder's relationship with any agent. Agents: please contact our office **at least two days before the start of a sale** to make arrangements for your clients to be billed and to have their winnings shipped.

For the most realistic experience next to being on the auction floor, we invite you to participate via live Internet bidding, which allows bidders anywhere in the world to take part in the auction remotely. Sparks Auctions is pleased to make the auction available through either of two bidding platforms: Philasearch and Stamp Auction Network, independent providers of philatelic auction services for auction houses and bidders. We will do everything we can for our customers to make the process simple, trustworthy and fun.
